#### **Important Risk Information**

This material has been created for informational purposes only and does not constitute investment advice and it should not be relied on as such. It does not take into account any investor's particular investment objectives, strategies, tax status or investment horizon. There is no representation or warranty as to the current accuracy of, or liability for, decisions made based on this material. All material has been obtained from sources believed to be reliable, but its accuracy is not guaranteed.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns.

Because of their narrow focus, sector funds tend to be more volatile than funds that diversify across many sectors and companies.

Select Sector SPDR Funds bear a higher level of risk than more broadly diversified funds. All ETFs are subject to risk, including the possible loss of principal. Sector ETFs products are also subject to sector risk and non-diversification risk, which generally results in greater price fluctuations than the overall market.

Non-diversified funds that focus on a relatively small number of stocks or countries tend to be more volatile than diversified funds and the market as a whole.

Options investing entail a high degree of risk and may not be appropriate for all investors. GLD is not an investment company registered under the Investment Company Act of 1940 (the "1940 Act") and is not subject to regulation under the Commodity Exchange Act of 1936 (the "CEA"). As a result, shareholders of the Trust do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act or the protections afforded by the CEA.

**Investing in commodities entails significant risk and is not appropriate for all investors.**

#### **Important Information Relating to SPDR Gold Trust**

**The SPDR Gold Trust ("GLD®") has filed a registration statement (including a prospectus) with the Securities and Exchange Commission ("SEC") for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents GLD has filed with the SEC for more complete information about GLD and this offering. You may get these documents for free by visiting EDGAR on the SEC website at sec.gov or by visiting**

**spdrgoldshares.com. Alternatively, the Trust will arrange to send you the prospectus if you request it by calling 866.320.4053.**

GLD shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of GLD shares relates directly to the value of the gold held by GLD (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them. GLD does not generate any income, and as GLD regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time. Investing involves risk, and you could lose money on an investment in GLD.

**Please see the GLD prospectus for a detailed discussion of the risks of investing in GLD shares. The GLD prospectus is available here**
