Press Release

MIT SECURES NEW ORDERS WORTH \$18M FOR ITS SEMICONDUCTOR EQUIPMENT

Singapore , 8 May 2017 - The Board of Directors of Manufacturing Integration Technology Ltd (“the Group”) is pleased to announce that it has secured new orders totaling \$18m for its state-of-the-art semiconductor equipment since its last update on 22 February 2017. This equipment will be used by its customers to produce devices primarily for the mobile communication and memory sectors.

These latest orders bring our total outstanding order book to \$23m, which are expected to be delivered in the next 2 quarters.

It is also expected to contribute positively to the Group’s financial results for the half year ending 30 June 2017.

None of the Directors or controlling shareholders has any direct or indirect interest in these transactions.

About Manufacturing Integration Technology Ltd (“MIT”)

Incorporated in 1992 and listed on the Singapore Exchange’s Mainboard since 1999, MIT is a leading provider of integrated automation solutions to the semiconductor industry worldwide. Its range of high-end equipment include wafer level die marking, sorting and inspection systems, It has also entered into the renewable energy market by producing its proprietary range of solar panel manufacturing equipment for the PV market. The Group has furthermore diversified its business to provide contract equipment manufacturing and precision engineering services to the broader markets with a manufacturing footprint in Shanghai, China.
