Our mission statement applies regardless of business units. We strive to achieve our mission by adhering to our core values of commitment, integrity and professionalism – factors necessary for success and the attainment of excellence.

CHAIRMAN & CEO'S MESSAGE

DEAR SHAREHOLDERS,

On behalf of the Board of Directors, we are pleased to present our annual report for the financial year ended 31 December 2016 ("FY2016").

2016 was a difficult year for the construction industry. Notwithstanding the challenging operating environment, we are pleased to inform our shareholders that Koyo Group (the "Group") built on its prior year results by achieving yet another positive performance with a net profit of \$0.7 million for FY2016. This result is testament to the sound fundamentals of the Group and it is our pleasure to share with shareholders that it was another successful year for the Group.

FINANCIAL REVIEW

Total revenue for FY2016 was \$15.1 million, a 3.3% increase as compared to that for FY 2015 with net profit of \$0.7 million, a 32.2% decrease from \$1.1 million in FY2015. The increase in total revenue was attributable mainly to two new mechanical engineering projects carried out in the current financial year.

As a result of our commitment to the prudent management of our projects, including costs and cash flow management, the Group was able to maintain a healthy balance of cash

and cash equivalents amounting to \$15.6 million as at 31 December 2016, despite higher labour and operating costs. The sound financial position of the Group has enabled the Group to build its resources to explore local and overseas growth opportunities.

DIVIDEND

In appreciation of our shareholders' long-term support and on the basis of the positive results, the Board is recommending a first and final dividend of \$0.001 per share, to be approved by shareholders in the forthcoming Annual General Meeting.

SHARE BUYBACK AND EMPLOYEE SHARE OPTION SCHEME

The Company purchased 6,300,000 of its own shares during the financial year ended 31 December 2016. As for the share options scheme, no further share options were granted to employees during the year under review.

To-date, out of a total of 5,565,000 share options granted since 2011 & 2013, only 400,000 share options remain outstanding.

CORPORATE DEVELOPMENTS

Our order book as at 31 December 2016 stood at \$31.7 million, including facilities management contracts with completion dates up to the year 2021. In addition to the secured contracts, the Group regularly tenders for new projects. We will continue to explore opportunities for revenue or profit accretive acquisitions, and innovative practices to improve productivity and revenue.

We are pleased to announce that Koyo International Limited was awarded the Singapore 1000 Company award 2017 on 17 February 2017. According to the award rankings, the Company was ranked 296th in terms of earnings per share and 471th in terms of sales turnover amongst public listed companies tracked.

The Company is deeply honoured to win this prestigious award as it serves as a recognition of the company's stature as one of the top 1 per cent of Singapore's leading corporations and SMEs. According to DP Information Group, this is a distinctive symbol of achievement reserved only for the most influential businesses in Singapore. The event was co-organised by DP Information Group and Ernst and Young Solutions LLP, and supported by the Singapore Business Federation, International Enterprise Singapore, SPRING Singapore, Accounting and Corporate Regulatory Authority, and the Infocomm Development Authority of Singapore.

BOARD CHANGES

The Board members are pleased to welcome Mr Wong Loke Tan, who joined the Board as a Non-Executive Independent Director in August 2016, before being appointed as the Non-Executive Independent Chairman in February 2017. A veteran of the financial industry, Mr Wong has held various positions in corporate banking, finance and management. He brings with him extensive experience in banking and finance, which we are sure will strengthen and enrich the Board.

OUTLOOK

The Group believes that the outlook for the construction sector will remain challenging for 2017 in view of the continuing uncertainty in the external environment and economic outlook in Singapore and the major economies. Adding to this are the constraints posed by rising costs including labour cost, the property cooling measures, and increasing market competition in the industry, all of which make tenders far more competitive than was the case previously.

Nevertheless, with the Group's proven track record and reputation, sound financial position, experienced professional management team, and secured pipeline of projects, the Group is well-positioned to ride out these difficulties.

APPRECIATION

Once again, we would like to express our appreciation and thanks to the members of the Board for their continuous guidance and invaluable contributions. In particular, we would like to thank Mr Lee Chen Chong who stepped down from the Board on 1 January 2017 due to his personal commitments. We wish him all the best in his future endeavours.

Lastly, we would also like to thank our valued shareholders, customers, suppliers and sub-contractors for their continued loyalty and support. Our heart felt appreciation also goes to management and all staff for their commitment to the Group. By working together closely, we are confident that the Group will be in a position to achieve better results in the future.

PERFORMANCE REVIEW

REVENUE

Koyo recorded revenue of approximately \$15.1 million for the financial year ended 31 December 2016 ("FY2016") representing an increase of 3.3% as compared to \$14.6 million recorded in financial year ended 31 December 2015 ("FY2015").

COST OF SALES

With the increase in revenue, cost of construction increased by 6.0% to approximately \$10.3 million for FY2016. Gross profit decreased slightly by 1.9% or \$90,000 to approximately \$4.85 million in FY2016 as compared to FY2015.

GROSS PROFIT MARGIN

Koyo's gross profit margin decreased by 1.7% to approximately 32.1% in FY2016. The decrease was mainly due to higher labour costs resulting from increased foreign worker levies and lesser variation works for the facilities management segment, partially offset by an improvement from the electrical engineering segment as a result of higher margin electrical licensing services rendered.

PROFIT BEFORE TAX

The Group recorded a pre-tax profit of \$0.8 million in FY2016. This was a decrease of \$0.4 million as compared to FY2015 and was largely due to higher operating costs, including an increase in insurance, professional fees and rental expenses of worker quarters.

BALANCE SHEET

Cash and cash equivalents increased approximately by \$1.2 million or 8.7%, from \$14.4 million as at 31 December 2015 to \$15.6 million as at 31 December 2016.

Trade and other receivables decreased by approximately \$2.0 million or 25.1%, to \$5.8 million as at 31 December 2016. Trade and other receivables comprise mainly of trade receivables, other receivables and progress claims. The decrease was mainly due to the decrease in progress claims of \$2.3 million, partially offset by increase in trade receivables of \$0.3 million. Trade receivables (excluding progress claims) turnover increased slightly from 56 days in FY2015 to 61 days in FY2016.

Trade and other payables decreased by approximately \$0.6 million or 14.6%, to \$3.5 million as at 31 December 2016.

CORPORATE GOVERNANCE

To ensure Directors can fulfill their obligations and to continually improve the performance of the Board, all Directors are encouraged to undergo continual professional development during the term of their appointment. Professional development may relate to a particular subject area, committee membership, or key developments in the Company's environment, market or operations which may be provided by accredited training providers such as the Singapore Institute of Directors. Such training costs are borne by the Company.

The Directors are also updated regularly with changes to the Listing Manual Section B: Rules of Catalist of the SGX-ST ("**Rules of Catalist**"), risk management, corporate governance, insider trading and the key changes in the relevant regulatory requirements and financial reporting standards and the relevant laws and regulations to facilitate effective discharge of their fiduciary duties as Board or Board Committees members.

New releases issued by the SGX-ST and Accounting and Corporate Regulatory Authority ("**ACRA**") which are relevant to the Directors are circulated to the Board. The Company Secretary informed the Directors of upcoming conferences and seminars relevant to their roles as Directors of the Company. Annually, the external auditors update the AC and the Board on the new and revised financial reporting standards that are applicable to the Company or the Group.

All newly appointed Directors will undergo an orientation programme where the Director would be briefed on the Group's strategic direction, governance practices, business and organisation structure as well as the expected duties of a Director of a listed company. Appropriate external trainings for Directors conducted by the Singapore Institute of Directors and other organisation will be arranged when necessary. To get a better understanding of the Group's business, the Director will also be given the opportunity to visit the Group's operational facilities and meet with key management personnel. Newly appointed Directors will also be issued a formal letter setting out their duties and obligations.

Board Composition and Guidance

Principle 2: There should be a strong and independent element on the Board, which is able to exercise objective judgment on corporate affairs independently, in particular, from Management and 10% shareholders. No individual or small group of individuals should be allowed to dominate the Board's decision making.

The Board comprises five (5) members with a majority of Independent Directors – three (3) Independent and Non-Executive Directors and two (2) Executive Directors. As at the date of this report, the Board members are as follows:

Wong Loke Tan ⁽¹⁾	(Non-Executive Independent Chairman)
Foo Chek Heng	(Managing Director and CEO)
Foo Suay Wei	(Executive Director)
Yeo Guat Kwang	(Non-Executive Independent Director)
Serena Lee Chooi Li	(Non-Executive Independent Director)

(1) Mr. Wong Loke Tan was appointed as the Independent Director on 12 August 2016 and was appointed as the Non-Executive Independent Chairman on 23 February 2017 respectively.

The Company is in compliance with Guideline 2.1 of the Code where Independent Directors make up more than half of the Board. The NC is satisfied that the Board has substantial independent elements to ensure that objective judgment is exercised on corporate affairs.

The independence of each Director is reviewed annually by the NC. The NC and Board, takes into account relationships or circumstances, including those identified by the Code that are relevant in its determination as to whether a Director is independent. Moreover, the Chairman of the NC is not associated, directly or indirectly, with a 10% Shareholder, in current or immediate past financial year to enhance an independent view to the best interests of the Company.

CORPORATE GOVERNANCE

In line with Guideline 2.4 of the Code, the NC had conducted a rigorous review on the independence of the Independent Director, Ms Serena Lee Chooi Li and considers that Ms Serena Lee Chooi Li is independent even though she had served on the Board beyond 9 years. The relevant factors that were taken into consideration in determining the independence of Ms Serena Lee Chooi Li are set out below.

The NC is of the view that Mr Wong Loke Tan, Mr Yeo Guat Kwang and Ms Serena Lee Chooi Li are independent, and the Board has determined, taking into account the views of the NC, that the aforementioned directors are independent in character and judgement and there are no relationships or circumstances which are likely to affect, or could appear to affect, the aforementioned directors' judgement. In performing the NC's review of the independence of the aforementioned Directors, Mr Yeo Guat Kwang and Ms Serena Lee Chooi Li, being members of the NC, has each abstained from participating in the review of the assessment of his/her independence. In addition, in performing the Board's review of the independence of the aforementioned Directors, Mr Wong Loke Tan, Mr Yeo Guat Kwang and Ms Serena Lee Chooi Li, each abstained from participating in the review of the assessment of his/her independence. The Independent Directors have also confirmed their independence in accordance with the Code.

Notwithstanding the aforementioned, the Board is of the view that Ms Serena Lee Chooi Li is independent as she has (i) contributed constructively throughout her term in the Company; (ii) sought clarification and amplification as she deemed necessary, including through direct access to key management personnel; and (iii) provided impartial advice and insights, and has exercised her independent judgment at Board and Board Committee meetings in doing so. Based on the aforementioned, the Board is of the view that she has been and has the ability to continue exercising independent judgment in the best interests of the Company in the discharging of her duties as an Independent Director of the Company. Ms Serena Lee Chooi Li abstained from the determination of her own independence. The following assessments were conducted and deliberated by the Board before arriving at the conclusion; (i) assessment of questions and voting actions of Ms Serena Lee Chooi Li by the Board; and (ii) her declaration and individual evaluations.

In considering whether an Independent Director who has served on the Board for 9 years is still independent, the Board has also taken into consideration the following factors:

- a. The considerable amount of experience and wealth of knowledge that the Independent Director brings to the Company.
- b. The attendance and active participation in the proceedings and decision making process of the Board and Board Committees meetings.
- c. Provision of continuity and stability to the Management at the Board level as the Independent Director has developed deep insight into the business of the Company and possesses experience and knowledge of the business.
- d. The qualification and expertise provides reasonable checks and balances for the Management.

There are no Directors who is deemed independent by the Board, notwithstanding the existence of a relationship as stated in the Code that would otherwise deem him/her not to be independent.

The Board's policy in identifying director nominees is primarily to have an appropriate mix of members with complementary skills, core competencies and experience for the Group, regardless of gender.

The Board has taken the following steps to maintain or enhance its balance and diversity:

- Annual review by the NC to assess if the existing attributes and core competencies of the Board are complementary and enhance the efficacy of the Board; and
- Annual evaluation by the Directors of the skill sets the other Directors possess, with a view to understand the range of expertise which is lacking by the Board.

CORPORATE GOVERNANCE

The NC will consider the results of these exercises in its recommendation for the appointment of new directors and/or the re-appointment of incumbent directors.

The Board through the NC, has examined its structure, size and composition and is of the view that it is of an appropriate size for effective decision-making, taking into account the scope and nature of the operations of the Company. The NC is of the view that no individual or small group of individuals dominates the Board's decision-making process.

The Independent and Non-Executive Directors have met at least once per year in the absence of key management personnel in FY2016.

Chairman and Chief Executive Officer

Principle 3: There should be a clear division of responsibilities between the leadership of the Board and the executives responsible for managing the company's business. No one individual should represent a considerable concentration of power.

The roles of the Chairman and the Managing Director/CEO are separate to ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making. The Chairman is not related to the Managing Director/CEO.

As the Non-Executive Independent Chairman, Mr Wong Loke Tan bears responsibility for overseeing the business of the Board and, together with the AC, ensures the integrity and effectiveness of the governance process of the Board. He leads the Board discussions and ensures that Board meetings are convened when necessary. In addition, the Chairman promotes a culture of openness and debate at the Board; ensures that the directors receive complete, adequate and timely information; encourages constructive relations within the Board and between the Board and management; and facilitates the effective contribution of non-executive directors in particular. The Chairman chairs annual general meetings ("AGM") and ensures constructive communication between shareholders, the Board and management.

As Managing Director/CEO, Mr Foo Chek Heng bears executive responsibility for the overall daily operations of the Group's various businesses. He also oversees the execution of the business and corporate strategy decisions made by the Board.

All major decisions made by the Board are subject to majority approval of the Board.

Board Membership

Principle 4: There should be a formal and transparent process for the appointment and re-appointment of Directors to the Board.

As at the date of this report, the Board comprises five (5) Directors, two (2) of whom are Executive Directors while three (3) are Independent and Non-Executive Directors.

CORPORATE GOVERNANCE

The NC comprises Mr Yeo Guat Kwang as Chairman and Mr Foo Chek Heng and Ms Serena Lee Chooi Li as members, a majority of whom, including the NC Chairman are independent. The NC has adopted specific written terms of reference which includes:

- a) reviewing and recommending the nomination or re-nomination of directors, having regard to the director's contribution and performance;
- b) reviewing each of the director's independence annually;
- c) reviewing whether or not a director is able to and has been adequately carrying out his duties as a director;

The NC also ensures that the Board, as a whole, possesses the core competencies required by the Code. All Directors are required to submit themselves for re-nomination and re-election at regular intervals and at least every three years.

Before making its recommendation to the Board for the re-appointment of a retiring Director, the NC takes into consideration the current needs of the Board, the Director's contribution and performance which are determined by factors such as attendance, preparedness, participation and candour (as well as contribution to the effectiveness of the Board). The Director is also assessed based on his ability to adequately carry out the duties expected while performing his roles in other companies or other appointments.

Under Regulation 98 of the Company's Constitution, one third (1/3) of the Board is to retire by rotation and subject themselves to re-election by shareholders at every AGM provided that all Directors shall retire from office at least once every three (3) years. Under Regulation 99 of the Company's Constitution, the retiring Director shall be eligible for re-election.

Mr Yeo Guat Kwang and Mr Foo Chek Heng who were last re-elected on 29 April 2015 and 21 April 2014 respectively are due to retire at the forthcoming AGM for re-election pursuant to Regulation 98 of the Company's Constitution. Mr Wong Loke Tan who was first appointed on 12 August 2016 is also due to retire at the forthcoming AGM for re-election pursuant to Regulation 102 of the Company's Constitution.

The NC, having reviewed and is satisfied with their overall contribution and performance as directors of the Company, has recommended that Mr Yeo Guat Kwang, Mr Foo Chek Heng and Mr Wong Loke Tan be nominated for re-election at the forthcoming AGM.

Mr Yeo Guat Kwang and Mr Foo Chek Heng being the Chairman of the NC and a member of the NC respectively, who are retiring at the forthcoming AGM, have abstained from voting on the resolutions in respect of their re-nomination as Directors.

Mr Yeo Guat Kwang will, upon re-election as a Director of the Company, remain as an Independent Director of the Company, the Chairman of Nominating Committee and a member of the Audit Committee and Remuneration Committee. The Board considers Mr Yeo Guat Kwang to be independent for the purpose of Rule 704(7) of the Catalist Rules.

Mr Foo Chek Heng will, upon re-election as a Director of the Company, remain as the Managing Director/CEO of the Company and a member of the Nominating Committee. CORPORATE GOVERNANCE

Mr Wong Loke Tan will, upon re-election as a Director of the Company, remain as the Non-Executive Independent Chairman of the Company, Chairman of Audit Committee and a member of Remuneration Committee. The Board considers Mr Wong Loke Tan to be independent for the purpose of Rule 704(7) of the Catalist Rules.

New directors are appointed by the Board upon the recommendation of the NC. In the nomination and selection process, the NC first considers the range of skills and experience required in the light of the, *inter alia*,:

- a) Strategic direction and progress of the Group;
- b) Current composition of the Board; and
- c) Need for independence.

After which, the NC will source for potential candidates, usually through recommendations from Directors and Management. However, external help may also be sought to source for potential candidates. Next, the NC will conduct interviews and assess the suitability of the short-listed candidates. The NC would recommend the selected candidate to the Board for consideration and approval. The criteria used to short-list candidates include possession of expert knowledge that meets the needs of the Company, the ability to commit time, the character, business experience and acumen.

Notwithstanding that some of the Directors have multiple board representations, the NC and Board is satisfied that each Director is able to and has been adequately carrying out his duties as a director of the Company. Only two (2) Directors is a director of other listed companies. As such, the Board does not propose to set the maximum number of listed company board representations which directors may hold until such need arises.

The considerations in assessing the capacity of Directors include, *inter alia*, (i) Expected and/or competing time commitments of Directors, including whether such commitment is a full-time or part-time employment capacity; (ii) Geographical location of Directors; (iii) Size and composition of the Board; (iv) Nature and scope of the Group's operations and size; and (v) Capacity, complexity and expectations of the other listed directorships and principle commitments held.

The NC would continue to review from time to time the board representations of each Director to ensure that the Directors continue to meet the demands of the Group and are able to discharge their duties adequately.

The Company currently does not have any alternate directors.

Key information regarding the Directors, including their principal commitments, directorships in other listed companies both present and those held over the preceding 3 years are set out in the Board Members' section in page 11 of this annual report.

Board Performance

Principle 5: There should be a formal assessment of the effectiveness of the Board as a whole and its Board Committees and the contribution by each Director to the effectiveness of the Board.

The NC decides on how the Board's, Board Committees' and individual Directors' performance is to be evaluated and proposes objective performance criteria, subject to the Board's approval, which address how the Directors have enhanced long-term shareholders' value. The Board has also implemented a process to be carried out by the NC for assessing the effectiveness of the Board as a whole and Board Committees and for assessing the contribution of each individual Director to the effectiveness of the Board. Each member of the NC shall abstain from voting on any resolution in respect of the assessment of his performance or re-nomination as a Director. On a yearly basis, each member of the Board is assessed individually according to, among other things, his contributions and effectiveness.

The NC reviews the criteria for evaluation annually and making changes where necessary to ensure that the criteria is able to provide an accurate and effective performance assessment taking into consideration industry standards and the economic climate with the objective to enhance long term shareholders value, thereafter propose amendments if any, which would be subject to the approval of the Board.

CORPORATE GOVERNANCE

The review parameters for evaluating each Director include, among others, the followings:

- i. attendance at board/committee meetings;
- ii. preparedness and participation at meetings;
- iii. availability for consultation and advice, when required; and
- iv. knowledge, abilities, teamwork and integrity.

The NC also assessed the effectiveness of the Board as a whole by evaluating factors such as the adequacy and size of the Board, the individual director's contribution towards the effectiveness of the Board, the Board's access to information, Board processes and accountability and communication with senior management. Each Director completes a self-evaluation checklist which integrates the assessment of the Board, Board committees, Chairman and individual directors. No external facilitator was used in the evaluation process of the individual directors and the Board.

The NC did not propose any changes to the performance criteria for FY2016 as the Group's principal business activities remained the same since FY2015.

The NC has assessed the current Board's performance to-date, as well as the performance of each individual Director and is of the view that the performance of the Board as a whole, and of each individual Director has met their performance objectives.

Access to Information

Principle 6: In order to fulfil their responsibilities, directors should be provided with complete, adequate and timely information prior to board meetings and on an on-going basis so as to enable them to make informed decisions to discharge their duties and responsibilities.

Management provides the Board with key information that is complete, adequate and timely. Prior to each Board Meeting, each director is supplied with relevant information by the management pertaining to matters to be brought before the Board for its decision as well as ongoing reports relating to operational and financial performance of the Group. In view of half yearly reporting requirements, the Company provides the Board with its accounts on a half yearly basis. Financial information, reports and assessments are provided for circular meetings as well to provide sufficient information to the Board to make their decision.

Management recognises the importance of circulating information on a timely basis to ensure that the Board has adequate time to review the materials to facilitate a constructive and effective discussion during the scheduled meetings.

Key management personnel will also provide any additional material or information that is requested by Directors or that is necessary to enable the Board to make a balanced and informed assessment of the Group's performance, position and prospects. All directors have separate and independent access to the Company's senior management.

All directors have separate and independent access to the Company Secretary. The role of the Company Secretary, the appointment and removal of whom is a matter for the Board, includes ensuring that Board procedures are followed; applicable rules and regulations are complied with, ensuring good information flow within the Board and its committees and between senior management and Non-Executive Directors, facilitating the Directors' orientation programme, and assisting with professional developments as required. The Company Secretary and/or her representative administer, attend and prepare the minutes of all Board and Board Committee meetings.

The Board in the furtherance of its duties, may seek independent professional advice at the Company's expense.

CORPORATE GOVERNANCE

REMUNERATION MATTERS

Procedures for Developing Remuneration Policies

Principle 7: There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual Directors. No Director should be involved in deciding his own remuneration.

The RC is chaired by Ms Serena Lee Chooi Li and comprises Mr Yeo Guat Kwang and Mr Wong Loke Tan as members, all of whom, including the chairperson of the RC are Non-Executive and Independent Directors.

The key terms of reference of the RC are, *inter alia*, as follows:

- (a) To review and recommend to the Board a general framework of remuneration and specific remuneration packages for each Director; and
- (b) To review and recommend to the Board the service contracts of Executive Directors and ensure that such services contracts are fair and not excessively long or with onerous renewal/termination clauses.

No Director or member of the RC is involved in deciding his own remuneration, except for providing information and documents specifically requested by the RC to assist in their deliberations.

The RC is responsible for reviewing and approving the remuneration packages of the executive directors and key management personnel, and recommending to the Board the fees of the non-executive directors.

The RC met once in FY2016.

The RC may from time to time, when necessary or required, seek advice from external consultants in framing the remuneration policy and determining the level and mix of remuneration for Directors and Management, so that the Group remains competitive in this regard. During FY2016, the Company did not engage any independent remuneration consultant.

Level and Mix of Remuneration

Principle 8: The level and structure of remuneration should be aligned with the long-term interest and risk policies of the company, and should be appropriate to attract, retain and motivate (a) the directors to provide good stewardship of the company, and (b) key management personnel to successfully manage the company. However, companies should avoid paying more than is necessary for this purpose.

The Company's remuneration policy which covers all aspects of remuneration, including but not limited to directors' fees, salaries, allowances, benefits-in-kind, bonuses and options, is one that seeks to attract, retain and motivate talent to achieve the Company's business vision and create sustainable value for its stakeholders. The policy articulates to staff the link that total compensation has to the achievement of organisational and individual performance objectives, and benchmarked against relevant and comparative compensation in the market.

The RC seeks to ensure that the structure of remuneration packages for the Executive Directors and key management personnel are appropriate in linking rewards with performance and that such remuneration packages are aligned with the interests of shareholders and promote the long-term success of the Group.

The review of the remuneration of key management personnel takes into consideration the performance and the contributions of the key management personnel to the Company and gives due regard to the financial and business performance of the Group of which performance conditions is not pre-determined.

CORPORATE GOVERNANCE

The Company has entered into service agreements with the Managing Director/CEO, Mr Foo Chek Heng and the Executive Director, Mr Foo Suay Wei of which each initial service agreement is valid for an initial period of three (3) years and subject to automatic renewals every 3 years, on such terms and conditions as the parties agree. Their performance conditions are pre-determined includes conditions such as, *inter alia*, the Group's profit before tax. The RC has reviewed and is of the view that there are no onerous compensation commitments on the part of the Company in the event of an early termination of the aforementioned service agreements. The notice period for the termination of the aforementioned service agreements is three months.

The Non-Executive Independent Directors do not have any service agreements with the Company. The fees of the Independent Directors are determined by the Board, according to the level of their contributions, taking into account factors such as effort and time spent, and their respective responsibilities as Non-Executive Independent Directors. Save for Director's fees, which have to be approved by the Shareholders at every AGM, the Non-Executive Independent Directors do not receive any other remuneration from the Company.

The Company currently does not have any contractual provisions which allow it to reclaim incentives from the Executive Directors and key management personnel in certain circumstances. The Board is of the view that as the Group pays performance bonuses based on the actual performance of the Group and/or Company (and not on forward-looking results) as well as the actual results of its Executive Directors and key management personnel, "claw-back" provisions in the service agreements may not be relevant or appropriate.

The RC has reviewed the compensation of the Non-Executive Independent Directors and the key management personnel, and is satisfied that the performance conditions were met for FY2016.

Disclosure on Remuneration

Principle 9: Every company should provide clear disclosure of its remuneration policies, level and mix of remuneration, and the procedure for setting remuneration, in the company's Annual Report. It should provide disclosure in relation to its remuneration policies to enable investors to understand the link between remuneration paid to directors and key management personnel, and performance.

The Board has also received assurance from the Managing Director/CEO and the Chief Financial Officer that (i) the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances for FY2016; and (ii) the Company's risk management and internal control systems in place are effective as at 31 December 2016 (the "**Assurance**"). The Board has additionally relied on the IA's internal audit reports issued to the Company for FY2016 as assurances that the Company's risk management and internal control systems were adequate and effective.

The Company continues to engage Wensen Consulting Asia (S) Pte Ltd as the internal auditor (“IA”) to perform the Company’s internal audit function, who has unfettered access to all the Company’s documents, records, properties and personnel, including access to the AC. The IA primarily reports directly to the AC and reports administratively to the Managing Director/CEO. Separate resolutions are proposed at general meetings for each substantial issue, if any.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Koyo International Limited (the "Company") and its subsidiaries (collectively the "Group"), which comprise the balance sheets of the Group and the Company as at 31 December 2016, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2016 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (ACRA) *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How the matter was addressed in the audit
<p>Construction contracts and facilities management</p> <p>The Group's revenue for the financial year ended 31 December 2016 comprise construction contracts and facilities management.</p> <p>For construction contracts, the stage of completion is measured by reference to the value of work done certified by the quantity surveyor.</p> <p>Similarly, for facilities management, the stage of completion is measured by reference to the value of work done as indicated in the work service order which is to be acknowledged/certified by the customers.</p> <p>Significant assumptions are used to estimate the total contract costs and the recoverable variation works that affect the stage of completion and the contract revenue respectively. In making these estimates, management has relied on past experience and the work of specialists.</p> <p>The key assumptions to the estimate of total contract costs and the recoverable variation works are disclosed in Note 3.2(a).</p>	<p>Our audit procedures focused on evaluating management's assumptions used to estimate the total contract costs and the recoverable variation works that affect the stage of completion and the contract revenue respectively. These procedures include:</p> <ul style="list-style-type: none"> • Determining the stage of completion by verifying to the value of work done certified by the quantity surveyor and acknowledgment by the customers. • For certification by quantity surveyors or acknowledgment not received by the customers due to unexpired defective liability period ("DLP") when the main contractors are not able to issue the certification of work done prior to end of DLP, for which management has recognised work done as revenue, we had assessed the impact of any over/under recognition of revenue. • This assessment is done by reviewing and comparing management past estimates of revenue recognition for both construction contracts and facilities management for which there were no certification by quantity surveyors or acknowledgment by the customers and compared it with the recognised revenue when the certification/acknowledgment were subsequently received. • Performed reasonableness test and assessed management sensitivity tests on the possibility of over or under accrual of revenue recognition. <p>Based on the procedures performed, we noted no material exceptions.</p>

Key Audit Matters (Continued)

Key Audit Matters	How the matter was addressed in the audit
<p>Valuation of available-for-sale financial asset</p> <p>As at 31 December 2016, the Group's available-for-sale financial assets ("AFS") amounted to \$28,000. These AFS comprised investment in a number of listed equity securities on the Singapore Exchange Securities Trading Limited.</p> <p>The fair value ("FV") of these AFS as at 31 December 2016 was determined using the market price of these listed securities as at 31 December 2016.</p> <p>This FV is a significant contrast as compared to the original costs of these AFS which were previously stated at \$281,000 when initially purchased between 4 to 13 years ago.</p> <p>Despite the perpetual decline in share price where the AFS FV reserve had accumulated to a debit amount of \$253,000, management is of the view that these declining prices in its AFS does not represent a significant or prolonged decline in the FV of the AFS below their costs, where impairment of these AFS would need to be made.</p> <p>The key critical judgement in determining what is "significant" or "prolonged" decline in FV below their cost is disclosed in Note 3.1(a).</p>	<p>Under FRS 39 Financial Instruments: Recognition and Measurement, the Standard does not define what constitutes "significant" or "prolonged" decline in the FV of the AFS below its costs.</p> <p>Accordingly, the determination of what is "significant" or "prolonged" requires significant management's judgement. In making this judgement, the Group evaluates, among other factors, historical share price movements and the duration and extent to which the FV of the AFS is less than its costs.</p> <p>At the end, management concluded that they are confident that the FV of their AFS will eventually recover to reach its initial purchased costs. Hence, management do not consider the current decline in share price and the quantum of decline to-date as being prolonged or significant. Accordingly, management is of the view that there is no impairment in its AFS.</p> <p>Going forward, if management were to view that there is indeed persistent decline in the share price of its AFS which constitute significant and prolonged, the cumulative loss that was previously recognized in other comprehensive income will need to be reclassified to profit or loss. The cumulative loss is measured as the difference between the acquisition cost (net of any principal repayment and amortization) and the current fair value, less any impairment loss previously recognized as an expense.</p>

For the financial year ended 31 December 2016

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT

to the Members of Koyo International Limited
For the financial year ended 31 December 2016

- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Mr Ong Kian Meng.

Koyo International Limited (the "Company") is listed on the Catalist, the sponsor-supervised listing platform of Singapore Exchange Securities Trading Limited ("SGX-ST") and incorporated and domiciled in Singapore. The address of its registered office is 55 Ubi Avenue 3, #04-01, Singapore 408864.

The principal activities of the Company are those of investment holding and business of providing integrated mechanical and electrical engineering (M&E) services.

The principal activities of its subsidiaries are disclosed in Note 14 to the financial statements.

2. Significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") under the historical cost convention, except as disclosed in the accounting policies below, and on a going concern basis, taking into consideration the following factors, and notwithstanding the matter as detailed in Note 26 to the financial statements:-

- i. the Group is able to continue in its current operations and continue to maintain and generate sufficient cash flow to enable the Group to meet and discharge its obligations and liabilities in the normal course of business for the next twelve months. As at 31 December 2016, the Group is in a net assets position of \$18,019,000 (2015: \$18,030,000) with cash and cash equivalents amounting to \$15,638,000 (2015: \$14,393,000) and no external borrowings;
- ii. the Board of Directors have agreed the managing director should continue as normal; and
- iii. the Company continues to retain its key management staffs and is adequately prepared for management succession.

The preparation of financial statements in conformity with FRS requires management to exercise its judgement in the process of applying the Group's accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Interpretations and amendments to published standards effective in 2016

On 1 January 2016, the Group adopted the new or amended FRS and Interpretations of FRS ("INT FRS") that are mandatory for application for the financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective FRS and INT FRS.

The adoption of these new or amended FRS and INT FRS did not result in substantial changes to the accounting policies of the Group and the Company and had no material effect on the amounts reported for the current or prior financial years.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.2 Revenue recognition

Sales comprise the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of the Group's activities. Sales are presented, net of goods and services tax, rebates and discounts, and after eliminating sales within the Group.

The Group recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable that the collectability of the related receivables is reasonably assured and when the specific criteria for each of the Group's activities are met as follows:

(a) *Contract revenue from:*

(i) *Construction contracts*

Revenue from construction contracts are recognised using the percentage-of-completion method. The percentage-of-completion is measured by reference to the stage of completion of the contract activity at the end of each reporting period.

(ii) *Facilities management*

Revenue from the provision of services is recognised upon the performance of service rendered to the customer and or over the duration of the facilities management contracts.

(b) *Interest income*

Interest income is recognised using the effective interest method.

(c) *Dividend income*

Dividend income is recognised when the right to receive payment is established.

2.3 Government grants

Grants from the government are recognised as a receivable at their fair value when there is reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

Government grants relating to assets are deducted against the carrying amount of the assets.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.4 Group accounting (Continued)

(a) *Subsidiaries*

(i) *Consolidation*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated but are considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests comprise the portion of a subsidiaries' net results of operations and its net assets, which is attributable to the interests that are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity, and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiaries, even if this results in the non-controlling interests having a deficit balance.

(ii) *Acquisitions*

The acquisition method of accounting is used to account for business combinations entered into by the Group.

The consideration transferred for the acquisition of a subsidiaries or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes any contingent consideration arrangement and any pre-existing equity interest in the subsidiaries measured at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.4 Group accounting (Continued)

(a) Subsidiaries (Continued)

(ii) Acquisitions (Continued)

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill.

(iii) Disposals

When a change in the Group's ownership interest in a subsidiary results in a loss of control over the subsidiaries, the assets and liabilities of the subsidiaries including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained profits if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in profit or loss.

Please refer to the paragraph "Investments in subsidiaries" for the accounting policy on investments in subsidiaries in the separate financial statements of the Company.

(b) Reverse acquisition

The acquisition of the Acquired Group (Note 17) has been accounted for as a reverse acquisition and the Acquired Group is considered the acquirer for accounting purposes. Accordingly, the Group's balance sheets, consolidated statement of comprehensive income, statement of changes in equity and statement of cash flows are those of the Acquired Group's consolidated financial statements.

Since such consolidated financial statements represent a continuation of the Acquired Group:

- (i) the assets and liabilities of the Acquired Group are recognised and measured in the consolidated balance sheet at their pre-acquisition carrying amount and assets and liabilities of the Company are recognised at their fair values;
- (ii) the retained profits and other equity balances (except for share capital) recognised in those consolidated financial statements are those of the Acquired Group immediately before the acquisition;
- (iii) the amount recognised as issued equity instruments in those consolidated financial statements is the issued equity of the Acquired Group immediately before the acquisition plus the costs of the acquisition calculated from the perspective of the Company. However, the equity structure appearing on those consolidated financial statements (i.e the number and type of equity instruments issued) reflect the equity structure of the Company, including the equity instruments issued by the Company to reflect the combination;

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.4 Group accounting (Continued)

(b) Reverse acquisition (Continued)

- (iv) consolidated financial statements prepared following a reverse acquisition shall reflect the fair value of the assets, liabilities and contingent liabilities of the Company. Therefore the cost of the business combination for the acquisition is allocated to the identifiable assets, liabilities and contingent liabilities of the Company that satisfy the recognition criteria. The excess of the cost of the combination over the Acquired Group's interest in the net fair value is recognised as goodwill.

2.5 Property, plant and equipment

(a) Measurement

(i) Property, plant and equipment

Property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses.

(ii) Components of costs

The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

(b) Depreciation

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Computers	1 year
Office equipment and tools	5 years
Furniture and fittings	5 years
Motor vehicles	5 years
Renovation	5 years

Fully depreciated property, plant and equipment are retained in the financial statements until they are no longer in use.

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at the end of each reporting period. The effects of any revision are recognised in profit or loss when the changes arise.

(c) Subsequent expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.5 Property, plant and equipment (Continued)

(d) Disposal

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in profit or loss.

2.6 Construction contracts

When the outcome of a construction contract can be estimated reliably, contract revenue and contract costs are recognised as revenue and expenses respectively by reference to the stage of completion of the contract activity at the reporting date ("percentage-of-completion method"). When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are likely to be recoverable. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Contract revenue comprises the initial amount of revenue agreed in the contract and variations in the contract work and claims that can be measured reliably. A variation or a claim is recognised as contract revenue when it is probable that the customer will approve the variation or negotiations have reached an advanced stage such that it is probable that the customer will accept the claim.

The stage of completion is measured by reference to the value of work done certified by the quantity surveyor. Costs incurred during the financial year in connection with future activity on a contract are shown as construction work-in-progress on the balance sheets unless it is not probable that such contract costs are recoverable from the customers, in which case, such costs are recognised as an expense immediately.

At the reporting date, the cumulative costs incurred plus recognised profits (less recognised losses) on each contract is compared against the progress billings. Where the cumulative costs incurred plus the recognised profits (less recognised losses) exceed progress billings, the balance is presented as due from customers on construction contracts within "Trade and other receivables". Where progress billings exceed the cumulative costs incurred plus recognised profits (less recognised losses), the balance is presented as due to customers on construction contracts within "Trade and other payables".

Progress billings not yet paid by customers and retentions by customers are included within "Trade and other receivables". Advances received are included within "Trade and other payables".

2.7 Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.8 Impairment of non-financial assets

Property, plant and equipment
Investments in subsidiaries

Property, plant and equipment and investments in subsidiaries are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less costs of disposal and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash-generating units ("CGU") to which the asset belongs.

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss, unless the asset is carried at revalued amount, in which case, such impairment loss is treated as revaluation decrease.

An impairment loss for an asset is reversed only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset is recognised in profit or loss, unless the asset is carried at revalued amount, in which case, such reversal is treated as a revaluation increase. However, to the extent that an impairment loss on the same revalued asset was previously recognised as an expense, a reversal of that impairment is also recognised in profit or loss.

2.9 Financial assets

(a) *Classification*

Financial assets are classified into the following categories: financial assets at fair value through profit or loss, loans and receivables, held to-maturity, and available-for-sale. The classification depends on the nature of the asset and the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition at the end of each reporting period.

(i) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those expected to be realised later than 12 months after the reporting date which are presented as non-current assets. Loans and receivables are presented as "Trade and other receivables (excluding prepayment)" (Note 12) and "Cash and cash equivalents" (Note 10) on the balance sheet.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.9 Financial assets (Continued)

(a) *Classification (Continued)*

(ii) *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are presented as non-current assets unless the investment matures or management intends to dispose of the assets within 12 months after the reporting date.

(b) *Recognition and derecognition*

Regular way purchases and sales of financial assets are recognised on trade date – the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. On disposal of a financial asset, the difference between the carrying amount and the sale proceeds is recognised in profit or loss. Any amount previously recognised in other comprehensive income relating to that asset is reclassified to profit or loss.

(c) *Initial measurement*

Loans and receivables and available-for-sale financial assets are initially recognised at fair value plus transaction costs.

(d) *Subsequent measurement*

Available-for-sale financial assets are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Interest and dividend income on available-for-sale financial assets are recognised separately in income. Changes in the fair values of available-for-sale debt securities (i.e. monetary items) denominated in foreign currencies are analysed into currency translation differences on the amortised cost of the securities and other changes; the currency translation differences are recognised in profit or loss and the other changes are recognised in other comprehensive income and accumulated in the fair value reserve. Changes in the fair values of available-for-sale equity securities (i.e. non-monetary items) are recognised in other comprehensive income and accumulated in the fair value reserve, together with the related currency translation differences.

(e) *Impairment*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognises an allowance for impairment when such evidence exists.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.9 Financial assets (Continued)

(e) *Impairment (Continued)*

(i) *Loans and receivables*

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default or significant delay in payments are objective evidence that these financial assets are impaired.

The carrying amount of these assets is reduced through the use of an impairment allowance account which is calculated as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in profit or loss.

The impairment allowance is reduced through profit or loss in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost had no impairment been recognised in prior periods.

(ii) *Available-for-sale financial assets*

In addition to the objective evidence of impairment described in Note 2.9(e)(i), a significant or prolonged decline in the fair value of an equity security below its cost is considered as an indicator that the available-for-sale financial asset is impaired.

If there is objective evidence of impairment, the cumulative loss that had been previously recognised in other comprehensive income is reclassified from equity to profit or loss. The amount of cumulative loss that is reclassified is measured as the difference between the acquisition cost (net of any principal repayments and amortisation) and the current fair value, less any impairment loss previously recognised in profit or loss. The impairment losses recognised as an expense for an equity security are not reversed through profit or loss.

2.10 Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.11 Financial guarantees

The Company has issued corporate guarantees to banks for bank borrowings of its subsidiaries. These guarantees are financial guarantees as they require the Company to reimburse the banks if the subsidiaries fail to make principal or interest payments when due in accordance with the terms of their borrowings.

Financial guarantees are initially recognised at their fair values plus transaction costs in the Company's balance sheet.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.11 Financial guarantees (Continued)

Financial guarantees are subsequently amortised to profit or loss over the period of the subsidiaries' borrowings, unless it is probable that the Company will reimburse the banks for an amount higher than the unamortised amount. In this case, the financial guarantees shall be carried at the expected amount payable to the banks in the Company's balance sheet.

Intra-group transactions are eliminated on consolidation.

2.12 Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). Otherwise, they are presented as non-current liabilities.

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.13 Fair value estimation of financial assets and liabilities

The fair values of financial instruments traded in active markets (such as exchange-traded and over-the-counter securities and derivatives) are based on quoted market prices at the reporting date. The quoted market prices used for financial assets are the current bid prices; the appropriate quoted market prices used for financial liabilities are the current asking prices.

The fair values of current financial assets and liabilities carried at amortised cost approximate their carrying amounts.

2.14 Leases

When the Group is the lessee:

Lessee – Operating leases

Leases where substantially all risks and rewards incidental to ownership are retained by the lessors are classified as operating leases. Payments made under operating lease (net of any incentives received from the lessors) are recognised in profit or loss on a straight-line basis over the period of the lease.

Contingent rents are recognised as an expense in profit or loss when incurred.

2.15 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.15 Income taxes (Continued)

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the end of reporting period, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expense in profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity.

The Group accounts for investment tax credits (for example, productivity and innovative credit) similar to accounting for other tax credits where deferred tax asset is recognised for unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax credit can be utilised.

2.16 Provisions for other liabilities and charges

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Other provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax discount rate that reflects the current market assessment of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised in profit or loss as finance expense.

2.17 Employee compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

(a) *Defined contribution plans*

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Central Provident Fund on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

2. Significant accounting policies (Continued)

2.17 Employee compensation (Continued)

(b) *Share-based compensation*

The Group operates an equity-settled, share-based compensation plan. The value of the employee services received in exchange for the grant of options is recognised as an expense with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on the date of the grant. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date. At each reporting date, the Group revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the share option reserve over the remaining vesting period.

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to share capital account, when new ordinary shares are issued to the employees.

(c) *Employees leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. An accrual is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

(d) *Profit sharing and bonus plans*

The Group recognises a liability and an expense for bonuses and profit-sharing, based on a formula that takes into consideration the profit before income tax. The Group recognises a provision when contractually obliged to pay or when there is a past practice that has created a constructive obligation to pay.

2.18 Currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Singapore Dollar, which is the functional currency of the Company.

(b) *Transactions and balances*

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency exchange differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in profit or loss.

All other foreign exchange gains and losses impacting profit or loss are presented in the profit or loss within "Other income", if any.

2.18 Currency translation (Continued)

(b) Transactions and balances (Continued)

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

2.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors whose members are responsible for allocating resources and assessing performance of the operating segments.

2.20 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand, deposits with financial institutions which are subject to an insignificant risk of change in value less the portion that are pledged as securities for the banking facilities of the Group.

2.21 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

2.22 Treasury shares

The Group's own equity instruments, which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount of treasury shares and the consideration received, if reissued, is recognised directly in equity. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively.

2.23 Dividends to Company's shareholders

Dividends to the Company's shareholders are recognised when the dividends are approved for payment.

3. Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3.1 Critical judgements made in applying accounting policies

In the process of applying the Group's accounting policies, which are described in Note 2 to the financial statements, management had made the following judgements, apart from those involving estimate, which have the most significant effect on the amounts recognised in the consolidated financial statements:

(a) Available-for-sale financial asset

The Group will record impairment charges on available-for-sale equity investments when there has been a significant or prolonged decline in the fair value below their cost. The determination of what is "significant" or "prolonged" requires significant judgement. In making this judgement, the Group evaluates, among other factors, historical share price movements and the duration and extent to which the fair value of an investment is less than its cost.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2016

3. Critical accounting estimates, assumptions and judgements (Continued)

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimated uncertainty at the end of the reporting periods, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years are discussed below. The Group based its assumptions and estimate on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future development however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumption when they occur.

(a) Construction contracts

The stage of completion is measured by reference to the value of work done certified by the quantity surveyor.

Significant assumptions are used to estimate the total contract costs and the recoverable variation works that affect the stage of completion and the contract revenue respectively. In making these estimates, management has relied on past experience and the work of specialists.

If the revenue on uncompleted contracts at the end of the reporting period had been higher/lower by 5% from management's estimates, the Group's profit would have been higher/lower by \$510,000 (2015: \$953,000).

If the contract costs of uncompleted contracts at the end of the reporting period to be incurred had been higher/lower by 5% from management's estimates, the Group's profit would have been lower/higher by \$329,000 (2015: \$664,000).

(b) Impairment of loans and receivables

Management reviews its loans and receivables for objective evidence of impairment at least quarterly. Significant financial difficulties of the debtor, the probability that the debtor will enter bankruptcy, and default or significant delay in payments are considered objective evidence that a receivable is impaired. In determining this, management has made judgements as to whether there is observable data indicating that there has been a significant change in the payment ability of the debtor, or whether there have been significant changes with adverse effect in the technological, market, economic or legal environment in which the debtor operates in.

Where there is objective evidence of impairment, management has made judgements as to whether an impairment loss should be recorded as an expense. In determining this, management has used estimates based on historical loss experience for assets with similar credit risk characteristics. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between the estimated loss and actual loss experience.

As at 31 December 2016, management has made adequate allowance for impairment of trade receivables of \$2,176,000 (2015: \$2,176,000). The carrying amounts of trade receivables at the end of the reporting year was \$5,556,000 (2015: \$7,472,000).

If the net present values of estimated cash flows had been higher/lower by 10% from management's estimates for all past due loans and receivables, the allowance for impairment of the Group would have been lower/higher by \$218,000 (2015: \$218,000).

The Group has unrecognised tax losses of \$988,000 (2015: \$988,000) at the end of reporting date which can be carried forward and used to offset against future taxable income subject to meeting certain statutory requirements. The tax losses have no expiry date.

9. Earnings per share

9. Earnings per share (Continued)

(b) Diluted earnings per share

For the purpose of calculating diluted earnings per share, profit attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares. The Company has dilutive potential ordinary shares in respect of share options granted.

For share options, the weighted average number of shares on issue has been adjusted as if all dilutive share options were exercised. The number of shares that could have been issued upon the exercise of all dilutive share options less the number of shares that could have been issued at fair value (determined as the Company's average share price for the financial year) for the same total proceeds is added to the denominator as the number of shares issued for no consideration. No adjustment is made to the net profit.

Diluted earnings per share attributable to equity holders of the Company is calculated as follows:

	Group	
	2016	2015
Net profit attributable to equity holders of the Company (\$'000)	735	1,084

To: The Shareholders of Koyo International Limited

Dear Sir/Madam

1. INTRODUCTION

- 1.1 Reference is made to the notice of annual general meeting ("**AGM**") dated 12 April 2017 ("**Notice of AGM**") of Koyo International Limited ("**Company**") convening the AGM of the Company to be held on 27 April 2017.
- 1.2 The proposed Resolution 11 in the Notice of AGM relates to the renewal of the share buyback mandate ("**Share Buyback Mandate**"), which was previously approved by shareholders of the Company ("**Shareholders**") at the annual general meeting of the Company held on 28 April 2016, to authorise the directors of the Company ("**Directors**") to purchase or otherwise acquire issued ordinary shares in the capital of the Company ("**Shares**") on the terms of the Share Buyback Mandate. The authority conferred by the Share Buyback Mandate will expire on 27 April 2017, being the date of the forthcoming AGM.
- 1.3 The purpose of this Addendum is to provide Shareholders with relevant information relating to, and explain the rationale for the proposed renewal of the Share Buyback Mandate to be tabled at the AGM.

2. PROPOSED RENEWAL OF THE SHARE BUYBACK MANDATE

2.1 Background

The Directors propose to table for Shareholders' consideration and approval, the renewal of the Share Buyback Mandate to be renewed at the forthcoming AGM to be held on 27 April 2017.

If the ordinary resolution relating to the renewal of the Share Buyback Mandate is passed by Shareholders at the forthcoming AGM, it will remain in force until the earliest of the date on which the next AGM of the Company is held or required by law to be held, the date on which the Share Buybacks are carried out to the full extent of the Share Buyback Mandate or the date the Share Buyback Mandate is revoked or varied by the Shareholders in a general meeting ("**Relevant Period**").

ADDENDUM DATED 12 APRIL 2017

2.2 Rationale

The rationale for the Company to undertake the purchase of its issued Shares ("**Share Buyback**") is as follows:

- (a) It is a principal mission of the Directors to constantly seek to increase Shareholders' value and to improve, *inter alia*, the return on equity of the Company and its subsidiaries ("the **Group**"). A Share Buyback at the appropriate price level is one of the ways through which the return on equity of the Group may be enhanced; and
- (b) Share Buybacks provide the Company with a mechanism to facilitate the return of surplus cash over and above its ordinary capital requirements in an expedient, effective and cost efficient manner. It will also provide the Directors with greater flexibility over the Company's share capital structure with a view to enhancing the earnings and/or net tangible asset value per Share. The Directors further believe that Share Buybacks by the Company will help mitigate short-term market volatility, offset the effects of short-term speculation and bolster Shareholder confidence.

If and when circumstances permit, the Directors will decide whether to effect the Share Buybacks via Market Purchases or Off-Market Purchases (as respectively defined under sections 2.3.4 (a) and (b) below), after taking into account the amount of surplus cash available, the prevailing market conditions and the most cost-effective and efficient approach. The Directors do not propose to carry out purchases pursuant to the Share Buyback Mandate to such an extent that would, or in circumstances that might, result in a material adverse effect on the financial position of the Group.

The Directors will only make a Share Buyback as and when the circumstances permit and only if the Directors are of the view that such purchases are in the best interests of the Company and the Shareholders. The Directors will decide whether to purchase shares only after taking into account, among other things, the market conditions at such time, the Company's financial condition and whether such purchases will cause the Company to become insolvent, and whether such purchases represent the most efficient and cost-effective approach to enhance Share value.

Share purchases will only be made if the Directors believe that such purchases are likely to benefit the Company and increase economic value for Shareholders.

2.3 Authority and Limits on the Share Buyback Mandate

The authority and limitations placed on purchases of Shares by the Company under the Share Buyback Mandate, if renewed at the AGM, are as follows:

2.3.1 Maximum Number of Shares

Only Shares which are issued and fully paid-up may be purchased or acquired by the Company.

The total number of Shares that may be purchased or acquired by the Company is limited to that number of Shares representing not more than ten per cent (10%) of the total number of issued Shares as at the date of the AGM at which the renewal of the Share Buyback Mandate is approved (the "**Approval Date**") unless the Company has, at any time during the Relevant Period, effected a reduction of its share capital in accordance with the applicable provisions of the Companies Act, Chapter 50 of Singapore, as amended or modified from time to time ("**Companies Act**") in which event the total number of issued Shares of the Company shall be taken to be the total number of the issued Shares as altered. For the purposes of calculating the percentage of Shares as referred above, any of the Shares which are held by the Company as treasury shares will be disregarded.

ADDENDUM DATED 12 APRIL 2017

For illustrative purposes only, based on the existing issued and paid-up share capital of the Company as at 28 March 2017, being the latest practicable date (the “**Latest Practicable Date**”), comprising 189,423,497 Shares (excluding 6,300,000 treasury shares), and assuming that no further Shares are issued or purchased and kept as Treasury Shares on or prior to the AGM, not more than 18,942,349 Shares (representing 10% of the issued and paid-up share capital (excluding 6,300,000 treasury shares) of the Company as at the date of the AGM) may be purchased by the Company pursuant to the Share Buyback Mandate.

2.3.2 Duration of Authority

Share Buybacks may be made, at any time and from time to time during the Relevant Period, on and from the Approval Date, up to the earlier of:

- (a) the date on which the next AGM is held or required by law to be held;
- (b) the date on which the Share Buybacks are carried out to the full extent mandated; or
- (c) the date on which the authority contained in the Share Buyback Mandate is varied or revoked by the Shareholders in a general meeting.

2.3.3 Solvency

As stated in the Companies Act, the Share Buyback may be made out of the Company’s profits or capital so long as the Company is solvent. Accordingly, purchases or acquisition of Shares may only be made if the Directors know that the Company is, or have no reason to believe that the Company is not, solvent.

Pursuant to Section 76F(4) of the Companies Act, the Company is solvent if at the date of the payment made by the Company in consideration of acquiring any right with respect to the purchase or acquisition of its own shares:–

- (a) there is no ground on which the Company could be found to be unable to pay its debts;
- (b) if –
 - (i) it is intended to commence winding up of the Company within the period of 12 months immediately after the date of the payment, the Company will be able to pay its debts in full within the period of 12 months after the date of commencement of the winding up; or
 - (ii) it is not intended so to commence winding up, the Company will be able to pay its debts as they fall due during the period of 12 months immediately after the date of the payment; and
- (c) the value of the Company’s assets is not less than the value of its liabilities (including contingent liabilities) and will not, after the proposed purchase, acquisition, variation or release (as the case may be), become less than the value of its liabilities (including contingent liabilities).

2.3.4 Manner of Purchase of Shares

Share Buybacks may be made by way of:

- (a) on-market purchases (“**Market Purchase**”), transacted on the Singapore Exchange Securities Trading Limited’s (“**SGX-ST**”)’s trading system or, as the case may be, any other securities exchange on which the Shares may for the time being be listed and quoted, through one or more duly licensed stockbrokers appointed by the Company for the purpose; and/or

ADDENDUM DATED 12 APRIL 2017

- (b) off-market purchases (“**Off-Market Purchase**”) (if effected otherwise than on the SGX-ST) in accordance with an equal access scheme(s) as defined in Section 76C of the Companies Act.

The Directors may impose such terms and conditions which are not inconsistent with the Share Buyback Mandate, the Listing Manual Section B: Rules of Catalist the SGX-ST (“**Catalist Rules**”) and the Companies Act as they consider fit in the interests of the Company in connection with or in relation to any equal access scheme or schemes. An equal access scheme must under an Off-Market Purchase, however, satisfy all the following conditions:

- (i) offers for the Share Buyback shall be made to every person who holds issued shares to purchase or acquire the same percentage of their issued Shares;
- (ii) all of those persons shall be given a reasonable opportunity to accept the offers made to them; and
- (iii) the terms of all the offers are the same, except that there shall be disregarded:
 - (i) differences in consideration attributable to the fact that offers may relate to Shares with different accrued dividend entitlements;
 - (ii) (if applicable) differences in consideration attributable to the fact that offers relate to Shares with different amounts remaining unpaid; and
 - (iii) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

In addition, the Catalist Rules requires that, in making an Off-Market Purchase, the Company must issue an offer document to all Shareholders which must contain at least the following information:

- (a) the terms and conditions of the offer;
- (b) the period and procedures for acceptances;
- (c) the reasons for the proposed Share Buyback;
- (d) the consequences, if any, of Share Buybacks by the Company that will arise under the Singapore Code on Take-overs and Mergers, as modified (“**Take-over Code**”) or other applicable take-over rules;
- (e) whether the Share Buyback, if made, would have any effect on the listing of the Shares on the SGX-ST;
- (f) details of any Share Buyback made by the Company in the previous 12 months (whether Market Purchases or Off-Market Purchases in accordance with an equal access scheme), setting out the total number of Shares purchased, the purchase price per Share or the highest and lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and
- (g) whether the Shares purchased by the Company will be cancelled or kept as treasury shares.

ADDENDUM DATED 12 APRIL 2017

2.3.5 Maximum Purchase Price

The purchase price (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) to be paid for the Shares will be determined by the Directors. However, the purchase price to be paid for a Share as determined by the Directors must not exceed:

- (a) in the case of a Market Purchase, 105% of the Average Closing Price (as defined hereinafter); and
- (b) in the case of an Off-Market Purchase pursuant to an equal access scheme, 120% of the Highest Last Dealt Price (as defined hereinafter),

(the “**Maximum Price**”) in either case, excluding related expenses of the purchase.

For the above purposes:

“**Average Closing Price**” means the average of the closing market prices of a Share over the last five days on which the SGX-ST is open for trading in securities (“**Market Days**”) and which transactions in the Shares were recorded, immediately preceding the day of the Market Purchase, and deemed to be adjusted for any corporate action that occurs after the relevant five-day period;

“**Highest Last Dealt Price**” means the highest price transacted for a Share as recorded on the Market Day on which there were trades on the Shares immediately preceding the Day of the Making of the Offer (as defined hereunder) pursuant to the Off-Market Purchase; and

“**Day of the Making of the Offer**” means the day on which the Company announces its intention to make an offer for the purchase of Shares from Shareholders, stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase.

2.4 **Status of Purchased Shares under the Share Buyback Mandate**

Any Share which is purchased by the Company shall, unless held as treasury shares to the extent permitted under the Companies Act (as set out below), be deemed cancelled immediately on purchase, and all rights and privileges attached to that Share will expire on such cancellation. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or otherwise acquired by the Company and which are not held as treasury shares. All Shares purchased or acquired by the Company (other than treasury shares held by the Company to the extent permitted under the Companies Act), will be automatically de-listed by the SGX-ST, and the certificates in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following settlement of any such purchase or acquisition.

At the time of each purchase of Shares by the Company, the Directors will decide whether the Shares purchased will be cancelled or kept as treasury shares, or partly cancelled and partly kept as treasury shares, depending on the needs of the Company and as the Directors deem fit in the interests of the Company at that time.

ADDENDUM DATED 12 APRIL 2017

2.5 Treasury Shares

Under the Companies Act, Shares purchased by the Company may be held or dealt with as treasury shares. Some of the provisions on treasury shares under the Companies Act are summarised below:

2.5.1 Maximum Holdings

The aggregate numbers of Shares held as treasury shares cannot at any time exceed ten per cent (10%) of the total number of issued Shares of the Company. Any Shares in excess of this limit shall be disposed of or cancelled in accordance with Section 76K of the Companies Act within six (6) months or such further periods as the Registrar of Companies may allow.

As the Company holds 6,300,000 treasury shares as at the Latest Practicable Date, representing approximately 3.33 per cent (3.33%) of the total number of issued Shares (excluding treasury shares). Where Shares purchased pursuant to the renewed Share Buyback Mandate are held as treasury shares, the number of such Shares to be held as treasury shares, when aggregated with the then existing Treasury Shares held, shall not, subject to the Companies Act, exceed the ten per cent (10%) limit of the total number of issued Shares of the Company.

For illustrative purposes, the Company may only retain a further 12,642,349 Shares as treasury shares as it is only allowed to hold a maximum of 18,942,349 treasury shares (being 10% of the total number of issued Shares of 189,423,497 Shares).

2.5.2 Voting and Other Rights

The Company cannot exercise any right in respect of treasury shares. In particular, the Company cannot exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution (whether in cash or otherwise) of the Company's assets (including any distribution of assets to members of the Company on a winding up) may be made, to the Company, in respect of the treasury shares. However, the allotment of Shares as fully paid bonus shares in respect of treasury shares is allowed. Also a subdivision or consolidation of any treasury share into treasury shares of a smaller amount is allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before.

2.5.3 Disposal and Cancellation

Where Shares are held as treasury shares, the Company may at any time:

- (a) sell the treasury shares (or any of them) for cash;
- (b) transfer the treasury shares (or any of them) for the purposes of, or pursuant to an employees' option scheme of the Company;
- (c) transfer the treasury shares (or any of them) as consideration for the acquisition of shares in or assets of, another company or assets of another person;
- (d) cancel the treasury shares (or any of them); or
- (e) sell, transfer or otherwise use the treasury shares (or any of them) for such other purposes as may be prescribed by the Minister for Finance.

ADDENDUM DATED 12 APRIL 2017

Under the Catalist Rules, an immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares (in each case, the “Usage”). Such announcement must include details such as the date of the Usage, the purpose of the Usage, the number of treasury shares comprised in the Usage, the number of treasury shares before and after the Usage, the percentage of the number of treasury shares comprised in the Usage against the total number of issued shares (of the same class as the treasury shares) which are listed on the SGX-ST before and after the Usage and the value of the treasury shares comprised in the Usage.

2.6 Source of Funds

The Company may use internal resources and/or external borrowings to finance purchases of its Shares pursuant to the Share Buyback Mandate. The Directors do not propose to carry out Share Buybacks to such an extent that would, or in circumstances that might, result in a material adverse effect on the financial position of the Company.

2.7 Reporting Requirements under the Companies Act

Within 30 days of the passing of a Shareholders’ resolution to approve the Share Buybacks by the Company, the Company shall lodge a copy of such resolution with the Accounting and Corporate Regulatory Authority (“ACRA”). The Company shall also notify the ACRA within 30 days of a purchase of Shares on the SGX-ST or otherwise. Such notification shall include details of the Share Buybacks, including the date of the purchase, the number of Shares purchased by the Company, the number of Shares cancelled, the number of Shares held as treasury shares, the Company’s issued share capital before and after the purchase of Shares, the amount of consideration paid by the Company for the Share Buybacks, and whether the Shares are purchased out of the profits or the capital of the Company.

Within 30 days of the cancellation or disposal of treasury shares in accordance with the provisions of the Companies Act, the Directors shall lodge with ACRA the notice of cancellation or disposal of treasury shares in the prescribed form as required by ACRA.

2.8 Tax Implications

Shareholders who are in doubt as to their respective tax positions or the tax implications as a result of any share purchase or acquisition by the Company, or who may be subject to tax whether in or outside Singapore, should consult their professional advisers.

2.9 Catalist Rules

Under the Catalist Rules, a listed company may purchase shares by way of Market Purchases at a price per share which is not more than five per cent (5%) above the average closing market price, being the average of the closing market prices of the shares over the last five Market Days, on which transactions in the shares were recorded, before the day on which the purchases were made. The Maximum Price for a Share in relation to Market Purchases by the Company, referred to in section 2.3.5(a) above, conforms to this restriction. Additionally, the Catalist Rules also specifies that a listed company shall report all purchases or acquisitions of its shares to the SGX-ST not later than 9.00 a.m.:

- (a) in the case of a Market Purchase, on the Market Day following the day of purchase of any of its shares; and
- (b) in the case of an Off-Market Purchase under an equal access scheme, on the second Market Day after the close of acceptances of the offer.

ADDENDUM DATED 12 APRIL 2017

Such announcement shall include, *inter alia*, details of the total number of shares authorised for purchase, the date of purchase, prices paid for the total number of shares purchased, the purchase price per share or (in the case of Market Purchases) the purchase price per share or the highest price and lowest price per share and the number of issued shares after purchase, in the form prescribed under the Catalist Rules.

While the Catalist Rules does not expressly prohibit any purchase of shares by a listed company during any particular time, because the listed company would be regarded as an “insider” in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase of Shares pursuant to the renewed Share Buyback Mandate at any time after any matter or development of a price-sensitive nature has occurred or has been the subject of consideration and/or a decision of the Directors until such price-sensitive information has been publicly announced.

Further, in line with the Company’s best practices guide on securities dealings under the Catalist Rules, the Company will not purchase or acquire any Shares through Market Purchases during the period commencing:

- (a) one (1) month immediately preceding the announcement of the Company’s annual (full year) results; and
- (b) one (1) month immediately preceding the announcement of the Company’s interim (half-year) results.

2.10 Listing Status

Catalist Rules requires a listed company to ensure that at least ten per cent (10%) of its Shares (excluding treasury shares) are in the hands of the public. The “public”, as defined under the Catalist Rules, are persons other than (i) the directors, chief executive officer, substantial shareholders or controlling shareholders of the Company and its subsidiaries; and the associates (as defined in the Listing Rules) of persons in (i). As at the Latest Practicable Date, there are 64,958,497 Shares in the hands of the public, representing 34.29% of the issued Shares of the Company (based on 189,423,497 issued Shares, excluding 6,300,000 treasury shares). As at the Latest Practicable Date, the Company has 189,423,497 issued Shares (excluding 6,300,000 treasury shares).

For illustrative purposes only, assuming that the Company purchases up to the maximum number of 10% of the issued Shares, being 18,942,349 Shares as at the Latest Practicable Date, from members of the public by way of an On-Market Purchase and of which 12,642,349 of such Shares will be held as treasury shares while the remaining 6,300,000 of such Shares will be cancelled, the resultant number of Shares held by the public after the purchase of such Shares would be 46,016,148 Shares, representing approximately 26.99% of the remaining issued Shares (excluding treasury shares). Accordingly, the Company is of the view that there are sufficient numbers of the Shares in issue held by public. Shareholders which would permit the Company to undertake purchases or acquisitions of its Shares through Market Purchases up to the full ten per cent (10%) limit pursuant to the Share Buyback Mandate without affecting the listing status of the Shares on the SGX-ST, and that the number of the Shares remaining in the hands of the public will not fall to such a level as to cause market illiquidity or to affect orderly trading.

In undertaking any purchase of its Shares, the Directors will use their best efforts to ensure that a sufficient number of Shares remain in public hands so that the share buyback(s) will not:

- (a) adversely affect the listing status of the Shares on the SGX-ST;
- (b) cause market illiquidity; or
- (c) adversely affect the orderly trading of Shares.

ADDENDUM DATED 12 APRIL 2017

2.11 Implications under the Take-over Code

The take-over implications arising from any purchase or acquisition by the Company of its Shares are set out below:

2.11.1 Obligation to make a take-over offer

Rule 14 of the Take-over Code ("**Rule 14**") requires, *inter alia*, that except with the consent of the Securities and Industry Council of Singapore ("**SIC**"), where:-

- (a) any person acquires, whether by a series of transaction over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30% or more of the voting rights or a company; or
- (b) any person who, together with persons acting in concert with him, holds not less than 30% but not more than 50% of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than 1% of the voting rights,

such person shall extend immediately an offer on the basis set out below to the holders of any class of shares in the capital which carries votes and in which such person or persons acting in concert with him hold shares. In addition to such person, each of the principal members of the group or persons acting in concert with him may, according to the circumstances of the case, have the obligation to extend an offer.

In calculating the percentages of voting rights of such person and their concert parties, treasury shares shall be excluded.

2.11.2 Persons acting in concert

Under the Take-over Code, persons acting in concert comprise individuals or companies, who, pursuant to an agreement or understanding (whether formal or informal) co-operate, through the acquisition by any of them of shares in a company, to obtain or consolidate effective control of that company. Unless the contrary is established, the following persons will, *inter alia*, be presumed to be acting in concert with each other under the Take-over Code:

- (a) the following companies:-
 - (i) a company;
 - (ii) the parent company of (i);
 - (iii) the subsidiaries of (i);
 - (iv) the fellow subsidiaries of (i);
 - (v) the associated companies of any of (i), (ii), (iii) or (iv);
 - (vi) companies whose associated companies include any of (i), (ii), (iii), (iv) or (v). For this purpose, a company is an associated company of another company if the second company owns or controls at least twenty per cent (20%) but not more than fifty per cent (50%) of the voting rights of the first-mentioned company; and
 - (vii) any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the above for the purchase of voting rights;

ADDENDUM DATED 12 APRIL 2017

- (b) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts);
- (c) a company with any of its pension funds and employee share schemes;
- (d) a person with any investment company, unit trust or other fund whose investment such person manages on a discretionary basis, but only in respect of the investment account which such person manages;
- (e) a financial or other professional adviser, including a stockbroker, with its client in respect of the shareholdings of:–
 - (i) the adviser and persons controlling, controlled by or under the same control as the adviser; and
 - (ii) all the funds which the adviser manages on a discretionary basis, where the shareholdings of the adviser and any of those funds in the client total 10% or more of the client's equity share capital;
- (f) directors of a company (together with their close relatives, related trusts and companies controlled by any of such directors, their close relatives and related trusts) which is subject to an offer or where the directors have reason to believe a *bona fide* offer for their company may be imminent;
- (g) partners; and
- (h) the following persons and entities:–
 - (i) an individual;
 - (ii) the close relatives of (i);
 - (iii) the related trusts of (i);
 - (iv) any person who is accustomed to act in accordance with the instructions of (i);
 - (v) companies controlled by any of (i), (ii), (iii) or (iv); and
 - (vi) any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the above for the purchase of voting rights.

The circumstances under which Shareholders (including Directors of the Company) and persons acting in concert with them respectively will incur an obligation to make a take-over offer under Rule 14 after a purchase or acquisition of Shares by the Company are set out in Rule 14 and Appendix 2 of the Take-over Code.

ADDENDUM DATED 12 APRIL 2017

2.11.3 Effect of Rule 14 and Appendix 2 of the Take-over Code

Appendix 2 of the Take-over Code contains the share buy-back guidance note. In general terms, the effect of Rule 14 and Appendix 2 is that, unless exempted, if, as a result of any purchase or acquisition by the Company of its Shares, the proportionate percentage of voting rights held by a Shareholder and persons acting in concert with him increase, such increase will be treated as an acquisition for the purposes of the Take-over Code. If as a result of such increase, a Shareholder or group of Shareholders acting in concert with a Director obtains or consolidates effective control of the Company, such Shareholder or group of Shareholders acting in concert with a Director could become obliged to make a take-over offer for the Company under Rule 14.

Under Appendix 2, a Shareholder not acting in concert with the Directors of the Company will not be required to make a take-over offer under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder would increase to 30 per cent (30%) or more, or, if such Shareholder holds between 30 per cent (30%) and 50 per cent (50%) of the Company's voting rights, the voting rights of such Shareholder would increase by more than one per cent (1%) in any period of six (6) months. Such Shareholder need not abstain from voting in respect of the resolution to approve the renewal of the Share Buyback Mandate. As Mr. Foo Chek Heng and his concert parties already collectively hold more than 50% of the Shares in the Company, he will not be required to make a take-over offer under the Take-over Code as a result of the Company buying back its own shares.

Under the Take-over Code, it is deemed that Foo Chek Heng and Salix Capital Pte Ltd (which is 100% owned as joint tenants by Heng Jee Moi and Foo Suay Lun, who are Foo Chek Heng's mother and son respectively) are acting in concert (the "**Concert Party Group**"). As at the Latest Practicable Date, the Concert Party Group holds an aggregate of 122,175,000 shares representing 64.50% of the Company's issued Shares (excluding treasury shares). Based on the shareholding of the Concert Party Group, in the event the Company undertakes Share Buybacks under the renewed Share Buyback Mandate up to the maximum number of ten per cent (10%) of the issued share capital of the Company (excluding treasury shares) as permitted by the renewed Share Buyback Mandate, the shareholdings and voting rights of the Concert Party Group will increase from 64.50% to 71.66%

2.12 **Details of the Shares Bought by the Company in the Previous 12 Months**

The Company did not purchase any Shares pursuant to the previous renewal of the Share Buyback Mandate approved by Shareholders at the AGM on 28 April 2016 up to the Latest Practicable Date.

3. **LIMITS ON SHAREHOLDINGS**

The Company does not have any limits on the shareholding of any Shareholder.

4. **FINANCIAL EFFECTS OF SHARE BUYBACK MANDATE**

4.1 **General**

Shareholders should note that the financial effects illustrated below are for illustration purposes only. In particular, it is important to note that the financial analyses set out below are based on the audited consolidated financial results of the Company and the Group for the financial year ended 31 December 2016 and are not necessarily representative of future financial performance. Although the Share Buyback Mandate would authorise the Company to buy back up to ten per cent (10%) of the Company's issued Shares (excluding treasury shares), the Company may not necessarily buyback or be able to buyback ten per cent (10%) of the issued Shares (excluding treasury shares) in full.

ADDENDUM DATED 12 APRIL 2017

4.2 The Share Buyback Mandate

It is not possible for the Company to realistically calculate or quantify the impact of purchases as the resultant effect would depend on factors such as the aggregate number of Shares purchased, the purchase prices paid at the relevant time, the amount (if any) borrowed by the Company to fund the purchases whether the purchase or acquisition is made out of profits or capital, and whether the Shares purchased are held as treasury shares or cancelled.

Under the Companies Act, Share Buybacks by the Company may be made out of the Company's capital or profits so long as the Company is solvent. Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of profits, such consideration (including brokerage, stamp duties, applicable goods and services tax and other related expenses) will correspondingly reduce the amount available for the distribution of cash dividends by the Company. Where the consideration (including brokerage, stamp duties, applicable goods and services tax and other related expenses) paid by the Company for the purchase or acquisition of Shares is made out of capital, the amount available for the distribution of cash dividends by the Company will not be reduced.

The Share Buybacks will only be made after considering relevant factors such as the availability of financial resources, the expansion and investment plans of the Group, and the prevailing market conditions. The Share Buyback Mandate will be exercised with a view to enhance Shareholders' value as set out in section 2.2. The financial effects of the Company and the Group, presented in this section 4.2, based on audited consolidated financial results of the Company and the Group for the financial year ended 31 December 2016; are based on the assumptions set out below:

- (a) based on 189,423,497 Shares in issue (excluding 6,300,000 treasury shares) as at the Latest Practicable Date and assuming no further Shares are issued and no further Shares are purchased or acquired pursuant to the Share Buyback Mandate, and assuming there was no exercise of 400,000 outstanding options ("**Options**") convertible into 400,000 Shares under the Koyo International Employee Share Option Scheme 2011 on or prior to the AGM;
- (b) transaction costs incurred for the purchase or acquisition of Shares pursuant to the Share Buyback Mandate are assumed to be insignificant and have been ignored for the purposes of computing the financial effects;
- (c) in the case of a Market Purchase by the Company and assuming that the Company purchases or acquires 18,942,349 Shares at the Maximum Purchase Price of S\$0.066 for one Share (being the price equivalent to 105% of the Average Closing Price for the Shares for the five consecutive Market Days on which Shares were traded on the SGX-ST immediately preceding the Latest Practicable Date of 28 March 2017), the maximum amount of funds required for the purchase or acquisition of 18,942,349 Shares is S\$1.250 million; and
- (d) in the case of an Off-Market Purchase by the Company and assuming that the Company purchases or acquires 18,942,349 Shares at the Maximum Purchase Price of S\$0.078 for one Share (being the price equivalent to 20% above the Highest Last Dealt Price for the Shares for the Market Day on which there were trades on the Shares immediately preceding the Latest Practicable Date of 28 March 2017), the maximum amount of funds required for the purchase or acquisition of 18,942,349 Shares is S\$1.478 million.

ADDENDUM DATED 12 APRIL 2017

For illustrative purposes only and on the basis of the assumptions set out in (a), (b), (c) and (d) above, the financial effects for Share buybacks made entirely out of profits and capital are as follow:

4.2.1 **Market or Off-Market Purchases made entirely out of profits and cancelled, or held as treasury shares**

The Company does not have enough accumulated profit as at 31 December 2016 to acquire or purchase Shares entirely out of profits and as such, it is not possible to calculate the financial effects of the Share Buyback made entirely out of profits whether by way of Market or Off-Market Purchases.

4.2.2 **Market or Off-Market Purchases made entirely out of capital and cancelled, or held as treasury shares**

The financial effects of the purchase or acquisition of 18,942,349 Shares by the Company pursuant to the Share Buyback Mandate made entirely out of capital by way of Market and Off-Market Purchases and cancelled, or held as treasury shares based on the audited consolidated accounts of the Group and the Company for the financial year ended 31 December 2016 as if the Share Buyback Mandate had been effective on 31 December 2016 are set out below:

For the purpose of these illustrations, it was assumed that the Company withdraws S\$1,478,000 from its bank deposit accounts to settle purchases of its Shares. The Company may, however, when making Shares purchases pursuant to the Share Buyback Mandate, use other internal resources to finance the purchase.

Shareholders should note that the financial effects set out above are for illustrative purposes only. It should be noted that the above analyses are based on historical audited financial statements for the financial year ended 31 December 2016 and is not necessarily representative of future financial performance.

Although the Share Buyback mandate would authorise the Company to purchase or acquire up to ten per cent (10%) of the issued Shares, the Company may not necessarily purchase or acquire or be able to purchase or acquire the entire ten per cent (10%) of the total issued ordinary share capital of the Company. In addition, the Company may cancel all or part of the Shares repurchased or may hold all or part of the Shares repurchased in treasury shares (subject to the provisions under the Companies Act).
