However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for FY2025.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in N2.1 below.

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (“**functional currency**”). HENGYANG PETROCHEMICAL LOGISTICS LIMITED
UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD ENDED 30 JUNE 2026

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2025.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements made in applying the accounting policies

The following is the critical judgement, apart from those involving estimations (see below) that management has made in the process of applying the Group's accounting policies and which have a significant effect on the amounts recognised in the financial statements.

Joint control

As at 30 June 2026, the Group (through Hengyang Holding Pte Ltd), Sinopec Chemical Sales Company Limited ("**Sinopec Chemical**"), CITIC Port Investment Co., Ltd. ("**CITIC Port**") and Zhangjiagang Bonded-zone Yituo Petrochemical Co., Ltd. ("**Yituo Petrochemical**") respectively hold 41.64%, 49.16%, 1.68% and 7.52% of the equity interest in China Holdco.

Management has carried out an assessment to determine whether the Group continues to have joint control over China Holdco. The assessment included review of unanimous consent from the three joint venture partners for certain reserved matters and relevant activities which will significantly affect the returns of the joint venture. Accordingly, the Company concluded that it is appropriate to classify China Holdco as a joint venture of the Company (N7).

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the financial period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, are discussed below.

Impairment of investment in a joint venture

The Group conducts impairment test annually and had carried out a review of the investment in joint venture for FY2025. Given the loss reported by China Holdco Group for 1H2026, the management has reviewed and the Board of Directors has agreed to an interim impairment to the Group's investment in China Holdco amounting to RMB82.24 million (1H2025: Nil). The Group will still review its investment in the joint venture at the end of the current financial year. The Group's carrying amount of investment in a joint venture as at 30 June 2026 was RMB253,267,000 (31 December 2025: RMB491,408,000).

As announced by the Company in its announcements dated 16 October 2025, 10 December 2025, 5 February 2026, 30 April 2026 and 15 May 2026, the SDN Inclusion adversely affected the Group's operations. China Holdco Group registered lower revenue as customers (in particular customers with foreign presence) have adopted a more cautious approach in their engagements with China Holdco Group amid uncertainty regarding the timeline for removal from the SDN List. The lack of clarity over the cost, duration and outcome of the removal from the SDN List continues to affect business operations and visibility.

These include the temporary suspension of new investments, the reduction or deferral of non-essential capital expenditures, and the optimisation of labour-related costs through enhanced workforce management.

Taking into account the results of China Holdco Group for 1H2026 and in consideration of the prevailing uncertainties relating to the placement on SDN List, the Group expects business conditions to remain challenging over the next 12 months and will continue to monitor developments closely, while maintaining a disciplined approach to cost management and operational efficiency.
