Consolidated Statement of Comprehensive Income

No revenue was recorded in both 2Q FY2014 and 2Q FY2013 as the Group was primarily involved in exploration and drilling activities.

Administrative expenses increased by US\$2.12 million, from US\$0.27 million in 2Q FY2013 to US\$2.39 million in 2Q FY2014. The increase was primarily due to rapid expansion of the Group's operations and additions to headcount in the Singapore office. Administrative expenses in 2Q FY2014 largely comprised staff costs and operational expenses incurred in the Singapore office of US\$1.62 million, as well as consultancy and professional fees of US\$0.48 million.

Finance income of US\$0.25 million registered in 2Q FY2014 arose from interest income on funds invested, including debt securities. Net foreign exchange gain of US\$0.65 million recorded in 2Q FY2014 was due to an overall strengthening of the Singapore dollar against the United States dollar.

Share of loss of jointly controlled entities increased to US\$2.15 million in 2Q FY2014, from US\$0.46 million in 2Q FY2013, an increase of US\$1.69 million.

The aforementioned share of loss of jointly controlled entities of US\$2.15 million in 2Q FY2014 was attributable to 1) Caribbean Rex with share of loss of US\$0.14 million, 2) HiRex with share of loss of US\$0.44 million, 3) Rexonic with share of loss of US\$0.73 million, and 4) Lime with share of loss of US\$0.84 million.

Comparatively, the Group's share of loss of jointly controlled entities and an associate of US\$0.46 million in 2Q FY2013 was attributable to 1) Lime with share of loss of US\$0.19 million, and 2) Fram Exploration ASA ("**FRAM**") with share of loss of US\$0.27 million. Following the restructuring of the Group's assets in the US which was completed during the quarter ended 31 December 2013, the Group had subsequently re-assessed its involvement in FRAM and concluded that it no longer had significant influence in FRAM's financial and operating decisions. The Group ceased equity accounting for the results of FRAM from the point where significant influence was lost and reclassified the carrying value from investment in associate to available-for-sale investment on 18 October 2013.

The share of loss in relation to Caribbean Rex, HiRex and Rexonic in 2Q FY2014 were predominantly due to expenses incurred in relation to well stimulation, exploration and drilling activities.

The increase in the share of loss in Lime from US\$0.19 million in 2Q FY2013 to US\$0.84 million in 2Q FY2014 was largely due to the acquisition of seismic data and expenses incurred in relation to Rex Virtual Drilling and extended well testing in Oman.

Overall, the Group registered loss for the period of US\$3.63 million and total comprehensive loss of US\$4.01 million in 2Q FY2014, as compared to loss for the period which represented total comprehensive loss of US\$0.69 million in 2Q FY2013.

Statement of Financial Position

Non-current assets increased to US\$98.54 million as at 30 June 2014, from US\$82.50 million as at 31 December 2013. The increase was largely due to 1) capital injections into Lime and Caribbean Rex of US\$12.74 million and US\$2.57 million respectively over the six-month period, partially offset by share of loss in the jointly controlled entities of US\$3.68 million, and 2) purchase of an available-for-sale investment in North Energy ASA of US\$3.84 million, which was subsequently marked to market at US\$4.41 million as at 30 June 2014.

The Group's equity interest in FRAM, classified under available-for-sale investment, has been diluted from 27.87% to 22.29% as at 30 June 2014 pursuant to an external investor's investment in FRAM. Given that the prolonged time taken to complete the aforementioned transaction may have delayed FRAM's execution of its on-going obligations, the Group will monitor the situation closely and continues to take a cautious view as FRAM is reliant on securing sufficient financing for its operations.

Quoted investments increased to US\$23.00 million as at 30 June 2014, from US\$7.52 million as at 31 December 2013, due to purchase of debt securities.

The Group had working capital of US\$72.85 million as at 30 June 2014, as compared to working capital of US\$94.33 million as at 31 December 2013, a decrease of US\$21.48 million. The decrease in working capital was largely due to capital injections into jointly controlled entities of US\$15.31 million, purchase of available-for-sale investment of US\$3.84 million and general working capital of US\$3.18 million.

Statement of Cash Flows

The Group reported a net cash outflow of US\$0.72 million in 2Q FY2014 from its operating activities, after accounting for movements in working capital. This was primarily due to staff costs and operational expenses incurred in the Singapore office as well as consultancy and professional fees incurred in relation to the Group's activities.

Net cash used in investing activities of US\$8.98 million in 2Q FY2014 was mainly attributable to capital injections into jointly controlled entities of US\$4.91 million in 2Q FY2014, and purchase of quoted investments of US\$4.32 million. Cash outflow from investing activities was partially offset by interest received of US\$0.25 million from quoted investments in 2Q FY2014.

The Group recorded an overall net decrease in cash and cash equivalents of US\$9.75 million in 2Q FY2014. Cash and cash equivalents stood at US\$49.93 million as at end of 2Q FY2014, compared to US\$21.94 million as at end of 2Q FY2013.

Barclay's "Global 2014 E&P Spending Update" report said that oil and gas companies will increase exploration and production (E&P) spending by 6 per cent to US\$712 billion in 2014, despite a slight pullback in spending by industry majors. Barclays said it expected higher spending in Africa and Asia this year, but lower capital budgets in Europe and Latin America would limit the overall increase. The report is based on a survey of more than 300 oil and gas companies in May 2014.

The Group is continuing its five-well onshore drilling programme in Trinidad into the third and fourth quarters of 2014. It is also on track with its plans to undertake extended well testing and early production in the Block 50 Oman concession in the first half of 2015. Active discussions on other business opportunities continue to be in progress and the Company will make the necessary announcements as and when there are material developments.
