Business Review for the Year Ended 31 December 2018

4 Key Financial Performance

1 Key Highlights

Key Highlights

- 2018 full year throughput of HPH Trust's ports was 1% below last year. YICT's throughput was 4% above last year. Combined throughput of HIT, COSCO-HIT and ACT (collectively "HPHT Kwai Tsing") was 7% below last year
- The overall trend in outbound cargoes to the US was positive in 2018. Full year growth in US outbound cargoes was 5%; with 2018 fourth quarter growth increasing to 10% driven by the frontloading of cargoes in anticipation of the 25% tariff implementation originally scheduled in January 2019 by the US to Chinese exports. On the other hand, outbound cargoes to the EU was weak in 2018 and below 2017 by 1%. YICT's full year throughput growth was mainly attributed to growth in the US and transshipment cargoes. The drop in HPHT Kwai Tsing's throughput was mainly due to reduction in transshipment cargoes
- Following the asset impairment assessment performed during the period and in view of the mounting global trade uncertainties, the behavioural changes in multinational corporations caused by the current trade tensions, including accelerating the diversification of production bases outside of China and the effects stemming from the structural changes within the shipping line industry, the Group has recognised non-cash impairment losses of HK\$12,289.0 million
- NLAT for the year was HK\$10,246.0 million, HK\$12,463.5 million or 562% below last year. NLAT attributable to unitholders was HK\$11,551.3 million, HK\$12,495.5 million or 1,323% below last year, mainly due to the aforementioned non-cash impairment losses

Key Highlights (cont'd)

- Excluding the impairment impact, 2018 full year NPAT was HK\$2,043.0 million, 8% below last year. NPAT attributable to unitholders was HK\$737.7 million, 22% below last year
- 2018 full year Distribution Per Unit ("DPU") is 17.00 HK cents
- On 8 January 2019, HIT, COSCO-HIT, ACT and Modern Terminals Limited entered into a Hong Kong Seaport Joint Operating Alliance Agreement regarding the terms on which they will collaborate with each other for the efficient management and operation of the 23 berths in Kwai Tsing

2 Outlook and Prospects

Outlook and Prospects

Overview

- Fiscal 2019 has commenced with forecasts of slower international trade and further structural changes to container shipping lines. These developments make forecasting cargo volumes challenging and consequently the Trustee-Manager will continue to focus on cost discipline and efficiency improvements to better serve its customers and protect the business from any downturn in cargoes handled
- A number of macro-economic and political uncertainties are believed to be behind the forecast international trade slowdown including:
 - 1. A slowing Chinese economy, mainly attributable to Government policy to address the growth of debt;
 - 2. A slowing EU economy;
 - 3. The absence of a parliamentary approved agreement on Britain's withdrawal from the EU and its effect on business sentiment; and
 - 4. Uncertainty as to whether trade negotiations will result in the normalisation of US/China trade. Regardless of the outcome of the negotiations, there is a risk that long established supply chains in southern China will be altered over time to the detriment of HPH Trust

Outlook and Prospects (cont'd)

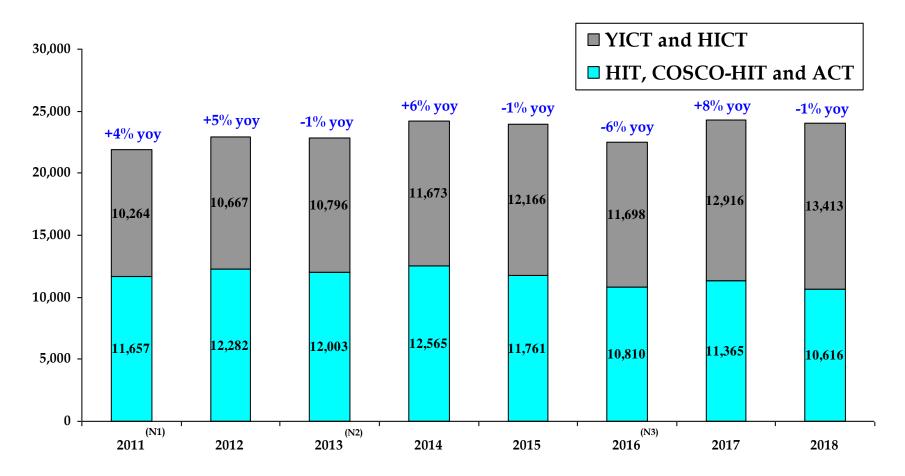

Overview

• Further structural changes to container shipping lines are anticipated. While the creation of further cost sharing alliances is not expected, further deployment of mega vessels will continue necessitating investment in port equipment and processes by deep water port operators handling these vessels. HPH Trust is committed to serving its customers with ongoing investment in facilities and services. In Hong Kong, the Trustee-Manager believes the formation of the Hong Kong Seaport Alliance, announced in January 2019 between HIT, COSCO-HIT, ACT and Modern Terminals Limited will enable better vessel berth planning and deployment and cost efficiencies to be achieved

3 Business Review for the Year Ended 31 December 2018

Key Business Update

Throughput Volume (TEU in thousand)

N1 2011 throughput volume is on full year basis (i.e. include the throughput volume before listing) for comparison purpose

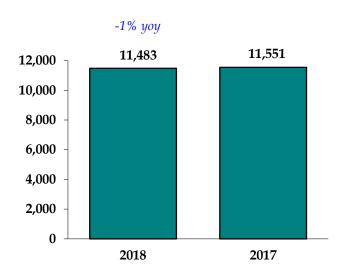

N2 Includes throughput volume of ACT after the acquisition in March 2013

N3 Includes throughput volume of HICT after the acquisition in December 2016

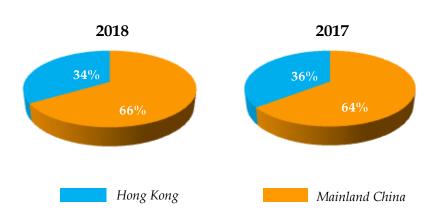

Revenue and other income
