### REPORT SUMMARY

### **KEY HIGHLIGHTS**

- Higher revenue at \$76.5 million<sup>1</sup> for the quarter and \$307.4 million for the year; EBITDA for the quarter was marginally down at \$42.9 million but higher at \$181.0 million for the year
- Broadband ARPU increased guarter-on-quarter, while Basic cable TV ARPU remained unchanged
- As at 31 December 2020, total number of subscribers surpassed the 1.2 million mark to reach c.1,203,000, driven by growth in Premium digital cable TV and Broadband subscribers which have been steadily increasing for the past 11 quarters
- Despite intense competition, Broadband subscribers rose 16% over the last 24 months, underscoring the success of TBC's Broadband growth strategy
- Distribution of 0.25 cents per unit declared for the quarter; re-affirmed distribution guidance of 1.0 cent per unit for 2021, subject to no material changes in planning assumptions

### FINANCIAL HIGHLIGHTS

Asian Pay Television Trust ("APTT"<sup>2</sup>) rounded up the year ended 31 December 2020 with higher revenue and EBITDA. For the full year, revenue increased 5.0% to \$307.4 million, while EBITDA improved 3.7% to \$181.0 million. For the quarter, revenue increased 3.0% to \$76.5 million, while EBITDA declined marginally by 0.1% to \$42.9 million.

Foreign exchange contributed to a positive variance of 5.7% for the quarter and 6.1% for the year compared to the prior corresponding period ("pcp"). In constant Taiwan dollar ("NT\$"), total revenue for the quarter and year was lower by 2.7% and 1.1%, compared to the pcp.

Unlike previous quarters where ARPU<sup>3</sup> continued to decline, Broadband ARPU improved by NT\$1 to NT\$356 per month, while Basic cable TV ARPU remained unchanged at NT\$482 per month. Notwithstanding this, the pricing competition across the entire cable TV and telecommunications industry continues to put a downward pressure on TBC's ARPUs.

As at 31 December 2020, total number of subscribers surpassed the 1.2 million mark to reach c.1,203,000, driven by continued growth in Premium digital cable TV and Broadband subscribers which has been steadily increasing for the past 11 quarters.

Operating expenses for the quarter and year increased primarily due to the impact of foreign exchange, higher staff costs and other operating expenses. In constant NT\$, broadcast and production costs for the quarter and year remained stable. EBITDA margin for the quarter and year were 56.0% and 58.9%, respectively.

<sup>&</sup>lt;sup>1</sup> All figures, unless otherwise stated, are presented in Singapore dollars ("\$").

<sup>&</sup>lt;sup>2</sup> APTT refers to APTT and its subsidiaries taken as a whole.

<sup>&</sup>lt;sup>3</sup> ARPU refers to Average Revenue Per User.

<sup>&</sup>lt;sup>4</sup> A positive variance is favourable to the Group and a negative variance is unfavourable to the Group.

<sup>&</sup>lt;sup>5</sup> Operating expenses presented here exclude one-time settlement of programming fees, depreciation and amortisation expense, net foreign exchange gain/loss and mark to market movements on foreign exchange contracts appearing in the consolidated statements of profit or loss on page 17, in order to arrive at EBITDA and EBITDA margin presented here. Settlement of programming fees were \$5.4 million and represent a one-time programming cost following final negotiations between TBC and the agent in relation to the content programming discussions TBC had been facilitating between its programming vendors and agent since 2019.

### OPERATIONAL PERFORMANCE

TBC's<sup>6</sup> operational highlights for the quarter and year ended 31 December 2020 were as follows:

- Basic cable TV: Basic cable TV revenue of \$60.4 million for the quarter, which comprised subscription revenue of \$48.7 million and non-subscription revenue of \$11.7 million, was up 2.2% on the pcp. On a full year basis, Basic cable TV revenue of \$243.6 million, comprising subscription revenue of \$195.6 million and non-subscription revenue of \$48.0 million, was up 4.9% on the pcp. In constant NT\$, Basic cable TV revenue for the quarter and year decreased by 3.5% and 1.2%. TBC's c.709,000 Basic cable TV RGUs<sup>7</sup> contributed an ARPU of NT\$482 per month in the quarter to access over 100 cable TV channels. Basic cable TV RGUs decreased by c.7,000, but ARPU remained unchanged compared to the previous quarter ended 30 September 2020 (RGUs: c.716,000; ARPU: NT\$482 per month). The decline in Basic cable TV RGUs was due to a number of factors including video piracy issues, competition from aggressively priced IPTV, the growing popularity of online video, as well as expectations from consumers for discounts as they compare with the lower cable TV pricing outside of TBC's five franchise areas, particularly in the Taipei region. Non-subscription revenue for the guarter, including revenue from the leasing of television channels to third parties, the sale of airtime advertising and fees for the installation of set-top boxes, was higher than the pcp mainly due to the impact of foreign exchange. Nonsubscription revenue for the year was higher than the pcp mainly due to higher revenue generated from channel leasing and airtime advertising sales. The leasing of television channels, which is mainly to third-party home shopping networks, will continue to face pressures from lower demand for home shopping and heightened competition from internet retailing. These trends will continue to impact channel leasing revenue not just for TBC, but for the entire cable industry in Taiwan.
- Premium digital cable TV: Premium digital cable TV revenue of \$3.2 million for the quarter ended 31 December 2020 was up 0.1% on the pcp. On a full year basis, Premium digital cable TV revenue of \$13.0 million was 1.4% higher. In constant NT\$, Premium digital cable TV revenue for the quarter and year decreased by 5.6% and 4.7%. Revenue was generated predominantly from TBC's c.244,000 Premium digital cable TV RGUs each contributing an ARPU of NT\$90 per month in the quarter for Premium digital cable TV packages and bundled DVR or DVR-only services. Premium digital cable TV RGUs increased by c.9,000 but ARPU was lower compared to the previous quarter ended 30 September 2020 (RGUs: c.235,000; ARPU: NT\$95 per month) due to promotions and discounted bundled packages that were offered to generate new RGUs and to retain existing RGUs. Video piracy issues and aggressively priced IPTV have also impacted ARPU.
- **Broadband:** Despite the strong competition from mobile operators offering inexpensive unlimited wireless data plans, Broadband RGUs continued to increase during the quarter. Broadband revenue of \$12.9 million for the quarter ended 31 December 2020 was up 7.8% on the pcp. On a full year basis, Broadband revenue of \$50.8 million was 6.6% higher. In constant NT\$, Broadband revenue for the quarter and year increased by 2.1% and 0.5%. Broadband revenue was generated predominantly from TBC's c.250,000 Broadband RGUs each contributing an ARPU of NT\$356 per month in the quarter for high-speed Broadband services. Broadband RGUs increased by c.2,000 and ARPU was marginally higher compared to the previous quarter ended 30 September 2020 (RGUs: c.248,000; ARPU: NT\$355 per month). The availability of low-cost unlimited data offerings from mobile operators is necessitating fixed-line operators to offer higher speeds at competitive prices to acquire new RGUs and re-contract existing RGUs.

Mr Brian McKinley, Chief Executive Officer of the Trustee-Manager said, "Our total subscriber base has surpassed the 1.2 million mark, driven by continued growth in Premium digital cable TV and Broadband subscribers which has more than offset Basic cable TV churn. The 16% increase in Broadband subscribers over the last 24 months validates our Broadband strategy of attracting new subscribers with higher speed plans and higher value-added solutions that leverage the Android gateway. To mitigate the pressure on ARPU, we will further our efforts to develop new market segments for Broadband, and at the same time, unlock the potential of TBC's data backhaul service, which is expected to be a key component of our Broadband business within the next few years."

<sup>&</sup>lt;sup>6</sup> TBC refers to Taiwan Broadband Communications group.

<sup>&</sup>lt;sup>7</sup> RGUs refer to Revenue Generating Units, another term for subscribers or subscriptions; the terms are used interchangeably.

As a proof-of-concept, TBC has been providing data backhaul for 4G networks to a number of wireless operators who prefer tapping into its network, rather than its main competitor who is also competing in the wireless space. Taiwan's 5G rollout will be a multi-year investment for the wireless operators, presenting opportunities for TBC's data backhaul business.

Mr McKinley added, "We are exercising an abundance of caution amid the competition and an uncertain global economic environment. A key priority is to continue strengthening our balance sheet by managing debt levels and limiting capital expenditure to only what is necessary, and on areas that can support our aggressive push to grow our Broadband business. Capital expenditure, which is trending down, will continue to be funded by cash generated from operations and not bank borrowings."

### **OUTLOOK**

The Trustee-Manager is in the advanced stages with lenders to refinance APTT's Offshore Facilities which are due for maturity in July 2021. In January 2021 an amendment request letter was issued to the facility agent seeking extension of the maturity date by two years to 14 July 2023. As at the date of this report, the terms of the extension have been agreed with the majority of lenders in the syndicate and the Trustee-Manager expects to receive approvals from the remaining lenders before the end of the first quarter of 2021. The Trustee-manager believes that it will successfully extend the maturity date of the Offshore Facilities by two years, up to 14 July 2023.

While the Trustee-Manager does not expect growth in Basic cable TV RGUs due to Taiwan's saturated cable TV market, it expects the number of Premium digital cable TV and Broadband RGUs to continue increasing in 2021. Total revenue will, however, be influenced by the ability to maintain ARPUs which will remain under pressure due to market dynamics. The decline in demand for home shopping and competition from internet retailing will continue to put pressure on channel leasing revenue for the cable industry. Total operating expenses in 2021 are expected to be in line with 2020.

With capital expenditure trending down, more cash generated from operations may be available to make debt repayments, subject to operating conditions.

### DISTRIBUTIONS

The Board of directors of the Trustee-Manager has declared an ordinary distribution of 0.25 cents per unit for the quarter ended 31 December 2020. The record date will be 19 March 2021 and the distribution will be paid on 26 March 2021.

The Board is re-affirming the distribution guidance for the year ending 31 December 2021. Distribution for 2021 is expected to remain at 1.0 cent per unit, to be paid in quarterly instalments of 0.25 cents per unit per quarter, subject to no material changes in planning assumptions.

### **IMPACT OF COVID-19**

TBC operates in a relatively defensive industry, providing cable TV and fixed-line broadband services to the local households in its five closely clustered franchise areas in northern and central Taiwan. Given the subscription-based nature of its business, the impact of the COVID-19 pandemic on TBC has been limited to date.

TBC activated its Business Continuity Plan ("BCP") since the start of the virus outbreak in Taiwan. The BCP aims to protect the health and safety of all staff while minimising disruptions to its service delivery and overall operations. TBC has adhered to all regulations and guidelines from government authorities related to the containment of the virus, including split team arrangements, safe-distancing and encouraging staff to embrace good personal hygiene, and will continue to do so.

Likewise, the Trustee-Manager in Singapore has activated its BCP plan that adheres to the relevant regulations in Singapore.

Additional expenses incurred to implement COVID-19 related measures during the year ended 31 December 2020, were not material. While some additional expenses are expected to be incurred to implement COVID-19 related measures in 2021, they are not expected to be material.

While the COVID-19 outbreak in Taiwan has been relatively contained as compared to other countries, Taiwan's outlook remains uncertain as the expected downturn in other countries will invariably have an impact on Taiwan's export-driven economy and GDP growth. A significant and prolonged deterioration in the national GDP, disposable income or overall economic conditions could in turn adversely affect TBC's ability to grow or maintain revenues, and its financial position.

The Trustee-Manager will continue to:

- monitor developments of COVID-19 and their related impact on operations; and
- exercise prudence, manage its operational and capital expenditure and strengthen APTT's debt management programme.
   A stronger balance sheet will provide APTT with the flexibility to navigate and compete more effectively in today's uncertain economic climate.

# **PERFORMANCE REVIEW OF ASIAN PAY TELEVISION TRUST**

### INTRODUCTION

### **ABOUT APTT**

Asian Pay Television Trust ("APTT" or the "Trust") is a business trust constituted on 30 April 2013 under the laws of the Republic of Singapore and registered under Chapter 31A of the Business Trusts Act ("BTA"). APTT is managed by APTT Management Pte. Limited (the "Trustee-Manager"). The Trustee-Manager is a wholly owned subsidiary of Dynami Vision Pte. Ltd. ("Dynami"), which is a Singapore-incorporated company. As at the date of this report, Dynami is fully owned by Mr Lu Fang-Ming, the Chairman of Asia Pacific Telecom Co., Ltd.

APTT was admitted to the Main Board of the Singapore Exchange Securities Trading Limited ("SGX-ST") and was listed on the SGX-ST on 29 May 2013. APTT is the first listed business trust in Asia focused on pay-TV and broadband businesses. APTT has approximately 10,900 unitholders as at 31 December 2020, including retail investors and some of the world's foremost institutional investors.

APTT's investment mandate is to acquire controlling interests in and to own, operate and maintain mature, cash generative pay-TV and broadband businesses in Taiwan, Hong Kong, Japan and Singapore.

### **SOLE ASSET**

As at the date of this report, APTT's portfolio comprised its sole investment, Taiwan Broadband Communications group ("TBC"). Established in 1999, TBC is a leading cable operator in Taiwan. TBC's vision is to provide seamless access to the most compelling and competitive suite of media and communication products and services in Taiwan.

TBC owns 100% of the advanced hybrid fibre coaxial cable network in its five closely clustered franchise areas in northern and central Taiwan with network coverage of more than 1.2 million homes. Through this network, TBC delivers Basic cable TV, Premium digital cable TV and high-speed fixed-line Broadband services to subscribers in these areas. TBC has more than 1.2 million RGUs across its subscriber base, providing them the choice from over 175 channels of exciting local and international content on its digital TV platforms and a full range of quality high-speed broadband access packages with speeds ranging up to 1 Gbps.

### DISTRIBUTION POLICY

Distributions will be declared and paid in Singapore dollars. Any proposed distributions by the Trust will be paid from its residual cash flows ("distributable free cash flows"). These cash flows are derived from dividends and principal and interest payments (net of applicable taxes and expenses) received by the Trust from the entities held within the Group. In addition, any other cash received by the Trust from the entities held within the Group also contribute towards distributable free cash flows.

The distributable free cash flows available to the Trust are after any cash required to: (i) pay the operating expenses of the Trust, including the Trustee-Manager's fees, (ii) repay principal amounts (including any premium or fee) under any debt or financing arrangement of the Trust, (iii) pay interest or any other financing expense on any debt or financing arrangement of the Trust, (iv) provide for the cash flow needs of the Trust or to ensure that the Trust has sufficient funds and/or financing resources to meet the short-term liquidity needs of the Trust and (v) provide for the cash needs of the Trust for capital expenditure purposes.

The Trust intends to distribute 100% of its distributable free cash flows.

Distributions will be made on a quarterly basis, with the amount calculated as at 31 March, 30 June, 30 September and 31 December each year for the three-month period ending on each of the said dates. The Trustee-Manager will pay the distributions no later than 90 days after the end of each distribution period.

### **DISTRIBUTIONS**

The Board of directors of the Trustee-Manager has declared an ordinary distribution of 0.25 cents per unit for the quarter ended 31 December 2020.

### **TAXATION**

### **Taxation of the Trust**

The Trust is a business trust registered with the Monetary Authority of Singapore ("MAS") under the BTA. The Trust is liable to Singapore income tax on income accruing in or derived from Singapore (i.e. Singapore sourced income) and unless otherwise exempt, income derived from outside Singapore which is received or deemed to have been received in Singapore (i.e. foreign sourced income). Foreign sourced dividends received by the Trust would only be subject to Singapore income tax when received in Singapore or deemed received in Singapore, subject to certain exemptions. Subject to meeting certain stipulated conditions and reporting obligations, the Trust has obtained an exemption under Section 13(12) of the Income Tax Act, Chapter 134 of Singapore ("Income Tax Act") on dividend income received by the Trust from the Bermuda holding companies after its listing on the SGX-ST. Specifically, the Trust will be exempt from tax on dividends from the Bermuda holding companies that originate from dividends and interest paid out of underlying profits from substantive cable and broadband business activities carried out in Taiwan.

### **Taxation of the unitholders**

Pursuant to Section 13(1)(zg) of the Income Tax Act, distributions by the Trust are tax-exempt and are therefore not subject to Singapore income tax in the hands of unitholders. The distributions are also not subject to Singapore withholding tax.

The tax exemption is given to all unitholders, regardless of their nationality, corporate identity or tax residence status. Unitholders are not entitled to tax credits for any taxes paid by the Trustee-Manager.

The Trust does not give tax advice and recommends that all unitholders obtain their own tax advice in relation to the distribution payment.

### SELECTED FINANCIAL INFORMATION AND OPERATING DATA

The selected financial information and operating data presented on pages 12 and 13 support the distributions to unitholders and therefore are key financial and operating metrics that the Trustee-Manager focuses on to review the amount of distributions that will be paid to unitholders. Some of the selected financial information includes non-IFRS measures.

#### **Non-IFRS** measures

EBITDA and EBITDA margin are supplemental financial measures of the Group's performance and liquidity and are not required by, or presented in accordance with International Financial Reporting Standards ("IFRS") or any other generally accepted accounting principles. Furthermore, EBITDA and EBITDA margin are not measures of financial performance or liquidity under IFRS or any other generally accepted accounting principles and should not be considered as alternatives to net income, operating income or any other performance measures derived in accordance with IFRS or any other generally accepted accounting principles. EBITDA and EBITDA margin may not reflect all of the financial and operating results and requirements of the Group. In particular, EBITDA and EBITDA margin do not reflect the Group's needs for capital expenditures, debt servicing or additional capital that may be required to replace assets that are fully depreciated or amortised. Other companies may calculate EBITDA and EBITDA margin differently, limiting their usefulness as comparative measures.

The Trustee-Manager believes that these supplemental financial measures facilitate operating performance comparisons for the Group from period to period by eliminating potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods of changes in effective tax rates or net operating losses) and the age and book depreciation of tangible assets (affecting relative depreciation expense). In particular, EBITDA eliminates the non-cash depreciation expense that arises from the capital-intensive nature of the Group's businesses and intangible assets recognised in business combinations. The Trustee-Manager presents these supplemental financial measures because it believes these measures are frequently used by securities analysts and investors in evaluating similar issuers.

Broadband	(0.9)	(0.9)	(0.8)	(0.9)	(1.0)				

<sup>&</sup>lt;sup>1</sup> Average Revenue Per User ("ARPU") is calculated by dividing the subscription revenue for Basic cable TV or Premium digital cable TV or Broadband, as applicable, by the average number of RGUs for that service during the period.

The table below sets out TBC's monthly Basic cable TV rates for its franchise areas from 2017 to 2021:

Franchise area Amounts in NT\$	2021	2020	2019	2018	2017
South Taoyuan	510	510	510	510	510
Hsinchu County	570	570	570	570	570
North Miaoli	560	560	560	560	560
South Miaoli	560	560	560	560	560
Taichung City	550	550	550	550	550

<sup>&</sup>lt;sup>2</sup> Average Monthly Churn Rate ("AMCR") is calculated by dividing the total number of churned RGUs for a particular service during a period by the number of RGUs for that service as at the beginning of that period. The total number of churned RGUs for a particular service for a period is calculated by adding together all deactivated subscriptions, including deactivations caused by failure to make payments for that service from the billing system for the period.

### REVIEW OF SELECTED FINANCIAL INFORMATION AND OPERATING DATA

#### (i) Revenue

Total revenue for the guarter ended 31 December 2020 was \$76.5 million (31 December 2019: \$74.3 million). Total revenue for the year ended 31 December 2020 was \$307.4 million (31 December 2019: \$292.6 million). Total revenue for the quarter and year was 3.0% and 5.0% higher than the pcp; in constant NT\$, total revenue for the quarter and year was 2.7% and 1.1% lower compared to the pcp. Foreign exchange contributed to a positive variance of 5.7% for the quarter and 6.1% for the year compared to the pcp. Total revenue was influenced by a number of factors including the continued challenges in the economic and operating environment.

#### (ii) **Operating expenses**

Total operating expenses of \$33.6 million for the quarter ended 31 December 2020 were 7.3% higher than the pcp (31 December 2019: \$31.4 million). Total operating expenses of \$126.4 million for the year ended 31 December 2020 were 7.0% higher than the pcp (31 December 2019: \$118.2 million). The higher total operating expenses for the quarter and year were mainly due to higher broadcast and production costs, staff costs and other operating expenses. In constant NT\$, broadcast and production costs for the quarter and year remained stable.

#### (iii) **EBITDA and EBITDA Margin**

EBITDA of \$42.9 million for the quarter ended 31 December 2020 was 0.1% lower than the pcp (31 December 2019: \$42.9 million). EBITDA margin for the quarter of 56.0% was lower than the pcp (31 December 2019: 57.8%).

EBITDA of \$181.0 million for the year ended 31 December 2020 was 3.7% higher than the pcp (31 December 2019: \$174.5 million). EBITDA margin for the year of 58.9% was lower than the pcp (31 December 2019: 59.6%).

#### (iv) Capital expenditure

Total capital expenditure of \$11.9 million for the quarter ended 31 December 2020 was 43.5% lower than the pcp (31 December 2019: \$21.1 million) and \$56.1 million for the year ended 31 December 2020 was 25.1% lower than the pcp (31 December 2019: \$74.9 million). Total capital expenditure as a percentage of revenue was 15.6% for the quarter (31 December 2019: 28.4%) and 18.2% for the year (31 December 2019: 25.6%).

Total capital expenditure for the quarter and year was lower than the pcp because of lower capital expenditure being incurred on maintenance, network, Broadband and other capital expenditure compared to the pcp. As in normal course for capital expenditure spending, amid continued industry challenges and pressure on ARPUs, and with the uncertain global economic outlook brought about by the COVID-19 pandemic, TBC is exercising extra prudence. Capital expenditure is trending down from 2020 onwards. The level of capital expenditure will be closely monitored to focus on areas that will have the best potential in generating growth and sustainability for the long term.

The deployment of fibre deeper into the network continues to be a key investment initiative as it will increase network capacity and speed to drive future growth. This investment is key to driving the Broadband business, positioning APTT to benefit from supporting wireless carriers in their network rollouts and to pursue other opportunities for the long term success of the Trust.

TBC's network is already beginning to provide data backhaul to some of Taiwan's major wireless operators. With continued wireless network development, data backhaul through TBC's network is expected to become a key component of the Broadband business within the next few years as wireless carriers tap into TBC's superior network for their network rollouts.

Capital expenditure comprised the following:

- Maintenance capital expenditure to support TBC's existing infrastructure and business.
- Network, Broadband and other capital expenditure included items related to expanding the fibre network such as cabling, additional equipment to upgrade the headends, backbone and fibre nodes, DOCSIS and GPON deployments for higher speed customers, high-speed broadband modems and cable line extensions for new buildings.

On 22 July 2019, APTT issued 5,328,412 units to the Trustee-Manager at a price of \$0.1876731597 per unit, for payment of \$1.0 million, out of the total \$3.6 million Trustee-Manager base fees for the six-month period from 1 January 2019 to 30 June 2019. The issue price per unit was based on APTT's volume weighted average price for a unit for all trades done on the SGX-ST in the ordinary course of trading on the SGX-ST for the ten business days immediately prior to the date of issue.

On 10 January 2020, APTT issued 2,955,468 units to the Trustee-Manager at a price of \$0.1691778996 per unit, for payment of \$0.5 million, out of the total \$3.7 million Trustee-Manager base fees for the six-month period from 1 July 2019 to 31 December 2019. The issue price per unit was based on APTT's volume weighted average price for a unit for all trades done on the SGX-ST in the ordinary course of trading on the SGX-ST for the ten business days immediately prior to the date of issue.

APTT completed a renounceable non-underwritten Rights Issue (the "Rights Issue") with the listing of and quotation for the 361,270,970 Rights Units (the "Rights Units") on 26 June 2020. All 361,270,970 Rights Units pursuant to the Rights Issue were issued on 25 June 2020 at an issue price of \$0.128 per unit and the Rights Units were listed, quoted and traded on the Main Board of the SGX-ST with effect from 9.00 a.m. on 26 June 2020. Following the allotment and issue of the Rights Units, the total number of issued units in APTT increased to 1,806,354,850.

The total gross proceeds of approximately \$46.2 million raised from the Rights Issue have been fully utilised as disclosed in its announcement dated 30 June 2020, as (i) \$45.0 million for partial repayment of the Offshore Facilities; and (ii) \$1.2 million for payment of the expenses incurred in connection with the Rights Issue. No amount has been used for working capital purposes.

With reference to paragraphs 1(d)(ii), 1(d)(iv) and 1(d)(v) of Appendix 7.2 of the SGX-ST Listing Manual, the Trustee-Manager confirms that for the quarters and years ended 31 December 2020 and 2019, the Trust did not have any convertible securities, treasury units or subsidiary holdings on issue.

# REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT OR LOSS FOR THE QUARTER AND YEAR ENDED 31 DECEMBER 2020

As presented in the consolidated statements of profit or loss disclosed on page 17

### A) REVIEW OF REVENUE

Total revenue for the quarter ended 31 December 2020 was \$76.5 million (31 December 2019: \$74.3 million). Total revenue for the year ended 31 December 2020 was \$307.4 million (31 December 2019: \$292.6 million). Total revenue for the quarter and year was 3.0% and 5.0% higher than the pcp; in constant NT\$, total revenue for the quarter and year was 2.7% and 1.1% lower compared to the pcp. Foreign exchange contributed to a positive variance of 5.7% for the quarter and 6.1% for the year compared to the pcp. Total revenue was influenced by a number of factors including the continued challenges in the economic and operating environment.

Total revenue comprised revenue generated from: (i) Basic cable TV, (ii) Premium digital cable TV and (iii) Broadband. An analysis of the revenue items is as follows:

### (i) Basic cable TV

Basic cable TV revenue of \$60.4 million for the quarter ended 31 December 2020 was up 2.2% on the pcp (31 December 2019: \$59.1 million). In constant NT\$, Basic cable TV revenue was down 3.5% on the pcp. This comprised subscription revenue of \$48.7 million (31 December 2019: \$48.0 million) and non-subscription revenue of \$11.7 million (31 December 2019: \$11.1 million). The decrease in Basic cable TV revenue in constant NT\$ was mainly due to lower subscription revenue as described below.

Basic cable TV revenue of \$243.6 million for the year ended 31 December 2020 was up 4.9% on the pcp (31 December 2019: \$232.2 million). In constant NT\$, Basic cable TV revenue was down 1.2% on the pcp. This comprised subscription revenue of \$195.6 million (31 December 2019: \$192.1 million) and non-subscription revenue of \$48.0 million (31 December 2019: \$40.1 million). The decrease in Basic cable TV revenue in constant NT\$ was mainly due to lower subscription revenue as described below.

Subscription revenue was generated from TBC's c.709,000 Basic cable TV RGUs each contributing an ARPU of NT\$482 per month in the quarter to access over 100 cable TV channels. Basic cable TV RGUs decreased by c.7,000 and ARPU remained unchanged compared to the previous quarter ended 30 September 2020 (RGUs: c.716,000; ARPU: NT\$482 per month). The decline in Basic cable TV RGUs was due to a number of factors including competition from aggressively priced IPTV, video piracy issues, the growing popularity of online video, as well as expectations from consumers for discounts as they compare with the lower cable TV pricing outside of TBC's five franchise areas, particularly in the Taipei region. Subscription revenue for the quarter and year was higher than the pcp mainly due to the impact of foreign exchange; in constant NT\$ subscription revenue for the quarter and year was lower than the pcp because of a lower number of subscribers and ARPU.

Non-subscription revenue was 19.4% of Basic cable TV revenue for the quarter (31 December 2019: 18.8%) and 19.7% of Basic cable TV revenue for the year (31 December 2019: 17.3%). This included revenue from the leasing of television channels to third parties, the sale of airtime advertising and fees for the installation of set-top boxes. Non-subscription revenue for the quarter was higher than the pcp mainly due to the impact of foreign exchange. Non-subscription revenue for the year was higher than the pcp mainly due to higher revenue generated from airtime advertising sales and channel leasing. The leasing of television channels, which is mainly to third-party home shopping networks, continued to be affected by the lower demand for home shopping and heightened competition from internet retailing. These trends will continue to put pressure on channel leasing revenue not just for TBC, but for the entire cable industry in Taiwan.

### (ii) Premium digital cable TV

Premium digital cable TV revenue of \$3.2 million for the quarter ended 31 December 2020 was up 0.1% on the pcp (31 December 2019: \$3.2 million). In constant NT\$, Premium digital cable TV revenue was 5.6% lower than the pcp. This comprised subscription revenue of \$3.1 million (31 December 2019: \$3.1 million) and non-subscription revenue of \$0.1 million (31 December 2019: \$0.1 million).

Premium digital cable TV revenue of \$13.0 million for the year ended 31 December 2020 was up 1.4% on the pcp (31 December 2019: \$12.8 million). In constant NT\$, Premium digital cable TV revenue was 4.7% lower than the pcp. This comprised subscription revenue of \$12.4 million (31 December 2019: \$12.2 million) and non-subscription revenue of \$0.6 million (31 December 2019: \$0.6 million).

Subscription revenue was generated from TBC's c.244,000 Premium digital cable TV RGUs each contributing an ARPU of NT\$90 per month in the quarter for Premium digital cable TV packages and bundled DVR or DVR-only services. Premium digital cable TV RGUs increased by c.9,000 but ARPU was lower compared to the previous quarter ended 30 September 2020 (RGUs: c.235,000; ARPU: NT\$95 per month) due to promotions and discounted bundled packages that were offered to generate new RGUs and to retain existing RGUs. Video piracy issues and aggressively priced IPTV have also impacted ARPU.

Non-subscription revenue predominantly comprised revenue from the sale of electronic programme guide data to other system operators.

#### (iii) **Broadband**

Despite the strong competition from mobile operators offering unlimited wireless data, Broadband RGUs continued to increase during the quarter. Broadband revenue of \$12.9 million for the quarter ended 31 December 2020 was up 7.8% on the pcp (31 December 2019: \$12.0 million). In constant NT\$, Broadband revenue for the quarter was 2.1% higher than the pcp. This comprised subscription revenue of \$12.5 million (31 December 2019: \$11.6 million) and non-subscription revenue of \$0.4 million (31 December 2019: \$0.4 million).

Broadband revenue of \$50.8 million for the year ended 31 December 2020 was up 6.6% on the pcp (31 December 2019: \$47.7 million). In constant NT\$, Broadband revenue for the year was 0.5% higher than the pcp. This comprised subscription revenue of \$49.1 million (31 December 2019: \$46.1 million) and non-subscription revenue of \$1.7 million (31 December 2019: \$1.6 million).

Subscription revenue was generated from TBC's c.250,000 Broadband RGUs each contributing an ARPU of NT\$356 per month in the quarter for high-speed Broadband services. Broadband RGUs increased by c.2,000 and ARPU was marginally higher compared to the previous quarter ended 30 September 2020 (RGUs: c.248,000; ARPU: NT\$355 per month). The availability of low-cost unlimited data offerings from mobile operators is necessitating fixed-line operators to offer higher speeds at competitive prices to acquire new RGUs and re-contract existing RGUs.

Non-subscription revenue predominantly comprised revenue from the provision of installation and other services.

### B) REVIEW OF OPERATING EXPENSES

An analysis of the Group's expense items is as follows:

### (i) Broadcast and production costs

Broadcast and production costs were \$14.7 million for the quarter ended 31 December 2020, up 7.3% on the pcp (31 December 2019: \$13.7 million); in constant NT\$, broadcast and production costs were up 1.6%. Foreign exchange contributed to a negative variance of 5.7% for the quarter compared to the pcp.

Broadcast and production costs were \$56.9 million for the year ended 31 December 2020, up 6.5% on the pcp (31 December 2019: \$53.4 million); in constant NT\$, broadcast and production costs were up 0.4%. Foreign exchange contributed to a negative variance of 6.1% for the year compared to the pcp.

Broadcast and production costs comprised: (i) the cost of acquiring Basic cable TV and Premium digital cable TV content, (ii) the cost of acquiring bandwidth (which consists of the leasing of domestic and international bandwidth capacity from operators to support TBC's Broadband services) and (iii) costs for producing the Group's own programming.

Settlement of programming fees - Since 2019, TBC had been in the process of facilitating certain content programming discussions between its programming vendors and agent, and had placed a refundable deposit of NT\$359 million (approximately \$16.9 million) with the programming vendors to ensure no interruption of service while the discussions were in progress. In January 2020, again to ensure no interruption of service, the Group utilised the refundable deposit to pay programming fees of NT\$359 million (approximately \$16.9 million) directly to its programming vendors, such sum being claimable against the agent. Following final negotiations between TBC and the agent in April 2020, TBC has agreed to bear an additional programming cost of NT\$113 million (approximately \$5.4 million) from the agent, which has been recognised as a one-time settlement of programming fees during the year ended 31 December 2020.

### (ii) Staff costs

Staff costs were \$8.4 million for the quarter ended 31 December 2020, up 10.3% on the pcp (31 December 2019: \$7.6 million) and \$31.3 million for the year ended 31 December 2020, up 8.5% on the pcp (31 December 2019: \$28.8 million) mainly due to higher staff costs in constant dollar terms, as mentioned in the paragraphs below.

Staff costs comprised direct employee costs and general and administrative employee costs including salaries, bonuses, long-term incentives and benefits.

The Group adopted a long-term incentive plan (the "LTIP") in 2013 for its senior management at TBC, under which TBC senior management were granted notional units of the Trust upon achieving prescribed performance targets. These notional units vested in tranches over a prescribed period of time initially commencing two years after the grant of the notional units. Upon vesting of such notional units under the LTIP, TBC's senior management received a cash payment equal to the number of vested notional units multiplied by the market price of the units as determined in accordance with the LTIP.

The Trustee-Manager cancelled the LTIP during the quarter ended 31 December 2020 and intends to replace the LTIP with a new plan for its senior management at TBC in 2021. More details of the plan will be announced when it is finalised.

Expense attributable to the quarter and year against the cancellation of the LTIP has been recognised in the financial statements for the quarter and year ended 31 December 2020.

#### (iii) **Depreciation and amortisation expense**

Depreciation and amortisation expense was \$23.6 million for the quarter ended 31 December 2020, up 3.3% on the pcp (31 December 2019: \$22.9 million) and \$89.7 million for the year ended 31 December 2020, up 3.7% on the pcp (31 December 2019: \$86.6 million). The increase in depreciation and amortisation expense for the quarter was mainly due to higher depreciation expense on buildings, plant and equipment and right-of-use assets compared to the pcp and for the year was mainly due to higher depreciation expense on buildings, leasehold improvements, network equipment, plant and equipment and right-of-use assets compared to the pcp. Refer Note C(iv) for more details.

Depreciation and amortisation expense comprised depreciation and amortisation of the Group's capital expenditures in relation to network equipment, set-top boxes, other plant and equipment, right-of-use assets, programming rights and software.

#### (iv) Trustee-Manager fees

The Trustee-Manager is entitled to base fees and performance fees as specified under the Trust Deed.

The Trustee-Manager base fees were \$1.9 million for the quarter ended 31 December 2020 (31 December 2019: \$1.8 million) and \$7.4 million for the year ended 31 December 2020 (31 December 2019: \$7.3 million). There were no performance fees payable to the Trustee-Manager for the quarter and year ended 31 December 2020 (31 December 2019: nil).

The base fees are payable semi-annually in arrears for every six months ending 30 June and 31 December of each year. Payment of the base fees, whether in the form of cash and/or units, shall be made out of the Trust property within 30 days of the last day of every six months (or such other period as may be determined by the Trustee-Manager at its discretion).

#### (v) Net foreign exchange (loss)/gain

Net foreign exchange loss for the quarter ended 31 December 2020 was \$0.5 million (31 December 2019: \$3.0 million) and net foreign exchange gain for the year ended 31 December 2020 was \$0.5 million (31 December 2019: loss of \$0.8 million). Net foreign exchange (loss)/gain for the quarter and year ended 31 December 2020 included unrealised foreign exchange movements from translations at the subsidiary level which are not expected to be realised.

#### (vi) Mark to market gain/(loss) on derivative financial instruments

The Group uses foreign exchange contracts to manage its exposure to foreign exchange movements as discussed in Note C(vi). For the quarter ended 31 December 2020, the period end mark to market gain on foreign currency contracts was \$0.6 million (31 December 2019: loss of \$0.1 million) and for the year ended 31 December 2020, the period end mark to market loss on foreign currency contracts was \$1.4 million (31 December 2019: gain of \$0.6 million). Mark to market gain/(loss) on derivative financial instruments included loss of \$0.2 million (31 December 2019: gain of \$0.2 million) and loss of \$1.1 million (31 December 2019: gain of \$2.0 million) on NT\$ foreign exchange contracts settled during the quarter and year.

### (vii) Other operating expenses

Other operating expenses were \$8.7 million for the quarter ended 31 December 2020, up 6.1% on the pcp (31 December 2019: \$8.2 million) and \$30.9 million for the year ended 31 December 2020, up 8.1% on the pcp (31 December 2019: \$28.6 million).

A detailed breakdown of material items included in other operating expenses is provided in the table below:

Group	Quarter ende	ed 31 December	Year ended	Year ended 31 December		
Amounts in \$'000	2020	2019	2020	2019		
Lease rentals	(30)	(30)	(147)	(146)		
Pole rentals	(1,658)	(1,474)	(6,340)	(5,056)		
Legal and professional fees	(874)	(918)	(3,765)	(3,976)		
Non-recoverable GST/VAT	(883)	(907)	(3,587)	(3,504)		
Marketing and selling expenses	(2,069)	(1,836)	(5,617)	(5,418)		
General and administrative expenses	(1,447)	(1,378)	(5,271)	(5,061)		
Licence fees	(611)	(602)	(2,449)	(2,388)		
Repairs and maintenance	(585)	(461)	(1,796)	(1,655)		
Others	(521)	(575)	(1,918)	(1,379)		
Total	(8,678)	(8,181)	(30,890)	(28,583)		

Other operating expenses for the quarter and year were higher mainly due to higher pole rental expenses and the impact of foreign exchange. Other operating expenses for the pcp ended 31 December 2019 also included reversal of provisions of \$0.8 million, for fines imposed by Taiwan regulators.

### (viii) Amortisation of deferred arrangement fees

The Group pays financing fees to lenders when entering into debt facilities or refinance existing facilities. At inception, the financing fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss. Amortisation of deferred arrangement fees was \$0.9 million for the quarter ended 31 December 2020 (31 December 2019: \$0.8 million) and \$3.6 million for the year ended 31 December 2020 (31 December 2019: \$3.3 million).

### (ix) Interest and other finance costs

Interest and other finance costs were \$11.3 million for the quarter ended 31 December 2020, 9.3% lower than the pcp (31 December 2019: \$12.5 million) and \$47.5 million for the year ended 31 December 2020, 5.2% lower than the pcp (31 December 2019: \$50.2 million). These comprised interest expense and commitment and other fees on the Group's debt facilities. Interest and other finance costs for the quarter and year ended 31 December 2020 also included finance charges on lease liabilities of \$0.1 million (31 December 2019: \$0.2 million).

### (x) Income tax expense

The Group is subject to income tax in several jurisdictions. Significant judgment is required in determining provisions for income tax, including a judgment on whether tax positions are probable of being sustained in income tax assessments. There are certain transactions and calculations for which the ultimate income tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated income tax issues based on estimates of whether additional taxes will be due. Where the final income tax outcome of these matters is different from the amounts that were initially recorded, these differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

The Trustee-Manager evaluates positions taken in income tax returns with respect to situations in which applicable income tax regulations are subject to interpretation. The income tax liabilities are recognised when it is more likely than not that certain

tax positions may be changed upon review by income tax authorities. The Group believes that the final tax outcome of these positions can differ from those initially recognised when reviews or audits by tax authorities of tax returns are completed. Benefits from tax positions are measured at the single best estimate of the most likely outcome. At each statement of financial position date, the tax positions are reviewed and to the extent that new information becomes available that causes the Trustee-Manager to change its judgment regarding the adequacy of existing income tax liabilities, these changes to income tax liabilities are duly recognised as income tax expense in the year in which the determination is made.

Income tax expense recognised in the consolidated statements of profit or loss was as follows:

Group	Quarter en	Quarter ended 31 December		Year ended 31 December		
Amounts in \$'000	2020	2019	2020	2019		
Current income tax	(605)	(416)	(3,157)	(3,228)		
Deferred income tax	(3,218)	(2,568)	(9,045)	(9,616)

# REVIEW OF STATEMENTS OF FINANCIAL POSITION AND NET ASSETS AS AT 31 DECEMBER 2020

As presented in the statements of financial position disclosed on page 16

### C) ASSETS

### (i) Cash and cash equivalents

Cash and cash equivalents include cash on hand and deposits held at call with banks and are subject to an insignificant risk of changes in value.

Cash and cash equivalents at the Trust level decreased from \$4.8 million as at 31 December 2019 to \$3.4 million as at 31 December 2020. The decrease was primarily due to the payment of distributions to unitholders net of receipt of distributions from TBC during the year ended 31 December 2020.

Cash and cash equivalents at the Group level increased from \$79.1 million as at 31 December 2019 to \$97.0 million as at 31 December 2020. The increase was primarily driven by operating cash flows and changes in working capital, partially offset by the payment of distributions to unitholders, capital expenditure and interest payments during the year. Refer to the consolidated statements of cash flows on page 24 for more details.

### (ii) Trade and other receivables

Trade receivables are initially recognised at fair value plus transaction costs, and subsequently measured at amortised cost using the effective interest method, less any impairment.

Trade and other receivables at the Group level increased from \$12.0 million as at 31 December 2019 to \$14.4 million as at 31 December 2020 mainly due to increase in the amounts due from trade debtors for channel leasing and advertising revenue.

### (iii) Investment in subsidiaries

The Trust invested in TBC through the acquisition of two Bermudian investment holding companies.

Held by the Trust	Principal activities	Principal activities Country of		Equity holding				
		incorporation	%		\$'000			
Name of subsidiary			2020	2019	2020	2019		
APTT Holdings 1 Limited	Investment holding company	Bermuda	100	100	728,359	704,734		
APTT Holdings 2 Limited	Investment holding company	Bermuda	100	100	658,992	637,617		
Total cost					1,387,351	1,342,351		

Net proceeds of \$45.0 million raised from the Rights Issue were transferred by APTT to its two wholly owned Bermudian subsidiaries as investment, which were in turn utilised by the two Bermudian subsidiaries to partially repay Offshore Facilities by \$45.0 million during the year.

#### (iv) Property, plant and equipment

All items of property, plant and equipment ("PPE") are initially recorded at cost, subsequently measured at cost less accumulated depreciation and any accumulated impairment losses. The Group's PPE included right-of-use assets. The amounts recognised in the statements of financial position were determined as follows:

During the quarter and year ended 31 December 2020, the Group acquired property, plant and equipment with an aggregate cost of \$11.9 million (31 December 2019: \$20.4 million) and \$53.6 million (31 December 2019: \$68.6 million), of which \$3.7 million remained unpaid as at 31 December 2020 (31 December 2019: \$1.1 million). In addition, plant and equipment with an aggregate cost of \$4.8 million, unpaid as at 30 September 2020, was paid during the quarter (30 September 2019: \$2.4 million) and property, plant and equipment with an aggregate cost of \$1.1 million, unpaid as at 31 December 2019; was paid during the year (31 December 2019: \$4.5 million).

# (v) Intangible assets

# **Cable TV licences**

Costs incurred in acquiring cable TV licences are brought to account as intangible assets. The assets are assessed as having indefinite useful lives and therefore there is no amortisation charge booked against the carrying value. Consequently, no deferred tax liabilities have been provided on the temporary differences relating to the cable TV licences as at the acquisition date as it is deemed that recovery would be through a sale transaction, which the Trustee-Manager expects would not be subject to capital gains taxes.

# **Software**

Costs incurred in acquiring software are brought to account as intangible assets. Software is carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over its estimated useful life.

## **Programming rights**

Costs incurred in acquiring programming rights, with a broadcasting period of more than one year, are brought to account as intangible assets. Programming rights are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life.

## Goodwill

Goodwill arising on acquisition represents the excess of the cost of acquisition over the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquiree. Goodwill is stated at cost less any impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment.

The amounts recognised in the statements of financial position were determined as follows:

Group Carrying value Amounts in \$'000	As at 1 January 2020	Additions	Amortisation	Foreign exchange effect	As at 31 December 2020

During the quarter and year ended 31 December 2020, the Group acquired intangible assets with an aggregate cost of \$4.2 million (31 December 2019: \$4.5 million) and \$11.6 million (31 December 2019: \$18.6 million) of which \$3.3 million remained unpaid as at 31 December 2020 (31 December 2019: \$0.3 million). In addition, intangible assets with an aggregate cost of \$0.3 million, unpaid as at 30 September 2020, was paid during the quarter (31 December 2019: \$1.8 million) and intangible assets with an aggregate cost of \$0.3 million, unpaid as at 31 December 2019, was paid during the year (31 December 2019: \$1.7 million).

# (vi) Derivative financial instruments

The Group and Trust use foreign exchange contracts to manage their exposure to foreign exchange movements of NT\$ and US\$ future estimated cash flows from dividends and principal and interest payments received by the Trust from the entities held within the Group. The Group and Trust employ a 24-month rolling hedging programme that swaps from 25% of forecast cash flows receivable up to 24 months away, to 100% of cash flows on amounts receivable within three months. As at 31 December 2020, mark to market movements, classified as current and non-current assets, on such contracts were \$0.3 million (31 December 2019: \$0.2 million) and \$0.1 million (31 December 2019: \$0.01 million) both at the Group and Trust level.

# (vii) Contract costs

As at 31 December 2020, the Group had contract costs classified as current and non-current assets of \$1.1 million and \$0.4 million. These represent sales incentives provided for contracting Broadband RGUs. These costs are amortised on a straight-line basis over the period of such contracts.

# (viii) Other assets

As at 31 December 2020, the Group and Trust had other current assets of \$1.4 million and \$0.1 million (31 December 2019: \$17.7 million and \$0.1 million). These predominantly comprised GST recoverable, refundable deposits and expense prepayments.

Other non-current assets at the Group and Trust level of \$1.1 million and \$0.002 million as at 31 December 2020 (31 December 2019: \$1.2 million and nil) predominantly comprised refundable deposits.

# D) LIABILITIES

<sup>&</sup>lt;sup>1</sup> Comprised outstanding NT\$ denominated borrowings of \$1,358.5 million (31 December 2019: \$1,306.8 million) at TBC level and Singapore dollar denominated multicurrency borrowings of \$169.7 million (31 December 2019: \$219.9 million) at Bermuda holding companies' level.

## **Onshore Facilities**

The NT\$ denominated seven-year facilities of NT\$31.0 billion at TBC level ("Onshore Facilities") are repayable in tranches by 2025 and are secured by certain land, buildings, network equipment and plant and equipment held by TBC as well as by pledges over shares in onshore entities of TBC and over the shares in TBC Holdings B.V. and Harvest Cable Holdings B.V. held by Cable TV S.A. The onshore affiliates of TBC are jointly liable under the debt facilities. As at 31 December 2020, the total carrying value of property, plant and equipment pledged for the Onshore Facilities was \$299.5 million (31 December 2019: \$298.8 million). In addition, guarantees in favour of lenders under the debt facilities are provided by TBC Holdings B.V. and Harvest Cable Holdings B.V.

The Onshore Facilities bear a floating interest rate of Taiwan's three-month Taipei Interbank Offered Rate ("TAIBOR") plus an interest margin of 1.1% to 1.9% per annum based on its leverage ratio. As discussed in Note D(ii), the Group uses interest rate swaps to swap a significant portion of its borrowings from floating rate to fixed rate.

Arrangement fees on the refinancing of Onshore Facilities were agreed at 1.25%. At inception, such fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss.

# Offshore Facilities

Offshore facilities consist of a multicurrency term loan facility in an aggregate amount of \$125.0 million and a multicurrency revolving loan facility in an aggregate amount of \$125.0 million secured by APTT Holdings 1 Limited and APTT Holdings 2 Limited ("Offshore Facilities").

The Offshore Facilities, denominated in Singapore dollars, are repayable in tranches by 2021. The Trustee-Manager is in the advanced stages with lenders to refinance APTT's Offshore Facilities before their maturity in July 2021. In January 2021 an amendment request letter was issued to the facility agent seeking extension of the maturity date by two years to 14 July 2023. As at the date of this report, the terms of the extension have been agreed with the majority of lenders in the syndicate and the Trustee-Manager expects to receive approvals from the remaining lenders before the end of the first quarter of 2021. The Trustee-manager believes that it will successfully extend the maturity date of the Offshore Facilities by two years, up to 14 July 2023.

The Offshore Facilities are secured by a first priority pledge of all of the assets of APTT Holdings 1 Limited, APTT Holdings 2 Limited, Cable TV S.A. and APTT Management Pte. Limited, in its capacity as Trustee-Manager of APTT, including bank accounts and 100% of the total outstanding shares of APTT Holdings 1 Limited, APTT Holdings 2 Limited and Cable TV S.A. As at 31 December 2020, the total carrying value of assets pledged for the Offshore Facilities was \$1,121 million (31 December 2019: \$1,117 million). In addition, guarantees in favour of lenders under the debt facilities are provided by APTT Management Pte. Limited, in its capacity as Trustee-Manager of APTT, and Cable TV S.A.

The Offshore Facilities bear a floating interest rate of Singapore Interbank Offered Rate ("SIBOR") plus an interest margin of 4.1% to 5.5% per annum based on the leverage ratio of the Group.

Amendment fees on extension of maturity date from July 2019 to July 2021 were agreed at 0.30% payable on the financial close. At inception, such fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss.

Net proceeds of \$45.0 million raised from the Rights Issue were utilised to partially repay the Offshore Facilities during the year.

# (ii) Derivative financial instruments

The Group and Trust use foreign exchange contracts to manage their exposure to foreign exchange movements as discussed in Note C(vi). As at 31 December 2020, mark to market movements, classified as current and non-current liabilities, on such contracts were \$0.9 million and \$0.1 million (31 December 2019: \$0.3 million and \$0.2 million) at Group and Trust level.

The Group also uses interest rate swaps to manage its exposure to interest rate movements on its NT\$ denominated borrowings by swapping a significant portion of those borrowings from floating rate to fixed rate. All interest rate swap contracts exchanging floating rate interest amounts for fixed rate interest amounts are designated as cash flow hedges in order to reduce the Group's cash flow exposure resulting from variable interest rates on borrowings. The interest rate swaps and the interest payments on the loan occur simultaneously and the amount deferred in equity is recognised in profit or loss over the period that the floating rate interest payments on debt impact profit or loss.

As at 31 December 2020, the notional amount of interest rate swaps on TAIBOR maturing in December 2021 was NT\$28.0 billion (31 December 2019: NT\$28.0 billion), thus fixing approximately 96% of outstanding Onshore Facilities through to 2021.

As at 31 December 2020, mark to market movements, classified as current liabilities, on such swaps were \$4.4 million (31 December 2019: non-current liabilities of \$3.7 million) at the Group level. Current derivative financial instruments at the Group level of \$5.3 million as at 31 December 2020 (31 December 2019: Non-current derivative financial instruments of \$3.9 million) also included the mark to market movements on foreign exchange contracts of \$0.9 million (31 December 2019: \$0.2 million) as mentioned above.

# (iii) Trade and other payables

	Group as at 31 December		Trust as at 31 December

Total	23,550	39,278	3,699	3,687

The Group's trade and other payables as at 31 December 2020 of \$23.6 million (31 December 2019: \$39.3 million) comprised mainly broadcast and production costs payable of \$13.6 million (31 December 2019: \$23.9 million) and base fees payable to the Trustee-Manager of \$3.7 million (31 December 2019: \$3.7 million).

The Trust's trade and other payables as at 31 December 2020 comprised mainly base fees payable to the Trustee-Manager of \$3.7 million (31 December 2019: \$3.7 million).

# (iv) Contract liabilities

Contract liabilities were \$33.9 million as at 31 December 2020 (31 December 2019: \$31.5 million). These relate to considerations or collections received in advance to provide Basic cable TV, Premium digital cable TV and Broadband subscription services in future periods.

Subscription fees are paid upfront as part of the initial sales transaction whereas revenue is recognised over the period where services are provided to the subscribers. A contract liability is therefore recognised for revenue relating to subscription services at the time of the initial sales transaction and is released over the subscription period.

There were no significant changes in the contract liability balances during the reporting period.

The amount of revenue recognised during the year ended 31 December 2020 which related to brought-forward contract liabilities as at the end of the previous year was \$31.5 million (31 December 2019: \$33.8 million).

## (v) Retirement benefit obligations

The Group operates both a defined benefit scheme and a defined contribution scheme. Eligibility for participation in each of the schemes is governed by employment and related laws in the country of employment for employees of the Group. As at 31 December 2020, the Group's retirement benefit obligations, classified as current and non-current liabilities, were \$1.5 million (31 December 2019: \$1.4 million) and \$9.9 million (31 December 2019: \$10.1 million).

# (vi) Income tax payable

The Group is not required to and does not prepare a combined consolidated income tax return. The following information represents the combined income tax data of the combined consolidated entities.

Provision for income tax and the reconciliation of income tax payable were as follows:

Group	As a	31 December
Amounts in \$'000	2020	2019

Deferred tax liabilities, net	97,948	84,793

<sup>&</sup>lt;sup>1</sup> Following the settlement principles agreed between the Group and the Taiwan tax authorities in 2014, deferred tax liabilities of \$99.3 million were recorded by the Group for the partial tax deductions in respect of the amortisation of intangible assets claimed by the Group as at 31 December 2020 (31 December 2019: \$88.1 million).

#### (viii) Other liabilities

The Group's current other liabilities as at 31 December 2020 of \$27.9 million (31 December 2019: \$21.3 million) predominantly comprised accrued expenses of \$16.7 million (31 December 2019: \$9.7 million), withholding and other tax payable of \$5.0 million (31 December 2019: \$4.5 million), interest and other finance costs payable of \$1.6 million (31 December 2019: \$2.3 million), amounts payable against the cancellation of the LTIP of \$1.4 million (31 December 2019: accruals under the LTIP of \$1.9 million) and lease liabilities of \$3.0 million (31 December 2019: \$2.7 million).

The Trust's current other liabilities as at 31 December 2020 of \$0.2 million (31 December 2019: \$0.2 million) comprised accruals for regular operating expenses.

The Group's non-current other liabilities as at 31 December 2020 of \$29.5 million (31 December 2019: \$28.1 million) predominantly comprised subscriber deposits received of \$18.5 million (31 December 2019: \$16.8 million) and lease liabilities of \$7.8 million (31 December 2019: \$8.2 million). The Group's non-current other liabilities in the pcp also included accruals under the LTIP of \$1.6 million.

<sup>1</sup> As per articles of incorporation of Jie Guang Co., Ltd. and Tai Luo Tze Co., Ltd., the current year's earnings, after paying all taxes and offsetting prior years' operating losses, if any, should be appropriated and distributed 10% as capital reserve before dividend declaration.

#### (x) **Non-controlling interests**

In order to comply with Taiwan cable TV regulations regarding foreign ownership, the entities held within the Group have issued preferred shares to third parties in Taiwan and the Netherlands. Non-controlling interests represent the preferred shares issued to external investors and their interests in the net assets of the Group are identified separately from the Group's equity therein.

# E) NET ASSET VALUE ATTRIBUTABLE TO UNITHOLDERS

	Group as at 31 December		Trust as at 31 December	
	2020	2019	2020	2019
Net asset value attributable to unitholders				
Total net asset value attributable to unitholders (\$'000)	1,189,559	1,082,052	1,386,363	1,343,099
Total number of units in issue used in calculation of net asset value per unit attributable to unitholders ('000)	1,806,355	1,442,128	1,806,355	1,442,128
Net asset value per unit attributable to unitholders (\$)	0.66	0.75	0.77	0.93

As at 31 December 2020, the Group had negative working capital of \$174.9 million (31 December 2019: \$7.8 million). This included contract liabilities of \$32.8 million representing collections received in advance from subscribers, net of contract costs, which do not require any future cash outflow from the Group (31 December 2019: \$31.5 million) and \$169.7 million of current portion of Offshore Facilities which are due for maturity in July 2021. As discussed in Note D(i), the Trustee-Manager is in the advanced stages with lenders to refinance these facilities before their maturity. In January 2021 an amendment request letter was issued to the facility agent seeking extension of the maturity date by two years to 14 July 2023. As at the date of this report, the terms of the extension have been agreed with the majority of lenders in the syndicate and the Trustee-Manager expects to receive approvals from the remaining lenders before the end of the first quarter of 2021. The Trustee-manager believes that it will successfully extend the maturity date of the Offshore Facilities by two years, up to 14 July 2023.

After adjusting for these amounts, the Group would have positive working capital of \$27.6 million (31 December 2019: \$23.6 million). The Group has undrawn debt facilities of \$132.1 million (31 December 2019: \$83.9 million) which can be drawn to address any shortfall in working capital requirements.

The Group believes that it has adequate working capital for its present requirements and that its existing debt facilities, together with cash and cash equivalents, will provide sufficient funds to satisfy its working capital requirements and anticipated capital expenditures and other payment obligations for the next 12 months, after taking into consideration the following factors:

- The Group has five cable TV system operators, with their nine-year cable TV licences renewed in either 2008 or 2009, that serve approximately 709,000 cable TV RGUs as at 31 December 2020, with more than 175 channels of exciting local and international content on its digital TV platforms in Taiwan. The Group's cable TV licences were extended to 12 years following the Cable Law amendments to accelerate digitisation and analogue broadcasting switch-off, making the next renewal periods in 2020 and 2021. The Group completed the digitisation of its subscriber base across all five franchise areas in 2017 and switched off analogue TV broadcasting. The Group had submitted to NCC the renewal applications and corresponding business plans for the two licences that were due for renewal in 2020, and both have already been successfully renewed until 2029. Further, the Group has also submitted to NCC the renewal applications and corresponding business plans for the remaining three licences that are due for renewal in 2021. As at the date of this report, one licence expiring in February 2021 has been successfully renewed until 2030. The Group expects the renewal of the remaining two licences to be approved by the NCC before their expiry dates, with certain performance conditions attached, in line with the standards of Taiwan's cable TV industry. Hence, it is expected that the Group's core business, i.e. cable TV system operators and their related businesses, will continue generating sufficient and stable cash inflows. This is consistent with the positive operating cash flows generated by the Group of \$168.6 million for the year ended 31 December 2020 (31 December 2019: \$160.1 million);
- In view of the steady operating cash flows generated, good credibility over the past years and full compliance with the
  requirements as stipulated in the debt facilities, the Trustee-Manager is confident it can refinance such debt facilities when
  required; and
- The Trustee-Manager has carefully monitored and managed its cash flows. Management and operation reports are prepared
  and reviewed on a monthly basis and cash flow forecasts are prepared on a quarterly basis to project cash flow requirements
  of the Group using various general and operational assumptions.

### F) INTERESTED PERSON TRANSACTIONS ("IPTs")

#### (i) The Trustee-Managers

The Trustee-Manager, APTT Management Pte. Limited, was incorporated in Singapore under the Singapore Companies Act on 17 April 2013. The Trustee-Manager is a wholly owned subsidiary of Dynami, which is a Singapore-incorporated company. As at the date of this report, Dynami is fully owned by Mr Lu Fang-Ming, the Chairman of Asia Pacific Telecom Co., Ltd.

The Trustee-Manager has the dual responsibility of safeguarding the interests of unitholders and managing the business conducted by APTT. The Trustee-Manager manages APTT's business with an objective of providing unitholders with stable and sustainable distributions.

The following transactions occurred between APTT and the Trustee-Manager during the quarter and the year:

	Quarter ended	Quarter ended 31 December		Year ended 31 December

Distributions paid	25	16	101	32		
Total	1,875	1,860	7,460	7,347		

On 22 July 2019, APTT issued 5,328,412 units to the Trustee-Manager at a price of \$0.1876731597 per unit, for payment of \$1.0 million, out of the total \$3.6 million Trustee-Manager base fees for the six-month period from 1 January 2019 to 30 June 2019. On 10 January 2020, APTT issued 2,955,468 units to the Trustee-Manager at a price of \$0.1691778996 per unit, for payment of \$0.5 million, out of the total \$3.7 million Trustee-Manager base fees for the six-month period from 1 July 2019 to 31 December 2019. Refer to detail of changes in unitholders' funds on page 23 for more details.

On 25 June 2020, APTT allotted and issued 2,070,970 Rights Units to the Trustee-Manager at a price of \$0.128 per unit, pursuant to the Rights Issue as mentioned in detail of changes in unitholders' funds on page 23.

The following significant balances remained outstanding between APTT and the Trustee-Manager at the end of the reporting period:

	As at 31	December
Amounts in \$'000	2020	2019
Base fees payable to the Trustee-Manager	3,699	3,687

For the quarter and year ended 31 December 2020, the Trustee-Manager recovered ancillary charges amounting to \$0.1 million (31 December 2019: \$0.1 million) and \$0.3 million (31 December 2019: \$0.3 million) from the Trust.

The Group has not obtained a general mandate from unitholders for IPTs.

# G) ADDITIONAL INFORMATION

# (i) Announcement of financial statements

Pursuant to Rule 705(1) of the SGX-ST Listing Manual, the financial statements for the quarter and year ended 31 December 2020 have been disclosed within 60 days after the end of the relevant financial period.

# (ii) Disclosure of person occupying a managerial position

Pursuant to Rule 704(13) of the SGX-ST Listing Manual, the Trustee-Manager confirms that for the quarter and year ended 31 December 2020 no person occupied managerial positions in the Trust or in any of its subsidiaries who were a relative of a director, chief executive officer and/or substantial unitholder.

# (iii) Segment information

The Group is principally engaged in providing cable TV and broadband services in Taiwan and therefore the Trustee-Manager considers that the Group operates in one single business and geographical segment.

# (iv) Confirmation on undertakings from directors and executive officers

Pursuant to Rule 720(1) of the SGX-ST Listing Manual, the Trustee-Manager confirms that the Trust has procured undertakings from all its directors and executive officers in the form set out in Appendix 7.7.

# (v) Review of the provisions of non-audit services by the auditors

The Audit Committee has undertaken a review of non-audit services provided by the auditor and they would not, in the opinion of the Audit Committee, affect their independence.

# (vi) Review by independent auditor

The financial statements for the quarter and year ended 31 December 2020 have not been audited or reviewed by the Group's auditors, Deloitte & Touche LLP, however they form the basis of the Financial Statements within the APTT 2020 Annual Report, which will be audited by Deloitte & Touche LLP and will be available publicly in due course.

# (vii) Basis of preparation

The Group has applied the same accounting policies and methods of computation in the preparation of the financial statements for the current year as specified in the audited financial statements of the Group for the year ended 31 December 2019 except for the adoption of revised IFRS (including its consequential amendments) and interpretations effective for the financial period beginning 1 January 2020. The adoption of these revised IFRS and interpretations did not result in material changes to the Group's accounting policies and has no material effect on the amounts reported for the current financial period. Accordingly, comparative financial information presented in this report has not been restated.

The financial statements have been prepared in accordance with IFRS. The preparation of the financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires the Trustee-Manager to exercise judgement in the process of applying the accounting estimates. Estimates and judgements are continually evaluated and are based on historic experience and other factors, including reasonable expectations of future events. The Trustee-Manager believes that the estimates used in the preparation of the financial statements are reasonable. Actual results in the future, however, may differ from those reported.

# (viii) Functional and presentation currency

All figures, unless otherwise stated, are presented in Singapore dollars, which is APTT's functional and presentation currency.

# (ix) Rounding of amounts in the financial statements

Amounts in the financial statements have been rounded to the nearest thousand dollars, unless otherwise indicated.

# (x) Group accounting - subsidiaries

Subsidiaries are all entities (including special purpose entities) over which control is achieved when the Trust (i) has power over the investee, (ii) is exposed, or has rights, to variable returns from its involvement with the investee and (iii) has the ability to use its power to affect its returns. Consolidation of a subsidiary begins when the Trust obtains control over the subsidiary and ceases when the Trust loses control of the subsidiary.

# (xi) Breakdown of Group's total revenue and profit after income tax before deducting non-controlling interests

<sup>&</sup>lt;sup>1</sup> A positive variance is favourable to the Group and a negative variance is unfavourable to the Group

# (xii) Forecast or prospect statement

All variances between forecasts or prospect statements ("Prospect Statement") made in previous results announcements, if any, and actual results have been explained in the report summary on pages 2 to 5 and throughout this report. The variances did not warrant that a profit warning or similar announcement be released.

# (xiii) Use of proceeds

APTT completed a renounceable non-underwritten Rights Issue with the listing of and quotation for the 361,270,970 Rights Units on 26 June 2020. The total gross proceeds of approximately \$46.2 million raised from the Rights Issue have been fully utilised as disclosed in its announcement dated 30 June 2020.

# CONFIRMATION OF THE BOARD PURSUANT TO RULE 705(5) OF THE LISTING MANUAL

On behalf of the Board of directors of APTT Management Pte. Limited, as Trustee-Manager of APTT, we, the undersigned hereby confirm to the best of our knowledge that nothing has come to the attention of the Board of directors which may render the financial statements for the quarter and year ended 31 December 2020 to be false or misleading in any material aspect.

# DISCLAIMERS

Asian Pay Television Trust ("APTT") is a business trust registered under the Business Trusts Act (Chapter 31A of Singapore) and listed on the Main Board of the Singapore Exchange Securities Trading Limited. APTT Management Pte. Limited is the trustee-manager of APTT (the "Trustee-Manager"). The Trustee-Manager is a wholly owned subsidiary of Dynami Vision Pte. Ltd. ("Dynami"), which is a Singapore-incorporated company. As at the date of this report, Dynami is fully owned by Mr Lu Fang-Ming, the Chairman of Asia Pacific Telecom Co., Ltd.

This report is not an offer or invitation for subscription or purchase of or a recommendation of securities in APTT. It does not take into account the investment objectives, financial situation and particular needs of the investor. Before making an investment in APTT, the investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances and consult an investment adviser if necessary.

Information, including forecast financial information, in this report should not be considered as a recommendation in relation to holding, purchasing or selling securities or other instruments in APTT. Due care and attention have been used in the preparation of forecast information. However, such information is based on certain assumptions and is subject to certain risks, contingencies and uncertainties, many of which are outside the control of APTT, which could cause actual results to vary materially from those that are forecasted and any such variation may be materially positive or negative. Past performance is not a reliable indication of future performance.

In particular, no representation or warranty is given as to the accuracy, likelihood of achievement or reasonableness of any forecasts, prospects or returns contained in the information. Such forecasts, prospects or returns are by their nature subject to significant uncertainties and contingencies. Each recipient of the information should make its own independent assessment of the information and take its own independent professional advice in relation to the information and any action taken on the basis of the information.

Investors should note that there are limitations on the rights of certain investors to own units in APTT under applicable Taiwan laws and regulations (the "Relevant Restrictions"). Such investors include individuals or certain corporate entities in the People's Republic of China ("PRC"), the Taiwan Government and political entities and other restricted entities and restricted persons (collectively, the "Restricted Persons"). Investors should note that the deed of trust constituting APTT dated 30 April 2013 (the "Trust Deed") provides that the Trustee-Manager may, in the case of a breach of the Relevant Restrictions, take all steps and do all things as it may in its absolute discretion deem necessary to ensure that the Relevant Restrictions are complied with. In particular, the Trust Deed provides that the Trustee-Manager has the power to require the relevant Restricted Person to dispose of their units in APTT and, if such request is not complied with within 21 days after such request (or such shorter period as the Trustee-Manager shall consider reasonable), to arrange for the sale of the relevant units in APTT. The Trustee-Manager is not required to provide any reason for, and is not liable or responsible for any losses incurred as a result of, exercising such power under the Trust Deed. For further information, investors should refer to the prospectus dated 16 May 2013 issued by APTT and the Trust Deed.
