BHG Retail REIT (the "REIT") is a Singapore–domiciled unit trust constituted pursuant to the trust deed dated 18 November 2015 (as amended by a first supplemental deed dated 26 March 2018 and a second supplemental deed dated 20 April 2018) (collectively the "Trust Deed") between BHG Retail Trust Management Pte. Ltd. (the "Manager") and DBS Trustee Limited (the "Trustee"). The Trust Deed is governed by the laws of the Republic of Singapore. The Trustee is under a duty to take into custody and hold the assets of the REIT held by it or through its subsidiaries (the "Group") in trust for the holders of units ("Units") in the REIT.

The REIT was formally admitted to the Official List of the Singapore Exchange Securities Trading Limited (the "SGX-ST") on 11 December 2015 (the "Listing Date").

The principal activities of the REIT are those relating to investment in a diversified portfolio of income–producing properties located primarily in the People's Republic of China ("China") and used primarily for retail purposes.

The principal activities of the subsidiaries are those of investment holding of properties located in China and used for retail purposes.

The consolidated financial information ("Financial Information") relate to the Trust and its subsidiaries (the "Group").

The Group has entered into several service agreements in relation to the management of the REIT and its property operations. The main fee structures for these services are as follows:

#### (i) Trustee's fees

Pursuant to Clause 15.5 of the Trust Deed, the Trustee's fees shall not exceed 0.1% per annum of the value of deposited property, subject to a minimum of S\$10,000 per month, excluding out-of-pocket expenses and Goods and Services Tax.

#### (ii) Manager's management fees

The Manager is entitled under Clauses 15.1 of the Trust Deed to the following management fees:

• a base fee of 10% per annum of the annual distributable income; and

• a performance fee of 25% per annum of the difference in distribution per unit ("DPU") in a financial year with the DPU in the preceding financial year (calculated before accounting for the performance fee but after accounting for the base fee in each financial year) multiplied by the weighted average number of Units in issue for such financial year.

The Manager may elect to receive the management fees in cash or Units or a combination of cash and/or Units (as it may in its sole discretion determine).

# (iii) Property management fees

Under the property management agreement in respect of each property, the property manager ("Property Manager") will provide lease management services, property management services and marketing co-ordination services in relation to the property. The Property Manager is entitled to the following fees:

- 2% per annum of the gross revenue of the property;
- 2.5% per annum of the net property income of the property; and

• a one-time lease-up commission of 2 months of fixed rent for securing of new tenants for a tenancy of at least three years, commencing for new tenancies entered into from 1 January 2018.

The property management fees are payable to the Property Manager in the form of cash and/or Units.

# 2. Basis of preparation

The financial information have been prepared in accordance with the recommendations of the Statement of Recommended Accounting Practice ("RAP") 7 Reporting Framework for Unit Trusts issued by the Institute of Singapore Chartered Accountants, the applicable requirements of the Code on Collective Investment Schemes (the "CIS Code") issued by the Monetary Authority of Singapore ("MAS") and the provisions of the Trust Deed, and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2020. RAP 7 requires that accounting policies adopted should generally comply with the principles relating to recognition and measurement of the Singapore Financial Reporting Standards ("SFRS").

The financial information does not contain all of the information required for full annual financial statements.

The financial information has been prepared on a historical cost basis, except for the investment properties and financial derivatives which are stated at their fair values.

The financial information is presented in Singapore dollars which is the Trust's functional currency. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

The preparation of the financial information in conformity with RAP 7 requires the Manager to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this financial information, significant judgements made by the Manager in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2020.

The accounting policies applied by the Group in this financial information are the same as those applied by the Group in its financial statements as at and for the year ended 31 December 2020, except adoption of the revised version of RAP 7 new and revised standards that are effective for annual periods beginning on 1 January 2021. The adoption of these new and revised standards did not have a material impact on the Group's financial information.

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 January 2021 and earlier application is permitted; however, the Group has not early adopted the new or amended standards and interpretations in preparing this financial information.

#### Measurement of fair value

Investment properties are stated at fair value based on valuation as at 31 December 2021 performed by independent professional valuers having appropriate recognised professional qualifications and recent experience in the location and category of property being valued. In determining the fair value, the valuers have used valuation methods which involve certain estimates. The valuation uncertainty" clause due to the ongoing market disruption caused by the COVID-19 pandemic. Given the unprecedented set of circumstances on which to base a judgement, less certainty, and a higher degree of caution, should be attached to their valuations than would normally be the case. This clause does not invalidate the valuations. The Manager reviews the key valuation parameters and underlying data including terminal growth rates, term yield and reversionary rates and discount rates adopted by the valuers and is of the view that the valuation methods and estimates are reflective of the current market conditions.

The fair values are based on open market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction wherein the parties had each acted knowledgeably and without compulsion.

The valuers have considered valuation techniques including the discounted cash flow method, and capitalisation approach. The discounted cash flow method involves the estimation and projection of an income stream over a period and discounting the income stream with an internal rate of return to arrive at the market value. The capitalisation approach capitalises an income stream into a present value using single-year capitalisation rates.

The valuation technique(s) considered by valuers for each property is in line with market practices generally adopted in the jurisdiction in which the property is located.

Notes:

- <sup>(1)</sup> The ratio is computed in accordance with the guidelines of the Investment Management Association of Singapore. The expenses used in the computation relate to expenses at the Group level, excluding property related expenses and borrowing costs.
- <sup>(2)</sup> The ratio is computed based on total operating expenses, including all fees and charges paid to the Manager and related parties for the financial year (2021: S\$32,114,000 and 2020: S\$26,428,000) and as a percentage of net asset value as at the financial year end.

# **13.** Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial year.

# 14. **Operating segments**

The Group has 6 (2020: 6) reportable segments, as described below, which are the Group's investment properties. The investment properties are managed separately because they require different operating and marketing strategies. For each of the investment properties, the Chief Operating Decision–Makers ("CODMs") review internal management reports on a monthly basis.

All of the Group's reportable segments are investment properties located in China used primarily for retail purposes. The reporting segments are as follows:

- Beijing Hualian Wanmao Shopping Mall Management Co., Ltd. ("Beijing Wanliu")
- Chengdu Hairong Xingda Real Property Co., Ltd. ("Chengdu Konggang")
- Hefei Hualian Rui An Shopping Mall Commercial Operation Co., Ltd. ("Hefei Mengchenglu")
- Hefei Hualian Ruicheng Shopping Plaza Commercial Operation Ltd. ("Hefei Changjiangxilu")
- Qinghai Xinglian Real Property Co., Ltd. ("Xining Huayuan")
- Dalian Hualian Commercial Facilities Operation Co., Ltd. ("Dalian Jinsanjiao")

Segment revenue comprises mainly income generated from its tenants. Segment net property income represents the income earned by each segment after allocating property operating expenses. This is the measure reported to the CODMs for the purpose of assessment of segment performance. In addition, the CODMs monitor the non–financial assets as well as financial assets attributable to each segment when assessing segment performance.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly the REIT's financial assets and liabilities and its expenses. Segment capital expenditure is the total cost incurred during the year to improve segment assets that are expected to be used for more than one year.

Information regarding the Group's reportable segments is presented in the tables in the following pages.

For the purpose of monitoring segment performance, the Group's CODMs monitor the nonfinancial assets as well as financial assets attributable to each segment.

#### Footnotes:

- (1) Increase in net property income mainly due to there being no rental rebates given to tenants in 2H 2021 and FY 2021 while rental rebates were given in 2H 2020 and FY 2020.
- (2) Other income mainly comprised fine and penalties from tenants, government grant and miscellaneous income.
- (3) Manager's base management fee is calculated as 10.0% per annum of the Distributable Income of the Group. Manager's performance fee is calculated as 25.0% of the difference in DPU in a financial year with the DPU in the preceding financial year (calculated before accounting for the performance fee but after accounting for the base fee in each financial year) multiplied by the weighted average number of Units in issue for such financial year.
- (4) Decrease in finance costs mainly due to the lower floating interest rate which resulted in the interest cost saving.
- (5) Increase in income tax expenses mainly due to the higher corporate income tax paid and payable by the malls associated with higher profit before tax as compared to the last financial period and deferred tax expenses arose from the temporary differences in investment properties fair value.

#### Footnotes:

(1) The carrying amount of investment properties has increased due mainly to the strengthening of RMB against SGD as compared to last financial year. Notwithstanding a gradual COVID-19 recovery in China, the effects of the pandemic remains fluid and will continue to evolve in the near-term. The valuation reports obtained from the independent valuers for our properties contain the "material valuation uncertainty" clause due to the ongoing market disruption caused by the COVID-19 pandemic. Given the unprecedented set of circumstances on which to base a judgement, less certainty, and a higher degree of caution, should be attached to their valuations than would normally be the case. This clause does not invalidate the valuations, but implies that there is substantially more uncertainty than under normal market conditions. In accordance with the Code of Collective Investment Schemes, we conduct independent fair valuation of our investment properties annually at the end of each financial year.

Fair value changes on investment properties in terms of RMB for FY 2021 range from 0% to 1.2% as compared to FY 2020. This is largely due to potential occupancy changes and higher rents and better economic performance.

- (2) Loans and borrowings are measured at amortised cost. Increase in loans and borrowings was mainly due to the foreign exchange rates fluctuation on loans denominated in foreign currencies. The REIT has reclassified all the loans and borrowings from non-current liabilities to current liabilities as these are due within a year.
- (3) The REIT arranged more long-term interest-bearing loans from its subsidiaries as compared to the last financial year. These loans are mainly used for the REIT's distribution payment and interest expenses.
- (4) These relate to the fair value of the interest rate swaps entered into by the REIT, which are designated to hedge the variable rate borrowings.
- (5) Increase in short term security deposits was mainly due to the receipt of more security deposits from new and existing tenants with higher rents and longer leases term.

#### 2. Review of the performance of the Group

Gross revenue in 2H 2021 and FY 2021 were S\$3.5 million (10.8%) and S\$10.1 million (16.6%) higher than in 2H 2020 and FY 2020 respectively. This was mainly due to there being no rental rebates given to tenants in 2H 2021 and FY 2021 while rental rebates were given in 2H 2020 and FY 2020 respectively. In addition, the portfolio occupancy rate was 97.0% as at 31 December 2021, higher than 93.5% as at 31 December 2020. Property operating expenses in 2H 2021 and FY 2020 respectively. This was mainly due to the gradual resumption of malls' normal operations and the absence of COVID-19 subsidies from the government. As such, the net property income in 2H 2021 and FY 2021 were S\$1.3 million (6.6%) and S\$5.4 million (14.9%) higher than in 2H 2020 and FY 2020 and FY 2020 respectively.

Finance costs in 2H 2021 and FY 2021 were S\$0.4 million (-5.4%) and S\$0.6 million (-4.1%) lower than 2H 2020 and FY 2020 respectively. This was mainly due to the lower floating interest rate which resulted in interest cost saving.

Income to be distributed to Unitholders in 2H 2021 and FY 2021 were S\$0.2 million (3.8%) and S\$1.6 million (17.2%) higher than 2H 2020 and FY 2020. Approximately S\$1.2 million (FY 2020: S\$1.1 million) of the income available for distribution for FY 2021 had been retained for the purpose of operating expenses and working capital requirements of the REIT.

As at 31 December 2021, the Group is in a net current liability position of S\$288.7 million, which included the S\$295.4 million of borrowings that are due within the next 12 months. The Group and REIT is carrying out debt refinancing which is expected to be completed by the time the borrowings fall due.

# 7. Commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months

China's gross domestic product<sup>1</sup> ("GDP") grew 8.1% year-on-year to RMB 114.4 trillion for the full year 2021. The average<sup>2</sup> two-year growth for 2021 was 5.1% year-on-year.

Retail sales<sup>1</sup> of consumer goods rose 12.5% year-on-year to RMB 44.1 trillion in 2021. Consumption expenditure contributed 65.4% to China's GDP growth in 2021 compared to 54.3% in 2020. According to CBRE<sup>3</sup>, China's consumption remains strong despite sporadic COVID-19 outbreaks. Steady recovery in leasing demand drove rental growth.

Chinese residents' income grew in tandem with the economy during the year. Disposable income per capita<sup>1</sup> of urban residents grew 8.2% year-on-year in 2021.

Amidst successive waves of new variants, Premier Li Keqiang<sup>4</sup> (on 5<sup>th</sup> January 2022) stressed intensified implementation of tax and fee cuts to provide relief to businesses and revitalize the market. The Chinese authorities reiterated<sup>4</sup> that prudent monetary policies will be implemented, with liquidity maintained at a reasonable and ample level. China's central bank has implemented several easing in 2021 and early 2022. They include reserve requirement ratio (RRR) cuts, interest rate cuts for loan prime rate (LPR), medium-term lending facility (MLF) and reverse repos.

Notwithstanding the resurgence of cases, the Chinese authorities have been swift in curbing widespread and extended period of outbreaks since the onset of the pandemic. BHG Retail REIT's portfolio of retail properties, situated in high population density neighbourhoods, will continue to be underpinned by residents' rising income, stable employment and China's emphasis on domestic consumption. Looking ahead, the Manager will continue to refresh our malls' offerings,

pursue further growth opportunities, and remain an attractive long-term yield-play investment to our unitholders.
