The Board of Directors ("**Board**") of Sino Construction Limited (the "**Company**" and together with its subsidiaries, the "**Group**") refers to the article published on the Business Times earlier today entitled "Sino Construction unit in renewable energy venture" (the "**Article**"), and to queries from the Singapore Exchange Securities Trading Limited (the "**SGX-ST**") that some of the information in the Article have not previously been announced or disclosed.

The Article

The Company wishes to clarify the following matters reported in the Article:

- The statement that "To date, more than 150 sites have been identified as commercially viable for the project" in South Korea, was not made by the Company or persons authorised by the Company.

- The quote in the Article stating that "the company plans to work with the South Korean government on a long-term fixed price contract for power produced out of its biofuel power plant" was incorrectly attributed to the Company's non-executive chairman, Mr Andy Chee. Mr Chee did not make this statement.
