Notes to the Condensed Interim Consolidated Financial Statements For the Financial Year Ended 31 December 2023

These notes form an integral part and should be read in conjunction with the accompanying financial statements.

1 General

Matex International Limited ("Company") is a limited liability company, which is incorporated and domiciled in the Republic of Singapore and publicly traded on the Singapore Exchange Securities Trading Limited.

The registered office and principal place of business of the Company is located at 1003, Bukit Merah Central, #01-10 Inno Centre, Singapore 159836.

The principal activities of the Company are the formulation, manufacturing and sale of specialty chemicals focusing on dyestuff and auxiliaries for the textile industry.

The principal activities of the subsidiaries are disclosed in Note 10 to the condensed interim consolidated financial statements.

These condensed interim financial statements as at and for the six months and full year ended 31 December 2023 comprise the Company and its subsidiaries (collectively, the "**Group**").

2 Summary of significant accounting policies

2.1 Basis of preparation

The condensed interim financial statements of the Group for the six months and full year ended 31 December 2023 have been prepared in accordance with Singapore Financial Reporting Standards (International) (the "SFRS(I)") 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and the Group's performance since the last annual financial statements for the year ended 31 December 2022.

The condensed interim financial statements are presented in Singapore Dollars (SGD or \$) and all values are rounded to the nearest thousand (\$'000) except when otherwise indicated.

The accounting policies and method of computations used in the condensed interim financial statements are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards.

AND ITS SUBSIDIARIES CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE SIX MONTHS AND FULL YEAR ENDED 31 DECEMBER 2023

2.2 Adoption of new and amended standards and interpretations

In the current financial year, the Group has adopted all the new and revised SFRS (I) that are relevant to its operations and effective for the current financial year.

The adoption of these new/revised SFRS(I)s did not result in material changes to the Group's accounting policies and has no material effect on the financial results or position of the Group and the Company.

3 Significant accounting judgements and estimates

The preparation of the Group's condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

Critical judgement is required in the application of accounting policies when preparing the Group's condensed interim financial statements. Management is of the opinion that the instances of application of judgement are not expected to have a significant effect on the amounts recognised in the financial statements, apart from those involving estimates.

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Allowance for expected credit losses ("**ECLs**") of trade receivables

The Group determines ECLs and impairment of trade receivables by making debtor-specific assessment of expected impairment loss for long overdue trade receivables, and using a provision matrix for the remaining trade receivables.

The provision matrix is based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast of economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

AND ITS SUBSIDIARIES CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE SIX MONTHS AND FULL YEAR ENDED 31 DECEMBER 2023

3.2 Key sources of estimation uncertainty (cont'd)

The carrying amount of the Group and the Company's trade receivables as at 31 December 2023 are \$931,000 (31 December 2022: \$1,157,000) and \$579,000 (31 December 2022: \$679,000) respectively.

(b) Allowance for slow-moving and obsolete inventories

A review of the realisable value of the inventories is performed periodically for slow-moving, obsolete, and inventories which have a decline in net realisable value below cost. An allowance is recorded against the inventory balance for any such declines. These reviews require management to estimate future market demand for the products, pricing competitions, environmental regulations requirements and age of the inventories. Possible changes in these estimates could result in revisions to the valuation of inventories.

The carrying amount of the Group's inventories as at 31 December 2023 is \$1,378,000 (31 December 2022: \$3,244,000).

(c) Impairment of non-financial assets (property, plant and equipment, and right-of-use assets)

The recoverable amounts of the cash generating units ("**CGU**") are determined based on value in use, which are computed using a discounted cash flow model. This assessment required management to exercise significant judgement over various inputs and assumptions such as revenue growth rates, gross margins and discount rates.

The carrying amount of the Group's property, plant and equipment and right-of-use assets as at 31 December 2023 is \$565,000 and \$1,036,000 (31 December 2022: \$360,000 and \$1,442,000) respectively.

4 Revenue and segment information (cont'd)

(b) Segment Information

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Segment information is presented in respect of the Group's geographical segments only as it is not meaningful to present segmental reporting by business segments since the revenue of the Group is primarily derived from the manufacture and sale of dyestuffs and auxiliaries.

Inter-segment pricing is determined on an arm's length basis. The Group's operating businesses are organised and managed separately by geographical segments based on the location of assets. Revenue, assets and additions to property, plant and equipment are based on the location of those assets

11 Capital reserve

This pertains to a non-distributable capital income arising from the restructuring of subsidiary companies in prior years.

12 Enterprise expansion fund and general reserve

These pertain to reserve funds set up by the Group's subsidiaries in the PRC, in accordance with local laws and regulations, by way of appropriation from their net profits at a rate determined by the subsidiaries. The respective board of directors of the subsidiaries have decided that 20% of the profit after taxation be appropriated each year, of which 10% be appropriated to the general reserve and 10% be appropriated to the enterprise expansion fund.

The general reserve and the enterprise expansion fund may be used to offset accumulated losses or increase the registered capital of the subsidiaries, subject to approval from the authorities of the PRC. The reserves are not available for dividend distribution to the shareholders.

13 Translation Reserve

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

Review of financial performance of the Group

Revenue

The Group recorded a decrease in revenue by \$\$2.7m from \$\$6.8m for the six months ended 31 December 2022 ("**2H2022**") to \$\$4.1m for the six months ended 31 December 2023 ("**2H2023**") and a decrease of \$\$7.2m from \$\$14.6m for the full year ended 31 December 2022 ("**FY2022**") to \$\$7.4m for the full year ended 31 December 2023 ("**FY2023**"). The decrease was due mainly to generally weak demand in the textile industry which had not fully recovered from the pandemic as well as high inventory level in the market prior to the pandemic.

Gross Profit

Gross profit margin increased from 15.8% in 2H2022 to 20.2% for 2H2023 and from 17.2% in FY2022 to 21.9% in FY2023 due mainly to the Company's focus on higher value-added products which generated higher margin.

Review of financial performance of the Group (Cont'd)

Other income

The Group recorded a decrease in other income from S\$12.4m in 2H2022 to S\$14k in 2H2023 and from S\$12.5m in FY2022 to S\$48k in FY2023 due mainly to the absence of gain from disposal of its two subsidiaries, Matex Chemicals (Taixing) Co., Ltd ("MCT") and Amly Chemicals Co., Ltd ("ACL"), which was completed in 2H2022; as well as the decrease in Covid-19 pandemic related government grants.

Selling and distribution expenses

The Group recorded a decrease in selling and distribution expenses from S\$798k in 2H2022 to S\$489k in 2H2023 and from S\$1.7m in FY2022 to S\$1.1m in FY2023, in line with the reduction in revenue.

General and administrative expenses

The Group recorded a decrease in general and administrative expenses from \$\$5.7m in 2H2022 to \$\$2.6m in 2H2023 and from \$\$9.6m in FY2022 to \$\$5.0m in FY2023, due mainly to the restructuring and moving towards asset-light strategy, following the completion of the disposal of MCT and ACL in the second half of FY2022.

Net Finance Expense

The Group recorded a decrease in finance expenses of S\$118k in 2H2022 to S\$48k in 2H2023 and S\$433k in FY2022 to S\$122k in FY2023, due mainly to repayment of loan. The finance income had increased from S\$60k in 2H2022 to S\$216k in 2H2023 and S\$77k in FY2022 to S\$270k in FY2023 due mainly to interest earned on USD fixed deposit.

Tax

Taxation is in accordance with applicable tax rates on the taxable profits made by the profitable subsidiaries in the PRC.

Net Results

Overall, due mainly to the above movements, the Group recorded a loss before tax of S\$2.2m in 2H2023 as compared to a profit before tax of S\$7.1m in 2H2022 and a loss before tax of S\$4.0m in FY2023 as compared to profit before tax of S\$3.7m in FY2022. The loss attributable to owners of the Group is approximately S\$3.3m in FY2023, as compared to a profit of S\$7.3m in FY2022.

Review of financial position of the Group

Property, plant and equipment ("**PPE**") increased from S\$360k as at 31 December 2022 to S\$565k as at 31 December 2023, due mainly to purchase of PPE of S\$384k and partially offset by depreciation.

Right-of-use assets decreased from S\$1.4m as at 31 December 2022 to S\$1.0m as at 31 December 2023, due mainly to the depreciation of right-of-use assets, partially offset by the purchase of right-of-use assets in FY2023.

Other long-term investment increased by S\$134k as at 31 December 2023, arising from investment in unquoted equity securities.

Inventories reduced from S\$3.2m as at 31 December 2022 to S\$1.4m as at 31 December 2023, in line with the reduction in revenue and consumption of existing inventories.

Current trade and notes receivables decreased from S\$2.2m as at 31 December 2022 to S\$1.1m as at 31 December 2023, in line with the reduction in revenue.

Other receivables decreased from S\$5.0m as at 31 December 2022 to S\$0.8m as at 31 December 2023, as a result of repayment of outstanding consideration owing from the respective purchasers of MCT and ACL.

Prepayment remained around S\$69k as at 31 December 2022 and 31 December 2023. Prepayments are mainly advances to suppliers to secure favorable pricing.

Total cash and cash equivalents and fixed deposits increased from S\$11.9m as at 31 December 2022 to S\$16.4m as at 31 December 2023 due mainly to the receipt of (i) the final payment of S\$1.2m by the purchaser of ACL; (ii) repayment of outstanding intercompany payables of S\$4.7m by the purchaser of MCT; and (iii) the proceeds raised from the private placement, offset partially by cash used in operations and repayment of loans and borrowings.

Trade payables decreased from S\$0.6m as at 31 December 2022 to S\$0.2m as at 31 December 2023, in line with the reduction in revenue and payment made to trade creditors.

Other payables and accruals increased from S\$4.1m as at 31 December 2022 to S\$5.6m as at 31 December 2023, due mainly to a provision made for the overpayment by the purchaser of MCT on the repayment of outstanding intercompany payables.

Term loans decreased from S\$3.1m as at 31 December 2022 to S\$2.3m as at 31 December 2023, due mainly to the repayment of loans and borrowings.

As a result of the above, the Group's equity decreased from \$\\$15.1m as at 31 December 2022 to \$\\$12.2m as at 31 December 2023. After excluding non-controlling interests, the Group's equity attributable to Owners of the Company dropped slightly from \$\\$14.9m as at 31 December 2022 to \$\\$12.7m as at 31 December 2023.

Review of cash flows

Net cash used in operating activities

In FY2023, approximately S\$820k of net cash was used in the operating activities, which was a result of operating loss before changes in working capital of S\$3.6m, net working capital inflows of approximately S\$2.6m and net interest and tax refund of S\$165k.

Net cash generated from investing activities

In FY2023, the Group's net cash inflow from investing activities amounted to approximately S\$5.3m, due mainly to the proceeds received from the disposal ACL and the repayment of outstanding intercompany payables by the purchaser of MCT, offset partially by the purchase of PPE amounting S\$384k and the long-term investment of S\$134k.

Net cash generated from / (used) in financing activities

In FY2023, the Group's net cash inflow from financing activities amounted to approximately S\$4k, due mainly to the proceeds from the private placement of S\$1.25m, offset partially by loan repayment of S\$665k and lease liabilities repayment of S\$581k.

No forecast or prospect statement in relation to the Group's results was previously disclosed to shareholders.

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

In January 2024, the International Monetary Fund updated in its latest World Economic Outlook that with gradual disinflation and steadier markets reopening, the risks to global growth are broadly balanced and a soft landing is a possibility*. Still, there are eminent challenges across the horizon with new commodity price spikes from geopolitical shocks—including continued attacks in the Red Sea—and supply disruptions or more persistent underlying inflations that could provoke and prolong tight monetary conditions. Deepening property sector woes in China or, elsewhere, a disruptive turn to tax hikes and spending cuts could also cause potential growth disappointments.

With this backdrop, Matex continues to navigate a challenging trading environment along with its competitors and the textile industry at large. The long-lasting effects of Covid continue to linger sporadically, new wars erupting and weakened consumer confidence had resulted in much lower market demands than expected, as brands continue to reduce their current inventories and hold off from placing large orders and focused on the movement towards slower fashion: (to make things that are more sustainable and durable) as opposed to fast fashion in the decades before. These challenges are expected to remain throughout 2024, with market demand significantly reduced relative to the trading conditions of previous years.

Despite the above, new opportunities can sprout and henceforth the Company continues to prepare itself to be more circular by investing, developing, and delivering suitable product lines in emerging industries such as health and well-being, environmental and clean energy solutions, lifestyle wear with sustainable products, and solutions that the Company believes can add value to help its customers and stakeholders to differentiate and innovate.

With an asset-light strategy, the Company aims to continue its efforts in joint strategic partnerships by strengthening its distribution channels, innovating green product research and development, and streamlining its manufacturing.

The Company is pleased to announce that through the strategic collaboration with CSF Fund I Pte Ltd, the Company entered into an investment agreement on 26th January 2024 with AR Bioenergy Tech Pte. Ltd. ("ARB"), whereby the Company has subscribed for 276,162 new ordinary shares, which representing 19.12% of the total number of ordinary shares in the enlarged issued and paid-up share capital of ARB for a total consideration of S\$1,300,000. ARB was incorporated to undertake the business of turning low value biomass to high value carbon and activated carbon products. Further details of the above are set out in the Company's announcement dated 26 January 2024.

While the environment ahead is clouded, Matex is clearly committed to delivering value to its shareholders. With its improved cash position, the Company continues to be on the active lookout for suitable opportunities for diversification and innovation and to also establish new and complementary businesses to grow the Group's revenues and profits.
