## FINANCIAL HIGHLIGHTS

Asian Pay Television Trust (“APTT”<sup>2</sup>) reported higher revenue and EBITDA for the quarter and half-year ended 30 June 2020, amid continued challenging market conditions. Revenue and EBITDA stood at \$75.6 million and \$44.7 million for the second quarter, and \$155.0 million and \$92.9 million for the half-year.

Compared to the prior corresponding period (“pcp”), total revenue for the quarter and half-year increased by 4.8% and 6.6% while EBITDA grew by 0.4% and 4.9%, respectively. Foreign exchange contributed to a positive variance of 7.8% for the quarter and 6.2% for the half-year compared to the pcp. In constant Taiwan dollar (“NT\$”), total revenue for the quarter was 3.0% lower but 0.4% higher for the half-year compared to the pcp. The decrease in second quarter revenue was due to lower subscription revenue from all three business segments. ARPU<sup>3</sup> continued to be under pressure due to the pricing competition amongst mobile operators. This trend has impacted the entire cable TV and telecommunications industry.

Operating expenses for the quarter and half-year increased due to higher broadcast and production costs, arising from the timing in which programming fees were recorded in the prior year. Staff costs and other operating expenses also increased compared to the pcp.

EBITDA margin for the quarter and half-year remained stable at 59.0% and 60.0%.

## OPERATIONAL PERFORMANCE

TBC's<sup>6</sup> operational highlights for the quarter ended 30 June 2020 were as follows:

- **Basic cable TV:** Basic cable TV revenue of \$59.6 million for the quarter, which comprised subscription revenue of \$49.5 million and non-subscription revenue of \$10.1 million, was up 4.3% on the pcp. In constant NT\$, Basic cable TV revenue for the quarter decreased by 3.5%. TBC's c.721,000 Basic cable TV RGUs<sup>7</sup> contributed an ARPU of NT\$483 per month in the quarter to access over 100 cable TV channels. Basic cable TV RGUs decreased by c.4,000 and ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.725,000; ARPU: NT\$486 per month). The decline in Basic cable TV RGUs was due to a number of factors including video piracy issues, competition from aggressively priced IPTV, the growing popularity of online video, as well as expectations from consumers for discounts as they compare with the lower cable TV pricing outside of TBC's five franchise areas, particularly in the Taipei region. Non-subscription revenue for the quarter, including revenue from the leasing of television channels to third parties, the sale of airtime advertising and fees for the installation of set-top boxes, was marginally higher than the pcp mainly due to higher revenue generated from channel leasing and others. The leasing of television channels, which is mainly to third-party home shopping networks, continued to be affected by lower demand for home shopping and heightened competition from internet retailing. These trends will continue to put pressure on channel leasing revenue not just for TBC, but for the entire cable industry in Taiwan.
- **Premium digital cable TV:** While Premium digital cable TV RGUs increased, the lower ARPU resulted in a decline in revenue in constant NT\$. Premium digital cable TV revenue of \$3.3 million for the quarter ended 30 June 2020 was up 3.4% on the pcp. In constant NT\$, Premium digital cable TV revenue for the quarter decreased by 4.4%. Revenue was generated predominantly from TBC's c.225,000 Premium digital cable TV RGUs each contributing an ARPU of NT\$100 per month in the quarter for Premium digital cable TV packages and bundled DVR or DVR-only services. Premium digital cable TV RGUs increased by c.6,000 but ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.219,000; ARPU: NT\$104 per month) due to promotions and discounted bundled packages that were offered to generate new RGUs and to retain existing RGUs. Video piracy issues and aggressively priced IPTV have also impacted ARPU.
- **Broadband:** Despite the strong competition from mobile operators offering unlimited wireless data, Broadband RGUs continued to increase during the quarter. Broadband revenue of \$12.7 million for the quarter ended 30 June 2020 was up 7.2% on the pcp. In constant NT\$, Broadband revenue for the quarter decreased marginally by 0.6%. Broadband revenue was generated predominantly from TBC's c.246,000 Broadband RGUs each contributing an ARPU of NT\$356 per month in the quarter for high-speed Broadband services. Broadband RGUs increased by c.4,000 but ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.242,000; ARPU: NT\$360 per month). The availability of low-cost unlimited data offerings from mobile operators is necessitating fixed-line operators to offer higher speeds at competitive prices to acquire new RGUs and re-contract existing RGUs.

<sup>6</sup> TBC refers to Taiwan Broadband Communications group.

<sup>7</sup> RGUs refer to Revenue Generating Units, another term for subscribers or subscriptions; the terms are used interchangeably.

TBC's Broadband growth strategy is producing results. Over the last 18 months, efforts to drive higher speed plans, develop new market segments and introduce more value-added solutions that leverage the Android gateway, which allow higher speed plan subscribers to view over-the-top content and enjoy other value-added home-centric solutions, has increased the number of Broadband subscribers by 14%.

The growth strategy also plays a key role in unlocking the potential of TBC's data backhaul service, which is expected to be a key component of the Broadband business within the next few years.

Mr Brian McKinley, Chief Executive Officer of the Trustee-Manager said, "As a proof-of-concept, TBC is providing data backhaul for 4G networks to a number of wireless operators who prefer tapping into our superior network, rather than the main telco who is also competing with them in the wireless space. The first round of 5G licences were awarded at the beginning of 2020 and while some initial 5G services are targeted to be introduced in 2020, it will be a multi-year investment for the wireless operators. It is therefore important to continue with our network and Broadband investment as this will not

---

*only enable us to meet consumers' growing demand for data and high-speed plans, but to be fully data-backhaul ready to support wireless operators in their eventual 5G rollout."*

## OUTLOOK

Apart from executing the Broadband growth strategy, managing APTT's debt levels remains another important focus, as a stronger balance sheet will provide the Trust with the flexibility to navigate and compete more effectively in today's uncertain economic climate. The Trustee-Manager aims to gradually reduce debt levels.

Net proceeds of \$45.0 million from the Rights Issue have been used to pare down 20% of APTT's outstanding offshore facilities, which translates to annual interest cost savings of approximately \$2.9 million. Additionally, with capital expenditure trending down from 2020, more cash generated from operations may be available to make debt repayments, subject to operating conditions.

Mr McKinley added, *"As is normal course for capital expenditure spending, amid continued industry challenges and pressure on ARPU's, and with the uncertain global economic outlook brought about by the COVID-19 pandemic, we are exercising extra prudence. Some capital expenditure has been deferred until the second half of 2020. The level of capital expenditure, which is trending down compared to previous years, will be closely monitored to focus on areas that will have the best potential in generating growth and sustainability for the long-term."*

While the Trustee-Manager does not expect to record Basic cable TV RGU growth due to Taiwan's saturated cable TV market, it expects the number of Premium digital cable TV and Broadband RGUs to increase in 2020. Total revenue will, however, be influenced by the ability to maintain ARPU's which will remain under pressure due to market dynamics. The decline in demand for home shopping and competition from internet retailing will continue to put pressure on channel leasing revenue for the cable industry. Total operating expenses in 2020 are expected to be in line with 2019.

The strategic review process has come to an end with the proposed ownership changes at the Trustee-Manager level and the successful completion of the Rights Issue. The Trustee-Manager and the Board of Directors remain committed to protecting unitholders' interests and growing the partnership with the incoming majority owner, Da Da Digital Convergence Co., Ltd. ("Da Da Digital"), to extract greater value for unitholders.

## RIGHTS ISSUE

On 28 April 2020, APTT announced a renounceable non-underwritten rights issue (the "Rights Issue") of 361,270,970 new units (the "Rights Units") at an issue price of \$0.128 per Rights Unit. The issue price represented a discount of approximately 3.8% to the closing price of \$0.133 per unit on 27 April 2020, being the last trading date immediately prior to the date of announcement of the Rights Issue. The SGX-ST granted its approval in-principle on 18 May 2020 for the listing of and quotation for the Rights Units on the Main Board of the SGX-ST.

The Rights Issue provided eligible unitholders with an opportunity to maintain their equity interest in APTT. Four unitholders, APTT Management Pte. Limited (in its own capacity as unitholder of APTT and not as the Trustee-Manager of APTT), Araedis Investment Pte. Ltd., Mr Hsiao Han Shen and Mr Lu Fang-Ming, stepped forward to provide undertakings for the Rights Issue. Since this opportunity presented itself and with the continued pressures on APTT's EBITDA amid the challenging operating environment, the Trustee-Manager exercised prudence by paying down debt.

The record date for the purpose of determining the Rights of entitled unitholders was fixed at 5.00 p.m. on 1 June 2020. The offer information statement in relation to the Rights Issue was dated and lodged with the MAS on 1 June 2020. As at the close of the Rights Issue on 18 June 2020, the Rights Issue was fully subscribed with valid acceptances and excess applications received for 474,661,223 Rights Units, including acceptances and excess applications by undertaking unitholders for 100% of the 361,270,970 Rights Units.

---

All 361,270,970 Rights Units were allotted and issued on 25 June 2020 and the Rights Units were listed, quoted and traded on the Main Board of the SGX-ST with effect from 9.00 a.m. on 26 June 2020. Following the allotment and issue of the Rights Units, the total number of issued Units in APTT increased to 1,806,354,850.

As announced on 30 June 2020, the total gross proceeds of approximately \$46.2 million raised from the Rights Issue were fully utilised: (i) \$45.0 million for partial repayment of the Offshore Facilities; and (ii) \$1.2 million for payment of the expenses incurred in connection with the Rights Issue.

## DISTRIBUTIONS

With the completion of the Rights Issue, APTT's total unitholdings have increased by 25%. On a total quarterly distribution basis, the distribution will increase from \$4.3 million to \$4.5 million per quarter, a 4.2% rise. Based on the enlarged unitholdings, this translates to an adjusted distribution of 0.25 cents per unit per quarter, subject to no material changes in planning assumptions.

The Board of directors of the Trustee-Manager has declared an ordinary interim distribution of 0.25 cents per unit for the quarter ended 30 June 2020. The record date will be on 18 September 2020 and the distribution will be paid on 25 September 2020.

The quarterly distribution is expected to remain at 0.25 cents per unit for the remaining quarters in 2020, subject to no material changes in planning assumptions. The distribution will continue to be paid quarterly.

Distribution guidance for 2021 is expected to be announced when APTT releases its third quarter results for 2020.

## TRUSTEE-MANAGER UNITS IN APTT

Prior to the Rights Issue, the Trustee-Manager's direct unitholdings in APTT were 8,283,880 units. Pursuant to an undertaking provided by the Trustee-Manager to support the Rights Issue, 2,070,970 Rights Units were allotted and issued to the Trustee-Manager on 25 June 2020. As a result, the Trustee-Manager's direct unitholdings in APTT increased to 10,354,850 units, representing approximately 0.573% of the total number of issued units in APTT, following the Rights Issue.

Mr Lu Fang-Ming, the non-executive director and vice-chair of the Trustee-Manager, holds 6,250,000 units, representing approximately 0.346% of the total number of issued units in APTT. This includes 1,250,000 Rights Units allotted and issued on 25 June 2020 pursuant to an undertaking provided by Mr Lu Fang-Ming to support the Rights Issue.

As announced on 29 April 2020, the Trustee-Manager was informed by Dynami Vision Pte. Ltd. ("Dynami"), which is the sole shareholder of the Trustee-Manager, that the proposed sale by Mr Terry Gou of his indirect interest of 20% in Dynami to Mr Lu Fang-Ming, as announced on 14 May 2019, had been approved by the Investment Commission, Ministry of Economic Affairs of Taiwan and the National Communications Commission of Taiwan. On 12 May 2020, Brave Guts Limited acquired the remaining 20% interest in Gear Rise Limited and with this completion of the sale and transfer of shares, Mr Lu Fang-Ming became sole ultimate shareholder of Gear Rise Limited, Dynami and the Trustee-Manager.

Separately, as announced on 11 February 2020, Dynami informed the Trustee-Manager that its parent company, Gear Rise Limited, had entered into a sale and purchase agreement with Da Da Digital for a 65% stake in Dynami. This is subject to, among others, approvals from regulatory bodies in Taiwan and lenders of APTT and TBC. Da Da Digital also indicated its interest to increase its stake in APTT in the mid to long term, while adhering to the necessary regulations in both Taiwan and Singapore. Prior to the Rights Issue, Da Da Digital's parent company, Araedis Global Investment Holdings Ltd. had already accumulated a 2.5% stake in APTT, through its wholly owned subsidiary Araedis Investment Pte. Ltd. ("Araedis"). As a show of confidence in APTT, Araedis supported the Rights Issue by providing an undertaking which has resulted in its stake increasing to over 14% following the Rights Issue.

## IMPACT OF COVID-19

TBC operates in a relatively defensive industry, providing cable TV and fixed-line broadband services to the local households in its five closely clustered franchise areas in northern and central Taiwan. Given the subscription-based nature of its business, the impact of the COVID-19 pandemic on TBC has been limited to date.

TBC activated its Business Continuity Plan (“BCP”) since the start of the virus outbreak in Taiwan. The BCP aims to protect the health and safety of all staff while minimising disruptions to its service delivery and overall operations. TBC has adhered to all regulations and guidelines from government authorities related to the containment of the virus, including split team arrangements, safe-distancing and encouraging staff to embrace good personal hygiene, and will continue to do so.

Likewise, the Trustee-Manager in Singapore has activated its BCP plan that adheres to the relevant regulations in Singapore.

Although some additional expenses have been incurred to date to implement COVID-19 related measures, they are not material and are not expected to be material on a full year basis.

While the COVID-19 outbreak in Taiwan has been relatively contained as compared to other countries, Taiwan’s outlook remains uncertain as the expected downturn in other countries will invariably have an impact on Taiwan’s export-driven economy and GDP growth. A significant and prolonged deterioration in the national GDP, disposable income or overall economic conditions could in turn adversely affect TBC’s ability to grow or maintain revenues, and its financial position.

The Trustee-Manager will continue to:

- monitor developments of COVID-19 and their related impact on operations; and
- exercise prudence, manage its operational and capital expenditure and strengthen APTT’s debt management programme. A stronger balance sheet will provide APTT with the flexibility to navigate and compete more effectively in today’s uncertain economic climate.

As at the date of this report, APTT’s portfolio comprised its sole investment, Taiwan Broadband Communications group (“TBC”). Established in 1999, TBC is a leading cable operator in Taiwan. ## DISTRIBUTION POLICY

Distributions will be declared and paid in Singapore dollars. Any proposed distributions by the Trust will be paid from its residual cash flows (“distributable free cash flows”). These cash flows are derived from dividends and principal and interest payments (net of applicable taxes and expenses) received by the Trust from the entities held within the Group. In addition, any other cash received by the Trust from the entities held within the Group also contribute towards distributable free cash flows.

The distributable free cash flows available to the Trust are after any cash required to: (i) pay the operating expenses of the Trust, including the Trustee-Manager’s fees, (ii) repay principal amounts (including any premium or fee) under any debt or financing arrangement of the Trust, (iii) pay interest or any other financing expense on any debt or financing arrangement of the Trust, (iv) provide for the cash flow needs of the Trust or to ensure that the Trust has sufficient funds and/or financing resources to meet the short-term liquidity needs of the Trust and (v) provide for the cash needs of the Trust for capital expenditure purposes.

Distributions will be made on a quarterly basis, with the amount calculated as at 31 March, 30 June, 30 September and 31 December each year for the three-month period ending on each of the said dates. The Trustee-Manager will pay the distributions no later than 90 days after the end of each distribution period.

## **TAXATION**

### **Taxation of the Trust**

The Trust is a business trust registered with the Monetary Authority of Singapore (“MAS”) under the BTA. The Trust is liable to Singapore income tax on income accruing in or derived from Singapore (i.e. Singapore sourced income) and unless otherwise exempt, income derived from outside Singapore which is received or deemed to have been received in Singapore (i.e. foreign sourced income). Foreign sourced dividends received by the Trust would only be subject to Singapore income tax when received in Singapore or deemed received in Singapore, subject to certain exemptions. Subject to meeting certain stipulated conditions and reporting obligations, the Trust has obtained an exemption under Section 13(12) of the Income Tax Act, Chapter 134 of Singapore (“Income Tax Act”) on dividend income received by the Trust from the Bermuda holding companies after its listing on the SGX-ST. Specifically, the Trust will be exempt from tax on dividends from the Bermuda holding companies that originate from dividends and interest paid out of underlying profits from substantive cable and broadband business activities carried out in Taiwan.

### **Taxation of the unitholders**

Pursuant to Section 13(1)(zg) of the Income Tax Act, distributions by the Trust are tax-exempt and are therefore not subject to Singapore income tax in the hands of unitholders. The distributions are also not subject to Singapore withholding tax.

The tax exemption is given to all unitholders, regardless of their nationality, corporate identity or tax residence status. Unitholders are not entitled to tax credits for any taxes paid by the Trustee-Manager.

The Trust does not give tax advice and recommends that all unitholders obtain their own tax advice in relation to the distribution payment.

---

## SELECTED FINANCIAL INFORMATION AND OPERATING DATA

The selected financial information and operating data presented on pages 13 and 14 supports the distributions to unitholders and therefore are key financial and operating metrics that the Trustee-Manager focuses on to review the amount of distributions that will be paid to unitholders. Some of the selected financial information includes non-IFRS measures.

### Non-IFRS measures

EBITDA and EBITDA margin are supplemental financial measures of the Group's performance and liquidity and are not required by, or presented in accordance with International Financial Reporting Standards ("IFRS") or any other generally accepted accounting principles. Furthermore, EBITDA and EBITDA margin are not measures of financial performance or liquidity under IFRS or any other generally accepted accounting principles and should not be considered as alternatives to net income, operating income or any other performance measures derived in accordance with IFRS or any other generally accepted accounting principles. EBITDA and EBITDA margin may not reflect all of the financial and operating results and requirements of the Group. In particular, EBITDA and EBITDA margin do not reflect the Group's needs for capital expenditures, debt servicing or additional capital that may be required to replace assets that are fully depreciated or amortised. Other companies may calculate EBITDA and EBITDA margin differently, limiting their usefulness as comparative measures.

The Trustee-Manager believes that these supplemental financial measures facilitate operating performance comparisons for the Group from period to period by eliminating potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods of changes in effective tax rates or net operating losses) and the age and book depreciation of tangible assets (affecting relative depreciation expense). In particular, EBITDA eliminates the non-cash depreciation expense that arises from the capital-intensive nature of the Group's businesses and intangible assets recognised in business combinations. The Trustee-Manager presents these supplemental financial measures because it believes these measures are frequently used by securities analysts and investors in evaluating similar issuers.

<sup>2</sup> Notes can be found on pages 28 to 33.

<sup>3</sup> A positive variance is favourable to the Group and a negative variance is unfavourable to the Group.

<sup>4</sup> Operating expenses presented here exclude settlement of programming fees, depreciation and amortisation expense, net foreign exchange gain/loss and mark to market movements on foreign exchange contracts appearing in the consolidated statements of profit or loss on page 18, in order to arrive at EBITDA and EBITDA margin presented here.

<sup>5</sup> EBITDA margin is a non-IFRS financial measure and is calculated by dividing EBITDA by total revenue.

<sup>6</sup> Profit/loss after income tax is calculated in accordance with IFRS on page 18. Refer to page 26 for reconciliation of net profit/loss to EBITDA.

<sup>1</sup> Average Revenue Per User ("ARPU") is calculated by dividing the subscription revenue for Basic cable TV or Premium digital cable TV or Broadband, as applicable, by the average number of RGUs for that service during the period.

<sup>2</sup> Average Monthly Churn Rate ("AMCR") is calculated by dividing the total number of churned RGUs for a particular service during a period by the number of RGUs for that service as at the beginning of that period. The total number of churned RGUs for a particular service for a period is calculated by adding together all deactivated subscriptions, including deactivations caused by failure to make payments for that service from the billing system for the period.

## REVIEW OF SELECTED FINANCIAL INFORMATION AND OPERATING DATA

### (i) Revenue

Total revenue for the quarter ended 30 June 2020 was \$75.6 million (30 June 2019: \$72.2 million). Total revenue for the half-year ended 30 June 2020 was \$155.0 million (30 June 2019: \$145.4 million). Total revenue for the quarter and half-year was 4.8% and 6.6% higher than the pcp; in constant NT\$, total revenue for the quarter was 3.0% lower but 0.4% higher for the half-year compared to the pcp. Foreign exchange contributed to a positive variance of 7.8% for the quarter and 6.2% for the half-year compared to the pcp. Total revenue was influenced by a number of factors including the continued challenges in the economic and operating environment.

### (ii) Operating expenses

Total operating expenses of \$31.0 million for the quarter ended 30 June 2020 were 11.9% higher than the pcp (30 June 2019: \$27.7 million). Total operating expenses of \$62.0 million for the half-year ended 30 June 2020 were 9.2% higher than the pcp (30 June 2019: \$56.8 million). The higher total operating expenses for the quarter and half-year were mainly due to higher broadcast and production costs, staff costs and other operating expenses.

### (iii) EBITDA and EBITDA Margin

EBITDA of \$44.7 million for the quarter ended 30 June 2020 was 0.4% higher than the pcp (30 June 2019: \$44.5 million). EBITDA margin for the quarter of 59.0% was lower than the pcp (30 June 2019: 61.6%).

EBITDA of \$92.9 million for the half-year ended 30 June 2020 was 4.9% higher than the pcp (30 June 2019: \$88.6 million). EBITDA margin for the half-year of 60.0% was lower than the pcp (30 June 2019: 60.9%).

### (iv) Capital expenditure

Total capital expenditure of \$16.1 million for the quarter ended 30 June 2020 was 24.7% lower than the pcp (30 June 2019: \$21.5 million) and \$27.3 million for the half-year ended 30 June 2020 was 24.6% lower than the pcp (30 June 2019: \$36.2 million). Total capital expenditure as a percentage of revenue was 21.3% for the quarter (30 June 2019: 29.7%) and 17.6% for the half-year (30 June 2019: 24.9%).

Total capital expenditure for the quarter and half-year was lower than the pcp because of lower capital expenditure being incurred on network, Broadband and other capital expenditure compared to the pcp. As is normal course for capital expenditure spending, amid continued industry challenges and pressure on ARPUs, and with the uncertain global economic outlook brought about by the COVID-19 pandemic, TBC is exercising extra prudence and some capital expenditure has been deferred until the second half of 2020.

The deployment of fibre deeper into the network continues to be a key investment initiative for 2020 as it will increase network capacity to drive future growth. This investment is key to driving the Broadband business, positioning APTT to benefit from supporting wireless carriers in their network rollouts and to pursue other opportunities for the long-term success of the Trust.

Capital expenditure is trending down from 2020 onwards. The level of capital expenditure will be closely monitored to focus on areas that will have the best potential in generating growth and sustainability for the long-term.

TBC's network is already beginning to provide data backhaul to some of Taiwan's major wireless operators. With continued wireless network development, data backhaul through TBC's network is expected to become a key component of the Broadband business within the next few years as wireless carriers tap into TBC's superior network for their network rollouts.

Capital expenditure comprised the following:

- Maintenance capital expenditure to support TBC's existing infrastructure and business.
- Network, Broadband and other capital expenditure included items related to expanding the fibre network such as cabling, additional equipment to upgrade the headends, backbone and fibre nodes, DOCSIS and GPON deployments for higher speed customers, high-speed broadband modems and cable line extensions for new buildings.

<sup>3</sup> Represent a one-time programming cost following final negotiations between TBC and the agent. Refer Note B(i) for more details.

<sup>4</sup> Increase in depreciation and amortisation expense was mainly due to higher depreciation expense on network equipment compared to the pcp. Refer Note B(iii) for more details.

<sup>5</sup> Variance in net foreign exchange (loss)/gain is mainly due to translations at the subsidiary level which are not expected to be realised. Refer Note B(v) for more details.

<sup>6</sup> Variance in mark to market gain/(loss) on derivative financial instruments was due to exchange rate movements on foreign exchange contracts.

<sup>7</sup> Other operating expenses for the quarter and half-year were higher mainly due to higher pole rental expenses and reversal of provisions for fines in the pcp. Refer Note B(vii) for more details.

<sup>8</sup> Variance in income tax benefit/(expense) was mainly due to lower current and deferred income tax expense. Refer Note B(x) for more details.

<sup>9</sup> Earnings per unit is calculated by dividing profit/loss attributable to unitholders of APTT by the weighted average number of APTT units outstanding during the period.

There were no changes to unitholders' funds during the pcp.

On 10 January 2020, APTT issued 2,955,468 units to the Trustee-Manager at a price of \$0.1691778996 per unit, for payment of \$0.5 million, out of the total \$3.7 million Trustee-Manager base fees for the six-month period from 1 July 2019 to 31 December 2019. The issue price per unit was based on APTT's volume weighted average price for a unit for all trades done on the SGX-ST in the ordinary course of trading on the SGX-ST for the ten business days immediately prior to the date of issue.

On 26 June 2020, APTT announced that all 361,270,970 Rights Units pursuant to the Rights Issue were issued on 25 June 2020 at an issue price of \$0.128 per unit and the Rights Units were listed, quoted and traded on the Main Board of the SGX-ST with effect from 9.00 a.m. on 26 June 2020. Following the allotment and issue of the Rights Units, the total number of issued units in APTT increased to 1,806,354,850.

On 30 June 2020, APTT announced that the total gross proceeds of approximately \$46.2 million raised from the Rights Issue were fully utilised, as (i) \$45.0 million for partial repayment of the Offshore Facilities; and (ii) \$1.2 million for payment of the expenses incurred in connection with the Rights Issue, compared to \$1.1 million as stated in its announcement dated 28 April 2020 in relation to the launch of the Rights Issue ("28 April 2020 Announcement") and the Offer Information Statement dated 1 June 2020 issued in relation to the Rights Issue ("Offer Information Statement"). No amount has been used for working capital purposes, compared to \$0.1 million as stated in the 28 April 2020 Announcement and the Offer Information Statement. Save as disclosed above, the utilisation of proceeds is in accordance with the stated use of proceeds from the Rights Issue, and is in accordance with the amounts and percentages allocated, as stated in the 28 April 2020 Announcement and the Offer Information Statement. The variance in expenses incurred in connection with the Rights Issue is not material and was primarily due to the actual Rights Issue expenses being determined in excess of the estimated Rights Issue expenses by \$0.1 million.

With reference to paragraphs 1(d)(ii), 1(d)(iv) and 1(d)(v) of Appendix 7.2 of the SGX-ST Listing Manual, the Trustee-Manager confirms that for the quarters and half-years ended 30 June 2020 and 2019, the Trust did not have any convertible securities, treasury units or subsidiary holdings on issue.

# REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT OR LOSS FOR THE QUARTER AND HALF-YEAR ENDED 30 JUNE 2020

As presented in the consolidated statements of profit or loss disclosed on page 18

## A) REVIEW OF REVENUE

Total revenue for the quarter ended 30 June 2020 was \$75.6 million (30 June 2019: \$72.2 million). Total revenue for the half-year ended 30 June 2020 was \$155.0 million (30 June 2019: \$145.4 million). Total revenue for the quarter and half-year was 4.8% and 6.6% higher than the pcp; in constant NT\$, total revenue for the quarter was 3.0% lower but 0.4% higher for the half-year compared to the pcp. Foreign exchange contributed to a positive variance of 7.8% for the quarter and 6.2% for the half-year compared to the pcp. Total revenue was influenced by a number of factors including the continued challenges in the economic and operating environment.

Total revenue comprised revenue generated from: (i) Basic cable TV, (ii) Premium digital cable TV and (iii) Broadband. An analysis of the revenue items is as follows:

### (i) Basic cable TV

Basic cable TV revenue of \$59.6 million for the quarter ended 30 June 2020 was up 4.3% on the pcp (30 June 2019: \$57.1 million). In constant NT\$, Basic cable TV revenue was down 3.5% on the pcp. This comprised subscription revenue of \$49.5 million (30 June 2019: \$47.9 million) and non-subscription revenue of \$10.1 million (30 June 2019: \$9.2 million). The decrease in Basic cable TV revenue in constant NT\$ was mainly due to lower subscription revenue as described below.

Basic cable TV revenue of \$123.3 million for the half-year ended 30 June 2020 was up 7.0% on the pcp (30 June 2019: \$115.2 million). In constant NT\$, Basic cable TV revenue was up 0.8% on the pcp. This comprised subscription revenue of \$98.3 million (30 June 2019: \$96.4 million) and non-subscription revenue of \$25.0 million (30 June 2019: \$18.8 million). The increase in Basic cable TV revenue in constant NT\$ was mainly due to higher non-subscription revenue as described below.

Subscription revenue was generated from TBC's c.721,000 Basic cable TV RGUs each contributing an ARPU of NT\$483 per month in the quarter to access over 100 cable TV channels. Basic cable TV RGUs decreased by c.4,000 and ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.725,000; ARPU: NT\$486 per month). The decline in Basic cable TV RGUs was due to a number of factors including competition from aggressively priced IPTV, video piracy issues, the growing popularity of online video, as well as expectations from consumers for discounts as they compare with the lower cable TV pricing outside of TBC's five franchise areas, particularly in the Taipei region. Subscription revenue for the quarter and half-year was higher than the pcp mainly due to foreign exchange; in constant NT\$ subscription revenue for the quarter and half-year was lower than the pcp because of a lower number of subscribers and ARPU.

Non-subscription revenue was 16.9% of Basic cable TV revenue for the quarter (30 June 2019: 16.2%) and 20.3% of Basic cable TV revenue for the half-year (30 June 2019: 16.3%). This included revenue from the leasing of television channels to third parties, the sale of airtime advertising and fees for the installation of set-top boxes. Non-subscription revenue for the quarter was marginally higher than the pcp mainly due to higher revenue generated from channel leasing and others. Non-subscription revenue for the half-year was higher than the pcp mainly due to higher revenue generated from airtime advertising sales and others. The leasing of television channels, which is mainly to third-party home shopping networks, continued to be affected by the lower demand for home shopping and heightened competition from internet retailing. These trends will continue to put pressure on channel leasing revenue not just for TBC, but for the entire cable industry in Taiwan.

### (ii) Premium digital cable TV

While Premium digital cable TV RGUs increased, the lower ARPU has resulted in a decline in revenue in constant NT\$. Premium digital cable TV revenue of \$3.3 million for the quarter ended 30 June 2020 was up 3.4% on the pcp (30 June 2019: \$3.2 million). In constant NT\$, Premium digital cable TV revenue was 4.4% lower than the pcp. This comprised subscription revenue of \$3.2 million (30 June 2019: \$3.1 million) and non-subscription revenue of \$0.1 million (30 June 2019: \$0.1 million).

---

Premium digital cable TV revenue of \$6.6 million for the half-year ended 30 June 2020 was up 1.9% on the pcp (30 June 2019: \$6.4 million). In constant NT\$, Premium digital cable TV revenue was 4.3% lower than the pcp. This comprised subscription revenue of \$6.3 million (30 June 2019: \$6.1 million) and non-subscription revenue of \$0.3 million (30 June 2019: \$0.3 million).

Subscription revenue was generated from TBC's c.225,000 Premium digital cable TV RGUs each contributing an ARPU of NT\$100 per month in the quarter for Premium digital cable TV packages and bundled DVR or DVR-only services. Premium digital cable TV RGUs increased by c.6,000 but ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.219,000; ARPU: NT\$104 per month) due to promotions and discounted bundled packages that were offered to generate new RGUs and to retain existing RGUs. Video piracy issues and aggressively priced IPTV have also impacted ARPU.

Non-subscription revenue predominantly comprised revenue from the sale of electronic programme guide data to other system operators.

### **(iii) Broadband**

Despite the strong competition from mobile operators offering unlimited wireless data, Broadband RGUs continued to increase during the quarter. Broadband revenue of \$12.7 million for the quarter ended 30 June 2020 was up 7.2% on the pcp (30 June 2019: \$11.9 million). In constant NT\$, Broadband revenue for the quarter was 0.6% lower than the pcp. This comprised subscription revenue of \$12.3 million (30 June 2019: \$11.5 million) and non-subscription revenue of \$0.4 million (30 June 2019: \$0.4 million).

Broadband revenue of \$25.1 million for the half-year ended 30 June 2020 was up 5.7% on the pcp (30 June 2019: \$23.8 million). In constant NT\$, Broadband revenue for the half-year was 0.5% lower than the pcp. This comprised subscription revenue of \$24.2 million (30 June 2019: \$23.1 million) and non-subscription revenue of \$0.9 million (30 June 2019: \$0.7 million).

Subscription revenue was generated from TBC's c.246,000 Broadband RGUs each contributing an ARPU of NT\$356 per month in the quarter for high-speed Broadband services. Broadband RGUs increased by c.4,000 but ARPU was lower compared to the previous quarter ended 31 March 2020 (RGUs: c.242,000; ARPU: NT\$360 per month). The availability of low-cost unlimited data offerings from mobile operators is necessitating fixed-line operators to offer higher speeds at competitive prices to acquire new RGUs and re-contract existing RGUs.

Non-subscription revenue predominantly comprised revenue from the provision of installation and other services.

## B) REVIEW OF OPERATING EXPENSES

An analysis of the Group's expense items is as follows:

### (i) Broadcast and production costs

Broadcast and production costs were \$14.2 million for the quarter ended 30 June 2020, up 20.1% on the pcp (30 June 2019: \$11.8 million); in constant NT\$, broadcast and production costs were up 12.3%, arising from the timing in which programming fees were recorded in the prior year. Foreign exchange contributed to a negative variance of 7.8% for the quarter compared to the pcp.

Broadcast and production costs were \$27.9 million for the half-year ended 30 June 2020, up 5.9% on the pcp (30 June 2019: \$26.4 million); in constant NT\$, broadcast and production costs were 0.3% lower than the pcp mainly due to lower cost of acquiring cable TV content. Foreign exchange contributed to a negative variance of 6.2% for the half-year compared to the pcp.

Broadcast and production costs comprised: (i) the cost of acquiring Basic cable TV and Premium digital cable TV content, (ii) the cost of acquiring bandwidth (which consists of the leasing of domestic and international bandwidth capacity from operators to support TBC's Broadband services) and (iii) costs for producing the Group's own programming.

**Settlement of programming fees** - Since 2019, TBC had been in the process of facilitating certain content programming discussions between its programming vendors and agent, and had placed a refundable deposit of NT\$359 million (approximately \$16.9 million) with the programming vendors to ensure no interruption of service while the discussions were in progress. In January 2020, again to ensure no interruption of service, the Group utilised the refundable deposit to pay programming fees of NT\$359 million (approximately \$16.9 million) directly to its programming vendors, such sum being claimable against the agent. Following final negotiations between TBC and the agent in April 2020, TBC has agreed to bear an additional programming cost of NT\$113 million (approximately \$5.4 million) from the agent, which has been recognised as a one-time settlement of programming fees during the quarter ended 30 June 2020.

### (ii) Staff costs

Staff costs were \$7.3 million for the quarter ended 30 June 2020, up 1.9% on the pcp (30 June 2019: \$7.2 million) and \$15.6 million for the half-year ended 30 June 2020, up 13.4% on the pcp (30 June 2019: \$13.7 million). Staff costs for the quarter were higher mainly due to foreign exchange. Staff costs for the half-year were higher mainly due to higher staff costs in constant dollar.

Staff costs comprised direct employee costs and general and administrative employee costs including salaries, bonuses, long-term incentives and benefits.

The Group adopted a long-term incentive plan (the "LTIP") in 2013 for its senior management at TBC, under which TBC senior management are granted notional units of the Trust upon achieving prescribed performance targets. These notional units vest in tranches over a prescribed period of time initially commencing two years after the grant of the notional units. Upon vesting of such notional units under the LTIP, TBC's senior management receive a cash payment equal to the number of vested notional units multiplied by the market price of the units as determined in accordance with the LTIP.

A total of 47.6 million notional units have been granted under the LTIP since inception. Out of the total notional units granted since inception, 13.4 million notional units had vested by 31 December 2019. The remaining 34.2 million notional units remained unvested as at 30 June 2020.

LTIP expense attributable to the quarter and half-year has been recognised in the financial statements to reflect the estimate of the future obligations under the LTIP.

**(iii) Depreciation and amortisation expense**

Depreciation and amortisation expense was \$22.0 million for the quarter ended 30 June 2020, up 5.0% on the pcp (30 June 2019: \$21.0 million) and \$43.6 million for the half-year ended 30 June 2020, up 5.0% on the pcp (30 June 2019: \$41.5 million). The increase was mainly due to higher depreciation expense on network equipment for the quarter and half-year compared to the pcp. Refer Note C(iv) for more details.

Depreciation and amortisation expense comprised depreciation and amortisation of the Group's capital expenditures in relation to network equipment, set-top boxes, other plant and equipment, right-of-use assets, programming rights and software.

**(iv) Trustee-Manager fees**

The Trustee-Manager is entitled to base fees and performance fees as specified under the Trust Deed.

The Trustee-Manager base fees were \$1.8 million for the quarter ended 30 June 2020 (30 June 2019: \$1.8 million) and \$3.7 million for the half-year ended 30 June 2020 (30 June 2019: \$3.6 million). There were no performance fees payable to the Trustee-Manager for the quarter and half-year ended 30 June 2020 (30 June 2019: nil).

The base fees are payable semi-annually in arrears for every six months ending 30 June and 31 December of each year. Payment of the base fees, whether in the form of cash and/or units, shall be made out of the Trust property within 30 days of the last day of every six months (or such other period as may be determined by the Trustee-Manager at its discretion).

**(v) Net foreign exchange (loss)/gain**

Net foreign exchange loss for the quarter ended 30 June 2020 was \$0.3 million (30 June 2019: \$0.5 million) and net foreign exchange gain for the half-year ended 30 June 2020 was \$0.8 million (30 June 2019: loss of \$2.2 million). Net foreign exchange (loss)/gain for the quarter and half-year ended 30 June 2020 included unrealised foreign exchange movements from translations at the subsidiary level which are not expected to be realised.

**(vi) Mark to market gain/(loss) on derivative financial instruments**

The Group uses foreign exchange contracts to manage its exposure to foreign exchange movements as discussed in Note C(vi). For the quarter ended 30 June 2020, the period end mark to market gain on foreign currency contracts was \$0.04 million (30 June 2019: \$0.6 million) and for the half-year ended 30 June 2020, the period end mark to market loss on foreign currency contracts was \$2.7 million (30 June 2019: gain of \$2.0 million). Mark to market gain/(loss) on derivative financial instruments included loss of \$0.3 million (30 June 2019: gain of \$0.5 million) and loss of \$0.7 million (30 June 2019: gain of \$1.4 million) on NT\$ foreign exchange contracts settled during the quarter and half-year.

#### (vii) Other operating expenses

Other operating expenses were \$7.6 million for the quarter ended 30 June 2020, up 11.3% on the pcp (30 June 2019: \$6.9 million) and \$14.9 million for the half-year ended 30 June 2020, up 13.5% on the pcp (30 June 2019: \$13.1 million).

#### (viii) Amortisation of deferred arrangement fees

The Group pays financing fees to the lenders when entering into debt facilities or refinance existing facilities. At inception, the financing fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss. Amortisation of deferred arrangement fees was \$0.9 million for the quarter ended 30 June 2020 (30 June 2019: \$0.8 million) and \$1.8 million for the half-year ended 30 June 2020 (30 June 2019: \$1.7 million).

#### (ix) Interest and other finance costs

Interest and other finance costs were \$12.4 million for the quarter ended 30 June 2020, 1.1% higher than the pcp (30 June 2019: \$12.2 million) and \$24.8 million for the half-year ended 30 June 2020, 2.6% higher than the pcp (30 June 2019: \$24.2 million). These comprised interest expense and commitment and other fees on the Group's debt facilities. Interest and other finance costs for the quarter and half-year ended 30 June 2020 also included finance charges on lease liabilities of \$0.1 million (30 June 2019: \$0.04 million) and \$0.1 million (30 June 2019: \$0.1 million).

#### (x) Income tax benefit/(expense)

The Group is subject to income tax in several jurisdictions. Significant judgment is required in determining provisions for income tax, including a judgment on whether tax positions are probable of being sustained in income tax assessments. There are certain transactions and calculations for which the ultimate income tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated income tax issues based on estimates of whether additional taxes will be due. Where the final income tax outcome of these matters is different from the amounts that were initially recorded, these differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

The Trustee-Manager evaluates positions taken in income tax returns with respect to situations in which applicable income tax regulations are subject to interpretation. The income tax liabilities are recognised when it is more likely than not that certain tax positions may be changed upon review by income tax authorities. The Group believes that the final tax outcome of these

positions can differ from those initially recognised when reviews or audits by tax authorities of tax returns are completed. Benefits from tax positions are measured at the single best estimate of the most likely outcome. At each statement of financial position date, the tax positions are reviewed and to the extent that new information becomes available that causes the Trustee-Manager to change its judgment regarding the adequacy of existing income tax liabilities, these changes to income tax liabilities are duly recognised as income tax expense in the year in which the determination is made.

Income tax benefit/(expense) recognised in the consolidated statements of profit or loss was as follows:

Group Amounts in \$'000	Quarter ended 30 June		Half-year ended 30 June	
	2020	2019	2020	2019
Current income tax	369	(948)	(1,669)	(1,845)

<b>Total</b>	<b>1,129</b>	<b>(3,435)</b>	<b>(4,564)</b>	<b>(6,392)</b>

<sup>1</sup> Over provision of tax in prior years represents adjustments made to prior years' tax provisions in the current quarter and half-year to reflect the current position of tax provision related to those years based on tax assessment, or otherwise, and does not relate to the current quarter and half-year.

# REVIEW OF STATEMENTS OF FINANCIAL POSITION AND NET ASSETS AS AT 30 JUNE 2020

As presented in the statements of financial position disclosed on page 17

## C) ASSETS

### (i) Cash and cash equivalents

Cash and cash equivalents include cash on hand and deposits held at call with banks and are subject to an insignificant risk of changes in value.

Cash and cash equivalents at the Trust level increased from \$4.8 million as at 31 December 2019 to \$7.8 million as at 30 June 2020. The increase was primarily due to the receipt of distributions from TBC net of payment of distributions to unitholders during the half-year ended 30 June 2020.

Cash and cash equivalents at the Group level increased from \$79.1 million as at 31 December 2019 to \$89.2 million as at 30 June 2020. The increase was primarily driven by operating cash flows and changes in working capital, partially offset by the payment of distributions to unitholders, capital expenditure and interest payments during the half-year. Refer to the consolidated statements of cash flows on page 25 for more details.

### (ii) Trade and other receivables

Trade receivables are initially recognised at fair value plus transaction costs, and subsequently measured at amortised cost using the effective interest method, less any impairment.

Trade and other receivables at the Group level increased from \$12.0 million as at 31 December 2019 to \$15.2 million as at 30 June 2020 mainly due to increase in the amounts due from trade debtors for channel leasing and advertising revenue.

### (iii) Investment in subsidiaries

The Trust invested in TBC through the acquisition of two Bermudian investment holding companies.

Held by the Trust	Principal activities	Country of incorporation	Equity holding			
			%		\$'000	
Name of subsidiary			2020	2019	2020	2019

<b>Total cost</b>					<b>1,387,351</b>	<b>1,342,351</b>

Net proceeds of \$45.0 million raised from the Rights Issue were transferred by APTT to its two wholly owned Bermudian subsidiaries as investment, which were in turn utilised by the two Bermudian subsidiaries to partially repay Offshore Facilities by \$45.0 million during the quarter.

#### (v) Intangible assets

##### Cable TV licences

Costs incurred in acquiring cable TV licences are brought to account as intangible assets. The assets are assessed as having indefinite useful lives and therefore there is no amortisation charge booked against the carrying value. Consequently, no deferred tax liabilities have been provided on the temporary differences relating to the cable TV licences as at the acquisition date as it is deemed that recovery would be through a sale transaction, which the Trustee-Manager expects would not be subject to capital gains taxes.

## Software

Costs incurred in acquiring software are brought to account as intangible assets. Software is carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over its estimated useful life.

## Programming rights

Costs incurred in acquiring programming rights, with a broadcasting period of more than one year, are brought to account as intangible assets. Programming rights are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life.

## Goodwill

Goodwill arising on acquisition represents the excess of the cost of acquisition over the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquiree. Goodwill is stated at cost less any impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment.

The amounts recognised in the statements of financial position were determined as follows:

The Group and Trust employ a 24-month rolling hedging programme that swaps from 25% of forecast cash flows receivable up to 24 months away, to 100% of cash flows on amounts receivable within three months. As at 30 June 2020, mark to market movements, classified as current and non-current assets, on such contracts were \$0.1 million (31 December 2019: \$0.2 million) and \$0.04 million (31 December 2019: \$0.01 million) both at the Group and Trust level.

#### (viii) Other assets

As at 30 June 2020, the Group and Trust had other current assets of \$3.1 million and \$0.1 million (31 December 2019: \$17.7 million and \$0.1 million). These predominantly comprised GST recoverable, refundable deposits and expense prepayments.

The Onshore Facilities bear a floating interest rate of Taiwan's three-month Taipei Interbank Offered Rate ("TAIBOR") plus an interest margin of 1.1% to 1.9% per annum based on its leverage ratio. As discussed in Note D(ii), the Group uses interest rate swaps to swap a significant portion of its borrowings from floating rate to fixed rate.

Arrangement fees on the refinancing of Onshore Facilities were agreed at 1.25%. At inception, such fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss.

Offshore facilities consist of a multicurrency term loan facility in an aggregate amount of \$125.0 million and a multicurrency revolving loan facility in an aggregate amount of \$125.0 million secured by APTT Holdings 1 Limited and APTT Holdings 2 Limited ("Offshore Facilities").

The Offshore Facilities, denominated in Singapore dollars, are repayable in tranches by 2021 and are secured by a first priority pledge of all of the assets of APTT Holdings 1 Limited, APTT Holdings 2 Limited, Cable TV S.A. and APTT Management Pte. Limited, in its capacity as Trustee-Manager of APTT, including bank accounts and 100% of the total outstanding shares of APTT Holdings 1 Limited, APTT Holdings 2 Limited and Cable TV S.A. As at 30 June 2020, the total carrying value of assets pledged for the Offshore Facilities was \$1,120 million (31 December 2019: \$1,117 million). In addition, guarantees in favour of lenders under the debt facilities are provided by APTT Management Pte. Limited, in its capacity as Trustee-Manager of APTT, and Cable TV S.A.

The Offshore Facilities bear a floating interest rate of Singapore Interbank Offered Rate ("SIBOR") plus an interest margin of 4.1% to 5.5% per annum based on the leverage ratio of the Group.

Amendment fees on extension of maturity date from July 2019 to July 2021 were agreed at 0.30% payable on the financial close. At inception, such fees are recorded as unamortised arrangement fees. The fees are amortised over the period of the debt facilities as an expense to the consolidated statements of profit or loss.

Net proceeds of \$45.0 million raised from the Rights Issue were utilised to partially repay the Offshore Facilities during the quarter.

## (ii) Derivative financial instruments

The Group and Trust use foreign exchange contracts to manage their exposure to foreign exchange movements as discussed in Note C(vi). As at 30 June 2020, mark to market movements, classified as current and non-current liabilities, on such contracts were \$2.2 million and \$0.2 million (31 December 2019: \$0.3 million and \$0.2 million) at Group and Trust level.

The Group also uses interest rate swaps to manage its exposure to interest rate movements on its NT\$ denominated borrowings by swapping a significant portion of those borrowings from floating rate to fixed rate. All interest rate swap contracts exchanging floating rate interest amounts for fixed rate interest amounts are designated as cash flow hedges in order to reduce the Group's cash flow exposure resulting from variable interest rates on borrowings. The interest rate swaps and the interest payments on the loan occur simultaneously and the amount deferred in equity is recognised in profit or loss over the period that the floating rate interest payments on debt impact profit or loss.

As at 30 June 2020, the notional amount of interest rate swaps on TAIBOR maturing in December 2021 was NT\$28.0 billion (31 December 2019: NT\$28.0 billion), thus fixing approximately 95% of outstanding Onshore Facilities through to 2021.

As at 30 June 2020, mark to market movements, classified as non-current liabilities, on such swaps were \$7.4 million (31 December 2019: \$3.7 million) at the Group level. Non-current derivative financial instruments at the Group level of \$7.6 million as at 30 June 2020 (31 December 2019: \$3.9 million) also included the mark to market movements on foreign exchange contracts of \$0.2 million (31 December 2019: \$0.2 million) as mentioned above.

Subscription fees are paid upfront as part of the initial sales transaction whereas revenue is recognised over the period where services are provided to the subscribers. A contract liability is therefore recognised for revenue relating to subscription services at the time of the initial sales transaction and is released over the subscription period.

There were no significant changes in the contract liability balances during the reporting period.

### (x) Non-controlling interests

In order to comply with Taiwan cable TV regulations regarding foreign ownership, the entities held within the Group have issued preferred shares to third parties in Taiwan and the Netherlands. Non-controlling interests represent the preferred shares issued to external investors and their interests in the net assets of the Group are identified separately from the Group's equity therein.

## E) NET ASSET VALUE ATTRIBUTABLE TO UNITHOLDERS

	Group as at		Trust as at	
	30 June 2020	31 December 2019	30 June 2020	31 December 2019
<b>Net asset value attributable to unitholders</b>				
Total net asset value attributable to unitholders (\$'000)	1,197,200	1,082,052	1,388,601	1,343,099
Total number of units in issue used in calculation of net asset value per unit attributable to unitholders ('000)	1,806,355	1,442,128	1,806,355	1,442,128
<b>Net asset value per unit attributable to unitholders (\$)</b>	<b>0.66</b>	<b>0.75</b>	<b>0.77</b>	<b>0.93</b>

As at 30 June 2020, the Group had positive working capital of \$1.4 million (31 December 2019: negative working capital of \$7.8 million). This included contract liabilities of \$32.7 million representing collections received in advance from subscribers, net of contract costs, which do not require any future cash outflow from the Group (31 December 2019: \$31.5 million).

After adjusting for this amount, the Group would have positive working capital of \$34.1 million (31 December 2019: \$23.6 million). The Group has undrawn debt facilities of \$132.6 million (31 December 2019: \$83.9 million) which can be drawn to address any shortfall in working capital requirements.

The Group believes that it has adequate working capital for its present requirements and that its existing debt facilities, together with cash and cash equivalents, will provide sufficient funds to satisfy its working capital requirements and anticipated capital expenditures and other payment obligations for the next 12 months, after taking into consideration the following factors:

- The Group has five cable TV system operators, with their nine-year cable TV licences renewed in either 2008 or 2009, that serve approximately 721,000 cable TV RGUs as at 30 June 2020, with more than 175 channels of exciting local and international content on its digital TV platforms in Taiwan. The Group's cable TV licences have been extended to 12 years following the Cable Law amendments to accelerate digitisation and analogue broadcasting switch-off, making the next renewal periods in 2020 and 2021. The Group had submitted to NCC the renewal applications and corresponding business plans for the two licences that were due for renewal in 2020, and both have already been successfully renewed until 2029. The Group completed the digitisation of its subscriber base across all five franchise areas in 2017 and switched off analogue TV broadcasting. Hence, it is expected that the Group's core business, i.e. cable TV system operators and their related businesses, will continue generating sufficient and stable cash inflows. This is consistent with the positive operating cash flows generated by the Group of \$78.1 million for the half-year ended 30 June 2020 (year ended 31 December 2019: \$160.1 million);
- In view of the steady operating cash flows generated, good credibility over the past years and full compliance with the requirements as stipulated in the debt facilities, the Trustee-Manager is confident it can refinance such debt facilities when required; and
- The Trustee-Manager has carefully monitored and managed its cash flows. Management and operation reports are prepared and reviewed on a monthly basis and cash flow forecasts are prepared on a quarterly basis to project cash flow requirements of the Group using various general and operational assumptions.

Limited (the "Trustee-Manager") is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

**Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34.
