News Release

ST Engineering's Electronics Arm Wins Contracts worth about $383m in 1Q2015

Singapore, 15 April 2015 – Singapore Technologies Engineering Ltd (ST Engineering) announced today that its electronics arm, Singapore Technologies Electronics Limited (ST Electronics) has secured about $382.5m worth of contracts in the first quarter of 2015 (1Q2015) for Rail Electronics & Intelligent Transportation, Satellite & Broadband Communications, as well as Advanced Electronics & Information Communications Technologies (ICT) solutions.

Rail Electronics & Intelligent Transportation

Rail Electronics & Intelligent Transportation contracts of about $32.5m were secured from local and overseas customers in Hong Kong, Taiwan, the Middle East and Latin America, including a new market in Ho Chi Minh City, Vietnam. The projects include Command, Control and Communications (C3) Systems and Maintenance Management System including integrated monitoring and surveillance systems and land transport solutions and services for government agencies. These will be delivered progressively over the next three years.

Satellite & Broadband Communications

In the area of Satellite & Broadband Communications, contracts amounting to about $55.3m included orders from international telecom providers, broadcast companies and government agencies for satellite communication equipment, network equipment and earth stations. These will be delivered progressively over the next few years.

(Regn. No.: 199706274H)

Advanced Electronics & ICT Solutions

Finally, about $294.7m worth of Advanced Electronics & ICT contracts were received from both public and private sectors and will be delivered progressively over the next five years. Amongst these are contracts for Intelligent Security Management System, advanced communication systems and services, mobile security services and automated metering solutions for government agencies and commercial businesses.

These contracts are not expected to have any material impact on the consolidated net tangible assets per share and earnings per share of ST Engineering for the current financial year.
