Summary of significant accounting policies and other explanatory information for the three months period ended 30 June 2021

(All amounts in Rupees crore, except per share data and when otherwise stated)

1. Corporate information

GMR Hyderabad International Airport Limited ('GHIAL', 'Company' or 'the Holding Company') is a Public Limited Company domiciled in India, its subsidiaries and joint venture herein are collectively referred as "the Group". GHIAL was incorporated in 2002 under the provisions of the Companies Act, 1956 having their registered office at GMR Aero Towers, Rajiv Gandhi International Airport, Shamshabad, Hyderabad – 500 108. The Holding Company is engaged in the business of providing Airport Management Services on a Build, Owned, Operate and Transfer, and only operate model. Presently, the Company is managing the operations of Rajiv Gandhi International Airport ("RGIA" or "Airport") at Hyderabad, India and the airport in Bidar in Karnataka, India.

The Group is engaged in operation of airport infrastructure and other allied service such as cargo handling, development of airport city and SEZ area near airport, trading of goods in duty free area of airport, security services, hospitality services, development of logistics park and maintenance, repair and overhaul facility (MRO) of aircraft near and around the RGIA.

2.1 Basis of preparation

These Unaudited Condensed Consolidated Financial Statements comprises of the Unaudited Condensed Consolidated Balance sheet as at 30 June 2021, the Unaudited Condensed Consolidated Statement of Profit and Loss (including other comprehensive income), Unaudited Condensed Consolidated Cash Flow Statement, Unaudited Condensed Consolidated Statement of Changes in Equity and a summary of significant accounting policies and other explanatory notes (collectively the "Unaudited Condensed Interim Consolidated Financial Statements").

These Unaudited Condensed Consolidated Financial Statements have been prepared as per the recognition and measurement principles of Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" issued by the Institute of Chartered Accountants of India (ICAI) and applicable Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ("the Act") and other accounting principles generally accepted in India. These Unaudited Condensed Consolidated Financial Statements do not include all the information and disclosures that would otherwise be required in a full set of financial statements and should be read in conjunction with the consolidated financial statements for the year ended 31 March 2021.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Unaudited Condensed Consolidated Financial Statements are presented in Indian Rupees ("Rs.") and all the values are rounded to the nearest Crore, except per share data, per unit data and when otherwise indicated.

2.2 Significant accounting policies

The accounting policies followed in preparation of these Unaudited Condensed Consolidated Financial Statements are consistent with those followed in the most recent annual consolidated financial statements of the Group, i.e. for the year ended 31 March 2021.

The Group has followed the same accounting judgments, estimates and assumptions in preparation of these Unaudited Condensed Consolidated Financial Statements as those followed in preparation of the annual consolidated financial statements as at the year ended March 31, 2021.

2.3 Basis of Consolidation

(i) Subsidiary

Subsidiary includes the entity over which the Group has control. The Group controls an entity when it is exposed or has right to variable return from its involvement with the entity, and has the ability to affect those returns through its power (that is, existing rights that give it the current ability to direct the relevant activities) over the entity. The Group re-assesses whether or not it controls the entity, in case the under-lying facts and circumstances indicate that there are changes to above mentioned parameters that determine the existence of control.

GMR Hyderabad International Airport Limited
CIN: U62100TG2002PLC040118

Summary of significant accounting policies and other explanatory information for the three months period ended 30 June 2021

(All amounts in Rupees crore, except per share data and when otherwise stated)

Subsidiary is fully consolidated from the date on which control is transferred to the Group, and they are deconsolidated from the date when control ceases.

(ii) Joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Joint ventures are accounted for from the date on which Group obtains joint control over the joint venture.

(iii) Method of consolidation

Accounting policies of the respective individual subsidiary, joint venture are aligned wherever necessary, so as to ensure consistency with the accounting policies that are adopted by the Group under Ind AS.

The financial statements of subsidiary are fully consolidated on a line-by-line basis. Intragroup balances and transactions, and income and expenses arising from intra-group transactions, are eliminated while preparing the said financial statements. The un-realised gains resulting from intra-group transactions are also eliminated. Similarly, the un-realised losses are eliminated, unless the transaction provides evidence as to impairment of the asset transferred.

The Group's investments in its joint venture is accounted for using the equity method. Accordingly, the investments are carried at cost as adjusted for post-acquisition changes in the Group's share of the net assets of investee. Any excess of the cost over the Group's share of net assets in its joint venture at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment. The un-realised gains / losses resulting from transactions (including sale of business) with joint ventures are eliminated against the investment to the extent of the Group's interest in the investee. However, un-realised losses are eliminated only to the extent that there is no evidence of impairment.

At each reporting date, the Group determines whether there is objective evidence that the investment is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of investment and its carrying value.

(All amounts in Rupees crore, except per share data and when otherwise stated)

On December 20, 2018, GHAL has incorporated a wholly owned subsidiary GMR Logistics Park Private Limited. During the current period, pursuant to the Subscription Agreement and Shareholders' Agreement executed by and amongst GMR Logistics Park Private Limited (GLPPL), GMR Hyderabad Aerotropolis Limited (GHAL) and ESR Hyderabad 1 Pte. Limited, Singapore (ESR), GLPPL allotted 4,13,35,182 equity shares of Rs. 10 each at par to ESR and 16,965,078 equity shares of Rs. 10 each at par to GHAL on private placement basis by passing a circular resolution dated April 16, 2020. Consequently, the percentage shareholding of ESR and GHAL in GLPPL stands at 70% and 30% respectively, as a result of which, GLPPL has ceased to be a wholly owned subsidiary of GHAL with effect from April 16, 2020.

*On 25th November 2020, GHAL has incorporated a wholly owned subsidiary GMR Hyderabad Airport Assets Limited.

2.4 Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID 19):

Post outbreak of COVID-19 in the month of March, 2020, the business of the Group got adversely impacted due to restrictions on international and domestic travel. As a quarantine measure, Government of India ("GOI") had imposed countrywide lockdown effective from March 25, 2020 till May 25, 2020, resulting in closure of airport operations during that period, except for cargo and evacuation / rescue flights for passengers. Restrictions on operation of domestic flights were lifted from May 25, 2020, however restriction on international travel continued except for air bubble flights. These events had materially impacted the operations of the Group during the year ended 31 March 2021. While, the Group had witnessed gradual improvement in domestic air travel till March 2021, however, the second wave of covid-19 outbreak, has witnessed significant increase in the number of daily cases reported and reimposition of localized lockdowns by the respective State Governments from the month of April 2021, resulting in subdued demand for air travel during the quarter ended 30 June 2021.

Considering decrease in the number of daily cases being reported currently and significant ramp up of vaccination drive by the GOI, the management believes the demand for air travel to gradually improve over the period of next one year. The Group has made detailed assessment of its liquidity position for the next one year and of the recoverability and carrying values of its assets and has concluded that no material adjustments are required in the carrying value of the financial and non-financial assets as at the reporting date. For this assessment, Management believes that it has taken into account all the possible impact of known events arising from COVID 19 pandemic. However, the impact of the COVID 19 pandemic on our business will depend on future developments that cannot be reliably predicted. The impact of the COVID 19 pandemic might be different from that estimated and the Group will closely monitor any material changes to future economic conditions.

2.5 Estimates

While preparing the Unaudited Condensed Consolidated Financial Statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by the management, and will seldom equal the estimated results. The judgements, estimates and assumptions applied in the financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements for the year ended 31 March 2021. The only exceptions are the estimate of income tax liabilities which is determined in these Unaudited Condensed Consolidated Financial Statements using the estimated weighted average annual effective income tax rate applied to the pre-tax income of the interim period.

3. Earnings per Share (EPS)

Basic EPS amounts are calculated by dividing the profit for the three months period attributable to equity holders of the parent by the weighted average number of equity shares outstanding during the three months period.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the three months period plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the three months period ended June 30, 2021	For the three months period ended June 30, 2020

V. Assumption used in estimating the fair values:

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumption were used to estimate the fair values:

(a) Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Derivatives are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity. As at June 30, 2021, the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk.

(b) The fair values of quoted mutual funds are based on price quotations at the reporting date.

(c) The fair value of borrowings is based on the traded price of the bond and the prevailing exchange rate.

(d) Management has assessed that cash and cash equivalent, trade receivables, trade payables, other bank balances and other current liabilities balances approximate their carrying amounts largely due to the short-term maturities of these instruments, hence the carrying value is considered to the same as its fair value.

10 Fair Value Hierarchy

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities as at the reporting date.

	Fair value measurement using		
	Market prices in active markets	Significant observable inputs	Significant unobservable inputs
	(Level 1)	(Level 2)	(Level 3)
Assets measured at fair value as at June 30, 2021

11 Cash flow Hedges

Foreign exchange derivative instruments measured at fair value through OCI are designated as hedging instruments in cash flow hedges to hedge the USD INR conversion rate volatility with reference to the cash outflows on settlement of its borrowings and related interest payments designated in USD. The fair value of derivative instruments varies with the changes in foreign exchange rates.

*including penalty amount.

- (c) GHIAL had received a notice from the office of the Joint Commissioner of Labour for payment of Building and other construction workers' Welfare Cess @ 1% of the cost of construction of Airport Metropolitan amounting to Rs. 25.20 (March 31, 2021: Rs. 25.20). GHIAL had received the stay order from Hon'ble High Court of Telangana against the said order in the earlier years.

- (d) GHIAL had received notice dated January 19, 2013, from Hyderabad Metropolitan Water Supply & Sewerage Board for disconnection of water connection for non-payment of sewerage cess arrears. GHIAL had received the stay order against the said order in the earlier years. The sewerage cess outstanding including interest as at June 30, 2021 amounts to Rs. 5.40 (March 31, 2021: Rs. 5.30).

(e) Utilization of funds from Passenger Service Fee (Security Component) Fund ("PSF(SC) Fund"):

- (i) The Ministry of Civil Aviation (MoCA) had issued orders in 2014, requiring the Airport Operators to reverse the expenditure incurred from PSF (SC) towards (a) procurement and maintenance of security systems/equipment; (b) construction of other long lived assets (refer note (ii) below) and (c) payment of interest etc. The Group had used approximately Rs.142.00 towards the above expenses, excluding related maintenance expense, other costs and interest thereon till March 31, 2018 which is presently unascertainable. Management is of the opinion that the utilisation of funds from PSF(SC) escrow account is consistent with the Standard Operating Procedures, guidelines and clarification issued by the MoCA from time to time on the subject of utilization of PSF (SC) funds.

As the above order, in management's opinion, is contrary to and inconsistent with SOPs, guidelines and clarification issued by the MoCA from time to time in this regard, the Group had challenged the said order before the Hon'ble High court of Andhra Pradesh. The Hon'ble High Court, vide its order dated March 3, 2014 followed by further clarifications dated April 28, 2014 and December 24, 2014, stayed the MoCA order with an undertaking that, in the event the decision of the writ petition goes against the Group, it shall restore the PSF (SC) Fund to this extent.

Based on the internal assessment, Management of GHIAL is of the view that no further adjustments are required to be made to the GHIAL financial statements, in this regard.

- (ii) As per the advice from the Ministry of Home Affairs and the SOP's issued by the MoCA on March 06, 2002, GHIAL, through its erstwhile wholly owned subsidiary, Hyderabad Airport Security Services Limited (HASSL) constructed the residential quarters for Central Industrial Security Force (CISF) deployed at the airport. After completion of such construction, the total construction cost including the cost of land and related finance cost amounting to Rs. 113.73 was debited to the PSF (SC) Fund with corresponding intimation to the MoCA. The Comptroller & Auditor General, during their audits of PSF (SC) Fund, observed that, GHIAL had not obtained prior approval from the MoCA for incurring such cost from the PSF (SC) Fund as required by the guidelines dated January 8, 2010 and April 16, 2010 issued by the MoCA. However, Management of GHIAL is of the opinion that these guidelines were issued subsequent to the construction of the said residential quarters and approached the MoCA for approval of such debit notes to the PSF (SC) Fund account. Further, GHIAL had requested the MoCA to advise the Airport Economic Regulatory Authority (AERA) for considering the cost of construction, land and other related costs with regard to the aforesaid residential quarters in determination of Aeronautical Tariff for the Airport. Pending final instructions from the MoCA, residential quarters continue to be accounted under the PSF (SC) Fund and no adjustments have been made to GHIAL financial statements.

- (f) Fuel surcharge adjustments (FSA) for the period from April 2008 to March 2010 amounting to Rs. 2.05 (March 31, 2021: Rs. 2.05).

(All amounts in Rupees crores, except per share data and when otherwise stated)

13 Significant accounting judgments, estimates and assumptions

The preparation of these consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Judgements

In the process of applying the Group's accounting policies, management has made the following judgments, which has the effect on the amounts recognised in these consolidated financial statements:

Discounting rate

Group has considered incremental borrowing rate of Airport sector as at transition date for measuring deposits, being financial assets and financial liabilities, at amortised cost till March 31, 2018. From period starting from April 01, 2018, management has considered revised incremental borrowing rate of airport sector i.e. 10.73% for all the deposits given/received post March 31, 2018; and impact has been duly accounted in these consolidated financial statements.

Non applicability of Service Concession Agreement (SCA)

GHIAL had entered into Concession agreement with the Ministry of Civil Aviation ("MoCA"), which gives GHIAL an exclusive right of development, design, financing, construction, commissioning, maintenance, operation and management of the Hyderabad Airport on a revenue sharing model for an initial term of 30 years, which can be extended by another 30 years at the option of GHIAL. Under the agreement, the MoCA has granted exclusive right and authority to perform some of the functions of the AAI being the functions of operation, maintenance, development, design, construction, up gradation, modernization, finance and management of the Airport and to perform services and activities at the airport constituting 'Airport activities' (regulated services) and 'Non-Airport Activities' (non-regulated services). Airport Activities are regulated while there is no control over determination of prices for Non-Airport activities. Charges for Non-Airport activities are determined at the sole discretion of GHIAL.

Appendix D to Ind AS 115 contains provisions to cover arrangements between public and private enterprises- referred to as service concession arrangement ("SCA"). An entity is required to evaluate applicability of SCA for its arrangement under public to private partnership based on SCA guidance. The applicability of service concession depends whether the grantors control or regulates what services the operator must provide with the infrastructure, to whom it must provide them, and at what price; and also control the residual interest in the infrastructure.

GHIAL's management conducted detailed analysis to determine applicability of Appendix D of Ind AS 115. The concession arrangement has significant non-regulated revenues, which are apparently not ancillary in nature, as these are important from GHIAL, MoCA and users/passengers perspective. Further, the regulated and non-regulated services are substantially interdependent and cannot be offered in isolation. Airport premises is being used both for providing regulated services and for providing non-regulated services. Based on GHIAL's proportion of regulated and non-regulated activities, the directors have determined that over the concession period, the unregulated business activities drives the economics of the arrangement and contributes substantially to the profits of GHIAL and hence concluded that SCA does not apply in its entirety to GHIAL.

Concession fee:

As per the Concession Agreement (CA), GHIAL is required to pay concession fee to MoCA @ 4% on its gross revenue. As per Article 3.3.2 of CA, "Gross Revenue" is defined to include all pre-tax revenue of GHIAL with certain specified exclusions.

Management of GHIAL is of the view that certain income / credits arising on adoption of Ind-AS, mark to market gain on valuation of derivative instruments and gain on restatement of long-term borrowings was not in contemplation of parties in December 2004 when this Concession Agreement was signed / entered. Further, these income/credits in statement of profit and loss along with interest income on investment of part proceeds from borrowings earmarked for airport expansion project and adjusted from the value of capital work-in-progress, do not represent actual receipts from business operations, from any external sources and therefore, these incomes/ credits should not be treated as "Revenue" for calculation of concession fee payable. Accordingly, GHIAL, basis above and Legal Opinion obtained in this regard, has provided the concession fee payable to MoCA after adjusting such incomes/credits.

13 Significant accounting judgments, estimates and assumptions (continued)

b) Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Group based its assumptions and estimates on parameters available when these consolidated financial statements were prepared, existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and its present value obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal, contractor and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of financial asset

The impairment provisions for financial assets are based on the assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounting cash flow (DCF) model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Taxes

Deferred tax assets on unused tax losses and minimum alternate tax credit entitlement are recognised to the extent that it is probable that taxable profit will be available against which these amounts can be utilised. Significant management estimate is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

- 14** The accompanying consolidated financial statements of the Group do not include Accounts for Passenger Service Fee - Security Component [PSF- (SC)] as the same are maintained separately in the fiduciary capacity by the Group on behalf of Government of India and are governed by the Standard Operating Procedure issued vide letter number AV/13024/047/2003-SS/AD dated January 19, 2009 issued by Ministry of Civil Aviation, Government of India.

As per the MOCA notification, the PSF(SC) is replaced by Aviation Security Fee, effective July 1, 2019 and will be governed by the National Aviation Security Fee Trust.

Summary of significant accounting policies and other explanatory information for the three months period ended June 30, 2021

(All amounts in Rupees crores, except per share data and when otherwise stated)

- 15 During the financial year ended 2019, GHIAL had entered into a term loan facility arrangement with Yes Bank Limited ("YBL" or "Bank"), to avail term loan of Rs. 4,200, and had incurred an up-front processing fee of Rs. 63. However, in view of certain developments, the Bank expressed its inability to extend the loan, and accordingly on April 21, 2020, the arrangement was terminated. Further YBL vide their letter dated June 9, 2020 acknowledged the receipt of request from GHIAL for refund of the aforesaid up-front fees and to present GHIAL's request to the appropriate committees for approvals. Further, management has obtained legal opinion from an independent lawyer regarding GHIAL's right to receive the refund of upfront fee. In view of the above and on the basis of on-going discussions with the Bank officials, management is confident of the recovery of the said amount in full, and accordingly, no adjustment were considered necessary in the accompanying Unaudited condensed consolidated financial statements for the period ended June 30, 2021.

16 Determination of aeronautical tariff

GHIAL had filed an appeal, challenging the disallowance of pre-control period losses, foreign exchange loss on external commercial borrowings, classification of revenues from ground handling, cargo and fuel farm as aeronautical revenues and other issues for determination of aeronautical tariff for the First Control Period ("FCP") commencing from April 1, 2011 to March 31, 2016 by Airport Economic Regulatory Authority ("AERA"). During the previous year, the Adjudicating Authority, Telecom Disputes Settlement Appellate Tribunal (TDSAT), in its disposal order dated March 06, 2020 has directed AERA to reconsider the issues afresh while determining the aeronautical tariff for the Third Control Period commencing ("TCP") from April 01, 2021.

In relation to determination of tariff for the Second Control Period ("SCP"), commencing from April 1, 2016 to March 31, 2021, AERA had issued a consultation paper on December 19, 2017. However, as the aforesaid consultation paper does not address the issues arising out of the FCP, including true up for shortfall of receipt vis-a-vis entitlement for the FCP, GHIAL had filed a writ petition with the Hon'ble High Court at Hyderabad on February 6, 2018 and obtained a stay order from the High Court vide order dated February 7, 2018 in respect of further proceedings in determination of tariff order for the SCP. Pending determination of Aeronautical Tariff, AERA vide its order no. 48 dated March 25, 2019, has allowed GHIAL to continue to charge the aeronautical tariff as prevailed on March 31, 2016 till September 30, 2019 or till determination of tariff for the aforesaid period whichever is later. In view of the above, GHIAL had applied aeronautical tariff as prevailed on March 31, 2016 during the year ended March 31, 2020.

Consequent to the Order passed by TDSAT date March 06, 2020, AERA, in respect of the remainder of the SCP, i.e. from April 1, 2020 to March 31, 2021, has determined the Aeronautical tariff vide its Order no: 34/2019-20/HIAL dated March 27, 2020. Accordingly, GHIAL has applied aeronautical tariff for determination of aeronautical revenue as per the aforesaid order, for the year ended 31 March 2021 and period ended 30 June 2021.

On July 02, 2021, AERA has issued consultation paper on the aeronautical tariff for the TCP, inviting comments from all the stakeholders by July 31, 2021. GHIAL filed its responses on the consultation paper on July 30, 2021. The aeronautical tariff for the Third Control Period is expected to be implemented w.e.f Oct 1, 2021.

- 17 GHIAL has recognized, deferred tax asset comprising of Minimum Alternate Tax (MAT) credit entitlement and unabsorbed business losses aggregating to Rs.555.60 (March 31, 2021: Rs. 531.33) as at June 30, 2021. GHIAL based on the future taxable income expects to adjust these amounts after expiry of the tax holiday period. The ultimate realisation of the deferred tax asset is dependent upon the generation of future taxable income projected by considering the anticipated tariff orders for the control period commencing from April 1, 2021, estimated revenues and expenses of the business, scheduled reversals of deferred tax liabilities and tax planning strategy. As the recoverability of deferred tax assets is based on estimates of future taxable income including projected aeronautical tariff revenue which involved determination by AERA and being a subject matter of litigations as detailed in note 51 above, any changes in such future taxable income could impact its recoverability. However, basis the sensitivity analysis performed, management believes that any reasonable possible change in the key assumptions would not effect GHIAL's ability to recover the deferred tax asset within the specified period as per the provisions of Income Tax Act, 1961.
- 18 Minimum Alternative Tax (MAT) Credit Entitlement claimed by GACAEL in the income tax returns aggregating Rs. 37.01 has not been recognised in the books in view of the ongoing disputes/litigations with the tax authorities.
- 19 These Unaudited condensed consolidated financial statements, certain incomes/credits recognised on adoption of Ind-AS are not considered for computation of concession fee payable to MoCA basis a legal opinion obtained. Accordingly, the following sources of income have not been considered for accrual of the concession fee:

	Income forming part of	For the period ended June 30, 2021	For the period ended June 30, 2020

23 GMR Air Cargo and Aerospace Engineering Limited

Pursuant to the agreement entered by the GMR Group dated February 20, 2020, the GMR Group has executed a definitive agreement with Aeroports De Paris ("ADP") for acquisition of 49% stake by ADP in GMR Airports Limited (the holding company of GHIAL, which is the holding company of the GACAEL) on fully diluted basis. The MRO CGU is part of the Airports business. To assess whether the Cash Generating Unit ("MRO CGU") (including goodwill of Rs. 36.27) is impaired, management has reckoned the values attributed to MRO CGU which are higher than its carrying value, on the basis of an independent valuation of the Airport business carried out as part of entering the aforesaid agreement. The Management has reviewed such assessment as at March 31, 2021, the updated business plans and the projections considering the COVID-19 impact and believes that there would not be any change in the original conclusion as of 30 June 2021.

Management has also performed sensitivity analysis considering different scenarios to build in the uncertainties attached. Based on such assessment, management is of the view that no impairment is required in the carrying value of MRO CGU as at June 30, 2021.

- 24** The Hon'ble Orissa High Court vide Judgement in W.P. No.20463/2018, in the case of Safari Retreats Private Limited, observed that the GST provisions w.r.t input tax credit allowability in respect of Civil work are not in line with the objective of the Act, and accordingly, held that if an assessee is required to discharge GST on the rental income, it is eligible to avail the Input Tax Credit (ITC) of GST w.r.t. civil work. The Group is engaged in rendering output supplies which is in the nature of letting out space/ facilities to various airline operators and other parties/concessionaires, in return for consideration, known by different nomenclatures and are given that the same is leviable to GST. Hence, the Group has availed the GST ITC in respect of the costs for civil work incurred as part of the expansion project and regular operations, upon application of the said judicial pronouncement. Further, department has filed an appeal in Hon'ble Supreme Court of India against the judgement of Hon'ble Orissa High Court. Pending outcome of judgement of Hon'ble Supreme Court of India, considering the judgement of Hon'ble Orissa High Court and based on the opinion obtained by the Group in this regard, the Management is of the view that GST ITC in respect of such civil work is eligible to be availed by the Group. Having regard to the same, GST ITC amounting to Rs.422.61 (including Rs.395.06 pertaining to earlier years) has been claimed in GST returns and disclosed under balance with government authorities in the Unaudited condensed consolidated financial statements

Further, GHIAL has filed a writ petition (10367/2020) with Hon'ble High Court of Telangana requesting to strike down the relevant provisions of GST which denies ITC in respect of works contract services or goods and services received for construction of immovable property (other than plant & machinery). The Hon'ble High Court had passed interim order directing the Respondents to not take any coercive action against the petitioner.
