

## NEWS RELEASE

### **Vallianz and Rawabi Vallianz Offshore Services Celebrate Milestone with Delivery of First Liftboats in the Fleet Featuring ABS Advanced Smart Notations**

**Singapore, 27 January 2025** – Vallianz Shipbuilding and Engineering Pte Ltd (“**VSE**”), a wholly-owned subsidiary of Vallianz Holdings Limited (the “**Company**”), and Rawabi Vallianz Offshore Services (“**RVOS**”), an entity in which the Company indirectly holds 19.8% equity interest, are proud to announce the delivery of two groundbreaking liftboats, set to be delivered from China and equipped with American Bureau of Shipping (“**ABS**”) advanced smart notations – SMART INF (Smart Data Infrastructure), SMART SHM (Structural Health Monitoring), and SMART MHM (Machinery Health Monitoring).

These state-of-the-art liftboats are sensorized to capture real-time operational data, providing owners and operators with invaluable insights into the condition of the legs and auxiliary machinery. The sophisticated digital infrastructure installed on these vessels ensures they are primed for future smart functionalities, enabling enhanced operational performance and data-driven decision-making.

The Smart notations were granted in accordance with the requirements outlined in the ABS Guide for Smart Functions for Marine Vessels and Offshore Units, marking a significant achievement for both VSE and RVOS in integrating cutting-edge technology into offshore operations.

**Mr. Walter van Aarde, General Manager of RVOS**, added, “This milestone underscores our continued commitment to innovation and operational excellence at RVOS. The integration of ABS Smart notations into these first two liftboats in our fleet will significantly enhance our fleet’s operational efficiency, safety, and reliability. As we expand our operations within the Middle East, these advanced technologies will provide us with real-time, actionable insights, allowing us to optimize performance and maintain the highest standards of service for our clients. We are excited to be part of this cutting-edge development in the offshore industry.”

**Mr. Lam K. C., Director of Newbuild and Engineering at VSE**, stated, VSE, in collaboration with RVOS, is thrilled to spearhead the design and implementation of the sophisticated ABS Smart notations (INF, MHM, and SHM) across our current fleet of new builds. This milestone, achieved with the support of ABS, our suppliers, and contractors, reflects our ongoing commitment to innovation and sustainability.

UEN No: 199206945

We are proud to deliver these two self-elevating liftboats to RVOS, where they will support operations in the Middle East region, reinforcing our leadership in applying smart technologies to enhance offshore efficiency and industry sustainability.”

**Mr Arnab Ghosh, South Pacific Regional Business Development Vice President at ABS**, added, “As a leader in supporting the adoption of smart technologies at sea, ABS is proud to work with forward-thinking companies such as Vallianz to leverage digital sensing and data analytics to improve operational performance. The use of smart technologies is growing rapidly in our industry, and it is important to work together to apply these systems safely and practically.”

This milestone marks a significant step forward in the digitalization of offshore vessels and operations, setting a new standard for operational efficiency, sustainability, and smart technology integration in the maritime and offshore industries.
