CORRIGENDUM TO SUSTAINABILITY REPORT 2019

Keppel Corporation Limited (the "**Company**") refers to the Company's Sustainability Report 2019, which was published on SGXNet on 26 May 2020.

The Company wishes to update that the environmental performance data (on recycled water and average particulate matter) as stated on page 29 of the Sustainability Report 2019 should be replaced with the data below.

	2017	2018	2019
Recycled Water Used (m^3)			
· Global Operations	56[1]	68	74
· Singapore Operations	0[1]	0[1]	0
Average Particulate Matter Emissions (mg/Nm^3)			
· Keppel Seghers Tuas WTE Plant	8.55	7.88	5.93
· Senoko WTE Plant	17.58	5.92	3.13

Save as disclosed above, all other information contained in the Sustainability Report 2019 remains unchanged. The amendments set out in this announcement do not have a material adverse impact on the disclosures in the Sustainability Report 2019.

19 June 2020

[1] The data for recycled water used in 2017 and 2018 have been restated to reflect changes in the Company's reporting boundaries and methodology.
