16 November 2026

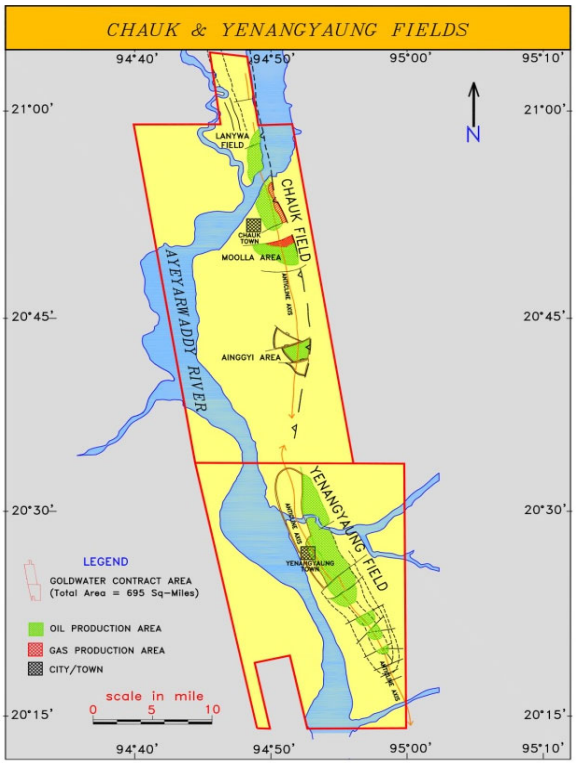

PRODUCTION, DEVELOPMENT & EXPLORATION ACTIVITIES FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2026

Interra Resources Limited (the "**Company**" or "**Interra**") wishes to provide an update on its production, development and exploration activities in respect of the quarter ended 30 September 2026 ("**Q3 2026**").

Development and Production Activities

Myanmar: Chauk and Yenangyaung Improved Petroleum Recovery Contracts (Interra 60%)

In Q3 2026, the combined shareable production for both fields was 51,671 barrels of oil, a decrease of 6% over the second quarter of 2026 of 55,145 barrels of oil.

The operator, Goldpetrol Joint Operating Company Inc. ("Goldpetrol") (Interra 60%) has completed its obligation to drill one new well budgeted under its FY 2026 work programme. Drilling of the new well in the Chauk Field was completed in 1H 2026, with an initial intermittent production rate of 3 bopd. Goldpetrol is currently conducting comprehensive production analyses to evaluate enhancement strategies and optimise well production performance.

The average wellhead production gain since the commencement of the waterflood project is approximately 327 bopd from all the oil-producing wells in ten waterflood areas.

Normal field operations and improvements with respect to boreholes and surface infrastructures have been ongoing, together with scheduled maintenance of existing wells with the objective of minimising production declines.

"bopd" denotes "barrels of oil per day"

Exploration Activities

Indonesia: Kuala Pambuang PSC (Interra 72.75%)

The third Additional Exploration Period ("TWE-3") with the main programme of drilling an additional exploration well, WKP-1, expired on 14 March 2025.

The application for a further extension of TWE-3 has been reviewed and recommended by Satuan Kerja Khusus Pelaksana Kegiatan Usaha Hulu Minyak Dan Gas Bumi ("SKKMIGAS") and Minyak Dan Gas Bumi for approval by the Ministry of Energy and Mineral Resources ("ESDM").

SKKMIGAS requested confirmation of the operator's ability to provide a performance guarantee for the WKP-1 drilling. In response, the operator sought an extension until the end of December 2026. Following a recent meeting, SKKMIGAS agreed to this extension in principle, granting the operator until the end of the year to confirm the continuation of the drilling programme. The Company is exploring potential arrangements to secure the necessary support to satisfy this additional commitment.

Workplans for the drilling of WKP-1, which include well site preparation, access road construction and tender for drilling materials and services, have been on hold, pending the outcome of the extension approval. The Company will make the necessary announcement on the outcome of the extension approval in due course.

By Order of the Board of Directors of
INTERRA RESOURCES LIMITED

Ng Soon Kai
Executive Chairman

About Interra

Interra Resources Limited is a Singapore-incorporated company listed on the SGX Mainboard, traditionally engaged in petroleum exploration and production (E&P). As part of a strategic forward-looking diversification, Interra is actively expanding its portfolio into sustainable and high-demand resources. The company is advancing renewable energy initiatives, including solar photovoltaic projects in Thailand, floating solar farms in Indonesia, and other solar photovoltaic solutions including power plant developments as a shortlisted Long List Strategic Partner for PT PLN Nusantara Power.

Furthermore, Interra is collaborating with its Indonesian joint venture partner to develop three silica sand concessions located in West Kalimantan, Indonesia. It also holds a strategic stake of approximately 12% in ASX-listed Morella Corporation Limited, an exploration company focused on advancing critical minerals across Tier 1 jurisdictions in Australia and the United States.
