Background

China Star Food Group Limited (the "**Company**" and together with its subsidiaries, the "**Group**"), formerly known as Brooke Asia Limited, was formed through a reverse takeover ("**RTO**") of 100% equity interest in China Star Food Holdings Pte. Ltd. ("**CSFH**" and together with its subsidiaries, the "**CSFH Group**") which primarily engaged in the production and sale of sweet potato snack food products in the People's Republic of China. The RTO was completed on 22 September 2015 and the Company was renamed China Star Food Group Limited on the same day. Please refer to the Company's Circular dated 26 June 2015 for further details of the RTO.

Following the completion of the RTO, the presentation currency of the Company's financial statements was changed from Singapore Dollars ("**SGD**") to Chinese Renminbi ("**RMB**"). The exchange rates of SGD1.00 to RMB4.5235 (as at 30 June 2015) and SGD1.00 to RMB4.5265 (as at 22 September 2015) were used for the conversion of the balances denominated in SGD.

The financial year end of CSFH is 31 March. Pursuant to the completion of the RTO, the financial year end of the Company has been changed from 30 June to 31 March to align with the same financial year end of CSFH.

BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

At Group Level

The acquisition of CSFH has been accounted as a RTO in accordance with Financial Reporting Standard 103 Business Combinations (“**FRS 103**”). Under FRS 103, the legal subsidiary, CSFH, is regarded as the accounting acquirer and the Company as the accounting acquiree, for accounting purposes. As such, the consolidated financial statements have been prepared and presented as a continuation of the CSFH Group.

The above accounting treatment is only applied to the consolidated financial statements of the Group. At the Company level, the investment in CSFH is accounted for as an investment in a subsidiary.

Accordingly, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of financial position, consolidated statement of changes in equity and consolidated statement of cash flows for the financial year ended 31 March 2016 have been presented as a continuation of the CSFH Group’s financial results and operations.

Since such consolidated financial statements represent a continuation of the CSFH Group:

- (a) the assets and liabilities of the CSFH Group are recognised and measured in the consolidated statement of financial position at their pre-combination carrying amounts;
- (b) the assets and liabilities of the Company, the accounting acquiree, are recognised and measured in accordance with FRS 103;
- (c) the retained earnings and other equity balances recognised in the consolidated financial statements are the retained earnings and other equity balances of the CSFH Group immediately before the business combination;
- (d) the amount recognised as issued equity interest in the consolidated financial statements is determined by adding to the issued equity of the CSFH Group immediately before the business combination to the fair value of the Company determined based on the share price of the Company at the acquisition date. However, the equity structure appearing in the consolidated financial statements (i.e. the number and type of equity instruments issued) shall reflect the equity structure of the legal parent (i.e. the Company), including the equity instruments issued by the legal parent (i.e. the Company) to effect the combination; and
- (e) the comparative figures presented in these consolidated financial statements are that of consolidated financial statements of the CSFH Group.

Consolidated financial statements prepared following the RTO shall reflect the fair values of the assets and liabilities of the legal parent (i.e. the accounting acquiree for accounting purposes). Therefore, the cost of the business combination for the acquisition is allocated to the identifiable assets and liabilities of the legal parent (i.e. the Company) that satisfy the recognition criteria at their fair values as at 22 September 2015. The excess of the cost of the RTO over the net fair value of the identifiable assets and liabilities is recognised as goodwill on the consolidated statement of financial position.

At Company Level

Reverse acquisition accounting applies only to the consolidated financial statements at the Group level. Therefore, in the Company’s separate financial statements, the investment in the legal subsidiaries (CSFH Group) is accounted for at cost less accumulated impairment losses, if any.

Review for the performance of the Group for the financial year ended 31 March 2017 ("FY2017") as compared to the financial year ended 31 March 2016 ("FY2016").

Consolidated Statement of Comprehensive Income

Revenue

The decrease in revenue by approximately RMB 78.2 million or 16.6%, was mainly attributable to a decrease in sales from baked goods, pastries, roasted sweet potato nuts, preserved foods and crisps as a result of the closure of two of the Group's factories since the end of January 2017 following the local government general directive to tighten the pollution control requirements (the "Factories Closure") (Please refer to Paragraph 10 of the Group's unaudited financial statements for the three months ended 31 December 2016 for further details on the said closure).

Gross profit

Gross profit decreased by approximately RMB 50.6 million or 24.2% on the back of the decrease in revenue.

Gross profit margin decreased from 44.3% in FY2016 to 40.3% in FY2017 mainly attributable to higher cost of sales as a result of the direct sales promotional activities in FY2017.

Marketing and distribution costs

Marketing and distribution costs increased by RMB 21.3 million or 38.2% due primarily to an increase in advertisement costs of RMB 33.3 million, partially offset by the decrease in indirect sales promotional expenses, delivery charges and sales personnel salaries and bonuses which were in line with the decrease in revenue. Notwithstanding the production halt at the new factory as announced on 11 May 2017, the Group felt that an increase in advertisement activities was in line with its marketing strategy to continue promoting brand awareness so as to increase its' market share in an increasingly competitive market.

Other losses

Other losses totaled RMB 12.3 million in FY2017 compared with RMB 2.9 million in FY2016. It comprised mainly a loss on disposal of property, plant and equipment of RMB 5.6 million, write-off of obsolete packaging materials of RMB 2.5 million and additional expenses of RMB 4.2 million relating to VAT on promotional sales items that are not claimable.

Other expenses

Other expenses of RMB 70.6 million in FY2016 comprised goodwill written off and RTO expenses of RMB 36.7 million and RMB 33.9 million respectively. These other expenses did not recur in FY2017.

Consolidated Statement of Financial Position

The comparative performance for both assets and liabilities are based on the Group's financial statements as at 31 March 2017 and 31 March 2016.

Non-current assets

The increase in property, plant and equipment of RMB 12.8 million mainly arose from the purchase of new production equipment and the construction work-in-progress for the new Zilaohu factory and office building in Liancheng County, People's Republic of China ("PRC"). Old equipment arising from the Factories Closure with net book values totalling RMB 9.32 million were disposed during the year under review, with a loss on disposal of RMB 5.39 million recognised.

Intangible assets decreased by RMB 3.5 million was mainly due to the amortisation during the year under review.

The increase in other assets (non-current) of RMB 69.0 million was mainly due to:

(i) Advance payments of RMB 63.0 million for the supplies of sweet potatoes. In line with the Group's current strategy to better control the source, pricing and quality of fresh sweet potatoes, a key raw material for the Group's products, the Group has been undergoing negotiations to secure the use of up to 8,000 mu of farmland from local cooperatives for the planting of sweet potatoes over a 15 years period. To better manage its cash flows following the Factories Closure, the Group has made the said advance payments to secure the use of 4,300 mu of farmland and a discounted minimum supply of sweet potatoes from local cooperatives for 15 years where RMB 107 million is payable every five-year.

(ii) deferred tax assets of RMB 5.4 million arising from timing differences in claiming tax deductions of expenses in a PRC subsidiary.

Current assets

Inventories as of 31 March 2017 were *nil* as there were no production following the Factories Closure.

Trade and other receivables decreased by RMB 11.0 million mainly due to lower revenue in the last quarter of FY2017 as a result of the Factories Closure.

Current liabilities

There was no income tax payable in the last quarter of FY2017 as the Group incurred a loss in the last quarter of FY2017 due to Factories Closure.

Trade and other payables decreased by RMB 29.4 million mainly due to the reduced purchase of raw materials which is in line with lower revenue in last quarter of FY2017 as a result of Factories Closure.

Other liabilities decreased by RMB 1.6 million due to no advances for sales orders placed by the customers as a result of the Factories Closure.

Consolidated Statement of Cash Flow

Net cash from operating activities of RMB 19.1 million in FY2017 as compared to net cash from operating activities of RMB 82.8 million in FY2016 was mainly due to lower operating profit before tax in FY2017.

Net cash used in investing activities of RMB 85.6 million in FY2017 as compared to net cash used in investing activities of RMB 28.9 million in FY2016 was mainly due to purchase of property, plant and equipment (including increase in construction-in-progress) of RMB 26.2 million and advance payment for supplies of sweet potatoes of RMB 63.8 million in FY2017.

Net cash from financing activities of RMB 27.4 million in FY2017 as compared to net cash from financing activities of RMB 9.0 million in FY2016 was mainly attributable to the proceeds from issuance of new shares and warrants.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Operations

The Chinese central government is increasing its efforts in dealing with the multitude of environmental related issues and has been relentlessly enforcing nationwide policies on environmental control. Under the central government's directives, the Chinese provincial governments are intensifying their own efforts to regulate and curb industrial activities which do not meet environmental safety standard.

The Group's Zilaohu factory was granted its operating license on 13 March 2017 and was scheduled to commence production in April 2017. However as announced on 11 May 2017, the Company received an order from the Lian Cheng government to halt its production operations. The Lian Cheng government also stipulates that the commercial production could only commence after the completion of Lian Cheng County's centralized waste water treatment facility. The waste water treatment facility is expected to complete by the third quarter of 2017 based on the scheduled timeline provided by the awarded contractor. As such, the Group expects its revenues and profits to be substantially impacted due to halt in production of finished goods for sale.

Outlook

The Management noted that implementation of the stringent pollution control rules and regulations by the Chinese government have impacted our competitors within the same industry as well. The Group is confident that it will emerge stronger, more resilient in our operations as it further consolidates its market-leading position, since many of the smaller competitors would exit the industry after this round of regulatory shake up.

As the construction of centralized waste water treatment plant is being exclusively handled by a third party independent contractor appointed by the Lian Cheng County government, the Group cautions that it has no control over the construction progress of the waste water treatment plant and there is no assurance and certainty that the plant's completion date will be by the third quarter of 2017 based on the scheduled timeline provided by the awarded contractor.

However, the Group has a healthy cash reserve and has arranged for standby credit facilities to tide over these difficult times. The Group is also exploring direct sales of its committed raw sweet potato supply, which are obtained at a lower cost compared to the market, to other demand sources e.g. supermarket, to generate interim sales and profits and to offset its operating expenses, should the current production halt continue for an extended period.
