## **Civmec to Build New Submarine Rescue Facility at Henderson**

**PERTH, 4 June 2020 – Civmec Limited** (“Civmec” or the “Group”) welcomed Senator the Hon. Linda Reynolds, CSC, Minister for Defence, and the Hon. Paul Papalia, CSC, MLA Minister for Defence Issues, for an official sod turning ceremony to mark the commencement of construction on its latest facility development at Henderson.

Civmec is pleased to announce that its Defence and Infrastructure division is continuing to support the Western Australian Government’s vision for the Australian Marine Complex (AMC) to become the pre-eminent base for all Australian Defence Force (ADF) and Alliance operations in the Indian Ocean, committing to a long-term lease and managing the construction of a multimillion-dollar new Submarine Rescue Service facility. The facility, which will be operated by Phoenix International under a sub-lease arrangement with Civmec, will support the Royal Australian Navy’s submarine fleet. This development will further support the capacity within the AMC and reinforce the AMC’s significance as a world-class centre for excellence.

The new facility, which will be constructed to house a rapid launch and recovery system, hyperbaric treatment unit, and maintenance training and testing infrastructure with a 7-metre deep pool, will be located close to the AMC’s Common User Facility (CUF) at Henderson, with proximity to the CUF enabling rapid mobilisation in the event of a disabled submarine in the region.

“The AMC’s growing capacity to support ADF operations, through construction and sustainment, will provide long-term employment opportunities. We are very proud to have been be at the forefront of this, and now again through the provision of this new purpose-built submarine rescue facility here on our door step at the AMC in Henderson, Western Australia” said Mr. Tallon, Chief Executive Officer, Civmec.
