#### TABLE OF CONTENTS

### INTRODUCTION

Daiwa House Logistics Trust ("DHLT") is a Singapore real estate investment trust constituted pursuant to the Trust Deed dated 2 November 2021 between Daiwa House Asset Management Asia Pte. Ltd. as manager (the "Manager") of DHLT and HSBC Institutional Trust Services (Singapore) Limited as trustee (the "Trustee") of DHLT.

DHLT was listed on the Main Board of the Singapore Exchange Securities Trading Limited ("SGX-ST") on 26 November 2021 ("Listing Date"). DHLT's initial IPO comprised 14 logistics properties in Japan with an aggregate net lettable area ("NLA") of approximately 423,920 square meter ("sqm") and a total land area of approximately 420,393 square meters. On 8 December 2022, DHLT completed the acquisition of 2 freehold properties and an underlying freehold land in Japan. As at 31 December 2023, the total NLA of its portfolio was 444,728 sqm.

The investment strategy of DHLT is to invest in a diversified portfolio of income-producing logistics and industrial real estate assets located across Asia. DHLT's key objectives are to provide Unitholders with regular and stable distributions, and to achieve long-term growth in Distributions per Unit ("DPU") and net asset value per Unit, while maintaining an optimal capital structure and strengthening the portfolio in scale and quality.

# NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

#### 1. General

Daiwa House Logistics Trust ("DHLT") is a Singapore real estate investment trust constituted pursuant to a trust deed dated 2 November 2021 between Daiwa House Asset Management Asia Pte. Ltd. (the "Manager") and HSBC Institutional Trust Services (Singapore) Limited (the "Trustee"). DHLT was listed on the Main Board of the Singapore Exchange Securities Trading Limited ("SGX-ST") on 26 November 2021 ("Listing Date"). The Trust and its subsidiaries are collectively referred to as "DHLT" or "Group" in the consolidated financial statements.

The registered address of the Manager is 6 Shenton Way, #21-08 OUE Downtown, Singapore 0688098.

The principal activity of the Trust is to invest in a diverse portfolio of stabilised income-producing logistics and industrial assets, and real estate-related assets in Asia, to provide unitholders of DHLT with regular and stable distributions.

#### 2. Basis of Preparation

The unaudited condensed interim financial statements for the period ended 31 December 2023 have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"), the applicable requirements of the Code on Collective Investment Schemes (the "CIS Code") issued by the Monetary Authority of Singapore ("MAS") and the provisions of the Trust Deed. The condensed interim financial information does not include all of the information required for full annual financial statements and should be read in conjunction with the last issued audited annual financial statements of the Group as at and for the financial period ended 31 December 2022. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the performance of DHLT.

As at 31 December 2023, the Group's current liabilities exceed its current assets by S\$14.1 million. Notwithstanding the net current liabilities position, based on the Group's existing financial resources, the Manager is of the opinion that the Group will be able to refinance its borrowings and meet its current obligations as and when they fall due.

The unaudited condensed interim financial statements are presented in Singapore Dollars ("S\$"), which is DHLT's functional currency. All financial information presented in Singapore Dollars have been rounded to the nearest thousand, unless otherwise stated.

#### 2.1 New and amended standards adopted

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of audited financial statements for the financial period ended 31 December 2022 except in the current financial period, the Group has adopted all the new and revised standards that are effective for annual periods beginning on 1 January 2023. The adoption of these standards did not have any material impact on the Group's condensed interim financial statements.

#### 2.2 Use of estimates and judgements

The preparation of the financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and any future periods affected. Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial information is included in:

#### 3. Seasonal operations

DHLT's business is not affected significantly by seasonal or cyclical factors during the period.

#### 4. Segment Reporting

DHLT's operating segments are regularly reviewed by the Chief Operating Decision Maker ("CODM"), being the Chief Executive Officer ("CEO"). An operating segment is a component of the DHLT that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. The Group's investment properties are primarily logistics and industrial properties located in Japan. Therefore, the directors consider that DHLT operates within a single business segment and within a single geographical segment in Japan. Accordingly, no segment information has been presented in this financial information.

#### 7. Manager's management fees

The Manager is entitled under the Trust Deed to Management Fee comprising the Base Fee and Performance Fee as follows:

- (i) Base Fee of 10.0% per annum of the Annual Distributable Income (calculated before accounting for the Base Fee and the Performance Fee); and
- (ii) Performance Fee of 25.0% per annum of the difference in DPU in a financial year with the DPU in the preceding financial year (calculated before accounting for the Performance Fee but after accounting for the Base Fee in each financial year) multiplied by the weighted average number of Units in issue for such financial year (subject to adjustments in certain cases under the Trust Deed).

The Manager has elected to receive 50% of the base management fees in units, 50% in cash and 100% performance fee in cash for FY2023.

The Group's investment properties comprise logistic spaces which are leased to external customers and held either to earn rental income or capital appreciation or both, and right-of-use assets relating to land leases where certain properties are built upon. Investment properties are stated at initial cost on acquisition including transactions, and fair value thereafter.

On 29 December 2023, the Group entered into a Conditional Capital Contribution Purchase Agreement ("CCPA") with DH Asia Investment Peony Pte. Ltd. where it intends to acquire a cold storage logistic facility located in Long An Province, Vietnam, known as D Project Tan Duc 2 (the "Property"); through the purchase of the entire charter capital of DH Logistics Management Vietnam Co., Ltd., (the "Target Company"). The agreed value of the Property's value is VND 483.0 billion (approximately S\$26.5 million). The final purchase consideration is conditional on the net asset value of the Target Company and will be determined as of the acquisition completion date which is expected to be in the second guarter of 2024.

On 31 January 2024, the Group, through its subsidiary DH-CRUX Japan TMK, has entered into a Trust Beneficial Interest Sale and Purchase Agreement with Daiwa House Industry Co., Ltd. to acquire a freehold property located in Ibaraki, Japan, known as DPL Ibaraki Yuki. The purchase consideration is JPY 2,640.0 million (approximately S\$24.1 million) and the acquisition is expected to be completed in the first quarter of 2024.

#### Measurement of fair value

The Group's investment properties valuations were performed by independent professional valuers as of 31 December 2023. The independent professional valuers have appropriate recognised professional qualifications and recent experience in the location and category of the properties being valued. The fair value is generally derived by using income capitalisation method, discounted cash flow method, direct comparison method and/or residual value method and key assumptions used include capitalisation rate, discount rate and adjusted price per square meter.

The carrying values of the investment properties as of 31 December 2023 were internally assessed by the Manager, after considering the operating parameters of the properties and in consultation with the external valuers conducting the annual valuation, considering current market conditions, capitalisation rates, discount rates and market comparables. Based on the review, there is no indication of significant changes affecting the value of the DHLT portfolio and the fair value of investment properties approximates the carrying value accounted in the Condensed Interim Statements of Financial Position.

The independent appraisers have the appropriate professional qualifications and recent experience in the location and category of the properties being valued.

The fair values were generally calculated using the Income Approach. The two primary income approaches that may be used are the Discounted Cashflow Method ("**DCF**") and the Direct Capitalisation Method ("**DCM**"). DCF calculates the present values of future cash flows over a specified time period, including the potential proceeds of a deemed disposal, to determine the fair value. DCM determines value by applying a capitalisation rate to the property's stabilised net operating income, normally at the first year. Both the DCF and DCM approaches convert the earnings of a property into an estimate of value. The Market Transaction or Direct Comparison approach may also be used, which is based on sound considerations for similarity and comparability between properties that have recently been sold. Considerations may include geographic location, physical, legal, and revenue generating characteristics, market conditions and financing terms and conditions. The final step in the valuation process involves the reconciliation of the individual valuation techniques in relationship to their substantiation by market data, and the reliability and applicability of each valuation technique to the subject property.

The valuation methods used in determining the fair value involve certain estimates including those relating to discount rate, terminal capitalisation rate and capitalisation rate, which are unobservable. In relying on the valuation reports, the Manager has exercised its judgement and is satisfied that the valuation methods and estimates used are reflective of the current market conditions.

The fair value measurement for investment properties has been categorised as a Level 3 fair value based on the inputs to the valuation techniques used.

The following table shows the range of key unobservable inputs used within the valuation reports:

#### Key unobservable inputs

Key unobservable inputs correspond to:

- Discount rate, which reflects the risk-free rate, adjusted for a risk premium to reflect the increased risk of investing in the asset class.
- Terminal capitalisation rate, which reflects the uncertainty, functional/economic obsolescence and the risk associated with a future assumed sale of the investment properties.
- Capitalisation rate, which reflects the ratio of the property's net property income to its fair value.

#### Secured Debt Facilities

DHLT, through DH TMK, has the following debt facilities as of 31 December 2023 and 31 December 2022:

- (1) 2 secured loan facilities amounting to JPY 33.0 billion from a syndicate of lenders. The loan facilities comprise various tranches between three to five year tenors with loan maturities between 2024 to 2027.
- (2) JPY 1.0 billion specified bonds issued to Sumitomo Mitsui Trust Bank Limited with a maturity in 2026.

DH-CRUX Japan TMK ("**DH TMK**") is a special purpose vehicle which holds directly and in trust each of the trust beneficial interests ("**TBIs**") of the freehold properties and the ordinary land lease property, while TK Operator (GK2) holds the TBIs of the special fixed-term land lease properties under a TK-GK structure.

#### Security Interests in connection with the Loan Facilities

The following security interests was created to secure the obligations of DH TMK as the borrower under the Loan Facilities:

- (i) revolving pledges over each TBI held by DH TMK or TK Operator (GK2);
- (ii) revolving mortgages over all real estate corresponding to the TBI (conditional upon the termination of the trust pursuant to the relevant trust agreement);
- (iii) revolving pledge over claims pursuant to insurance agreements for all real estate (conditional upon the termination of the trust pursuant to the relevant trust agreement);
- (iv) revolving pledge over the specified shares in DH TMK; and
- (v) revolving pledges over TK interests held by DH TMK in TK Operator (GK2).

#### Security Interests in connection with the Specified Bonds

A general security lien (*ippan tanpo*) was also created to secure the obligations of DH TMK as the issuer of the Specified Bonds. The subject of such general security lien (*ippan tanpo*) is the assets of DH TMK, which are, in substance, TBIs and TK interests in GKs. The Asset Liquidation Act grants

specified bondholders the right to receive all payments due in relation to such specified bonds out of the assets of DH TMK prior to any payments to other unsecured creditors.

The general security lien is subordinated to the above security interests (i) to (iii) and (v) held by DH TMK's lenders but takes preference over other unsecured creditors. Unless otherwise provided in the asset liquidation plan, that general security lien is automatically created by operation of law.

#### **Unsecured Loan Facilities**

In 2022, DHLT has obtained a 3 year committed revolving credit facility ("RCF") and an uncommitted RCF. There is no loan drawn under the 2 unsecured facilities and the total available facilities amount to S\$50 million as at 31 December 2023 and 31 December 2022.

There are no treasury Units in issue as at 31 December 2023 and 31 December 2022

#### 17. Net Asset Value ("NAV") Per Unit

|   | G           | roup        | Trust       |             |  |
|---|-------------|-------------|-------------|-------------|--|

| NAV and NTA per unit attributable to unitholders $^{(1)}$ (S\$) | 0.74        | 0.80        | 0.54        | 0.62        |  |

(1) The computation of NAV and NTA is based on number of units in issue and to be issued at the end of the period. NAV and NTA are the same as there is no intangible asset as at the end of the period.

# 18. Earnings Per Unit ("EPU") and Distribution Per Unit ("DPU")

|   | 2H FY2023   | FY2023      | 2H FP2022   | FP2022      |

| <b>DPU</b><br>Number of units in issue at end of period<br>Distributable income to be paid to Unitholders | 696,065,910 | 696,065,910 | 693,263,851 | 693,263,851 |
| (S\$'000)   | 18,244      | 36,373      | 17,720      | 38,621      |
| DPU (cents)   | 2.61        | 5.22        | 2.61        | 5.70        |

Basic EPU is calculated based on the net income for the period and the weighted number of Units for the period.

Diluted EPU is the same as the basic EPU as there are no dilutive instruments in issue during the period.

#### **19. Fair value measurement**

The Group classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3: Unobservable inputs for the asset or liability.

The fair values of financial assets and liabilities, including their levels in the fair value hierarchy are set out below. It does not include the fair value information of financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

#### Measurement of fair values

The following is a description of the valuation techniques and inputs used in the fair value measurement for assets and liabilities that are categorised within Level 2 and Level 3 of the fair value hierarchy:

#### Financial instruments measured at fair value

#### Derivatives

The fair value of forward contracts are based on valuations provided by the financial institutions that are the counterparties of the transactions.

#### Financial instruments not measured at fair value

#### Loans and borrowings

The fair values of loans and borrowings are calculated using the discounted cash flow technique based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the measurement date.

#### 20. Significant related party transactions

In addition to the related party information disclosed elsewhere in the financial statements, the following significant related party transactions were carried out at terms agreed between the parties during the financial years:

| Interest coverage ratio   | 11.9x          | 11.8x          |

- <sup>(1)</sup> The annualised ratios are computed in accordance with the guidelines of the Investment Management Association of Singapore ("IMAS"). The expenses used in the computation relate to expenses of DHLT, excluding property expenses, finance expenses, net foreign exchange differences and income tax expense for the trailing 12 months.
- (2) The annualised ratio is computed based on the lesser of purchases or sales of underlying investment properties of DHLT expressed as percentage of average net asset value in accordance with the formulae stated in the Code on Collective Investment Schemes.

#### 22. Subsequent events

On 23 January 2024, the Group has incorporated a wholly-owned subsidiary, DH-CRUX3 PTE. LTD. which has been designated as the purchaser in lieu of the DHLT trustee ("Designated Purchaser" or "DH-CRUX3") of the acquisition of the Target Company in Vietnam. (please see note 13 for details). In this connection, the vendor, the DHLT trustee and the Designated Purchaser have entered into a novation agreement pursuant to which the rights and obligations of the DHLT trustee under the CCPA have been novated to DH-CRUX3 in lieu of the DHLT trustee in respect of the acquisition.

On 31 January 2024, the Group, through its subsidiary DH-CRUX Japan TMK, has entered into a Trust Beneficial Interest Sale and Purchase Agreement with Daiwa House Industry Co., Ltd. to acquire a freehold property located in Ibaraki, Japan, known as DPL Ibaraki Yuki. Please refer to Note 13 for further details.

On 28 February 2024, the Manager announced a distribution of 2.61 Singapore cents per Unit to DHLT Unitholders for the period from 1 July 2023 to 31 December 2023.

#### Review of actual performance for 2H FY2023 vs 2H FP2022

2H FY2023 gross revenue was S\$29.0 million, a decrease of S\$0.9 million or 2.9% from 2H FP2022, weighed down by the weaker JPY. In JPY terms, gross revenue which amounted to JPY 3,135 million outperformed 2H FP2022 by 4.6%. This is contributed by higher rental income underpinned by higher occupancy as well as the contribution from acquisitions completed in December 2022.

Property expenses for 2H FY2023 were S\$6.8 million, a decrease of S\$0.1 million or 1.5% from 2H FP2022 of S\$6.9 million, mainly due to weaker JPY. In JPY terms, the properties expenses for 2H FY2023 of JPY 731 million were higher than that of 2H FP2022 by JPY 45 million or 6.6%, due to the depreciable asset tax credit for the tax refund adjusted in 2H FP2022 and property expenses related to acquisitions completed in December 2022.

Net property income ("NPI") was S\$22.2 million for 2H FY2023, a decrease of S\$0.8 million or 3.3% from S\$23.0 million in 2H FP2022. However, in JPY terms, NPI was JPY 2,403 million for 2H FY2023, an increase of JPY 93 million or 4.1% from JPY 2,310 million in 2H FP2022, mainly due to the contribution of acquisitions.

Finance expenses of S\$3.1 million for 2H FY2023, a decrease of S\$0.1 million or 3.4% from S\$3.2 million in 2H FP2022 was due to the weaker JPY. In JPY terms, finance expenses were JPY 328.9 million for 2H FY2023 higher than that of 2H FP2022 by 17.4 million or 5.6%, due to additional loans drawn to fund the acquisitions completed in December 2022, partially offset by lower finance on lease liabilities given the conversion of the leasehold interest on one of the properties to freehold in December 2022.

Trust expenses of S\$0.8 million was S\$0.4 million higher than 2H FP2022 mainly due to increase in the professional and statutory/indirect tax expenses recorded in 2H FY2023 and reversal for some IPO related cost booked in the prior period in 2021, in 2H FP2022 on the receipt of the incentives.

Other income comprises mainly net foreign exchange gain and interest income. The other income in 2H FY2023 was higher mainly due to realised exchange gain of S\$2.4 million attributed mainly to the forwards.

Fair value on financial derivatives arose mainly from the revaluation of foreign exchange forward contracts entered to hedge against the foreign exchange exposures of the Group. This is a non-cash item and therefore does not affect income available for distribution to Unitholders.

Tax expense of S\$4.0 million largely relates to deferred tax expenses that arose from property fair value gains.

Notwithstanding the weaker JPY against S\$, income available for distribution to Unitholders for 2H FY2023 was S\$18.2 million, 3.0% higher compared to S\$17.7 million for 2H FP2022.

#### Review of actual performance for FY2023 vs FY2022

FY2023 gross revenue was S\$59.9 million, a decrease of S\$2.3 million or 3.7% from FY2022, weighed down by the weaker JPY. In JPY terms, gross revenue is JPY 6,250 million, which outperformed FY2022 by 6.0%; due to the full year contribution in FY2023 from acquisitions completed in December 2022 and additional rental income from higher occupancy. There is also higher utilities recoverable income underpinned by the higher occupancy and higher electricity tariff rates.

Property expenses for FY2023 were S\$14.5 million, an increase of S\$0.1 million or 0.9% from FY2022 of S\$14.4 million, due to contribution from acquisitions completed in December 2022, offset by a weaker JPY. In JPY terms, the property expenses for FY2023 of JPY 1,514 million were higher than that of FY2022 by JPY 145 million or 10.6%, due to higher utilities expenses resulting from higher electricity tariff rates, as well as the full year of property expenses related to acquisitions completed in December 2022.

NPI was S\$45.3 million for FY2023, a decrease of S\$2.4 million or 5.0% from S\$47.7 million in FY2022. However, in JPY terms, NPI was JPY 4,736 million for FY2023, an increase of JPY 209 million or 4.6% from JPY 4,527 million in FY2022.

Finance expenses of S\$6.4 million were 9.6% lower than FY2022 mainly due to the weaker JPY. In JPY terms, finance expenses were JPY 664.7 million for FY2023 higher than that of FY2022 by JPY4.1 million or 0.6%, due to the additional loans drawn to fund the acquisitions completed in December 2022, partially offset by lower finance on lease liabilities given the conversion of the leasehold interest on one of the properties to freehold in December 2022.

Trust expenses of S\$1.8 million were S\$0.7 million higher than FY2022 due to increase in the professional and statutory/indirect tax expenses, and reversal for some IPO related cost booked in the prior period in 2021, in FY2022 on the receipt of the incentives resulting a lower amount of trust expenses in FY2022.

Other income comprises mainly net foreign exchange gain and interest income. Other income was higher mainly due to the realised exchange gain of \$\$3.7 million attributed mainly to the forwards.

Tax expense of S\$6.3 million relates to deferred tax expenses that arose from property fair value gains.

Notwithstanding the weaker JPY against S\$, income available for distribution to Unitholders for FY2023 was S\$36.4 million, 3.1% higher compared to S\$35.3 million for FY2022.

#### 3. Variance from Previous Forecast/Prospect Statement

There was no forecast or prospect statement previously disclosed to shareholders for the financial year ended 31 December 2023.

# 4. Commentary on the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Large supply of logistics space in Japan over the past year has resulted in moderation of rental growth in for logistics space in general, with older facilities or those with poor accessibility facing challenges securing tenants. However, new supply may reduce in future, in view of the rising land prices and increasing construction costs, and this may tighten the demand-supply dynamics<sup>(1)</sup>.

Despite the increased supply of logistics space, demand has remained healthy with third party logistics companies and e-commerce companies looking to expand their businesses and establish new bases. With the restriction on overtime for truck drivers coming into effect from April 2024 in Japan, this is expected to create new demand for logistics facilities in the regional areas. Further, the returning of overseas production process back to Japan, particularly in the semiconductor and automotive industries, may also boost demand for logistics space in Japan<sup>(2)</sup>.

In view of the above, the Manager believes that the long-term fundamentals of logistics sector in Japan is expected to remain healthy, and will remain vigilant to changes in market conditions.
