1. Overview of UOB Group

UOB Overview

Founding

Founded in August 1935 by a group of Chinese businessmen and Datuk Wee Kheng Chiang, grandfather of the present UOB Group CEO, Mr. Wee Ee Cheong.

Expansion

UOB has grown over the decades organically and through a series of strategic acquisitions. It is today a leading bank in Asia with an established presence in the Southeast Asia region. The Group has a global network of around 470 branches and offices in 19 countries and territories.

Key Statistics for FY25

- Gross loans : SGD352b (USD274b[1])
- Customer deposits : SGD426b (USD331b[1])
- Loan / Deposit ratio : 81.7%
- Net stable funding ratio : 116%
- All-currency liquidity coverage ratio : 147%[2]
- Common Equity Tier 1 ratio : 15.1%
- Leverage ratio : 6.7%
- Return on equity [3] : 9.6%
- Return on assets : 0.86%
- Net interest margin : 1.89%
- Non-interest income / Total income : 32.2%
- Cost / Income : 44.6%
- Non-performing loan ratio : 1.5%
- Credit Ratings

UOB Sydney – Overview

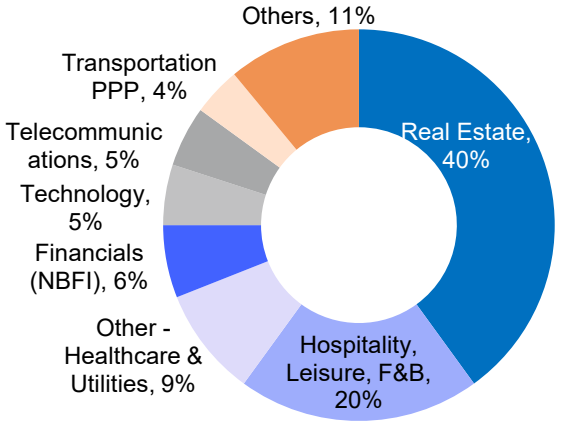

Long-term commitment to Australia

- Australian operations are a key component of UOB Group's regional strategy
- UOB Group obtained an Australian merchant banking license in 1986 and a full branch license in 1993
- Key management personnel banking experience ranges from 20 to 40 years
- Wholesale banking focus
- Positioned to benefit from increased commercial links between Australian and Southeast Asian economies

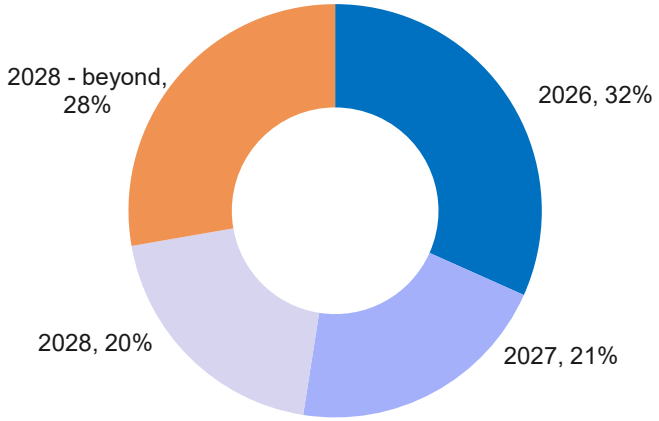

High Quality Balance Sheet

- Well diversified funding mix
- Active in local funding markets and able to utilise inter-group funding
- Holds substantial high-quality liquid assets and repo-eligible securities

Gross Loan Outstanding by Industry

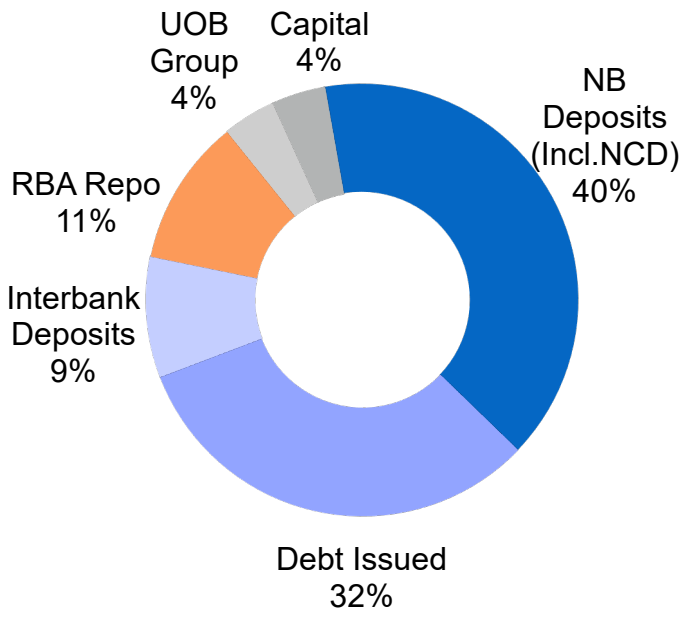

Gross Loan Outstanding by Maturity

Why UOB?

Stable management

- Proven track record in steering the bank through various global events and crises
- Stability of management team ensures consistent execution of strategies

Integrated regional platform

- Truly regional bank with full ownership and control of regional subsidiaries
- Entrenched domestic presence and deep local knowledge to address the needs of our targeted segments
- Continued investment in talent and technology to build capabilities in a disciplined manner

Strong fundamentals

- Strong Common Equity Tier 1 capital adequacy ratio of 15.1% as at 31 December 2025
- Diversified funding and sound liquidity, with 81.7% loan/deposit ratio
- Strong coverage, with general allowance on loans (including RLAR) covering 1.0% of performing loans

Balance growth with stability

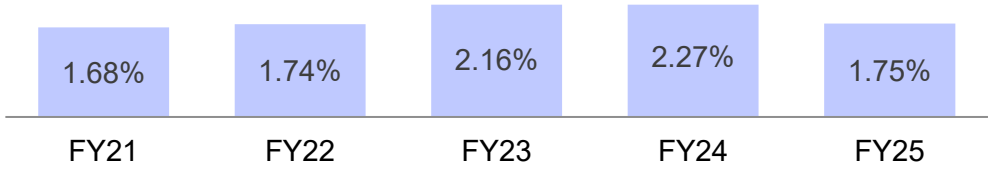

- More than half of Group's earnings from home market of Singapore (AAA sovereign rating)
- Continue to diversify portfolio, strengthen balance sheet, manage risks and build core franchise for the future
- Maintain long-term perspective to growth for sustainable shareholder returns

2. Strong UOB Fundamentals

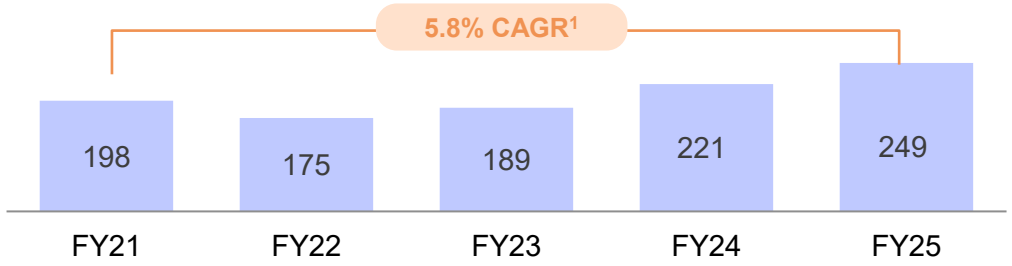

Disciplined balance sheet management

- Focus on balance sheet efficiency
- Healthy portfolio quality
- Proactive liability management
- Robust capitalisation

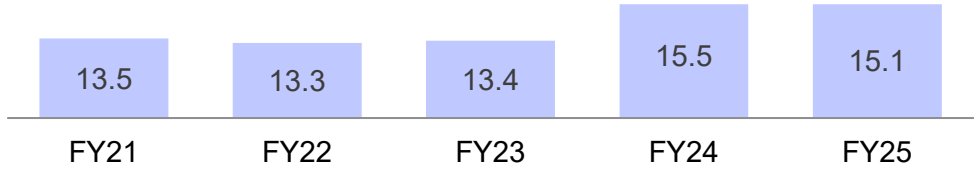

Return on risk-weighted assets

Current Account Saving Account Balances (SGD b)

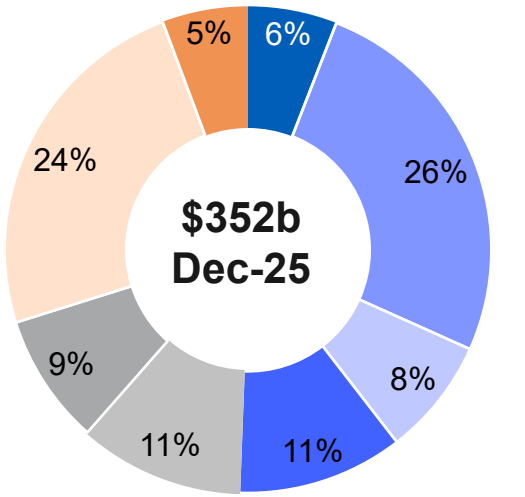

Common Equity Tier 1 ratio (%)

Notes
1. Compound annual growth rate over FY21 to FY25 period

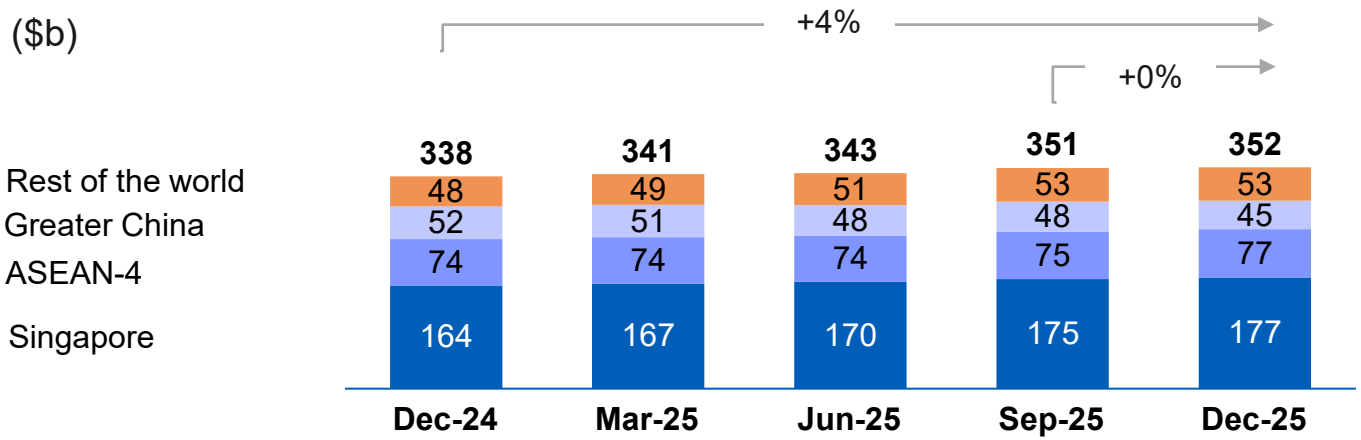

Customer loans up 4% YoY and stable QoQ

By Industry

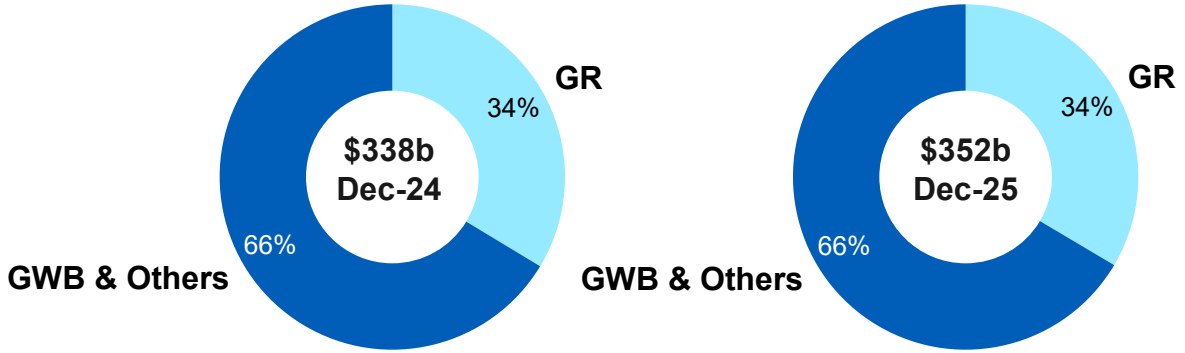

- Transport, storage and communication
- Building and construction
- Manufacturing
- FIs, investment and holding companies
- General commerce
- Professionals and private individuals
- Housing loans
- Others

By Geography

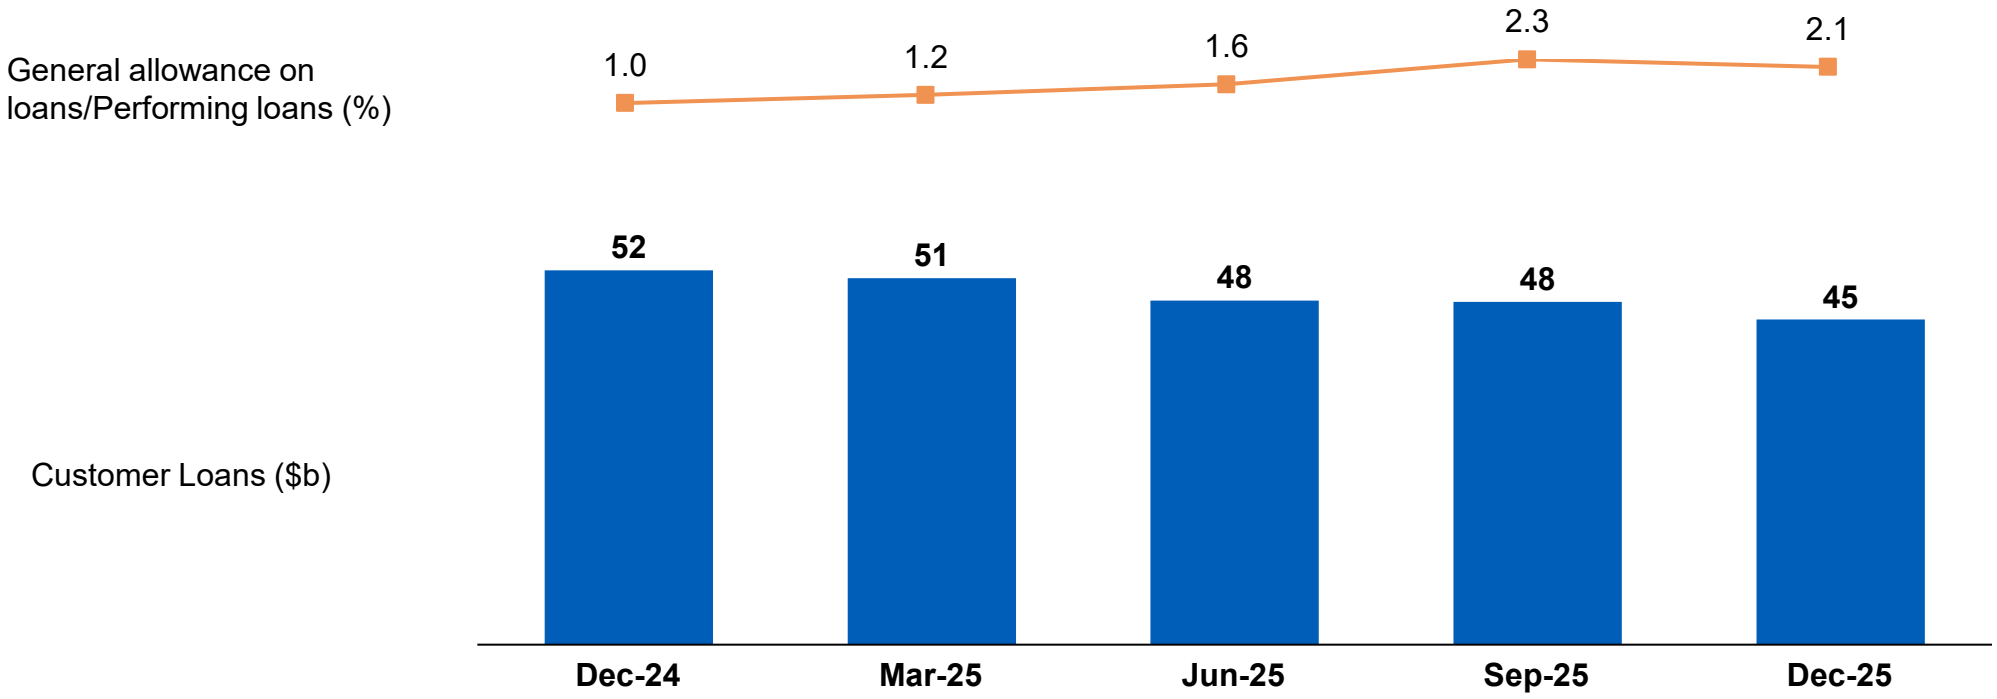

Note: Loans are classified based on where credit risks reside, represented by country of incorporation/operation for non-individuals and residence for individuals.

By Segment

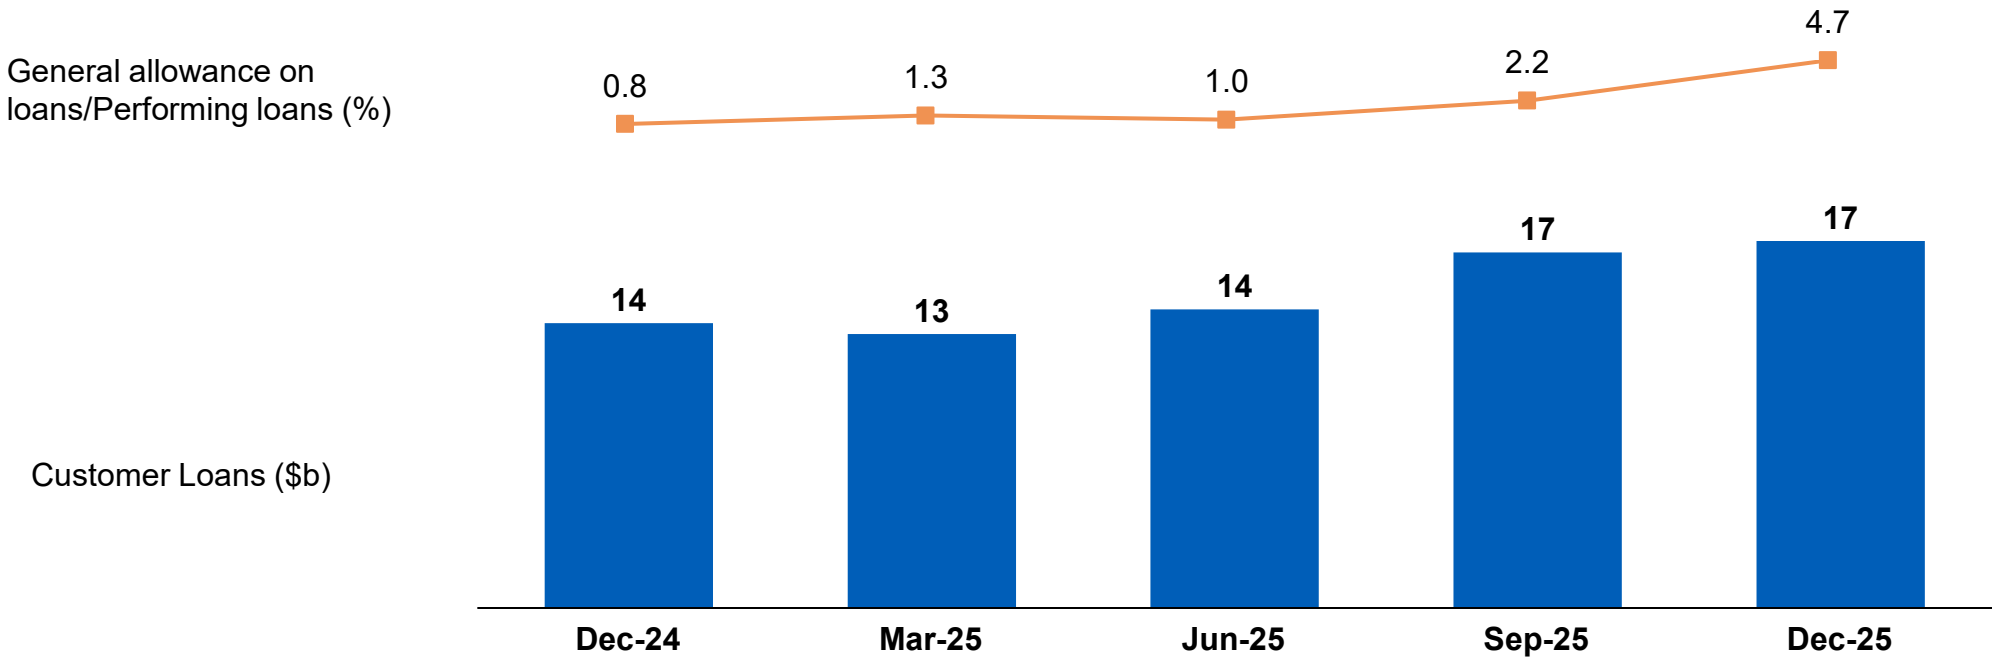

Exposure to Greater China

	Dec-24	Mar-25	Jun-25	Sep-25	Dec-25
NPL ratio (%)	2.1	2.7	2.7	3.1	3.3
NPA coverage (%)	48	47	57	78	60
Unsecured NPA coverage (%)	144	193	228	299	259

Note: Classification is according to where credit risks reside, represented by the borrower's country of incorporation/ operation for non-individuals and residence for individuals.

Exposure to United States

	Dec-24	Mar-25	Jun-25	Sep-25	Dec-25
NPL ratio (%)	3.6	3.7	4.2	4.0	3.0
NPA coverage (%)	81	93	67	69	106
Unsecured NPA coverage (%)	128	148	129	147	235

Note: Classification is according to where credit risks reside, represented by the borrower's country of incorporation/ operation for non-individuals and residence for individuals.

Singapore mortgages remain a low-risk asset class

Low risk of housing bubbles due to cooling measures

TH 1-Day Repo	2.50	2.50	2.50	2.25	2.00	1.75	1.50	1.25	1.00	1.00	1.00	1.00
ID 7-Day Reverse Repo	6.00	6.25	6.00	6.00	5.75	5.50	4.75	4.75	4.50	4.25	4.25	4.25
CH 1-Year Loan Prime Rate	3.45	3.45	3.35	3.10	3.10	3.00	3.00	3.00	2.90	2.90	2.90	2.90

The Fed kept the Fed Funds Target Rate unchanged at 3.50–3.75% at its first 2026 meeting, following three consecutive cuts in late 2025. Chair Powell signalled openness to future easing but emphasised no urgency to cut further. We expect a pause in early 2026 ahead of Powell's May departure and continue to project two cuts in 2Q and 3Q, bringing the FFTR to 3.25% by end-2026. The main uncertainty remains the appointment of the next Fed Chair, after which we will reassess our outlook.

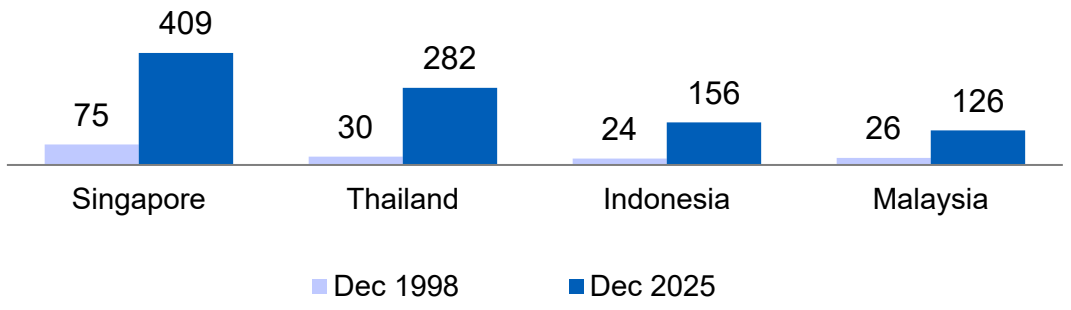

We foresee growing divergence across DM and Asian central banks. Several Asian central banks are set to finish their easing cycles in 2026, while BOJ and RBA are expected to tighten and ECB and BOE proceed with modest cuts. In China, policymakers reaffirmed "proactive fiscal" and "moderately loose monetary" stances, with easing likely to remain targeted. We continue to expect a 10 bps benchmark rate cut and a 50 bps RRR reduction in 2026.

Singapore's economy grew a strong 5.0% in 2025 (2024: 5.3%), supported by export and production front-loading and sustained AI-driven semiconductor demand. Growth is expected to ease to 3.6% in 2026 due to high base effects, though AI momentum should persist through 1H26. MTI raised its 2026 forecast to 2.0–4.0%, from 1.0-3.0% previously. While CPI shows reflation signs, broad price pressures remain limited; we expect core inflation to rise to 1.5% in 2026 (2025: 0.7%). We also anticipate MAS to steepen the S$NEER slope to 1.0% p.a. in Apr 2026, likely as a one-off move.

2. Each regulator determines its own level of countercyclical capital buffer
3. According to the regulations, capital surcharge for Indonesia D-SIBs are classified into four buckets based on the tier 1 capital (Bucket 1 – 1%, Bucket 2 – 1.5%, Bucket 3 – 2%, Bucket 4 – 2.5%)

Appendix B. Sustainable Development

UOB's responsible financing journey: pragmatic and progressive

	Establishing	Improving	Strengthening	
	2015 – 2016	2017 – 2018	2019 – 2022	2023 – 2025
Key Milestone	• Launched the Group Responsible Financing Policy. • Began to incorporate ESG clauses into Letters of Offer.	• Enhanced ESG monitoring and reporting to improve oversight on potential controversies. • Implemented ESG risk classification to better manage ESG risk in portfolio. • Adopted the ABS Haze Diagnostics Checklist as transboundary haze pollution shrouded the region.	• Announced our net zero commitment. Strengthened due diligence process with enhanced climate-related questions. • Established Environmental Risk Management (EnRM) Framework and disclosed our responsible financing sector policies. • Discontinued new financing of coal-fired power plants, greenfield thermal coal mines/expansion. Aim to exit financing for thermal coal sector by 2039. • Discontinued new financing of greenfield palm oil plantations; all mature plantations to be certified by recognised sustainability bodies. • Discontinued new project financing for upstream oil and gas projects after 2022. • Completed a bank-wide ESG risk assessment capacity-building workshops.	• Completed the design of a net zero operationalisation programme. • Bolstered our environmental risk appetite statement with a quantitative climate risk-related metric. • Developed a GenAI solution for ESG risk assessments to uplift productivity of relationship managers. • Launched an ESG Adverse News Surveillance System to enhance ongoing ESG risk client monitoring. • Further strengthened deforestation prohibition requirement within palm oil sector. • Committed to be early adopter of TNFD recommendations. • Continued to strengthen our internal capabilities in responsible financing, net zero and decarbonisation, as well as other general sustainability topics.

TCFD Implementation: Climate Scenario Analysis

	Qualitative Transition Risk Assessment	Transition Risk Scenario Analysis Pilot	Physical Risk Pilot Analysis	Improved Methodology
	2019	2020	2021	2022-2025

Key Milestone	• Completed qualitative assessment in 2019, referencing SASB's Materiality Map® and Moody's Environmental Risks Global Heatmap.
	• Identified carbon-intensive segments most likely to be impacted by climate change
	  • Metals and mining
	  • Transportation
	  • Building Materials
	  • Forestry
	  • Energy
	  • Chemicals
	  • Agriculture
		• Partnered an environmental consultancy in climate scenario analysis
		• Three pathways of climate scenarios based on research by IEA and OECD:
		  • An orderly transition where early actions are taken to reduce emissions to meet climate targets (high carbon price scenario)
		  • A disorderly transition where delayed and drastic actions are taken to meet climate targets (moderate carbon price scenario)
		  • Business-as-usual where no actions are taken (low carbon price scenario)
			• Conducted a pilot physical risk analysis for wholesale banking customers and retail banking property mortgages, focusing on our key markets that are most vulnerable to physical risks, i.e., Malaysia, Thailand and Indonesia.
			• The analysis utilised a bottom-up approach with customers' operating and asset locations overlaid on various climate hazard maps to determine their vulnerability to seven climate physical hazards in short-, mid-, and long-term horizons up to 2050 over three IPCC climate scenarios.
			• In addition, we also refreshed our transition risk analysis.
				• Developed an improved climate scenario analysis methodology in 2022 that considers the long-term impact of both transition and physical risk, integrates multiple climate risk drivers and incorporates differentiated dynamics across key climate-relevant sectors.
				• Built internal capability to assess short term impact of physical hazards i.e., flood and typhoon, in 2024/25.
				• Advanced climate scenario analysis capabilities in key subsidiaries and branches, with special focus on assessing the climate risk in Indonesia and Hong Kong.

Future Plan **Metrics and Targets** To align our disclosure with ISSB requirements in view of the transition from TCFD to ISSB standards

In October 2022, we announced our commitment to achieving net zero by 2050, with a focus on 6 priority sectors

Energy Built environment

Net zero targets and commitments for six sectors

Energy

Power
Reduce emissions intensity by **64%** by 2030 and **98%** by 2050

Automotive
Reduce emissions intensity by **58%** by 2030 and **net zero** by 2050

Oil and gas
No new project financing for upstream oil and gas projects approved for development after 2022

Built environment

Real estate
Reduce emissions intensity by **36%** by 2030 and **97%** by 2050

Construction
Reduce emissions intensity by **31%** by 2030 and **85%** by 2050

Steel
Reduce emissions intensity by **20%** by 2030 and **92%** by 2050

Covers **~60%** of our corporate lending portfolio

We focused on two significant, high-emitting ecosystems, **energy** and **built environment,** spanning 6 sectors based on:

- Significant contributors to GHG emissions regionally: ~73% of global emissions[1]
- Material to UOB's corporate lending portfolio: ~60% of total corporate lending portfolio

Our commitments were defined in line with guidance by the Net Zero Banking Alliance (NZBA) and the Glasgow Financial Alliance for Net Zero (GFANZ)

Source: 1) Our World in Data

2 years on, we are progressing across all priority sectors, and are trending below the reference pathways

Power
(kgCO$_2$/MWh)

37% below pathway

Automotive
(gCO$_2$/vehicle-km)

4% below pathway

Note: We have updated both our reference pathway, including our 2030 target, and portfolio data to be in line with the latest market practice. For data consistency, we have omitted 2021 figures.

Oil and gas (O&G)

No new project financing for upstream projects approved for development after 2022

Coal

No new project financing of greenfield or expansion of coal-fired power plants and thermal coal mines; Exit financing for thermal coal sector by 2039

Real estate
(kgCO$_2$/m^2)

11% below pathway

Construction
(tCO$_2$/S$million)

18% below pathway

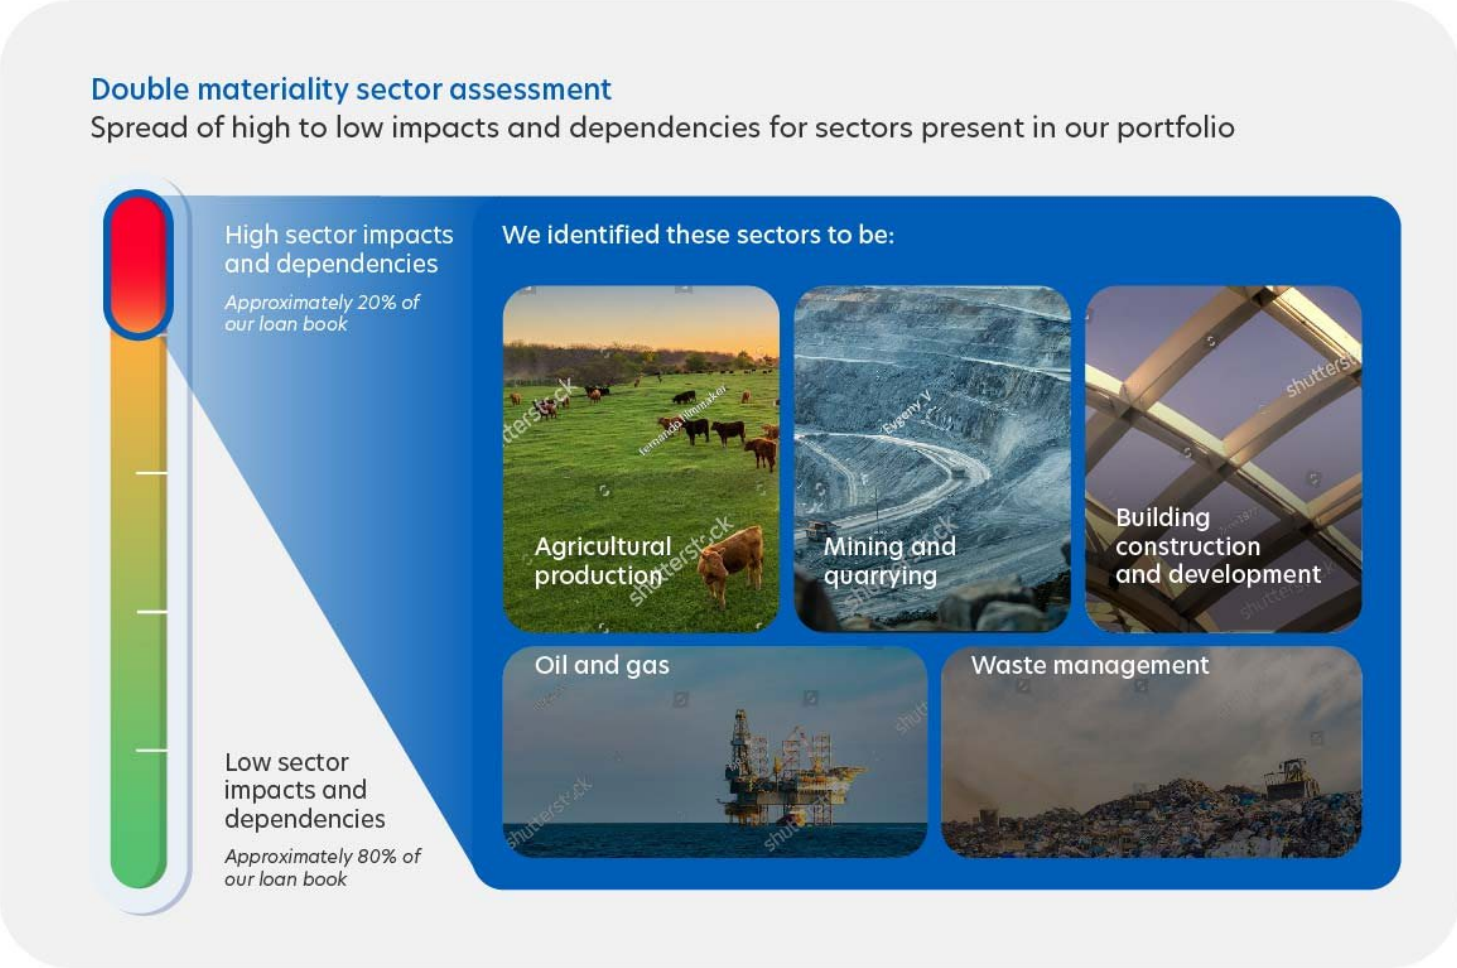

Steel
(tCO$_2$/tonne)

6% below pathway

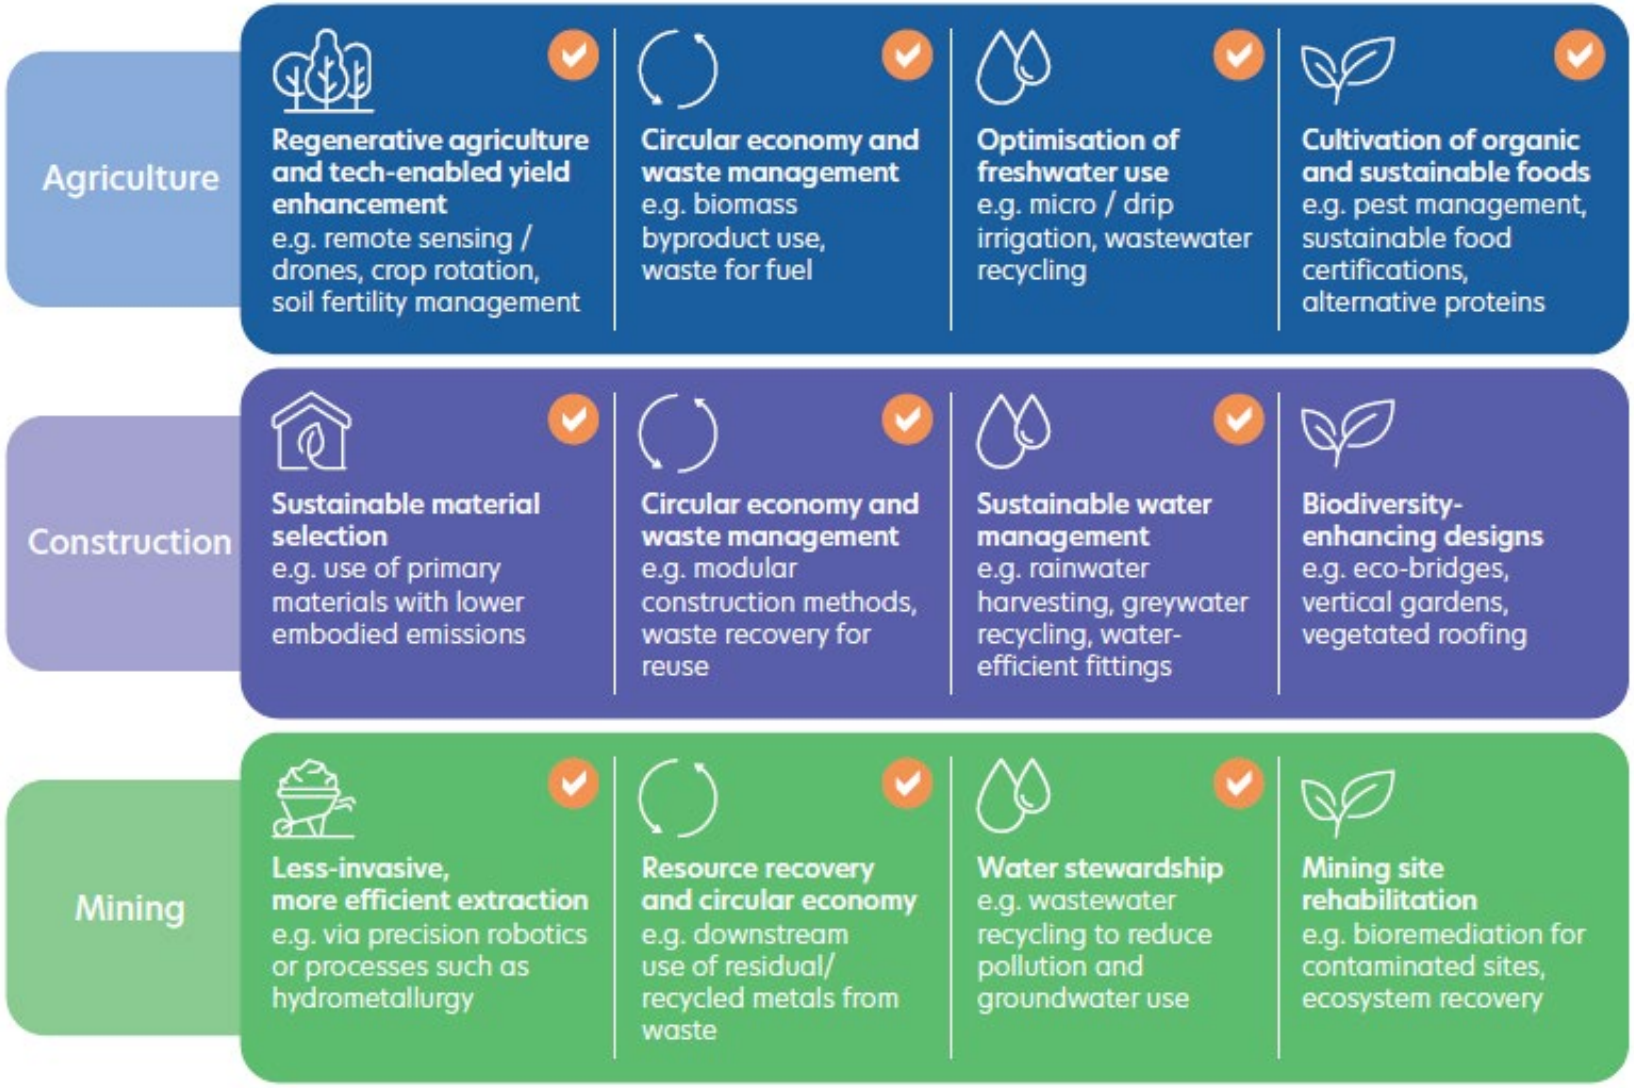

Nature risks: Our portfolio has low to medium risk, with ~20% estimated to have material impacts and/or dependencies on nature

- UOB's overall portfolio has **low to medium risk** based on direct sector scores
- 5 sub-sectors with material impacts and/or dependencies on nature (~20% of exposure)
- **Agriculture, Metals & Mining and Built Environment** value chains have the most material risks and opportunities related to nature. We have focused on these three sectors in our analysis
- **Oil & Gas** has material impacts on nature and is minimally considered for nature dependencies. It is not prioritized because opportunities in O&G are primarily in net zero related activities
- **Waste management** material impact and dependency but has a small exposure (0.1%) in UOB's portfolio so are not prioritising this sector

Nature opportunities: ~60% of our sustainable finance portfolio is focused on the nature-climate nexus

Covered in UOB's sustainable finance frameworks

Appendix C. Latest Financials

Key Highlights This Quarter

Resilient 4Q25 operating profit at $1.8 billion, with continued franchise growth

- **Group Retail** (GR) delivered a robust performance, with **CASA growing 12% YoY** and FY25 **wealth income rising 14% YoY**, driven by **6% YoY AUM growth** and **42% of AUM being invested**. Our customer base grew 3% YoY to **~8.5 million**, underscoring our strong value proposition.
- **Group Wholesale Banking** (GWB) sustained broad-based momentum, with **trade loans up 26% YoY, CASA up 15% YoY** and **investment banking income reaching a record high** in FY25.
- **Global Markets income rose 23% YoY in FY25,** supported by strong momentum in customer treasury flows.

Strengthen Balance Sheet Through Proactive Provisioning

- **4Q25 credit costs normalised** from last quarter's elevated level, which had reflected a pre-emptive general allowance. 2026 total credit costs guidance remains unchanged at 25-30bps.
- **Performing loans coverage stable** at 1%, NPA coverage at 97% and 254% including collateral.

NIM Stabilisation Through Funding Cost Management

- **NIM expanded 2bps QoQ to 1.84%** largely on improved funding costs.
- We expect NIM to range between **1.75%-1.80% in 2026.** Strengthening our CASA franchise remains a key priority to support NIM (FY25 CASA mix: GR at 57%; GWB at 60%).

Capital Returns Commitment Continues

- Dividend payout ratio **maintained at ~50%,** with 2025 final dividend calculation **excluding the pre-emptive general allowance,** to safeguard shareholder returns.
- Remain committed to capital return plans, with ~50% **of the $3 billion programme completed** as of December 2025.

FY25 net profit at $4.7 billion

Selected income statement data

	2025 $m	2024 $m	YoY %
Income	5,100	5,491	(7)
Lending, Deposits[1]	2,998	3,555	(16)
Wealth	1,281	1,121	14
Credit Cards	820	815	1
Expenses	2,789	2,949	(5)
Operating Profit	2,311	2,542	(9)
Allowance for credit and other losses	307	439	(30)
Profit before Tax	1,975	2,074	(5)

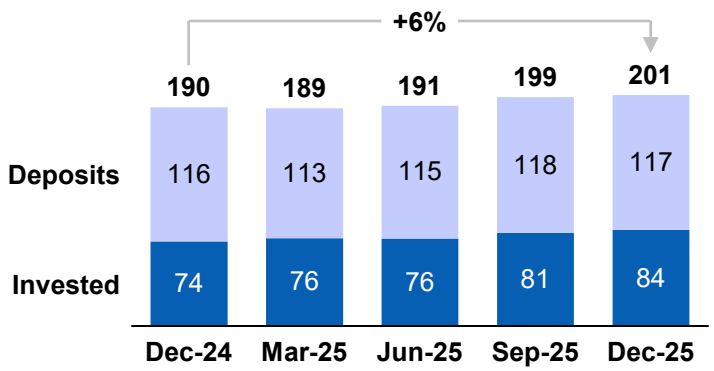

Highlights

- PBT affected by declining rates, albeit offset by relief of one-off expense and improved credit costs after the operational merger in Thailand
- Strategic focus on CASA, cards billings and wealth delivered results, mitigating impact of lower rates and one-time surge in rewards cost in Thailand
- Retail CASA increased $13b in 2025 amid strong competition, lifting the CASA mix by 3pts to 57%, while funding-cost was actively managed
- Double-digit wealth income growth anchored on trajectory in invested AUM, lifting AUM mix from 39% to 42% YoY; net new money totalled $11b for 2025

Operating Profit	4,583	4,995	(8)
Allowance for credit and other losses	1,128	615	83
Profit before Tax	3,439	4,384	(22)

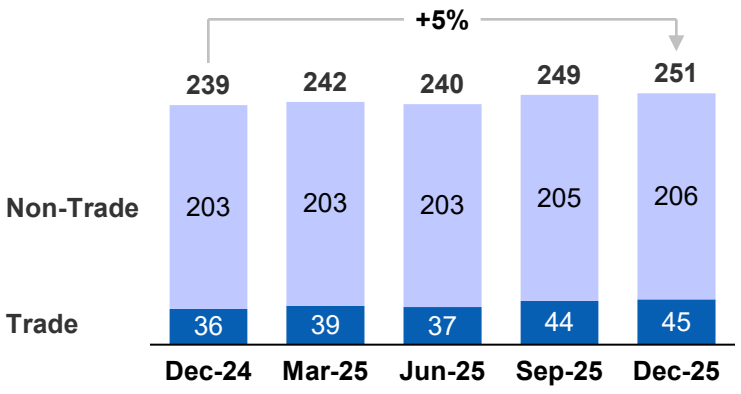

Highlights

- PBT declined amid lower rates and keen competition for quality assets, coupled with allowance set aside for selected markets and sector
- Despite tariff uncertainties and lower benchmark rates, close to 50% of GWB income continue to be generated from Transaction Banking – driven by encouraging trajectory in CASA and trade loans
- Investment Banking delivered record fees in 2025
- Steadfast income contribution from non-real estate sectors at 70%, while cross-border income mix rose by 1% point to 27%

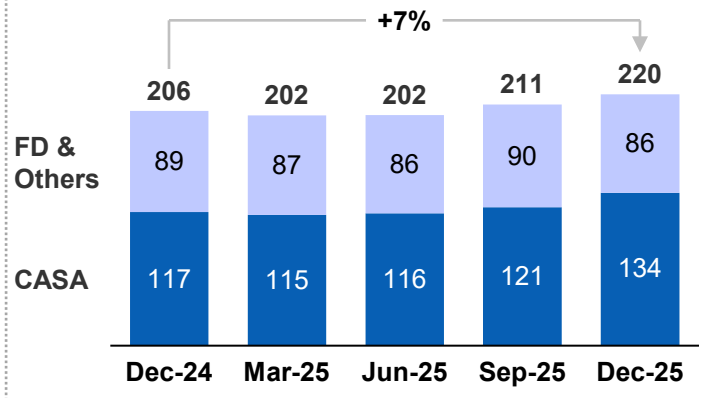

Key metrics
