In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2024.

2. Review of performance of the Group

Income Statements

The Group's revenue increased by S\$23.0 million from S\$49.7 million for the six months ended 31 December 2023 ("**1H FY24**") to S\$72.7 million for the six months ended 31 December 2024 ("**1H FY25**"). Revenue increased was mainly due to the increase in sales volume as well as the increase in average selling price ("**ASP**") of disposable gloves and ancillary products. Revenue of nitrile examination gloves and other ancillary products have increased by 114.0% and 86.6% respectively in 1H FY25 as compared to 1H FY24 mainly due to reasons describe above, while revenue of latex examination gloves remained fairly stable in both 1H FY25 and 1H FY24.

Cost of sales increased by S\$12.2 million from S\$41.6 million in 1H FY24 to S\$53.8 million in 1H FY25 in tandem with the increase of revenue.

Gross profit increased by approximately S\$10.7 million from S\$8.1 million in 1H FY24 to S\$18.8 million in 1H FY25 in tandem with both the increase in sales volume and the ASP of disposable gloves. Correspondingly, the gross profit margin of the Group increased from 16.3% in 1H FY24 to 25.9% in 1H FY25, contributed by higher gross profit margin across all product segments – latex examination gloves, nitrile examination gloves and other ancillary products in 1H FY25 as compared to 1H FY24.

Other income decreased by S\$0.4 million from S\$1.2 million in 1H FY24 to S\$0.8 million in 1H FY25 mainly due to the decrease in interest income from fixed deposits with the banks in tandem with the decrease interest rate environment during the period under review, partially offset by the reversal of over-provision of loss allowance on trade receivables. The Group's other expenses increased by S\$1.3 million from S\$0.6 million in 1H FY24 to S\$1.9 million in 1H FY25 due to the losses from foreign exchange.

Operating expenses comprising marketing and distribution expenses and administrative expenses increased by S\$3.7 million from S\$14.2 million in 1H FY24 to S\$17.9 million in 1H FY25. This was mainly due to the expansion of distribution network at the downstream distribution division following the acquisition of UG Germany in FY24.

Finance cost increased by S\$0.4 million from S\$0.6 million in 1H FY24 to S\$1.0 million in 1H FY25 due to the increase in interest expense from the loan for the acquisition of UG Germany.

Share of profits from joint venture recorded as S\$21,000 in 1H FY25 after the acquisition of UG Nitrex, S.L. in June 2024. Share of losses from associates increased slightly from S\$82,000 in 1H FY24 to S\$84,000 in 1H FY25 due to losses reported by USA associates.

After taking into account the tax expenses and minority interests, the Group's net loss attributable to the shareholders recorded as S\$0.9 mil in 1H FY25.

- Increase in trade and other payables by S\$5.0 million from S\$19.3 million as at 30 June 2024 to S\$24.3 million as at 31 December 2024 due to increase in raw materials purchase volume in tandem with increase in sales volume; and

In 1H FY25, the net cash used in operations amounted to S\$5.8 million taking into account of the loss before tax of S\$1.2 million, adjusted for working capital outflows of S\$4.1 million which was mainly due to increase in trade and other receivables and increase in inventory. Net cash used in investing activities amounted to S\$0.7 million due to cash outflows on the purchases of property, plant and equipment, partially offset by interest received from fixed deposits. Net cash generated from financing activities amounted to S\$0.7 million mainly due to the net increase in the bank borrowings.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

No forecast or prospect statement has been previously disclosed to shareholders.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months

The Group recorded higher sales volume and an increase in average selling price of disposable examination gloves and ancillary products as global demand and supply of disposable gloves and personal protective equipment continue to stabilise.

In January 2025, the Group announced that it had increased its equity interest in UG Healthcare (USA) from 50.0% to 75.0% as part of its growth strategy to optimise its integrated own brand manufacturing ("OBM")

business model. This strategic acquisition strengthens its downstream distribution network in the North American market.

The Group will be able to increase the production of premium disposable examination glove products if it is more cost-effective to produce them, as it has its third manufacturing facility in place. By leveraging its **UNIGLOVES®** brand and entrenched downstream distribution network, the Group has the option to collaborate with cost-effective product manufacturers to enrich its product portfolio and offer it to a broader customer base. This would potentially strengthen the Group's fundamentals in the gloves-related healthcare business.

The planning and joint development, management, and operation of the active retirement homes in Desaru, Malaysia, are currently underway. The project will require time to make material progress, given its nature as a property development.

The Group will update shareholders on material developments as and when they arise.
