2. Whether the figures have been audited or reviewed and in accordance with which standard (e.g. the Singapore Standard on Auditing 910 (Engagements to Review Financial Statements), or an equivalent standard).

The figures have not been audited nor reviewed by the auditors.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

The Group has applied the same accounting policies and methods of computation in the financial statements for the current financial period compared to the audited financial statements as at 31 March 2018 except for the adoption of the Financial Reporting Standards (FRS) and Interpretations of FRS (INT FRS) that are mandatory for financial year beginning on or after 1 April 2018 (details as shown in paragraph 5 below).

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group has adopted new Financial Reporting Standards in Singapore ("FRSs") and interpretations effective for the financial period beginning 1 April 2018 as follows:

(i) Application of IFRS 1 optional exemptions

IFRS 1 requires that the Group applies IFRS on a retrospective basis, as if such accounting policy had always been applied. If there are changes to accounting policies arising from new or amended standards effective 1 April 2018, restatement of comparatives may be required because IFRS 1 requires both the opening balance sheet and comparative information to be prepared using the most current accounting policies. IFRS 1 provides mandatory exceptions and optional exemptions from retrospective application, which are often different from those specific transition provisions in individual FRSs applied to the FRS financial statements.

The Group made the following allowable transition adjustments that have an impact on the financial statements:

- a) Fair value as deemed cost exemption for property, plant and equipment
The Group elected and regarded the fair values of certain aircraft rotatable spares as their deemed cost at the date of transition to IFRS 1 on 1 April 2017.
- b) Foreign currency translation reserve
The Group elected to reset the foreign currency translation reserve for all foreign operations to zero as at the date of transition to IFRS 1 on 1 April 2017.

(ii) IFRS 15 Revenue from Contracts with Customer

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It also introduces new cost guidance which requires certain costs of obtaining and fulfilling contracts to be recognised as separate assets when specified criteria are met.

The Group adopted IFRS 15 in its financial statements for the year ending 31 March 2019, using the retrospective approach. As a result, the Group has applied all of the requirements of IFRS 15 retrospectively, and the comparative period presented in the 2018/19 financial statements will be restated.

Following the presentation requirements in IFRS 15, the Group has presented the contract assets and contract liabilities separately and the comparative figures have been restated.

The impact on the comparatives for the financial statements of this reporting period on adoption of IFRS 1 and IFRS 15 are as follows:

GROUP EARNINGS

Third Quarter FY2018-19

The Group posted a profit attributable to owners of the parent of \$33.1 million for the third quarter of FY2018-19, a decrease of \$22.2 million or 40.1%. \$20.9 million of the decrease was mainly due to one-time events from the associated and joint venture companies.

Operating profit of \$15.9 million was \$2.9 million or 15.4% lower year-on-year. Revenue of \$255.9 million was lower by \$15.1 million or 5.6%, mainly from lower airframe and fleet management revenue, partially mitigated by higher line maintenance revenue. Expenditure at \$240.0 million decreased at a lower rate of 4.8%, mainly due to lower material costs in line with the lower workload.

Share of profits of associated and joint venture companies at \$19.2 million was \$21.6 million or 52.9% lower year-on-year, due mainly to the impact of one-time events of \$20.9 million, which included, inter alia,:-

- a revision in fee structure of an engine shop in 2018 that evened out its revenue over the year instead of a lump sum adjustment in the third quarter of the last financial year;
- a foreign exchange adjustment made for the functional currency change of an associated company; and
- a one-time tax charge booked by certain associated companies in the current quarter¹.

Basic earnings per share was 2.95 cents for the current period.

Year-to-date (April – December 2018)

The Group recorded a profit attributable to owners of the parent of \$111.6 million for the nine months ended 31 December 2018, a decrease of \$19.0 million or 14.5%.

Revenue at \$764.9 million was lower by \$53.6 million or 6.5%, primarily due to lower airframe and fleet management revenue, offset in part by higher line maintenance revenue. Expenditure decreased \$33.4 million or 4.4% to \$727.5 million, largely from decreases in material and subcontract costs. Operating profit decreased by \$20.2 million or 35.1% to \$37.4 million.

Share of profits of associated and joint venture companies was \$81.6 million, a decrease of \$3.2 million or 3.8%. Contributions from the engine and component centres were \$1.0 million lower, while contributions from the airframe and line maintenance segment were \$2.2 million lower. In the third quarter of FY2018-19, certain engine and component centres provided a one-time tax adjustment¹. Excluding this adjustment, contributions from the engine and component segment would be higher.

Basic earnings per share was 9.97 cents for the current period.

GROUP FINANCIAL POSITION

As at 31 December 2018, equity attributable to owners of the parent of \$1,485.1 million was \$1.4 million or 0.1% higher than at 31 March 2018, with profits earned for the period and a gain in foreign currency translation reserve as a result of the strengthening of the US dollar against the Singapore dollar largely offset by the payment of the final and interim dividends in respect of FY2017-18 and FY2018-19 respectively.

Total assets decreased \$16.1 million or 0.9% to \$1,787.8 million at 31 December 2018. The cash balance of the Group was \$471.4 million, a decrease of \$28.3 million or 5.7%.

Net asset value per share as at 31 December 2018 was 132.7 cents.

¹ Restructuring plans at the parent company of these associated companies affected certain qualifying criteria of their group tax incentive scheme. In the absence of an agreed revised tax incentive scheme, tax provision was revised upwards to the prevailing corporate tax rate.
