Supply Chain Management

Supply Chain Management division accounts for 99% of the Group's turnover in 1Q2016, of which marine cables and accessories contributed 72%, marine lighting equipment and accessories 18% and others 10%. Revenue from the Division decreased by 23% due to slowdown in activities in the marine and offshore sectors as a result of weak shipping markets and low oil prices, as well as a delay in shipment to an overseas customer.

Manufacturing

Manufacturing division accounts for 1% of the Group's turnover in 1Q2016. The decrease in revenue from galvanized steel wire is due mainly to lower market demand in Malaysia.

Geographical segment

Revenue derived from Singapore decreased by \$1.3million or 14% from \$8.9million in 1Q2015 to \$7.6million in 1Q2016. This is due mainly to lower activities in the marine and offshore sectors as a result of weak shipping markets and low oil prices.

Revenue derived from overseas decreased by \$3million or 37% from \$8.1million in 1Q2015 to \$5.1million in 1Q2016. This is due mainly to the marine and offshore sectors as a result of weak shipping markets and low oil prices as well as a delay in shipment to an overseas customer.

Gross profit

The Group's overall gross profit decreased by \$1.5million or 26% from \$5.8million in 1Q2015 to \$4.3million in 1Q2016 due to lower revenue. The Group's overall gross margin decreased marginally by 1% from 34% in 1Q2015 to 33% in 1Q2016.

Other operating income

The decrease in other operating income in 1Q2016 is due mainly to a gain in disposal of a subsidiary in 1Q2015.

Operating expenses

The Group's operating expenses comprise mainly selling & distribution and administrative expenses. Both selling & distribution expense and administrative expense remain comparably unchanged.

Share of results in associated company

The Group's associated company registered a higher loss of \$299k in 1Q2016 due mainly to lower sales to major customers and supplier-related issues.

Share of results of joint ventures

The decrease in share of results in joint venture is due to Dream Marine Ship Spare Parts Trading LLC securing fewer orders as a result of price competition and weak market in the Middle East.

Interest on borrowing

The increase in interest on borrowings in 1Q2016 as compared to 1Q2015 is due mainly to higher usage of trade facilities by the Supply Chain Management division.

Depreciation

The decrease in depreciation in 1Q2016 as compared to 1Q2015 is due mainly to disposal of fixed assets in the Batam operation in 2H2015.

Discontinued Operations

The Group recorded a loss from discontinued operations, net of tax, of \$392,000 as stated in detail below:

	Group		
	1Q2016	1Q2015

Net loss for the period	(392)	(873)	(55%)

* Restated the results of a subsidiary from continuing operations to discontinued operations.

Following the disposal of ZPA, liquidation of OGS as well as cessation of business activity in Batam operation, Discontinued Operations registered a significantly lower revenue in 1Q2016.

Discontinued Operations registered a small gross profit of \$23k in 1Q2016 due mainly to lower revenue.

The increase in other operating expense is due mainly to a higher foreign exchange loss in 1Q2016 as compared to 1Q2015 as a result of a higher depreciation of Indonesian Rupiah against Singapore Dollar during the period.

The lower selling & distribution and administrative expenses are lower in 1Q2016 is due mainly to disposal of ZPA and reduced business activity and consequently its related expenses in Batam operations.

Balance Sheet and Cash Flow Analysis

Investment in associated companies

The decrease in investment in associated company is due mainly to the share of loss in GL Lighting Holding Pte Ltd.

Intangible assets

The increase in intangible assets is due mainly to goodwill arising from the acquisition of the remaining shares from the major shareholder of an associated company. The associated company becomes a wholly-owned subsidiary of the Company after the acquisition.

Inventories

The increase in inventories by \$2.6million is due to a delay in shipment to an overseas customer.

Trade receivables

The decrease in trade receivables of \$519k is due mainly to lower sales in the Supply Chain Management division in 1Q2016.

Other receivables

The increase in other receivables of \$763,000 is due mainly to deposit paid to suppliers for trade purchases.

Trade payables

Trade payables decreased by \$920k from \$5.8million in FY2015 to \$4.9million in 1Q2016. This is due mainly to lower purchases as a result of lower revenue.

Other payables

The increase in other payables of \$983k is due mainly to an increase in provision for liabilities relating to the Company's interest in a joint venture company based on its proportionate share of the net liabilities of the joint venture company.

Bank borrowings

The increase in bank borrowing by \$3.3million is due mainly to increase in usage of trade facilities to a supplier to fulfill an order by an overseas customer.

Cash flow

Net cash and cash equivalent increased by \$78k in 1Q2016 as compared to an increase of \$8.4million in 1Q2015. This is due mainly to increase in bank borrowings to purchase inventories to fulfill an order from an overseas customer.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group remains focused on improving the overall health of our core business given the continuing weak shipping industry and low oil prices which have severely impacted the oil and gas industry, and increasing market competition.

The core business, the Supply Chain Management division, faced difficult market conditions in the past quarter due to the continuing slowdown in the marine and offshore industries. This has affected the sales and profitability of the division, nevertheless it remained profitable. The Group will continue to strengthen its core business in view of the macro headwinds and is working on various initiatives to improve its performance.

The operations of GL Lighting Holding Pte Ltd (“GLH”), the Group’s associated company, has been adversely affected in the past quarter due to lower sales to major customers and supplier-related issues. The construction of the new factory is expected to start soon and is targeted to be completed in 2017. Once completed, the new factory will significantly boost GLH’s manufacturing capacity of LED lighting products.

The performance of the Group’s galvanized steel wire factory in Oman continues to be very challenging as production and sales volumes are still below breakeven levels. Besides lower sales, the business is affected by lower selling prices as a result of lower commodity prices, and high fixed costs. The Group continues to work closely with its Omani joint venture partner to improve operational performance and explore all possible options with regards to this business.

On its Engineering Services division, the Group has previously announced to the Singapore Exchange (“SGX”) on 4 September 2015 that its subsidiary, Oil & Gas Solutions Pte. Ltd. (“OGS”), has initiated creditors’ voluntary liquidation proceedings on the same day. In the most recent update on 1 April 2016, the Group announced to the SGX that the liquidator has informed that the liquidation of OGS remains ongoing.

On its discontinued operations in Batam, the Group continues to be in discussion with potential buyers to dispose of the remaining shipyard.
