F. NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

1. GENERAL

SIA Engineering Company Limited (the "Company") is a limited liability company incorporated in the Republic of Singapore which is also the place of domicile. The Company is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST"). The Company is a subsidiary company of Singapore Airlines Limited and its ultimate holding company is Temasek Holdings (Private) Limited. Both holding companies are incorporated in the Republic of Singapore.

The registered office of the Company is at 31 Airline Road, Singapore 819831.

The financial statements of the Group as at 30 September 2024 and for the half year then ended comprise the Company and its subsidiaries (together referred to as the 'Group' and individually as 'Group entities') and the Group's interest in equity-accounted investees.

The principal activities of the Company are the provision of airframe maintenance, component overhaul services and inventory technical management, the provision of line maintenance and technical ground handling services and investment holdings. The principal activities of the subsidiaries are disclosed in Note 18 to the audited financial statements for the year ended 31 March 2024. There have been no significant changes in the nature of these activities during the financial period.

2. BASIS OF PREPARATION

The condensed interim financial statements for the half year ended 30 September 2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) 34 Interim Financial Reporting (SFRS(I) 1-34) and International Accounting Standard 34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore and IAS 34 Interim Financial Reporting, and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 March 2024 ("last annual financial statements"). They do not include all of the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

The Group has applied the same accounting policies and methods of computation in the preparation of the interim financial statements for the current reporting period as the last audited financial statements except for the adoption of SFRS(I) and International Financial Reporting Standards ("IFRS") that are mandatory for financial year beginning on or after 1 April 2024. The adoption of these SFRS(I) and IFRS have no significant impact on the financial statements.

The condensed interim financial statements are presented in Singapore Dollars ("SGD"), which is the Company's functional currency and all financial information presented in SGD have been rounded to the nearest thousand (\$'000), unless otherwise stated.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND CRITICAL JUDGEMENTS

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements as at and for the year ended 31 March 2024: -

- i) Expected credit loss (“ECL”) provision for trade receivables, contract assets and amounts owing by related parties;
- ii) Income taxes;
- iii) Contract assets; and
- iv) Impairment of non-financial assets

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Excluded in the borrowings above are lease liabilities of \$92,891,000 (31 March 2024: \$105,299,000) which are secured over the right-of-use assets.

15. CAPITAL EXPENDITURE COMMITMENTS

The Group and the Company have commitments for capital expenditure, with an aggregate value of approximately \$103,546,000 (31 March 2024: \$91,101,000) and \$102,238,000 (31 March 2024: \$91,098,000) respectively.

In addition, the Group’s share of a joint venture company and associated companies’ commitments for capital expenditure is approximately \$9,172,000 (31 March 2024: \$6,207,000).

The Group and the Company will review the need and timing of these commitments to conserve cash where prudent to deal with continuing uncertainties from macroeconomic headwinds, inflationary pressures and ongoing geopolitical conflicts.

16. FINANCIAL INSTRUMENTS (in thousands of \$)

Fair values

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm’s length transaction, other than in a forced or liquidation sale.

Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

16. FINANCIAL INSTRUMENTS (in thousands of \$) (continued)

Fair values (continued)

Financial instruments carried at fair value

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The following table shows an analysis of each class of assets and liabilities measured at fair value at the end of the reporting period:

	The Group and Company 30 September 2024			Total

16. FINANCIAL INSTRUMENTS (in thousands of \$) (continued)

Fair values (continued)

Level 2 fair value measurements

The Group and Company have carried all derivative instruments at their fair values.

The fair value of forward currency contracts is determined by reference to current forward exchange rates for contracts with similar maturity profiles.

Financial instruments whose carrying amounts are reasonable approximation of fair value

The carrying amounts of the following financial assets and financial liabilities are reasonable approximations of their fair values due to their short-term nature: cash and bank balances, short-term deposits, amounts owing by/to related parties, immediate holding company, loans, contract assets and liabilities, trade and other debtors and creditors.

The carrying amount of the long-term loan is reasonable approximation of fair value as the loan is a floating rate loan that is re-priced to market interest rate up to half-yearly.

Level 3 fair value measurements

The fair value of the contingent consideration is determined by reference to specific debts provisioning and insurance claims to be settled post-acquisition.

17. SEGMENT INFORMATION (in thousands of \$)

The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.**

GROUP EARNINGS

First Half FY2024-25

Demand for maintenance, repair and overhaul services ("MRO") remained healthy in the first half of the financial year ended 30 September 2024. All operating segments recorded higher revenue. Group revenue grew 12.1% year-on-year to \$576.2 million, while Group expenditure increased at a lower rate of 11.5% to \$572.8 million. The increase in expenditure was mainly due to higher material costs, manpower costs and repair costs, and an exchange loss as compared to an exchange gain recorded in the comparative period. Consequently, the Group's operating performance improved by \$3.3 million year-on-year to an operating profit of \$3.4 million.

Share of profits of associated and joint venture companies also increased, by \$8.6 million (+17.2%) year-on-year to \$58.6 million. The breakdown of contribution by segments is as follows:

- \$56.2 million (+\$7.7 million) from the engine and component segment, and
- \$2.4 million (+\$0.9 million) from the airframe and line maintenance segment.

The Group's net profit for the first half ended 30 September 2024 was \$68.8 million, an improvement of \$9.5 million year-on-year.

Basic earnings per share for the first half of the financial year ended 30 September 2024 was 6.13 cents.

GROUP EARNINGS (continued)

Second Quarter FY2024-25

For the second quarter, the Group recorded an operating profit of \$2.4 million, an improvement of \$2.7 million year-on-year as revenue growth of 22.0% outpaced the 20.9% increase in expenditure. Expenditure increased mainly due to higher material costs, staff costs, subcontract costs and an exchange loss as compared to comparative period's exchange gain.

Share of profits of associated and joint venture companies for the quarter was \$30.6 million, an improvement of \$2.5 million (+8.9%) year-on-year.

The Group recorded a net profit of \$35.6 million for the quarter ended 30 September 2024, which was \$3.3 million higher year-on-year.

Basic earnings per share for the second quarter was 3.17 cents.

GROUP FINANCIAL POSITION

As of 30 September 2024, equity attributable to owners of the parent was \$1,647.4 million, a decrease of \$39.7 million (-2.4%) from 31 March 2024, mainly due to the payment of final dividend for the last financial year and a decrease in the foreign currency translation reserve, partially offset by profits earned during the period.

Total assets stood at \$2,014.1 million as of 30 September 2024, a decrease of \$74.2 million (-3.6%) from 31 March 2024 mainly due to decrease in cash balances, partially offset by increase in receivables. The Group's cash balance was \$493.2 million.

Net asset value per share as at 30 September 2024 was 147.0 cents.

4. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast was previously provided.

5. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

BUSINESS UPDATE

Line Maintenance demand across the Group's network continued to increase year-on-year. In Singapore, 9% more flights were handled compared to the same period last year and at the end of September 2024, the number of transits handled was 95% of pre-pandemic volume, compared to 89% a year ago.

Fewer aircraft checks were completed at Base Maintenance's Singapore hangars in the first half of the financial year ended 30 September 2024 compared to the same period in the prior year due to a higher mix of legacy aircraft checks with heavier work content as well as cabin refurbishments. The duration of some aircraft checks was also extended because of supply chain constraints that led to longer lead times to obtain relevant aircraft spares. SIA Engineering Philippines completed more aircraft checks year-on-year and was recently appointed as the first Embraer Authorised Service Centre in Asia-Pacific to service Embraer E-Jets E2 aircraft. In the meantime, preparation work for Base Maintenance Malaysia is on track, with the first of two hangars in Subang scheduled to begin operations in the second half of 2025. The increase in hangar capacity is timely as SIAEC has been appointed to perform the cabin retrofit of SIA's A350 long-haul fleet starting from 2026.

With measures taken to mitigate ongoing supply chain challenges, the Group's network of engine and component shops was able to meet the increase in demand and generated more output year-on-year. In addition to the expansion of engine shops in Singapore, a 49%-owned joint venture, Eaton Aero Services ("EAS"), was established in June 2024. EAS's new facility in Selangor, Malaysia, will provide MRO services for Eaton-manufactured aircraft components, and is expected to be fully operational by early 2026.

As a result of the investments for business expansion in terms of capacity, geographical reach and repair capabilities, to position for long-term growth, the Group will incur associated start-up and development costs over the next two to three years.

SIAEC was honoured to receive two awards from Aviation Week Network at the recent MRO Asia Pacific Awards 2024. We were recognised for our commitment to delivering exceptional service and support to our customers with the "Aftermarket Service Provider of the Year" Award, and for our "1SIAEC" campaign to promote the collective products and services of SIAEC and our joint ventures under the SIAEC brand with the "Marketing Campaign of the Year" Award. Our commitment to developing talent and creating a positive workplace culture was also recognised by the Singapore Human Resources Institute, with SIAEC being recognised for "Excellence in Learning, Development, Coaching & Mentoring" and "Excellence in Talent Management & Acquisition" at the Singapore HR Awards 2024.

OUTLOOK

MRO demand continues to be driven by healthy air travel demand. In addition, delays in the delivery of new aircraft have also resulted in airlines keeping older aircraft in operation and needing MRO support for those aircraft. At the same time, however, the industry continues to face pressures from supply chain constraints, rising costs, tight manpower supply and heightened geopolitical tensions. Likewise, the Company is contending with similar challenges, particularly supply chain issues and elevated costs.

To tap the opportunities and address the challenges, we remain focused on strengthening core competencies and expanding our MRO capabilities, capacity, and geographical presence through investments and collaborations to augment our MRO ecosystem. Apart from maintaining strict cost discipline, we are ramping up efforts to integrate and institutionalise Lean principles and digitalisation efforts through an Enterprise Operating System framework. Additionally, we remain committed to building a steady pipeline of skilled talent through partnerships with Institutes of Higher Learning.
