SGX Securities welcomes MetaOptics Ltd to Catalist

SGX Securities today congratulates MetaOptics Ltd on its successful Catalist listing under the stock code “9MT”.

Established in 2021, MetaOptics Ltd (MetaOptics) is a semiconductor optics company that pioneers in glass-based metalens with artificial intelligence (AI)-enhanced imaging. Its products include metalens camera modules, metalens manufacturing equipment, and Internet of Things (IoT) devices such as infrared cameras, pico projectors and colour cameras. MetaOptics was a recent winner at the inaugural Design AI and Tech Awards 2025, jointly organised by The Business Times and the Singapore University of Technology and Design (SUTD).

Aloysius Chua Hao Peng, Deputy Chief Executive Officer, MetaOptics Ltd, said, “Listing on the Singapore Exchange marks a landmark moment for MetaOptics Ltd as the world's first pure-play metalens company to take this step onto the publicly listed stage. Positioned at the intersection of photonics and nanofabrication, we are driving the future of optics – from powering smart devices and AR/VR devices to enabling next-generation biometrics and automotive systems. This milestone is not just a celebration, but a launchpad: we are committed to accelerating R&D, expanding globally, and delivering breakthrough, high-performance optical solutions for tomorrow’s technology. Our heartfelt thanks go to our investors, partners, and team whose belief in MetaOptics fuels our journey. We look forward to creating lasting value together.”

Koh Jin Hoe, Head of Capital Markets, Global Sales and Origination, SGX Group, said, “We are delighted to welcome MetaOptics Ltd to SGX. As a pioneer in advanced optical technology, MetaOptics brings a fresh dimension to our market with its focus on innovation and cutting-edge solutions. The company’s listing reflects the growing diversity of sectors choosing Singapore as a launchpad for regional and global growth.”

MetaOptics Ltd joins SGX’s growing Technology cluster with a total market capitalisation of S\$113 billion. MetaOptics Ltd opened at S\$0.21 today.

About MetaOptics Technologies Pte Ltd

Established in 2021, the Group is the first pure-play metalens company to seek a public listing, underscoring its readiness to redefine the next-generation metalens supply chain for leading technology companies across a wide range of industries. Positioned at the intersection of emerging trends in photonics and nanofabrication, the Group designs and manufactures metalenses and metalenses prototypes, including metalens, metalens camera modules, metalens manufacturing equipment, and metalens Internet of Things (“IoT”) devices such as infrared metalens cameras, pico projectors and IoT colour cameras. These metalenses are designed for integration into smartphones, laptops, contactless three-dimensional (“3D”) biometrics modules, projectors, augmented reality / virtual reality (“AR/VR”) devices, and industrial applications such as Light detection and ranging (“LiDAR”) systems, and heads-up display (“HUD”) for aircraft and autonomous vehicles. According to an independent market research report, the Company ranks 3rd globally among metalens companies with mass production possibilities and shipments in terms of revenue by the end of 2024, and 5th globally in 2024 in terms of revenue among all metalens companies.
