NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE SECOND QUARTER ENDED 30 JUNE 2019 - UNAUDITED

1. Corporate information

Tasek Corporation Berhad is a public limited liability company incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad.

The condensed consolidated interim financial statements were approved by the Board of Directors on 6 August 2019.

2. Accounting policies and methods of computation

These condensed consolidated interim financial statements, for the period ended 30 June 2019, have been prepared in accordance with MFRS 134 Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. These condensed consolidated interim financial statements also comply with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board. For the periods up to and including the year ended 31 December 2018, the Group prepared its financial statements in accordance with Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS").

The audited consolidated financial statements of the Group for the year ended 31 December 2018 which were prepared under MFRS and IFRS are available upon request from the Company's registered office at 6th Floor, Office Block, Grand Millennium Kuala Lumpur, 160 Jalan Bukit Bintang, 55100 Kuala Lumpur, Malaysia.

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its audited consolidated financial statements as at and for the year ended 31 December 2018.

3. Changes in accounting policy

The accounting policies adopted are consistent with those of the previous financial year. New standards and amendments that apply for the first time in 2019 do not have a material impact on the annual consolidated financial statements of the Group nor to the interim condensed consolidated financial statements of the Group.

On 1 January 2019, the Group adopted the following new and amended MFRSs mandatory for annual financial periods beginning on or after the dates stated below:

Description	Effective for annual financial periods beginning on or after

Provision for restoration costs

A provision is recognised for restoration cost associated with its subsidiary, Tasek Concrete Sdn Bhd's obligations to restore the lands at the end of the tenancy period. It is expected that most of these costs will be incurred in the next two financial years and all will have been incurred within three years from the reporting date. Assumptions used to calculate the expected cost to dismantle and remove the batching plants from the site and the cost of restoring the land to its original state were based on management's best estimates.

Other environmental cost is recognised on the basis of legal or constructive obligation and the expected cost is based on management's best estimates.

22. Review of performance

(a) Current Quarter vs. Corresponding Quarter of Previous Year

For the current quarter, the Group registered net revenue of RM127.7 million and loss after tax of RM7.2 million compared with the corresponding quarter of previous year of RM133.6 million and RM4.6 million respectively. The higher loss for the current quarter was mainly contributed by the cement segment which continue to be affected by the prolonged price competition and high costs of production. In addition, lower interest income and lower share of profit from associate company further impacted the performance of the Group.

The cement segment recorded a net revenue and loss of RM92.4 million and RM9.6 million respectively for the current quarter compared with net revenue of RM100.4 million and loss of RM7.1 million of the corresponding quarter of previous year mainly due to the continuing competitive pricing in the domestic market. The slow-down in the construction activities has further aggravated the excess capacity currently faced by the industry that lead to the prolonged price competition since the middle of 2016. This adverse impact was further compounded by the rising costs of electricity and fuel used in production.

The ready-mixed concrete segment on the other hand registered a marginally lower net revenue of RM52.5 million and a profit of RM2.1 million for the current quarter compared with net revenue of RM52.7 million and profit of RM480,000 of the corresponding quarter of previous year. The marginal decrease in net revenue despite a slight increase in sales volume was mainly due to higher shift in sales mix toward lower grade concrete following the closure of a site plant. However, the impact on the net revenue was mitigated by the improvement noted in the segment's contribution arising from cheaper raw material costs.

The Group's interest income of RM552,000 for the current quarter was lower compared with RM896,000 of the corresponding quarter of previous year mainly due to lesser amount of funds placed on term deposits.

The lower share of profit from the associate company for the reporting quarter compared with the previous year's corresponding quarter was mainly due to lower profit margin arising from higher costs of imported raw materials, finished products and plant overheads. In addition, cement demand during the current quarter was 6.7% lower compared with the corresponding quarter of previous year.

FOR THE SECOND QUARTER ENDED 30 JUNE 2019 - UNAUDITED

(b) Current Period To Date vs. Corresponding Period To Date of Previous Year

The Group recorded net revenue of RM264.9 million and loss after tax of RM17.6 million for the current period to date compared with net revenue of RM269.9 million and loss after tax of RM9.1 million of the corresponding period to date of previous year. The higher cumulative loss for the current period to date was mainly contributed by the cement segment's lower average net selling price and higher costs of production. Lower interest income and lower share of profit from associate company further affected the performance of the Group for the current period to date.

Cement segment recorded net revenue of RM192.8 million and loss of RM21.4 million for the current period to date compared to net revenue of RM202.2 million and loss of RM14.7 million for the corresponding period to date of previous year from lower domestic cement sales exacerbated by lower average net selling price caused by prolonged price competition. Lower cement sales to the Southern region was the main contributing factor to the lower domestic cement sales. In addition, higher electricity cost arising from TNB's ICPT surcharge and higher fuel and repair maintenance costs during the current period to date further impacted the segment's performance.

Ready-mixed concrete segment on the other hand registered higher profit of RM3.7 million for the current period to date compared with RM1.8 million in the corresponding period to date of previous year. The higher profit was mainly contributed by the marginally higher sales volume and lower raw material costs.

The Group's interest income of RM1.05 million for the current period to date was RM882,000 lower compared to the corresponding period to date of previous year due to lesser funds placed on term deposits.

Share of profit of associate company for the current period to date was lower at RM1.2 million compared with RM2.9 million from the corresponding period to date of previous year mainly due to lower sales volume and higher cost of imported raw materials and finished products.

23. Material change in the loss before tax for the current financial quarter compared with the immediate preceding quarter

	Current quarter 30 June 2019 RM'000	Immediate preceding quarter 31 March 2019 RM'000
Revenue	127,682	137,264
Net loss before tax	(7,418)	(10,260)
Share of results of associates	863	318
Consolidated loss before tax	(6,555)	(9,942)

The Group recorded a lower net revenue of RM127.7 million compared with RM137.3 million of the immediate preceding quarter mainly due to lower sales volume in both the cement and ready-mixed concrete segments following shorter business cycles from the festive holidays during the current financial quarter. However, despite the lower net revenue, the Group recorded lower losses in the current quarter compared with the immediate preceding quarter mainly due to concrete segment's improved contribution margin and higher other income recorded by the cement segment. Higher interest income and higher share of profit of associate also contributed to better performance of Group in the current financial quarter.
