

OUHUA ENERGY HOLDINGS LIMITED
(Incorporated in Bermuda with Registration Number 37791)

PROFIT GUIDANCE FOR FIRST HALF FINANCIAL YEAR ENDED 30 JUNE 2026

The Board of Directors (the "Board") of Ouhua Energy Holdings Limited (the "Company", and together with its subsidiaries, the "Group") wishes to inform shareholders of the Company that, based on a preliminary review of the Group's unaudited financial results of the Group for the six-month financial period ended 30 June 2026 ("1HFY2026"), the Group is expected to report a net profit for 1HFY2026, in contrast to a net loss incurred in the corresponding period of the prior financial year.

The expected net profit for 1HFY2026 was mainly attributable to an improvement in the Group's operating margin following a significant increase in the selling price of liquefied petroleum gas ("LPG"), the Group's core product. The increase in LPG prices rose amid disruptions to global energy transportation and a sharp rise in international crude oil prices following the escalation of geopolitical tensions in the Middle East and the closure of the Strait of Hormuz. The resulting supply constraints led to a marked increase in LPG prices during March and April 2026.

The Company is in the process of finalising the Group's unaudited financial results for 1HFY2026. Further details of the Group's financial performance will be disclosed when the Group announces its unaudited financial results for 1HFY2026, which is expected to be released on or before 15 August 2026.

Shareholders and potential investors are advised to read this announcement and any further announcements by the Company carefully. Shareholders and potential investors are advised to exercise caution when dealing in the shares of the Company. Shareholders and potential investors should consult their stockbrokers, bank managers, solicitors, accountants or other professional advisers if they have any doubt as to the action they should take.
