Usage of raw materials, changes in work-in-progress and changes in finished goods are main components of the cost of sales shown in profit or loss. Cost of sales also includes an allowance for inventory obsolescence which is provided to be consistent with the view that assets should not be carried in excess of amounts expected to be realised from their sale or use. Stock boats are carried at lower of cost and net realisable value. Estimates of net realisable value are based on the most reliable evidence available at the reporting date. These estimates take into consideration market demand, competition, and selling price and cost directly relating to events occurring after the end of the financial year to the extent that such events confirm conditions existing at the end of the financial year.

The carrying value based on the 4% interest rate from the secured promissory note represents the market rate.

#### Other financial assets and liabilities

The carrying amounts of financial assets and liabilities with a maturity of less than one year (including trade and other receivables, cash and cash equivalents, and trade and other payables) are assumed to approximate their fair values because of the short period to maturity and where the effect of discounting is immaterial.

Accordingly, no fair value hierarchy information is disclosed for such financial assets and liabilities.

## 3. Segment information

The Group engages predominantly in the manufacturing and sale of luxury yachts. The Group assessed its operating segment and determined that it has two operating and reporting segments (2021: two operating and reporting segments) which is the manufacturing and trading segment – comprising manufacturing and sale of yachts to end customers (2021: manufacturing and sales of yachts to end customers) and others (being brokerage income, trade-in sales and service income).

#### Revenue

Revenue for the six-month period ended 31 December 2021 ("1H FY2022") decreased 36.8% to S\$33.8 million from S\$53.4 million for the same period ended 31 December 2020 ("1H FY2021") primarily due to suspension of activities at the Group's manufacturing facility in Pasir Gudang, Johor, in compliance with the Malaysian Government's Movement Control Order ("MCO") to curb the spread of the COVID-19 pandemic. Operations were halted since 1 June 2021 with a total of almost two and half months in 1H FY2022.

# Gross profit

Due to the lower revenue, gross profit for 1H FY2022 declined to S\$7.5 million, from S\$13.0 million for 1H FY2021. Similarly, gross profit margin decreased to 22.2% from 24.2% over the comparative period. The unabsorbed manufacturing costs incurred during the shut-down in 1H FY2022 were approximately S\$2.6 million.

#### Operating expenses

Total operating expenses – including costs relating to boat shows, sales and marketing, as well as salaries and commission expenses – increased to S\$8.5 million for 1H FY2022 from S\$7.6 million for 1H FY2021, primarily due to participation in boat shows in the USA (which were cancelled in 1H FY2021 due to the pandemic) as well as higher payroll and insurance costs.

Other non-operating income in 1H FY2022 arose from recognition of pandemic-related Government grants of S\$0.3 million (1H FY2021: S\$0.1 million).

# **Taxation**

Tax expenses in 1H FY2022 and 1H FY2021 arose from profitable subsidiaries.

#### **Profit**

As a result of the above, the Group recorded a net loss of S\$0.7 million in 1H FY2022 (1H FY2021: S\$4.0 million net profit).

# b) Any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

# Review of Cash Flows

Cash flows generated from operations were S\$4.1 million for 1H FY2022 compared to S\$15.0 million for 1H FY2021. This was mainly due to decrease in inventories and increases in contract liabilities and payables, partially offset by higher receivables and contract assets. The decrease in inventories was due to the lower raw materials. The increase in contract liabilities was due to down payments received from customers ahead of production schedule for the construction of boats, which were delayed due to the temporary shut-down of the Malaysian factory. The increase in payables was due to accrual of sales commissions and operating expenses. The increase in receivables and contract assets was due to timing of final payments for a few boats that would be due upon delivery to the buyers at their destinations.

Cash flows used in investing activities amounted to S\$3.0 million in 1H FY2022 mainly due to the development of new products and improvement of properties in the USA. The Group has undertaken a project at its Stuart facility to replace the existing roof with a bigger one to increase the covered space for operational use. This was largely completed in December 2021. In comparison, cash flows used in investing activities totalled S\$2.1 million in 1H FY2021 principally due to the development of new products.

Repayments of borrowings and payment of dividend were partially offset by new borrowings resulted in negative cash flows used for financing activities of S\$0.8 million in 1H FY2022. Repayments of borrowings amounted to S\$1.1 million in 1H FY2021. The Group's borrowings were used to finance part of lease renewal consideration for the Malaysian yard in FY2016, partial financing of its acquisition of the U.S. yard in FY2018 and for the improvement of properties and purchases of machineries in FY2021 and FY2022.

As a result of the above, cash and cash equivalents increased marginally to S\$45.4 million as at 31 December 2021 from S\$45.2 million as at 30 June 2021. Borrowings increased marginally to S\$4.9 million as at 31 December 2021 from S\$4.6 million as at 30 June 2021.

#### **Review of Financial Position**

Non-current assets remained relatively constant at \$\$43.0 million as at 31 December 2021, compared to \$\$42.8 million as at 30 June 2021. Current assets increased to \$\$66.4 million as at 31 December 2021 from \$\$64.7 million as at 30 June 2021, mainly due to higher contract assets and receivables, partially offset by lower inventories.

Total liabilities increased to S\$50.1 million as at 31 December 2021 from S\$46.6 million as at 30 June 2021, mainly due to higher payables and contract liabilities.

Contract liabilities of S\$25.5 million contributed to the cash and cash equivalent of S\$45.4 million as at 31 December 2021.

# 14. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

In line with the profit guidance issued by the Company on 21 January 2022, the Group incurred a net loss after tax of S\$0.7 million for 1H FY2022.

# 15. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group recorded 17 new boat orders in 1H FY2022, lifting the net order book to S\$154.2 million as at 31 December 2021. This compares with S\$116.9 million as at 30 June 2021, and highlights the robust demand for luxury yachts, as well as strong reception for the Group's boat models.

The operating environment remains uncertain, with the spread of the Omicron variant extending the pandemic. Rising freight costs amid continued disruptions of the marine supply chain, as well as increasing material costs are also expected to impact the Group.

In response, the Group commenced a vaccination programme in August 2021 of its entire Malaysian workforce, and progressively returned to full capacity in Pasir Gudang mid-September 2021. Having strengthened its workforce against the COVID-19, the Group expects business recovery to accelerate in the coming months.

Barring unforeseen circumstances, and the absence of movement restrictions and further halting of operations, the Group expects financial performance for the six months ending 30 June 2022 ("2H FY2022") to improve compared to 1H FY2022.
