(E) Notes to the unaudited condensed interim financial statements and full year financial statements (cont'd)

2 Basis of Preparation (cont'd)

2.1 New and amended standards adopted by the Group (cont'd)

The adoption of the abovementioned standards is not expected to have any material impact on the financial statements of the Group and the Company in the period of initial application.

2.2 Use of judgements and estimates

The preparation of the unaudited condensed financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for FY2020.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next interim period are included in the following notes:

- Impairment of goodwill;
- Calculation of expected credit loss allowance;
- Allowance for inventories;
- Impairment in value of investment in subsidiaries;
- Depreciation of property, plant and equipment and amortisation of intangible asset;
- Fair value measurements and valuation processes; and
- Impairment of plant and equipment and right-of-use assets.

2.2 Going concern assumption

On 15 July 2022, a meeting of the creditors of the Company and SMCI respectively, was convened to consider and, if thought fit, approve a scheme of arrangement pursuant to Section 210 of the Companies Act 1967 read with Section 117 of the Insolvency, Restructuring and Dissolution Act 2018 ("IRDA") (the "Schemes"). A critical milestone to enable the Company to continue as going concern would be the successful implementation of the Scheme and the ability of the Company to secure white knight investors. As at the date of this announcement, the status is as follows:

SEN YUE HOLDINGS LIMITED AND ITS SUBSIDIARIES

(Company Registration No. 200105909M)

(E) Notes to the unaudited condensed interim financial statements and full year financial statements (cont'd)

2 Basis of Preparation (cont'd)

2.2 Going concern assumption (cont'd)

- (a) The Schemes have been unanimously approved by the Creditors on 15 July 2022 and were sanctioned by the Court on 28 July 2022, subsequently came into effect on 2 August 2022 upon the filing of the Orders of Court sanctioning the Schemes with the Accounting and Corporate Regulatory Authority of Singapore (“ACRA”).
- (b) The JM had on 1 April 2022 entered into three definitive subscription agreements to raise capital for an aggregated cash consideration of S\$9.02 million with Electroloy Metal Pte. Ltd. (“**Electroloy**”), Jiangmenshi Changxin Technology Limited (“**Jiangmenshi**”) and Di Lingbin (“**Mr. Di**”) (individually a “**Proposed Subscription**” and collectively “**Proposed Subscriptions**”). The cash consideration of S\$7.00 million for the Proposed Subscription with Electroloy has been received on 5 August 2022 and the balance cash consideration of S\$2.02 million with other subscribers, Jiangmenshi and Mr Di, is expected to receive by 31 December 2022.
- (c) As the Company is making its progress to normalcy under the helm of new management and new constitution of the Board, the judicial management orders placed on SMCI and the Company have been discharged on 17 August 2022.
- (d) The Company has utilised the proceeds from the placement exercise with Electroloy, as well as its internally generated funds to fulfill its obligation to repay 50% its debts pursuant to the Scheme. The Company may explore available equity or debt securities to meet its funding requirements.

In light of the abovementioned developments above, the Board believes that the use of the going concern assumption in the preparation for unaudited financial statements for FY2021 is appropriate after taking into considerations the following measures and assumptions:

1. The Group is able to preserve and maintain its revenue streams from its business operations over the next 12 months;
2. The Group and the Company are able to explore other available equity or debt securities to meet its funding requirements;
3. The Group will continue to review and assess the Group’s existing business strategies and overall financial performance of the Group and carry out re-organisation and restructuring as and when appropriate; and
4. The Group generated positive cashflow from its operating activities in FY2021.

If the Group and the Company are unable to continue as a going concern, adjustments would have to be made to the accompanying financial statements to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded. In addition, the Group and the Company may have to provide for further liabilities that might arise, and to reclassify non-current assets and liabilities as current assets and liabilities. The accompanying financial statements do not reflect these adjustments.

3 Seasonal Operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4 Segment and Revenue Information

For the purpose of resource allocation and assessment of segment performance, the Group's Chief Executive Officer ("CEO") who is the chief operating decision maker have focused on the business operating units which in turn, are segregated based on the types of goods supplied and services provided.

The Metal Components segment, ED Coating segment and Commodities segment offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the segments, the Group's CEO reviews internal management reports on at least a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

- (a) Metal Components – includes manufacturing and sales of perforated materials, speaker nets, tool, die and other metal components;
- (b) ED Coating – includes ED coating services and secondary process;
- (c) Commodities – trading of e-waste raw materials, commodities, which include copper, stainless steel, other special alloys.

There are varying levels of integration between the Metal Components and ED Coating reportable segments. This integration includes ED Coating services for metal component, shared customers, sale of equipment and provision of maintenance services and rental of industrial properties. Inter-segment pricing is determined on an arm's length basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Group's CEO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

8 Property, Plant and Equipment

8.1 Valuation of Freehold Land and Building ("Property Assets")

The management undertook annual review of the carrying amounts of Property Assets under property, plant and equipment for indicators of impairment. Where indicators of impairment were identified, the recoverable amounts were estimated based on internal or external valuations undertaken by the Group.

The fair value of the Group's Property Assets is determined based on significant unobservable inputs and is categorised under Level 3 of the fair value measurement hierarchy. Level 3 fair value has been derived using the comparison method and the depreciated replacement cost method of valuation to determine the fair value of the properties.

On 30 September 2021, the Group has reviewed the fair value of the Group's Property Assets for financial reporting purposes, which has been determined based on the Property Assets' highest and best use. Management has assessed that the recoverable amount of the Group's Property Assets is below its carrying value. Correspondingly, the carrying amount of the Property Assets is adjusted to the revalued amount as at 30 September 2021.

- (b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

- (a) The former independent auditor, Deloitte & Touche LLP (“**Deloitte**”), has issued a disclaimer of opinion on the consolidated financial statements of the Group for the financial year ended 30 September 2020. The basis for the disclaimer of opinion was in relation to the following:
 - (i) Sales/purchase transactions with certain customers/ suppliers
 - (ii) Revenue recognition and payment received
 - (iii) Ongoing investigations
 - (iv) Going concern assumption
 - (v) Joint venture (“**JV**”) arrangement

During the financial year ended 30 September 2020, the Company has engaged Foo Kon Tan Advisory Services Pte Ltd (“**FKT**”) to conduct an independent review in relation to the concerns raised in respect of potential relationships that the former Executive Chairman of the Company, Mr. Koh Mia Seng (“**Mr. Koh**”), may have with certain companies that have dealings with the Group, as referred to disclaimer of opinion (i) and (ii) above. FKT disclosed in its report the high risk that some transactions between SMC Industrial Pte. Ltd. (“**SMCI**”), a wholly-owned subsidiary of the Company, and the seven identified companies (“**Identified Entities**”) were interested person transactions and were not conducted on an arms’ length basis and/or may not be bona fide. Save as disclosed in Section F, Note 6, the Company has since ceased dealing with the Identified Entities.

In view of FKT’s recommendation and as disclosed in the Company’s announcement on 27 January 2021, the Company filed a report with the Commercial Affairs Department (“**CAD**”) in relation to the matters highlighted by FKT. As at the date of this announcement, the investigation of CAD, as referred to disclaimer of opinion (iii) above, is still in progress. 1 Review (cont'd)

1.1 (a) Updates on the efforts taken to resolve each outstanding audit issue (cont'd)

A critical milestone to enable the Company to continue as going concern would be the successful implementation of the Scheme and the Company's ability to secure white knight investors. As at the date of this announcement, the status is as follows:

- The Schemes have been unanimously approved by the Creditors on 15 July 2022 and were sanctioned by the Court on 28 July 2022, subsequently came into effect on 2 August 2022 upon the filing of the Orders of Court sanctioning the Schemes with the Accounting and Corporate Regulatory Authority of Singapore ("ACRA").
- As mentioned in Section E, Note 2.3, the judicial managers had on 1 April 2021 entered into three definitive subscription agreements to raise capital for an aggregated cash consideration of S\$9.02 million. The Company has completed the Proposed Subscription with Electroloy and has received cash consideration of S\$7.00 million on 5 August 2022. The balance cash consideration of S\$2.02 million with other subscribers is expected to receive by 31 December 2022.
- As the Company is making its progress to normalcy under the helm of new management and new constitution of the Board, the judicial management orders placed on SMCI and the Company have been discharged on 17 August 2022.
- The Company has utilised the proceeds from the placement exercise with Electroloy, as well as its internally generated funds to fulfill its obligation to repay 50% of its debts pursuant to the Scheme. The Company may explore alternative available equity or debt securities to meet its funding requirements.

In light of the above-mentioned developments, the Board is of the opinion that the use of the going concern assumption for FY2021 is appropriate.

Lastly, two subsidiaries of the Company, namely SMCI and SMCI Refinery Pte Ltd entered into a joint venture agreement ("**JV agreement**") with Electroloy and Mr Wang Chun Jian to build a smelting facility in Singapore. The Company is evaluating the options to obtain temporary occupation permit for of the smelting facility under the JV agreement. The Company will also make its effort to resolve the outstanding issues in relation to the JV agreement between SMCI and the JV partners. Electroloy, being one of the parties to the tripartite JV agreement, has since become the immediate and ultimate holding company of the Group following the completion of the subscription agreement. Consequently, re-negotiation of the terms to the JV agreement between SMCI and Electroloy may subject to shareholders' approval via general meeting.

1 Review (cont'd)

1.1 (b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

(b) The Board of Directors of the Company (“**Board**”) refers to the outstanding audit issues in relation to JV agreement. Due to inconsistent understanding of the JV agreement amongst the parties and different interpretation to the terms of the JV agreement, the Company is unable to determine an appropriate accounting treatment to account for the transactions in relation to the JV agreement. Consequently, the Company and the Board are unable to determine whether adjustments to the accompanying financial statements might be necessary in respect of this matter. In light of the foregoing, the Board is unable to determine whether the financial statements of the Group were fairly presented.

Save as disclosed, the Board confirm that, to the best of their knowledge, the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

Depreciation expense increased by S\$0.46 million or 43%, from S\$1.08 million in 2H2020 to S\$1.53 million in 2H2021, mainly due to increase in upward revaluation adjustments on cost of freehold and leasehold properties made in last financial year as at 30 September 2020 and addition of plant and equipment in 2H2021, resulted in higher depreciation expense.

Depreciation of right-of-use (“**ROU**”) assets decreased by S\$0.29 million or 51%, mainly due to disposal of ROU assets which resulted in lower depreciation expense.

In tandem with the decrease in revenue, cost of sales decreased by S\$42.54 million or 71%, from S\$60.12 million in 2H2020 to S\$17.58 million in 2H2021.

Revenue from non-ferrous metals fluctuated according to commodities prices and the Group incurred loss in its trading at times due to lack of holding power. As a result of the discontinuation of non-ferrous metal trading business, the Group reported gross profit of S\$8.11 million or gross profit margin of 31.6% in 2H2021 as compared to gross loss of S\$0.62 million or gross loss margin of 1% in 2H2020.

The Group reported a decline in revenue by S\$119.56 million or 68%, from S\$175.11 million in FY2020 to S\$55.55 million in FY2021. Revenue from Commodities segment reported significant decline, mainly attributable to the impact of (i) judicial management order placed on SMCI; and (ii) the discontinuation of SMCI’s trading of non-ferrous metal business. The decrease in revenue was cushioned by the increase in revenue contribution from the Metal Components and ED Coating segments as a result of general improvement in overall business activities post-Covid 19.

Depreciation expense increased by S\$0.20 million or 7%, from S\$2.89 million in FY2020 to S\$3.09 million in FY2021, mainly due to (i) upward revaluation adjustments on cost of freehold and leasehold properties made in last financial year as at 30 September 2020 and (ii) addition of plant and equipment in FY2021, resulted in net increase in depreciation expense after offsetting the impact of full depreciation of certain plant and equipment in FY2021.
