Notes to the financial statements For the financial period 6 months ended 31 March 2023

1. Corporate information

BRC Asia Limited (the "Company") is a public limited liability company incorporated in Singapore and is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST"). The immediate holding company is Green Esteel Pte. Ltd. (formerly known as Esteel Enterprise Pte. Ltd.) ("Esteel"), a private limited company incorporated and domiciled in Singapore. Its ultimate holding company is Advance Venture Investments Limited ("AVIL"). AVIL is incorporated and domiciled in the British Virgin Islands.

The registered office and principal place of business of the Company is at 350 Jalan Boon Lay, Jurong Industrial Estate, Singapore 619530.

The principal activities of the Company are the prefabrication of steel reinforcement for use in concrete, trading of steel reinforcing bars, and manufacturing and sale of wire mesh fences.

2. Basis of preparation

The condensed unaudited interim financial statements for the six months ended 31 March 2023 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 30 September 2022.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed unaudited interim financial statements are presented in Singapore Dollars ("SGD" or "\$") and all values in the tables are rounded to the nearest thousand ("S\$'000"), except when otherwise indicated.

2.1 New and amended standards adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

Notes to the financial statements For the financial period 6 months ended 31 March 2023

2. Summary of significant accounting policies (cont'd)

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 September 2022.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in Note 3.2 in the audited financial statements for the year ended 30 September 2022.

3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

Provisions for onerous contracts

Provisions for onerous contracts are recorded in respect of certain sales contracts for which the estimated unavoidable costs to meet contractual obligations are expected to exceed the economic benefits to be received under it. Increase in provision arises from rising steel prices on fixed price contracts and the ultimate realisation or reversal of the provision is dependent on the timing of fulfilment of the contracts and the actual steel prices at that point.

16. Fair value of assets and liabilities

(a) Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

16. Fair value of assets and liabilities (cont'd)

(b) Assets and liabilities measured at fair value

The following table shows an analysis of each class of assets and liabilities measured at fair value at the end of the reporting period:

(c) Level 2 fair value measurements

The following is a description of the valuation techniques and inputs used in the fair value measurement for assets and liabilities that are categorised within Level 2 of the fair value hierarchy:

Derivatives:

Currency forward contracts are valued according to valuations obtained from reputable financial institutions as at the end of the reporting period.

16. Fair value of assets and liabilities (cont'd)

(d) Level 3 fair value measurements

The Group applied the 'most likely amount method' to predict steel reinforcement index based on historical published indices from the Building and Construction Authority, spot sales prices and steel price trends. The Group also takes into consideration the credit risk with reference to the provisional matrix developed under the simplified approach for lifetime ECL, which involves adjustment to historical credit loss experience with forward-looking information such as forecast of economic conditions.

(e) Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are not reasonable approximation of fair value

Fair value information is not disclosed for the following financial instruments of the Group as at 31 March 2023 as the difference between the carrying amounts and their fair values are not significant.

	Group

17. Subsequent events

The amalgamation of BRC's wholly-owned subsidiaries, Lee Metal Group Pte. Ltd. ("LMG") and Lee Welded Mesh Singapore Pte. Ltd. ("LWM") with the Company was completed on 1 April 2023.

The amalgamation was undertaken to streamline the operations to improve operational efficiencies, attain economies of scale and synergies from better allocation of resources within the Group. All assets and liabilities and businesses of LMG and LWM have been transferred to the Company and the shares held by the Company in LMG and the shares held by LMG in LWM have been cancelled.

The amalgamation has no financial effect on the share capital, net tangible asset and net asset value per share, earnings per share or the gearing of the Group.

Other Information required by Listing Rule Appendix 7.2 For the financial period 6 months ended 31 March 2023

1. Review

The condensed consolidated statement of financial position of the Company and its subsidiaries as at 31 March 2023 and the related condensed consolidated profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the Group

Statement of Comprehensive Income

Revenue

The Group's revenue declined by 10% to \$\$717.1 million for the first half ended 31 March 2023 ("1H2023") from \$\$793.3 million in first half ended 31 March 2022 ("1H2022"). This was primarily due to a lower contractual offtake because of slower site progress, offset by higher activity in the international trading segment.

Gross profit margin and gross profit

The Group's gross profit margin fell to 7.4% in 1H2023 from 8.7% in 1H2022. This was mainly caused by lower sales of value-added steel products due to slower activity levels within the domestic construction industry, partially offset by a reversal of provision for onerous contracts of \$\$7.9 million (1H2022: \$\$1.8 million).

The decrease in the Group's gross profit by 23% to \$\$52.7 million in 1H2023 from \$\$68.8 million in 1H2022 was mainly attributable to the lower contractual offtake from customers in the domestic construction industry.

Other income

Other income increased by 42% to \$\$3.7 million in 1H2023 from \$\$2.6 million in 1H2022, mainly due to net foreign exchange gains, and partially offset by a reduction in credit insurance claims for bad debts and government grants.

Distribution and administrative expenses

Distribution expenses increased by 37% to \$\$3.9 million in 1H2023 from \$\$2.8 million in 1H2022, mainly attributable to higher costs associated with the increase in the international trading business.

Administrative expenses decreased by 28% to \$\$9.4 million in 1H2023 compared with \$\$13.0 million in 1H2022, mainly due to lower staff-related costs, which is in line with the Group's financial results, as well as reduced credit insurance expenses, which is in tandem with the Group's lower revenue.

Other Information required by Listing Rule Appendix 7.2 For the financial period 6 months ended 31 March 2023

2. Review of performance of the Group (cont'd)

Statement of Comprehensive Income (cont'd)

Finance costs

Finance costs increased by 170% to \$\$6.3 million in 1H2023 from \$\$2.3 million in 1H2022, mainly due to rising interest rates.

Other operating expenses

Other operating expenses decreased by 40% to \$\$3.2 million in 1H2023 from \$\$5.4 million in 1H2022, mainly due to a decrease in foreign exchange loss, and fair value changes on trade receivables.

Provision for impairment loss on trade receivables

Impairment loss on trade receivables was reduced by 87% to \$\$0.1 million in 1H2023 due to a lower increase in overall trade receivables balance as compared to 1H2022.

Share of results of joint venture

The Group's share of profit from its joint venture decreased by 69% to S\$0.3 million in 1H2023 from S\$0.9 million in 1H2022 due to reductions in both sales volume and gross profit margin.

Share of results of associates

Share of losses of an associate relates to the Group's interest in Pristine Islands Investment Pte Ltd, an investment holding company with a 100% interest in a subsidiary that operates and manages an airport, hotel and resort in the Maldives. The losses increased by 157% to S\$1.1 million in 1H2023 from S\$0.4 million in 1H2022. Despite the improved occupancy and room rates, heightened operating and finance costs had extended the losses into the current financial period.

Statement of Financial Position

As at 31 March 2023, the Group's balance sheet remained strong with net assets of \$\$389.6 million and net asset value per ordinary share of \$\$1.42. The lower net assets as compared to 30 September 2022 of \$\$398.9 were mainly due to payables on dividends of \$\$32.9 million, partially offset by comprehensive income of \$\$23.7 million in 1H2023.

The Group's interest in joint venture decreased by \$\$2.1 million, mainly due to the receipt of dividend income of \$\$2.0 million in February 2023.

The Group's inventories decreased by \$\$100.1 million, correspondingly loans and borrowings decreased by \$\$196.1 million.

The Group's trade and other receivables decreased by S\$21.5 million, in tandem with a decrease in revenue.

The Group's prepayments increased by \$\$23.8 million due to advances paid to suppliers for steel purchases.

The Group's trade and other payables increased by \$\$59.7 million, mainly due to payables on dividends of \$\$32.9 million.

Singapore 12

Based on advance estimates by the Ministry of Trade and Industry ("MTI"), the Singapore economy grew by only 0.1% on a year-on-year ("y-o-y") basis in the first quarter of 2023 ("1Q23"), compared to the 2.1% growth recorded in the previous quarter. In fact, on a quarter-on-quarter ("q-o-q") seasonally-adjusted basis, the Singapore economy contracted by 0.7%, which was a reversal from the 0.1% growth in the fourth quarter of 2022. According to the Monetary Authority of Singapore ("MAS"), this significant slowdown is largely due to the contraction in trade-related activities arising from the global manufacturing and trade slowdown. The MAS rated the near-term growth outlook as "...uncertain and fragile, with risks to growth skewed to the downside." It further warned that "Should other latent vulnerabilities in the global financial system manifest in the coming months, consumer and investor confidence will take a further hit, with wider adverse implications for the economy beyond the current manufacturing-led downturn."

On the other hand, the local construction sector grew by 8.5% on a y-o-y basis in 1Q23, extending the 10% growth in the previous quarter. On a q-o-q seasonally-adjusted basis, the sector expanded by 1.8% in 1Q23, which was faster than the 1.4% expansion in the preceding quarter. This is generally in line with the firm performance of the domestic-oriented sectors, as there is limited interdependence between these sectors and the poorer performing trade-related sectors. Be that as it may, the value-added of the local construction sector remained 21.3% below its pre-pandemic (i.e., first quarter of 2019) level. This has also been borne out by our underwhelming contractual offtake over the past two quarters. Nevertheless, activity in the construction sector going forward remains well-supported by a strong pipeline of projects. In particular, contracts awarded in the civil engineering and residential segments have largely returned to pre-Covid levels (Chart 1). The Housing & Development Board's ("HDB") public housing projects remain on track to be progressively completed over the next few years.

As of 31 March 2023, our sales order book stood at approximately S\$1.42 billion. The duration of projects in our sales order book range up to 5 years and may be subject to further changes.

In the past month, there has been a moderate recovery in our contractual offtake. Prices of key construction materials had also come off their peaks (Chart 2).

Taken together, and with the shortfall in skilled construction labour progressively easing as the migrant workers who arrived in 2022 having received the training necessary to be deployed, this bodes well for construction and construction-related activity levels (including reinforcing steel) in the next 12 months.
