# KEPPEL INFRASTRUCTURE TRUST UNAUDITED RESULTS FOR THE FIRST QUARTER ENDED 31 MARCH 2017

# 17 April 2017

The Directors of Keppel Infrastructure Fund Management Pte Ltd, as Trustee-Manager of Keppel Infrastructure Trust, advise the following results of Keppel Infrastructure Trust for the first quarter ended 31 March 2017.

These figures have not been audited.

# **1Q FY17 RESULTS HIGHLIGHTS**

- Distribution per unit ("DPU") of 0.93 Singapore cents was declared for the quarter ended 31 March 2017.
- 2. Group revenue for 1Q FY17 was S\$155.3 million, S\$24.0 million or 18.3% higher than that of 1Q FY16. This was mainly due to higher contributions from City Gas as a result of higher town gas tariff and higher volume of town gas sold; higher facility fees from Basslink as no facility fees were recognised in 1Q FY16 during the cable outage which occurred between 20 December 2015 and 12 June 2016; and higher revenue from KMC. These were partially offset by lower contribution from the Concessions<sup>(1)</sup> as the 1Q FY16 revenue included construction revenue recognised from the Senoko boiler upgrade.
- 3. The higher profit attributable to Unitholders in 1Q FY17 as compared to 1Q FY16 mainly arose from higher contributions from Basslink and KMC, coupled with lower depreciation and amortisation expenses. These were partially offset by lower contribution from City Gas due to the time lag in the adjustment of gas tariffs to reflect actual fuel cost.
- 4. 1Q FY17 distributable cash flows<sup>(2)</sup> of S\$34.2 million was S\$5.9 million lower than 1Q FY16. This was mainly due to time lag in the adjustment of gas tariffs to reflect actual fuel cost at City Gas and abortive expenses incurred by the Trust in connection with a potential acquisition, partially offset by higher contribution from KMC.
- 5. Net asset value per unit as at 31 March 2017 decreased to 32.0 Singapore cents from 32.5 Singapore cents as at 31 December 2016 primarily attributable to distributions to Unitholders, partially negated by marked-to-market movement of derivative instruments.
- 6. Gearing<sup>(3)</sup> as at 31 March 2017 was 38.7% compared to 37.4% as at 31 December 2016 as the Trust drew on its facility to repay one of its subsidiaries.

- (1) Concessions comprise Senoko WTE, Tuas WTE, SingSpring Desalination and Ulu Pandan NEWater plants
- (2) Excluding Basslink, consistent with previous results announcements
- (3) Defined as net debt over total assets

## **Details of collaterals**

The bank borrowings are secured over the assets and business undertakings of City Gas, SingSpring and Basslink Group. The bank borrowings granted to SingSpring is also secured by a charge over the units in SingSpring held by the Trustee-Manager and Hyflux Ltd<sup>1</sup>, and a charge over the shares held by the Trustee-Manager in SingSpring Pte Ltd. The bank borrowings granted to KMC is secured mainly by an assignment of KMC's rights under the Capacity Tolling Agreement.

On 20 December 2015, the Basslink interconnector experienced an unplanned outage caused by a cable fault. The interconnector returned to service on 13 June 2016. As announced on 18 July 2016, Basslink was unable to meet the minimum debt service coverage ratio covenant in the project financing. As a condition of waiver of this event of default, Basslink was required to agree with the banking syndicate a Long Term Financing Plan ("LTFP") which has yet to be agreed as at 31 March 2017 (31 December 2016). There is no contractual recourse to KIT under the project financing. FRS 1 requires the borrowings to be classified as current liability if an entity breaches a provision of a long term loan agreement on or before the end of the reporting period. Accordingly, Basslink's borrowings were classified as current liabilities as at 31 March 2017 (31 December 2016). Basslink and the banking syndicate are still in discussions to work towards agreeing the LTFP.

Notwithstanding the classification, Basslink is current on its debt payments under the project financing, subsequent to the return to service of the interconnector on 13 June 2016. The classification has no material financial impact on the distributions per unit of KIT for the year ending 31 December 2017 since KIT does not rely on Basslink's cash flows for its distributions.

#### 8. REVIEW OF PERFORMANCE

#### 8.1 Cash flow

The Group's cash and bank deposits net of restricted cash were S\$202.1 million and S\$185.8 million as at 31 March 2017 and 31 March 2016, respectively.

1Q FY17 net cash used in operating activities was S\$1.4 million, S\$0.5 million higher than 1Q FY16. The higher cash outflow is due to timing difference in receipts and payments as compared to 1Q FY16.

Net cash generated from investing activities of S\$1.5 million in 1Q FY17 arose from receipt of dividend and repayment of advances from Datacentre One. In 1Q FY16, net cash used in investing activities relates mainly to Senoko boiler upgrade.

Net cash used in financing activities of S\$12.5 million and S\$6.4 million in 1Q FY17 and 1Q FY16 respectively, mainly relate to payment of distributions to unitholders and non-controlling interests of subsidiaries, and repayment of borrowings, partially offset by proceeds from loan drawdowns during the periods. Restricted cash balance increased in 1Q FY17 compared to a decrease in 1Q FY16.

#### 8.2 Income Statement

#### Revenue

Group revenue for 1Q FY17 was S\$155.3 million, S\$24.0 million or 18.3% higher than that of 1Q FY16.

City Gas's 1Q FY17 revenue increased by \$\$6.9 million to \$\$77.5 million as a result of higher town gas tariff and higher volume of town gas sold. City Gas achieved 100.0% plant availability during the period.

Concessions<sup>2</sup> contributed revenue of S\$23.2 million in 1Q FY17 compared to S\$27.9 million in 1Q FY16. 1Q FY16 revenue included construction revenue recognised from the Senoko boiler upgrade. The boiler upgrade was completed in 3Q FY16. All 4 plants fulfilled their contractual obligations during the period.

Basslink's revenue increased to A\$19.8 million (approximately S\$21.2 million) in 1Q FY17 from A\$1.1 million (approximately S\$1.1 million) in 1Q FY16 as no facility fees were recognised in 1Q FY16 due to the cable outage which occurred between 20 December 2015 and 12 June 2016.

Revenue from KMC was S\$32.4 million, S\$1.8 million higher than 1Q FY16 of S\$30.6 million.

CityNet contributed revenue of S\$1.0 million in 1Q FY17, similar to the comparative financial period last year.

#### Other income

Other income in 1Q FY16 was S\$0.8 million higher than 1Q FY17 mainly due to liquidated damages compensation in connection with KMC's plant outage being recognised in 1Q FY16.

#### Other losses - net

Other losses comprised mainly the fair value movement on financial derivative instruments.

### **Expenses**

Fuel and electricity costs of S\$31.4 million in 1Q FY17 were higher than 1Q FY16 due to higher fuel prices and higher volume of natural gas consumed.

Gas transportation costs of S\$23.2 million in 1Q FY17 were slightly higher than 1Q FY16 with the upward revision of gas transportation fees and higher volume of town gas transported.

Depreciation and amortisation decreased from \$\$28.7 million in 1Q FY16 to \$\$26.9 million in 1Q FY17 as certain assets and intangible assets were fully depreciated and amortised in FY16.

Staff costs in 1Q FY17 were lower than 1Q FY16 due to adjustment of bonus provision in 1Q FY17.

# 8. REVIEW OF PERFORMANCE (CONT'D)

#### 8.2 Income Statement (cont'd)

#### Expenses (cont'd)

Operation and maintenance costs dropped by S\$2.9 million or 12.6% to S\$20.2 million in 1Q FY17. 1Q FY16 operation and maintenance costs of S\$23.1 million included construction expenses in relation to the Senoko boiler upgrade. The boiler upgrade was completed in 3Q FY16.

Finance costs was lower by S\$5.0 million in 1Q FY16 as certain financing costs was not payable by Basslink due to the cable outage last year.

Trustee-Managers' fees of S\$2.6 million for 1Q FY17 was higher than 1Q FY16, as a result of difference in timing of receipt of distributions from the respective entities.

Other operating expenses increased from S\$9.6 million in 1Q FY16 to S\$14.1 million in 1Q FY17 due mainly to abortive expenses incurred in connection with a potential acquisition and professional fees incurred for the Basslink outage.

Share of results of joint venture relates to KIT's interest in DataCentre One. The construction of the DataCentre was completed on 12 April 2016 and the lease commenced on the same date. On 7 February 2017, the DataCentre obtained its Certificate of Statutory Completion ("CSC").

#### Profit attributable to Unitholders of the Trust

The higher profit attributable to Unitholders in 1Q FY17 as compared to 1Q FY16 mainly arose from higher contributions from Basslink and KMC, coupled with lower depreciation and amortisation expenses. These were partially offset by lower contribution from City Gas due to the time lag in the adjustment of gas tariffs to reflect actual fuel cost.

### 8.3 Balance Sheet - Group

The Group reported net current liabilities of S\$420.0 million as at 31 March 2017, comparable to 31 December 2016. The net current liabilities position was due to a reclassification of S\$731.1 million borrowings from non-current liabilities to current liabilities in accordance with FRS 1. Please refer to Paragraph 1(b)(ii) for further details.

Total assets as at 31 March 2017 was S\$4,101.6 million, marginally lower than total assets of S\$4,118.6 million as at 31 December 2016.

As at 31 March 2017, total liabilities of S\$2,680.2 million was slightly higher than S\$2,664.7 million as at 31 December 2016 as the Trust drew on its facility to repay one of its subsidiaries.

Total Unitholders' funds stood at \$\$1,233.6 million as at 31 March 2017, lower than \$\$1,255.4 million as at 31 December 2016 due to distributions paid, partially offset by marked-to-market movements of the derivative financial instruments and profit recognised for the guarter.

## 8.4 Balance Sheet - Trust

Net assets as at 31 March 2017 was S\$1,636.6 million compared to S\$1,634.4 million as at 31 December 2016 due to profits for the guarter, offset by distributions paid.

#### 10. PROSPECTS

KIT's assets typically generate stable cash flows, with repairs and maintenance of the plants provided for as scheduled outages.

However, if such an outage lasts longer than anticipated and causes the availabilities of the plants to fall below their respective contracted levels, the plants will not be able to receive full payments due under their contracts. In addition, if the plants incur significant downtime due to extraordinary or extensive repairs, it could also lead to termination of contracts and/or liabilities or compensation arising under such agreements. Similarly, reduced availability due to the foregoing reasons would also affect production levels and revenues at City Gas.

City Gas' performance could fluctuate depending on changes in economic conditions and time lag in the adjustments of gas tariffs in response to changes in fuel costs. The tariff adjustments mechanism is designed to ensure that City Gas fully recovers its fuel costs over the long run.

Waste and water concessions have long-term contracts with Singapore statutory bodies and derive most of their cash flows from capacity and availability payments. As such, the underlying performance of these assets are expected to remain stable.

Under the capacity tolling agreement, KMC will receive a maximum annual capacity fee of S\$108 million as long as it meets the availability and capacity test targets, with most of its operating costs being passed through.

While intended to be neutral over the long-term, the CRSM in Basslink may fluctuate in the short-term and such fluctuations will affect the revenues of Basslink. Following a review in April 2016, the CRSM has been adjusted from a band of +25%/-20% to +12.5%/-12.5%, thus reducing the volatility in the facility fees to be received.

DataCentre One was handed over on 12 April 2016 and has commenced generating cash flows. The DataCentre obtained its CSC on 7 February 2017.

CityNet receives an annual management fee from its appointment as trustee-manager of NetLink Trust. CityNet received notice from Singtel of its intention to replace CityNet as the trustee-manager in early 2017. A resolution to replace CityNet as trustee-manager was passed at an Extraordinary General Meeting held on 23 March 2017 and the approval of the Info-communications Media Development Authority of Singapore was sought and obtained thereafter. The effective date of cessation as trustee-manager was 13 April 2017.

On 20 December 2015, Basslink was taken out of service due to a cable fault incident. The cable returned to service on 13 June 2016. The independent international cable expert charged with investigating the cable fault completed the investigations in December 2016 and concluded that the cause of the cable fault is "cause unknown". Based on current circumstances and professional advice, Basslink maintains that the outage is a force majeure event.

Basslink has ongoing discussions with Hydro Tasmania and the banking syndicate on matters arising from the outage, including the subsisting default under the project financing which was announced on 18 July 2016. While Hydro Tasmania has not paid Basslink facility fees since September 2016 (as Hydro Tasmania disagrees that the outage is a force majeure event), Basslink has received good faith payments from Hydro Tasmania since December 2016, whilst the outstanding matters are being resolved. Basslink continues to work closely and engage with Hydro Tasmania towards achieving a satisfactory outcome.

The insurer has confirmed that the physical loss and damage to the cable as well as time element loss (such as business interruption loss) arising from the incident are insurable (subject to the relevant terms of the insurance policy). An advance payment of A\$40 million has been made by the insurer to Basslink, out of which approximately A\$13.7 million was used to pay for part of the repair costs of the interconnector. While the remaining advance payment received is sufficient to cover Basslink's operating needs, its usage is subject to the consent of the banking syndicate due to the aforesaid subsisting default. Basslink is in discussions with the banking syndicate for release of part of the insurance proceeds for Basslink to meet its immediate operating needs as a result of the payment issue with Hydro Tasmania. Basslink is also working with the insurer on the remaining claims under the insurance policy. The foregoing is not expected to have any material financial impact on the distributions per Unit of KIT for the financial year ending 31 December 2017, since KIT does not rely on Basslink's cash flows for its distributions. Unitholders will be updated as more information becomes available.

The Trustee-Manager will evaluate asset enhancement opportunities in its portfolio, and will continue to identify and evaluate suitable acquisitions, including those from the Sponsor, under its investment mandate to further grow the Trust.
