CORPORATE PROFILE

At Valuetronics, we believe we are amongst an emerging breed of Electronics Manufacturing Services ("EMS") providers with a multi-location manufacturing footprint in China and South East Asia, which focus on a proactive engagement with the market so as to understand market trends and initiate product-oriented solutions to meet the ever-changing needs of customers.

Established in 1992 and headquartered in Hong Kong, Valuetronics was listed on the SGX Mainboard in 2007. Over the years, Valuetronics has grown into an integrated EMS provider with principal business segments ranging from Consumer Electronics ("CE") Products to Industrial and Commercial Electronics ("ICE") Products, covering smart lighting products, printers, temperature sensing devices, communication products, automotive products and medical equipments.

Our proactive philosophy in customer engagement leverages on our Design and Development ("D&D") capabilities, which is supported by integrated manufacturing capabilities from plastic tool fabrication and injection moulding to surface mount technology and full turnkey finished

product assembly. As a one-stop manufacturing solution provider, we are set apart from traditional EMS providers. Our capability in providing vertical integrated services under one roof gives our customers the advantage of a faster time-to-market, better quality control, and most importantly, a competitive total cost of ownership.

Our wide product and customer range from emerging enterprises to top global multinational corporations is a testimony to the success in adopting this philosophy. It also further highlights our ability to accommodate customers' requirements for various volume mix, complexity and industrial standards, while demonstrating our spectrum of competence. By constantly focusing on their objectives, priorities, and needs, we continue to develop long-term relationships

with our global customers in the consumer, commercial, industrial, automotive and medical equipment industries.

Today, we are a premier design, manufacturing partner for the world's leading brands in various sectors, which span across a wide geographical region that covers America, Europe and the Asia Pacific. We support these clients manufacturing supply chain requirements by leveraging on our multiple manufacturing sites located in China and Vietnam. At Valuetronics, we deliver not just products, but total solutions that meet the needs of our diverse client base.

CHAIRMAN'S STATEMENT

DEAR SHAREHOLDERS,

On behalf of the Board, I am pleased to present the annual report of Valuetronics Holdings Limited ("Valuetronics" or the "Group") for the financial year ended 31 March 2020 ("FY2020").

CHALLENGES IN THE GLOBAL ENVIRONMENT

Since the establishment of the Group, Valuetronics has met and overcome many challenges such as the Asian and Global Financial Crises, natural disasters like flooding, supply chain issues and more. We have been blessed that our foresight and core capabilities have allowed us to weather the storms that have come our way, enabling us to gain success and recognition from all our stakeholders.

However, despite being resilient and prudent in our planning and development, challenges are bound to recur in certain years, creating bumps in our path of growth. Our performance in FY2020 is such an example, and this period in our history is by far the most unprecedented and challenging period for the Group.

Many multinational companies ("MNCs") and Electronics Manufacturing Services ("EMS") providers have been caught in prolonged Sino-US trade tensions that started in 2018.

We see shifting trends in the way MNCs handle their supply chains and diversify their manufacturing footprint beyond China so as to manage trade tariffs imposed by the US government.

These shifting trends are also reflected in our businesses as our customers, who are also MNCs and renowned corporates, seek to diversify their manufacturing supply chain by exploring manufacturing in other ASEAN countries or switch over to other suppliers in North America to serve the US market so as to mitigate impacts from the trade tariffs.

In late 2019, the macro-environment in which we operate in was further challenged with the advent of the COVID-19 pandemic. Manufacturers in mainland China were first affected with a longer government mandated shutdown till mid-February 2020 due to the COVID-19 virus, instead of the usual resumption of operations immediately after the Chinese New Year holidays. As the COVID-19 virus spread across the world, many more companies were faced with further disruptions to operations in order to comply with different governments' regulations and measures to deal with the pandemic. This created an unprecedented crisis not just for Valuetronics, but also on a global scale.

FY2020 FINANCIAL PERFORMANCE

Amid of the uncertainty and volatility in global markets, I am pleased to announce that Valuetronics' FY2020 financial results remains positive and stable. The Group's revenue for FY2020 amounted to HK\$2,354.4 million with contribution of HK\$916.0 million from our Consumer Electronics ("CE") sector and HK\$1,438.4 million from our Industrial and Commercial Electronics ("ICE") sector.

Gross profit was lowered to HK\$362.8 million in FY2020 as compared to HK\$430.3 million for the financial year ended 31 March 2019 ("FY2019"), with gross profit margin increased by a 0.2 percentage point to 15.4% for FY2020 due to a change in sales mix for the year under review.

Valuetronics had a net profit of HK\$178.9 million in FY2020, which translates into an earnings per share of approximately HK41.2 cents for FY2020.¹

EXPANDING INTO VIETNAM

Even with a crisis, there are still opportunities. I am happy to report that our expansion plans into Vietnam are progressing well. We started working on the expansion of our operations into Vietnam since FY2019, as part of a strategy to offer an alternative to customers who were thinking of diversifying their manufacturing footprint out of China.

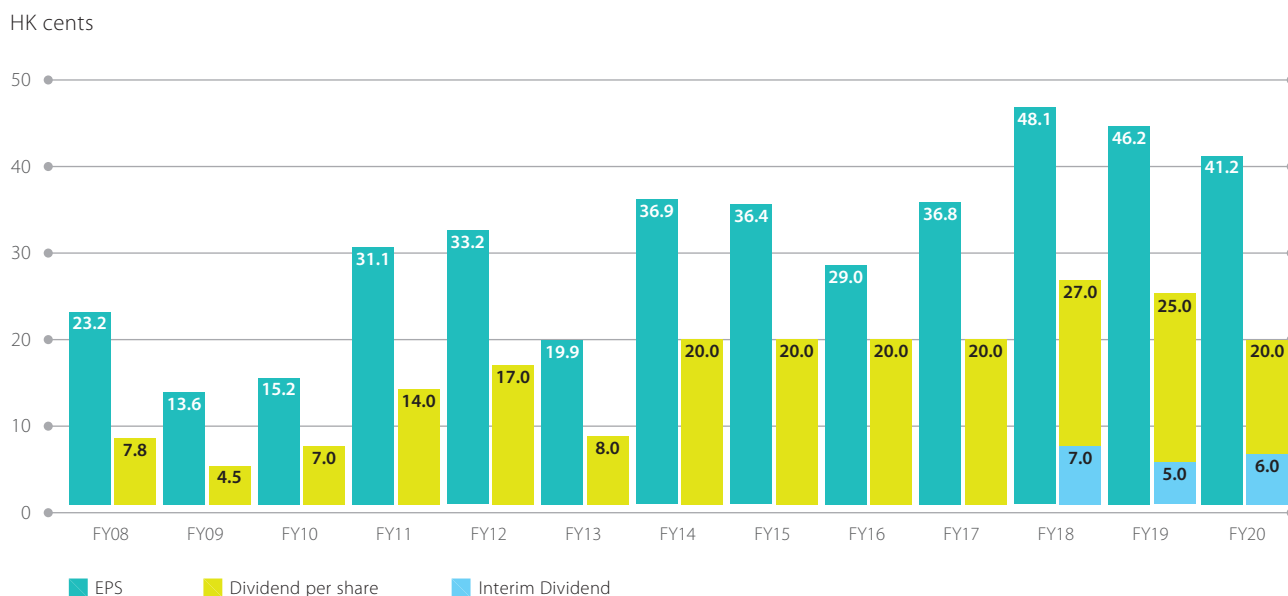

We started with a small leased facility initially but over time more customers started to indicate to us that they want to explore diversifying production between our China and Vietnam facility. With such indications from customers, after mass production commenced in June 2019 at our first leased manufacturing facility, we leased a 4,000 sqm standard factory as a second facility and trial production has started at the second facility in May 2020.

In November 2019, we signed a sub-lease agreement to acquire 52,541 sqm of land in an industrial park run by a Japanese group for the development of our own Vietnam Campus. We will focus on the design and build-up of our Vietnam campus as part of our Phase 3 development in Vietnam. We expect to commence mass production at

¹ Basic earnings per share calculated based on a weighted average number of ordinary shares in issue (excluding treasury shares) of 434,375,776 shares for FY2020.

CHAIRMAN'S STATEMENT

Earnings Per Share (EPS) AND DIVIDENDS PER SHARE

the new Vietnam campus by the last quarter of financial year ending 31 March 2022 ("FY2022") and we believe the Group is well positioned to cater to the evolving supply chain needs of customers with the new campus and leased facilities in Vietnam. The capital expenditure for the construction of Vietnam campus is estimated to be around HK\$200 million and will be financed with our internal resources.

SUSTAINABILITY

As the Group embarks on its new growth dimension with its Vietnam expansion, sustainability will always be a core element for the Group since its establishment. The Group will continue to value and uphold its efforts to achieve business sustainability for the long term. FY2020 will mark the third year in which the Group will highlight its sustainability efforts through the publication of the Group's sustainability report which is aligned to the SGX-ST's Listing Rules – Sustainability Reporting Guide and is with reference to the Global Reporting Initiative ("GRI") Standards (2016). We are also honoured and humbled by the recognition for our sustainability efforts with the receipt of the Sustainability Award, Small Cap – Runner Up at the 20th SIAS Investors' Choice Award in September 2019.

For more information on the Group's sustainability efforts, please refer to past year reports which can be found on Valuetronics' website and SGXNet. The latest report will be made available to the public in August 2020.

DIVIDEND

Despite the tough and turbulent times, Valuetronics believes in rewarding its shareholders for their steadfast support and faith in the Group. As such, we will continue to adhere to the Group's formal dividend policy of declaring 30% – 50% of net profit after tax as normal dividends.

For FY2020, the Group has proposed a Final Dividend of 14 HK cents per share, which will be subjected to the approval of shareholders at our upcoming Annual General Meeting on 14 August 2020. In addition to the Interim Dividend of 6 HK cents per share that was paid in December 2019, we will be paying shareholders an aggregate dividend of 20 HK cents per share with dividend payout yield of 48.5% for FY2020.

OUTLOOK AND APPRECIATION

While striding through the toughest business environment we have faced in our operating history and trying to mitigate its impact, we believe that

the outlook for the financial year ending 31 March 2021 ("FY2021") will remain highly uncertain, and the Group's FY2021 financial results are expected to be significantly lower compared with FY2020.

With that being said, I would like to share my appreciation and gratitude to our Board for readily providing guidance in our time of need. I would also like to especially thank our management and staff for their dedication to the Company, in terms of the enormous support and efforts that was given to working towards a gradual resumption of our PRC factories during the earlier stages of the pandemic. It is this strong esprit de corps that makes us able to navigate these challenging times together as a team. Last but not least, I would also like to thank our shareholders for their confidence and trust even in challenging times and showing us their support.

With Valuetronics' ever-diligent team and operational discipline, coupled with the wise stewardship of our Board and support of all our stakeholders, I firmly believe that Valuetronics will be able to overcome all odds and emerge stronger than ever.

TSE CHONG HING

Chairman and Managing Director

FINANCIAL HIGHLIGHTS

5 YEARS SUMMARY

31 March		2016	2017	2018	2019	2020
RESULTS (HK\$ MILLION)

REVENUE HK\$ MILLION

■ Consumer Electronics ■ Industrial & Commercial Electronics

PROFIT ATTRIBUTABLE TO OWNERS OF THE COMPANY HK\$ MILLION

FINANCIAL REVIEW

REVENUE

The Group recorded a decrease of 16.8% in revenue to HK\$2,354.4 million in FY2020.

Industrial and Commercial Electronics ("ICE") segment recorded a 13.7% decrease in revenue to HK\$1,438.4 million from HK\$1,667.6 million in FY2019, which was mainly due to the slowdown in demand from our Industrial and Commercial Electronics customers.

Consumer Electronics ("CE") revenue decreased by 21.1% to HK\$916.0 million from HK\$1,161.2 million in FY2019, which was mainly due to the slowdown in demand from our Consumer Electronics customers.

GROSS PROFIT AND GROSS PROFIT MARGIN

The Group's gross profit for FY2020 decreased by 15.7% to HK\$362.8 million, with a 0.2 percentage point increase in gross profit margin to 15.4% (FY2019: 15.2%), as the results of change in sales mix.

OTHER INCOME AND GAINS, NET

The Group's other income decreased by 7.5% to HK\$24.7 million in FY2020, which was mainly due to the increase in interest income, offset by the decrease in net exchange gains.

SELLING AND DISTRIBUTION EXPENSES

The Group's selling and distribution expenses decreased by 36.5% to HK\$26.3 million in FY2020, which was mainly due to decrease in commission expenses as the result of decline in revenue, and the write back of provision for sales returns and claims amounted to HK\$4.3 million during the year.

ADMINISTRATIVE EXPENSES

The Group's administrative expenses decreased by 7.4% to HK\$164.1 million in FY2020 under the cost control measures.

OTHER OPERATING LOSS, NET

The HK\$13.6 million net other operating loss recorded in FY2019 represented the estimated net loss recognised in respect of flash floods that occurred in September 2018 at one of the Group's manufacturing plants, located in Danshui, PRC.

PROFIT FOR THE YEAR

As a result of the above, the Group's profit for the year decreased by 10.3% to HK\$178.9 million (FY2019: HK\$199.5 million).

DIVIDEND

A final dividend of HK14.0 cents per share is proposed for FY2020. Together with the Interim Dividend of HK6.0 cents per share paid in December 2019, aggregate dividend for FY2020 was HK20.0 cents per share.

FINANCIAL POSITION AND CASH FLOWS

As at 31 March 2020, the Group had net current assets of HK\$902.4 million (31 March 2019: HK\$850.5 million), total assets of HK\$2,013.5 million (31 March 2019: HK\$2,013.4 million) and shareholders' funds of HK\$1,231.6 million (31 March 2019: HK\$1,159.3 million).

The Group's trade receivables decreased by HK\$110.4 million from HK\$436.8 million as at 31 March 2019 to HK\$326.4 million as at 31 March 2020. The Group's trade payables decreased by HK\$100.3 million from HK\$391.5 million as at 31 March 2019 to HK\$291.2 million as at 31 March 2020. The Group's inventories decreased

by HK\$74.1 million from HK\$302.0 million as at 31 March 2019 to HK\$227.9 million as at 31 March 2020.

The working capital of the Group as at 31 March 2020, which is the sum of trade receivables and inventories less trade payables, was HK\$263.1 million, compared to HK\$347.3 million as at 31 March 2019. The decrease in net working capital, reflecting the movement in trade receivables, inventories and trade payables, was mainly due to better working capital management and decline in production in the last quarter of FY2020.

As at 31 March 2020, the Group had cash and bank deposits of HK\$1,053.1 million, increased from HK\$930.4 million as at 31 March 2019. Over 92% of its cash and bank deposits were placed in reputable financial institutions in Hong Kong, UK and Singapore. The remaining balance of the cash and bank deposits, mainly in the PRC and Vietnam, were placed in reputable financial institutions. The cash and bank deposits are audited by the Group's auditors.

The Group had no bank borrowings as at 31 March 2020 (31 March 2019: Nil).

OPERATIONS REVIEW

FY2020 has proven to be the most challenging year in Valuetronics' operating history and the macro-environment continues to be challenging and filled with uncertainty due to the COVID-19 pandemic happening on top of Sino-US trade tensions, further accelerating a global economic downturn.

SEGMENTAL REVIEW

Valuetronics' FY2020 financial performance saw a lower revenue recorded with lower performance across its Consumer Electronics ("CE"), and Industrial and Commercial Electronics ("ICE") segments. However, the Group continued to achieve positive earnings with operations well supported by strong operating cash flows and its cash and bank deposits.

The revenue for the CE segment in FY2020 decreased as there was a slowdown in demand from our CE customers. Similarly, the revenue for the ICE segment in FY2020 also decreased mainly due to a slowdown in demand from ICE customers.

EXTENSION OF MANUFACTURING EXECUTION SYSTEM ("MES")

The Group has continued to extend the use of MES beyond shop-floor production management for the year under review. The wide roll-out of MES across the China factories, not only ensures optimal performance of the manufacturing facilities, but also allows for better replication of the entire manufacturing process in a different location, which will facilitate the set-up of the new Vietnam campus.

The MES was extended to enhance process controls, such as the control of solder paste and stencils which are critical parameters in

the SMT process, and the tracking of new and existing assembly fixtures during changeover with greater traceability. Furthermore, the MES was also extended for use in the scheduling and management of preventative maintenance activities for facilities, which helps to reduce downtime. Lastly, the MES has also been used to enhance New Product Introduction ("NPI") by tracking outstanding tasks and documentation. With a smooth NPI process, the Group is now ready to support more new products developments under the same level of resources.

AUTOMATION

In its efforts to raise efficiency and productivity, the Group has started rolling out auto-insertion and selective soldering during FY2019 for automotive products to replace manual insertion and wave soldering in the PCBA manufacturing lines. In FY2020, the Group further implemented auto-insertion and selective soldering processes to printer products. This reduces labour dependency while simultaneously improving the quality and consistency of the PCBA soldering process.

The Group first introduced semi-automated assembly work cells in the manufacturing of automotive products in FY2019. These semi-automated work cells were developed in-house together with in-house fabricated equipment, and were based on a customised process platform with automation modules such as robotics arms and visual systems. These automated work cells cater to mixed model manufacturing of the same products by facilitating a quick fixture changeover. This automation platform was successfully extended to the manufacturing of temperature sensing devices in FY2020.

LOGISTICS

Improvements have also been made in the area of logistics, with the Group's use of MES-driven smart storage racks. Each electronics part received today will have its own unique identifier ("UID") which will be linked to an electronics rack location ID. During material preparation for production, material handlers just have to input the work order number, the MES together with the Electronics Part Reader ("EPR") will be able to identify each part in the specific work order and its corresponding rack location where the LED lights at the rack location will light up. This facilitates more efficient material preparation as less time is now spent on locating correct parts.

OCCUPATIONAL HEALTH AND SAFETY IN THE COVID-19 PANDEMIC

The occupational health and safety ("OHS") of our workforce has always been one of the priorities of Valuetronics. Since the start of COVID-19 outbreak to its evolution into a pandemic, the Group has strictly adhered to the administrative guidelines and measures issued by China's authorities to slowly resume operations after the extended Chinese New Year holiday until the week of 17 February, in order to curb the virus from further wide spreading. The administrative measures imposed by the Chinese government affected the return of workers to Guangdong Province and that led to a temporary drop in production capacity of the China factories until the later of March.

With the COVID-19 outbreak in China, the Company initiated its corporate prevention and containment contingency plan by closely tracking the health status and travel history of its employees. Staff returning from provinces outside Guangdong had to go through a 14-day mandatory isolation period

OPERATIONS REVIEW

before resuming work at the factory sites. Other measures were implemented as the Group steadily moved towards a return to normal production. These measures included the attendance taking and temperature monitoring of staff using facial recognition technology, designated entrances and exits to keep track of human traffic, greater telecommunication use instead of unnecessary human contact, and increased frequency of personal sanitation and the disinfection of facilities.

EXPANDING MANUFACTURING TO VIETNAM

The ongoing Sino-US trade tensions remain as one of the major concerns for corporations worldwide since it began in 2018. Due to the impact of US trade tariffs on Chinese goods, many corporations, which includes some of our customers, have had to deploy a diversified procurement strategy to mitigate their supply chain and logistical risks. In order to cater to the needs of our customers, the Group embarked on its journey to expand its manufacturing operations to Vietnam in early 2019 and this was conducted in three phases.

In Phase 1, a factory space in Vietnam was leased to house the assembly operations for one of the customers' products. This first manufacturing facility allowed the Group to also better understand the workers and operating environment in Vietnam. Valuetronics' successful implementation of mass production at this first leased facility has led to several customers indicating an interest to diversify their production between the Group's China and Vietnam operations.

The strong interest from customers led the Group to implement Phase 2, which encompassed the set-up of an integrated manufacturing facility with SMT, plastic injection moulding and final assembly

capabilities at a newly leased 4,000 sqm space in a standard factory, just 15 minutes away from the first facility. Trial production has commenced at this second manufacturing facility since May 2020.

As more customers began to accelerate their diversified procurement strategy plans outside of China, the Group has also started to move into Phase 3 of its expansion. In November 2019, the Group acquired 52,541 sqm of land in an industrial park run by a Japanese group for the development for the Group's own Vietnam campus. The Group's second leased facility is also in the same industrial park.

It is envisaged that the new Vietnam campus will mirror the Group's Daya Bay campus in China with one-stop manufacturing solutions including PCBA, plastic injection moulding and assembly. The Vietnam campus is expected to commence mass production by the last quarter of FY2022. The Group believes that with the Vietnam campus and leased facilities, it will be well-positioned to cater to the evolving supply chain needs of its existing customers, while at the same time, welcoming new opportunities in terms of different product lines and customers.

Apart from expanding its manufacturing footprints to Vietnam, the Group is also looking into expanding our footprint in other territories in the longer term through the exploration of M&A opportunities.

OUTLOOK

With global COVID-19 pandemic, the escalating Sino-US trade tensions, and the overall global economic downturn, the Group is encountering the toughest business environment in its operating history. Even as the Group's China operations started to gradually normalise in mid-March 2020, the

COVID-19 pandemic worsened in Europe and North America. Since then some customers had temporarily shut down their operations in response to mandatory social and economic "lockdowns" instituted by their respective governments. This created an adverse demand-side shock which affected orders across all the Group's segments since March 2020.

In addition, the conflict between US and China over the origin of the pandemic is fanning broader tensions on trade and technology, and the Trump Administration continues to push US companies to move their supply chains out of China. Although the phase one trade deal was signed between China and the US in January 2020, a large majority of the Group's US shipments accounting for approximately 39% of FY2020 revenue were still subject to tariffs ranging from 7.5% to 25%.

This situation has resulted in customers accelerating their diversified procurement strategies outside China. Several customers have indicated that they will start diversifying production between the Group's China plant and Vietnam plant; while some customers in the auto industry and CE segment have plans to switch over to other suppliers in North America to serve the US market in FY2021.

So with COVID-19 pandemic and Sino-US trade tensions, the Group is facing an unprecedented crisis that is affecting the entire world and making the outlook for the FY2021 highly uncertain. So even with a series of precautionary and control measures to lower operating costs being undertaken to mitigate the impact, the Group's FY2021 financial results are expected to be significantly lower compared with FY2020.

KEY MILESTONES

2020

- Expanding into the second facility in Vietnam

2019

- Established manufacturing footprint in Vietnam

2017

- Received a 2016 Above & Beyond – Pinnacle Award for Supplier Excellence from Delphi

2015

- Accredited with TS16949 quality management system and acquired first customer in the automotive industry

2014

- Adoption of formal dividend policy

2013

- Completed more than 40 in-house Process Automation Projects

2012

- Celebration of 20th anniversary
- Revenue crossed HK\$2 billion mark

2011

- Branded electric fans and heaters shipped to US market

2010

- Branded air purifiers shipped to US market
- Implemented Lean Manufacturing Programme to improve production and process automation

2009

- Completed relocation of back office functions including general management, computer and engineering centres to Daya Bay Facility
- Acquired In Vitro Diagnostic ("IVD") medical equipment co-developer and manufacturer and completed pilot shipment of IVD equipment

2008

- Completed construction of the Phase 1 of Daya Bay Facility and commenced systematic project transfers of major customers to the facility

2007

- Listed on SGX-Mainboard
- Commenced construction for the 35,000 sqm production area of Phase 1 of Daya Bay Facility

2003

- Adoption of work cell management and updated to ISO9001:2000

2002

- Use of ROHS equipment and accredited with TL9000

1992

- Incorporated and headquartered in Hong Kong with manufacturing facilities established under the Processing Arrangement in Guangdong Province, PRC

BOARD OF DIRECTORS

MR TSE CHONG HING

Chairman and Managing Director

Tse Chong Hing is the Chairman and Managing Director of our Company. He joined the Group in November 1996 as the Assistant to the then Managing Director. He is responsible for strategic planning and the general management of our Group. Mr Tse has over 25 years of experience in finance and operations management in the electronics manufacturing industry. He is a Fellow of the Hong Kong Institute of Certified Public Accountants. He holds a Diploma in Business Studies from the Hang Seng School of Commerce and a Postgraduate Diploma in Management Studies from the Hong Kong Polytechnic.

MR CHOW KOK KIT

Executive Director

Chow Kok Kit is one of the founders of the Group and an Executive Director of our Company. He is responsible for the design and development ("D&D") as well as purchasing functions of our Group. Mr Chow has over 25 years of experience in the electronics manufacturing industry. He specialises in the D&D of telecommunication and computer products, and holds an Associateship in Mechanical Engineering and a Higher Certificate in Mechanical Engineering from the Hong Kong Polytechnic.

BOARD OF DIRECTORS

MR ONG TIEW SIAM
Lead Independent Director

Ong Tiew Siam has more than 40 years of experience in finance, accounting and administration in various industries. He is a fellow member of the Institute of Singapore Chartered Accountants and a member of the Singapore Institute of Directors. He also sits on the board of another company listed on the SGX-ST. Mr Ong holds a Bachelor of Commerce (Accountancy) (Honours) degree from the former Nanyang University.

MS TAN SIOK CHIN
Independent Director

Tan Siok Chin was appointed to the Board in July 2014 as a Non-Executive Director and was redesignated as an Independent Non-Executive Director in August 2017. Ms Tan practises as an advocate and solicitor in Singapore. She is currently a director of ACIES Law Corporation, a firm of advocates and solicitors, heading its corporate and commercial practice group. Her main areas of practice are corporate finance, mergers and acquisitions, capital markets and commercial matters. With over 26 years of experience in legal practice, Ms Tan brings with her extensive experience in the legal industry. She has also sat on a number of boards of listed issuers as an independent director since 2006. Ms Tan graduated from the National University of Singapore with a Bachelor of Law (Honours) degree and is admitted to the Singapore Bar.

MR LOO CHENG GUAN
Independent Director

Loo Cheng Guan is founder and managing director of Vemilion Gate Pte Limited, a private assets advisory firm. Mr Loo also sits on the board of SGX-listed Mirach Energy Limited and Datapulse Technologies Limited as well as the board of a HKSE-listed China First Capital Group Limited as independent director. In addition, he is Chairman of 1Rockstead GIP Fund II Pte Limited, a private equity fund and a director of several private companies, including Amalgam Capital Partners Pte Limited, Brash Asia Pte Limited and New Energy Capital Asia Pte Limited. Having more than 25 years of experience in corporate finance, private equity and business management, Mr Loo has spent a significant portion of his career advising on growth strategies, mergers and acquisitions, as well as structuring investments that achieve long-term capital appreciation for investors. He holds a Bachelor of Economics (Honours) degree and MBA from Monash University in Melbourne.

KEY MANAGEMENT

MR HUNG KAI WING

Director, Honor Tone Limited

Hung Kai Wing is a Director of our Group's principal operating subsidiary, Honor Tone Limited and he joined our Group in March 2000. He is responsible for overseeing the EMS Division. Mr Hung has over 40 years of experience in the electronics manufacturing industry. He holds a Diploma in Small Company Management from the Chinese University of Hong Kong, a Certificate in Operations Planning and Control from the University of Hong Kong, a Certificate in Design of Productive Systems from the University of Hong Kong and a Higher Certificate in Production Engineering from the Hong Kong Polytechnic.

MR WONG HING KWAI

Director, Honor Tone Limited

Wong Hing Kwai is a Director of our Group's principal operating subsidiary, Honor Tone Limited. He is responsible for the overall management of Plastics Division. Mr Wong has over 35 years of experience in plastic injection moulding and holds a Bachelor of Engineering degree from Shanghai Jiao Tong University, PRC.

MR HUANG JIAN YUAN

Vice President, Operations

Huang Jian Yuan joined our Group in September 2007 as Operations Manager and promoted to Vice President, Operations in April 2012. He now oversees the 2 sites of factory operations in our Group. His areas of responsibilities include Production Management, Manufacturing Engineering, Production Control, Warehouse/Logistics, Industrial Engineering, Equipment Engineering and Quality Management.

Mr Huang has more than 25 years of experience in program and operation management with various EMS companies. Prior to joining the Group, he was the director of business units with Beyonics, operations general manager with RTI Tech in Singapore and plant manager with Flextronics China. He holds a Bachelor of Engineering degree from National University of Singapore and a Graduate Diploma in Business Administration with Singapore Institute of Management.

KEY MANAGEMENT

MR LOIC MESTON

Vice President, Business Development

Loic Meston is our Group's Vice President of Business Development. He joined our Group in October 2003 and is based in USA. He is responsible for our Group's business development activities and also provides customer support to our customers located in USA and Europe. He is also responsible for providing our D&D team with market analysis on product trends and regulatory requirements.

Mr Meston has over 20 years of experience in sales, marketing and product development. He holds a degree in engineering from Centrale School of Marseille, France, and a Master of Business Administration degree from the University of Rochester, USA.

MR JOSEPH LUI KA HO

Chief Financial Officer

Joseph Lui is our Group's Chief Financial Officer. He joined our Group as Financial Controller in October 2012 and was promoted to Group Financial Controller in November 2013. Since then, Mr Lui has been overseeing the Group's finance and accounting functions, including treasury, tax planning, enterprise risk management, investor relations, internal and external reporting matters of the Group. Mr Lui was promoted to Chief Financial Officer in June 2017.

Prior to joining the Group, Mr Lui was a Senior Audit Manager with PricewaterhouseCoopers from 2003 to 2012 where he first served the Hong Kong office before being seconded to the Beijing office. During his service in PricewaterhouseCoopers, he was involved in a number of successful initial public offerings and overseas mergers and acquisition projects. Mr Lui is a fellow member of CPA Australia and Hong Kong Institute of Certified Public Accountants. He graduated with a Bachelor degree in Commerce from Monash University in Australia.

CORPORATE GOVERNANCE REPORT

Valuetronics Holdings Limited (the “Company”) and its subsidiaries (together, “the Group”) are committed to setting and maintaining high standards of corporate governance within the Group so as to preserve and enhance the interests of all shareholders. The Board and Management firmly believe that good corporate governance is key to the integrity of the Group and fundamental to the long-term sustainability of the Group’s business and performance.

This Corporate Governance Report (the “Report”) describes the Company’s corporate governance practices with specific reference to each of the principles and provisions set out in the Code of Corporate Governance 2018 (the “2018 Code”).

The Board confirms that, as at the date of this Report, the Company has adhered to and complied with the principles and provisions set out in the 2018 Code, other than deviations in respect of the following, appropriate explanations for which have been provided in this Report:

- (i) Provisions 3.1 and 3.2
- (ii) Provisions 8.1 and 8.2
- (iii) Provision 11.4

BOARD MATTERS

Principle 1: The Board’s Conduct of Affairs

The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the company.

The Board is entrusted to lead and oversee the Company, with the fundamental principle to act in the best interests of the Company and the Group. In addition to its statutory duties and responsibilities, the Board also performs the following key functions (Provision 1.1 of 2018 Code):

- (a) Provide entrepreneurial leadership, set strategic objectives and ensure that the necessary financial and human resources are in place for the Company to meet its objectives;
- (b) Review business plans and approve key strategic and operational matters, financial and funding decisions;
- (c) Review and monitor financial performance;
- (d) Oversee processes for evaluating the adequacy and effectiveness of internal controls (including financial, operational, compliance and information technology controls) and risk management systems annually;
- (e) Set appropriate tone-from-the-top and desired organisational culture, and ensure proper accountability within the Company;
- (f) Set the Company’s values and standards (including ethical standards);
- (g) Work with Management for the long-term success of the Company, review Management’s performance and hold Management accountable for performance; and
- (h) Assume responsibility for corporate governance and sustainability issues.

CORPORATE GOVERNANCE REPORT

The Board objectively discharges its duties and responsibilities at all times as fiduciaries in the best interests of the Company (*Provision 1.1 of 2018 Code*).

In a conflict of interest situation, a Director recuses/abstains himself/herself from discussions and decisions involving the matter/issue of conflict (*Provision 1.1 of 2018 Code*).

The approval of the Board is required for any matter which is likely to have a material impact on the Group's operating divisions and/or financial positions.

The Group has in place internal guidelines on matters that require Board approval, including the appointment of Directors, major funding and investment proposals, and material capital expenditures and disposal of assets, corporate or financial restructuring, share issuance and buy-back, dividends and corporate strategies. These have been clearly communicated to Management in writing (*Provision 1.3 of 2018 Code*).

The Board is supported by a number of committees who assist in the discharge of its responsibilities and to enhance the Group's corporate governance framework. These committees comprise the Audit Committee ("AC"), the Nominating Committee ("NC") and the Remuneration Committee ("RC"), which have been delegated with specific authority and function and would submit their recommendations or decisions to the Board (*Provision 1.4 of 2018 Code*). Each Board Committee functions within its own defined terms of reference and procedures. Board Committees are chaired by Independent Non-Executive Directors.

The Board conducts regular scheduled meetings on a quarterly basis to keep the Board updated on the Group's financial position, business activities and the overall business environment in which the Group operates and to review half-year and full-year results announcements. Regular meetings are scheduled in advance to facilitate the attendance of all Directors. Ad-hoc meetings are held as and when required to address significant issues that may arise.

The Company's Bye-Laws provide for meetings to be held via telephone, electronic or other communication facilities which permit all persons participating in the meeting to communicate with each other simultaneously. When a physical meeting is not possible, timely communication with the Directors is achieved through electronic means and the Board/Board Committees' approval is sought for important and critical matters concerning the Company via circulation of written resolutions.

The number of Board and Board Committee meetings held during the financial year and the attendance of the Directors at such meetings are set out below (*Provision 1.5 of 2018 Code*):

Meeting of	Board	AC	NC	RC
No. of meetings held in FY2020	5	4	1	2
Executive Directors				
Tse Chong Hing	5	*4	*1	*2
Chow Kok Kit	5	*4	*1	*2
Independent Non-Executive Directors				
Ong Tiew Siam	5	4	1	2
Loo Cheng Guan	5	4	1	2
Tan Siok Chin	5	4	1	2

* Executive Directors are invited to attend all Board Committee meetings.

CORPORATE GOVERNANCE REPORT

The Company has an induction program for newly appointed Directors to familiarize themselves with the Group's business, operations, relevant rules, regulation and governance practices as well as their duties and obligations as directors (*Provisions 1.2 and 4.5 of 2018 Code*). Site visits to the Group's manufacturing facilities are conducted to brief new Directors on the Group's operations and business (*Provision 1.2 of 2018 Code*).

Newly appointed Directors who do not have prior experience as a director of a company listed on the Singapore Exchange Securities Trading Limited ("SGX-ST") are also required to attend relevant training courses organized by the Singapore Institute of Directors ("SID") (*Provision 1.2 of 2018 Code*).

There was no appointment of new Director during the financial year.

Annual site visits to the Group's manufacturing facilities are conducted to provide Directors with updates and understanding of the Group's business operations. During such visits, Directors interact with Key Management Personnel who brief the Directors on the Group's facilities, development, products and business operations (*Provision 1.2 of 2018 Code*).

The Board recognizes the importance of ongoing director education and to facilitate this process, all Directors are encouraged to keep updated on developments relevant to the Company's business and, changes in laws and regulations. All Directors are encouraged to attend relevant courses, seminars and/or talks organized by regulatory bodies and professional institutions, such as the Accounting and Corporate Regulatory Authority of Singapore ("ACRA"), SID, the Singapore Stock Exchange ("SGX") and public accounting firms, at the Company's expense (*Provision 1.2 of 2018 Code*).

The Company Secretary provides the Board with updates on changes to Listing Rules, Corporate Governance and other regulatory requirements, on a regular basis (*Provision 1.2 of 2018 Code*).

During the year, Mr Ong Siew Tiam attended the "ACRA-SGX-SID Audit Committee Seminar 2020 – Looking Beyond the Veneer of Numbers" conducted by SID, at the Company's expense.

The Company does not issue formal letters to Directors setting out their duties and obligations, upon appointment, as Directors having consented to act, are bound by legislative and regulatory requirements.

Management provides the Board with complete and adequate information on a timely basis to enable Board members to make informed decisions and discharge their duties and responsibilities. Such information includes, amongst others (*Provision 1.6 of 2018 Code*) –

- documents on matters to be discussed at Board meetings, which are circulated to Board members in advance; and
- financial statements, management reports and relevant forecast and analysis of the Group's results on a quarterly basis and/or as and when required,

to enable the Board to make informed assessment of the Group's performance, financial position and prospects. The Managing Director also provides updates on the Group's business, prospects and other developments impacting the Group, at scheduled meetings and, whenever circumstances warrant. The aforesaid reports/updates enable the Board to be kept abreast of key issues and developments, as well as opportunities and challenges, within the Group and the industry (*Provision 1.6 of 2018 Code*).

In accordance with SGX-ST's requirements, the Board issued negative assurance statements in its 1st and 2nd Quarter FY2020 financial results announcements, confirming to the best of its knowledge that nothing had come to the attention of the Board which might render the financial statements false or misleading in any material aspect. The negative assurance statements were backed by written representations of the Managing Director and Chief Financial Officer.

CORPORATE GOVERNANCE REPORT

All Directors have separate and independent access to the Group's senior management and the Company Secretary. Whenever necessary, Directors and/or, the Board may at the Company's expense seek independent professional advice in furtherance of their duties (*Provision 1.7 of 2018 Code*).

The Company Secretaries provide secretarial support to the Board and ensure adherence to Board procedures and compliance with relevant rules and regulations, applicable to the Company. The Company Secretary attends all Board and Board Committee meetings. The appointment and removal of the Company Secretary is a matter for the Board as a whole (*Provision 1.7 of 2018 Code*).

Principle 2: Board Composition and Guidance

The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.

The Board currently comprises two Executive Directors and three Independent Non-Executive Directors ("INEDs"). Accordingly, a majority of the Board is made up of INEDs, including one female Director (*Provisions 2.2 and 2.3 of 2018 Code*).

Executive Directors

Mr Tse Chong Hing – Chairman & Managing Director
Mr Chow Kok Kit – Executive Director

Independent Non-Executive Directors

Mr Ong Tiew Siam – Lead Independent Director & Chairman of Audit Committee
Ms Tan Siok Chin – Chairman of Remuneration Committee
Mr Loo Cheng Guan – Chairman of Nominating Committee

The NC and Board consider the current structure, size and composition of the Board and Board Committees are appropriate for the Group's present scope and nature of operations, which facilitate effective decision making and that no individual dominates the Board's decision-making process. The Board comprises Directors who as a group possesses the appropriate balance and diversity of skills, experience, knowledge and gender to provide the Company with the requisite core competencies such as accounting, business, management, financial, legal and industry knowledge (*Provision 2.4 of 2018 Code*).

The Company recognizes the benefits of having a diverse Board and has in FY2020, adopted a Board Diversity Policy which sets out the approach to achieve diversity of the Board. The NC is responsible to review and monitor its implementation and will recommend appropriate changes to the Board for consideration and approval (*Provision 2.4 of 2018 Code*).

In compliance with the 2018 Code, INEDs form a majority of the Board (*Provisions 2.2 and 2.3 of 2018 Code*). The independence of Directors is reviewed by the NC on an annual basis. The NC noted that Ms Tan Siok Chin (INED) and her spouse are directors and shareholders of ACIES Law Corporation, which provides legal services to the Company on a retainer basis as well as, legal services (outside the scope of the retainer) to the Company from time to time. Based on its assessment and declaration by Ms Tan, the NC has determined that Ms Tan is independent notwithstanding the existence of such relationship, taking into account Ms Tan's actual performance and contributions to the Company and at Board and Board Committees meetings, and the findings of peer evaluation of Board member carried out for FY2020. Ms Tan has at all times discharged her duties with professionalism and objectivity, acted with independence of mind and consistently exercised independent judgement in the best interests of the Company. The Board concurred with the NC's views and determined that Ms Tan is independent notwithstanding the existence of the relationship disclosed herein (*Provision 4.4 of 2018 Code*).

CORPORATE GOVERNANCE REPORT

The NC has also assessed and determined that, other than the relationship as disclosed above, none of the INEDs has any relationship (whether familial, business, financial, employment, or otherwise) with the Company, its related corporations, its substantial shareholders, or its officers that could interfere, or reasonably perceived to interfere, with the exercise of the Director's independent business judgement in the best interests of the Company. The INEDs are independent in conduct, character and judgement (*Provisions 2.1 and 4.4 of 2018 Code*).

In addition, the NC is tasked on annual basis, to assess the independence of any Director who has served on the Board beyond 9 years, to particular rigorous review. To facilitate Board renewal, the NC has determined that the length of office of an INED should not exceed 9 years. None of the INEDs have served on the Board for more than 9 years from the date of his/her first appointment.

INEDs contribute to the Board process by monitoring and reviewing Management's performance against goals and objectives. They are encouraged to constructively challenge and help develop proposals on strategy. Their views and opinions provide alternative perspectives to the Group's business. When challenging proposals or decisions, they individually bring independent judgment to bear on business activities and transactions involving conflicts of interest and other complexities.

The INEDs communicate amongst themselves both formally at scheduled meetings without the presence of Management and, informally via email or telephone on matters concerning the Company (*Provision 2.5 of 2018 Code*).

Principle 3: Chairman and Chief Executive Officer

There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

The Company has not adopted a dual leadership structure whereby there is a separate Chief Executive Officer and Chairman of the Board. The duties of the Chairman of the Board and the Managing Director of the Company are both assumed by Mr Tse Chong Hing. The Board, with the concurrence of the NC, is of the view that vesting the roles of Chairman of the Board and the Managing Director in the same person, who is knowledgeable in the business of the Group, provides strong and consistent leadership, facilitates effective planning and execution of long-term business strategies and ensures that the decision-making process of the Group would not be unnecessarily hindered. The Chairman is deeply involved in both management and operations of the Company and thoroughly understands the Group's business.

The Chairman (*Provision 3.2 of 2018 Code*) –

- leads the Board to ensure its effectiveness on all aspects of its role;
- sets the agenda and ensures that Directors receive complete, adequate and timely information;
- ensures that adequate time is available for discussion of all agenda items, in particular strategic issues;
- promotes a culture of openness and debate at the Board;
- ensures effective communication with shareholders;
- encourages constructive relations within the Board and between the Board and Management;
- facilitates the effective contribution of Non-Executive Directors in particular; and
- promotes high standards of corporate governance.

CORPORATE GOVERNANCE REPORT

Mr Ong Tiew Siam has been appointed Lead Independent Director (“LID”) to provide leadership in any situation where the Chairman is conflicted and to address shareholders’ concerns on issues that cannot be appropriately or adequately dealt with by the Chairman and Managing Director or the Chief Financial Officer (*Provision 3.3 of 2018 Code*). When necessary, he facilitates meetings or discussions with the other INEDs on board matters and provides his feedback to the Chairman after such meetings (*Provision 2.5 of 2018 Code*).

His other specific roles as LID are as follows:

- (a) acts as liaison between the INEDs and the Chairman and Managing Director and lead the INEDs to provide non-executive perspectives in circumstances where it would be inappropriate for the Chairman to serve in such capacity and to contribute a balanced viewpoint to the Board;
- (b) advises the Chairman of the Board as to the quality, quantity and timeliness of the information submitted by Management that is necessary or appropriate for the INEDs to effectively and responsibly perform their duties; and
- (c) assists the Board and Company officers in ensuring compliance with and implementation of corporate governance practices.

Principle 4: Board Membership

The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.

The NC is regulated by a set of written terms of reference and comprises three Directors, all of whom are independent. The NC is chaired by an INED, Mr Loo Cheng Guan and its members comprise Ms Tan Siok Chin and Mr Ong Tiew Siam (who is the LID) (*Provisions 1.4 and 4.2 of 2018 Code*).

The NC Chairman is not associated with any substantial shareholder of the Company.

The key responsibilities of the NC are as follows (*Provisions 1.4 and 4.1 of 2018 Code*):

- (a) to review the structure, size, composition, diversity and skills of the Board;
- (b) to determine and assess the independence of Directors;
- (c) to make recommendations to the Board on all board appointments;
- (d) to recommend the nomination of Directors retiring by rotation to be put forward for re-election;
- (e) to review Board succession plans for Directors, in particular, the Chairman, the Executive Directors and Key Management Personnel;
- (f) to review the training and professional development programs for the Board and its Directors;
- (g) to develop a process for evaluation of the performance of the Board, its Board Committees and Directors;

CORPORATE GOVERNANCE REPORT

- (h) to assess the effectiveness of the Board as a whole and its Board Committees and the contribution of the Chairman and of each individual Director to the effectiveness of the Board; and
- (i) to determine if a Director who has multiple board representations is able to carry out and/or has adequately carried out his/her duties as a Director of the Company.

New appointments to the Board are first considered and reviewed by the NC. Potential candidates are sourced through contacts or, recommendations from Directors. An external consultant may be engaged to source for qualified candidates, if required. The NC evaluates the suitability of candidates taking into account, his/her character, knowledge, skills, experience and, his/her ability and willingness to commit time to the Company, before making recommendation to the Board for approval (*Provision 4.3 of 2018 Code*).

The Bye-laws of the Company require all Directors to submit themselves for re-election at least once in every three years. In particular, one-third of the Directors retire annually by rotation at every Annual General Meeting ("AGM") and newly appointed Directors are required to submit themselves for re-election at the AGM next following their appointment.

The NC has adopted internal guidelines to address competing time commitments of Directors who serve on multiple boards and have other principal commitments. The Board has determined that a Director should serve on not more than six boards of listed companies. The NC has considered, and is of the opinion, that the limit of six board representations held by the Directors of the Company would not be impede the time allocated in carrying out their duties/obligations to the Company. At present, no Director has reached the limit set by the Board.

For FY2020, the NC is satisfied that each Director had accorded sufficient time, attention and effort in fulfilling his/her duties, responsibilities and obligations as a Board member and was able to adequately carry out his/her duties as a Director of the Company (*Provisions 1.5 and 4.5 of 2018 Code*). The Board concurred with the NC's views.

The Company's Bye-laws provide for the appointment of alternate directors. In line with the Practice Guidance accompanying the 2018 Code, the Company generally avoids the appointment of alternate directors and should any appointment be made, it will be due to exceptional circumstances and for limited periods only. No alternate director was appointed in FY2020.

The NC reviews independence of the Directors annually, and as and when circumstances require, having regard to the definition of independence/circumstances as stated in the 2018 Code and accompanying Practice Guidance and Listing Manual of the SGX-ST (*Provisions 2.1 and 4.4 of 2018 Code*). In its annual review for FY2020, the NC has determined Mr Ong Tiew Siam, Mr Loo Cheng Guan and Ms Tan Siok Chin to be independent, which was concurred by the Board.

Each member of the NC and of the Board had abstained from deliberation in respect of assessment of his/her own independence.

Key information of Directors as at 17 July 2020 is set out below (*Provision 4.5 of 2018 Code*):

Name	Date of First Appointment	Date of Last Re-election	Directorships or Chairmanships in Other Listed Companies		Other Principal Commitments
			Present	Past (Preceding 5 Years)	
Tse Chong Hing	25 Aug 2006	22 Jul 2019	Chairman & Managing Director of Valuetronics Holdings Limited	Nil	–

The profiles of Board members are set out on pages 9 and 10 of the Annual Report.

CORPORATE GOVERNANCE REPORT

Principle 5: Board Performance (including Provisions 5.1 and 5.2 of 2018 Code)

The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committees and individual directors.

The NC has in place a performance evaluation process where the effectiveness of the Board as a whole, and of each Board Committees separately, and the contribution by each individual Director (including the Chairman) to the Board are assessed. This annual evaluation exercise provides an opportunity to obtain constructive feedback from each Director or committee member on whether the Board or Board Committee's procedures and processes enabled Directors to discharge their duties effectively and to propose changes which may be made to enhance Board/Board Committee effectiveness as a whole.

Board Performance evaluation for FY2020 was conducted by having all Directors complete a questionnaire covering the following areas/performance criteria –

- Board structure
- Strategy and performance
- Governance – Board Risk Management & Internal Controls
- Board Function – Information to the Board, Board Procedures, CEO/Top Management and Standards of Conduct.

In evaluating its performance, the Board also took into account the attendance, contribution and participation of each Director at Board Meetings.

Separate assessments of performance of Board Committees were carried by the AC, RC and NC for FY2020 by having all the Board Committee members complete a separate questionnaire in respect of each Board Committee. The performance criteria include, amongst others –

- The respective Board Committees' structure, size and expertise
- Accountability and performance
- Board Committee Function – Information to the Board Committees, processes, relationship with or reporting to the Board and Standards of Conduct
- Attendance, contribution and participation of each member at Board Committee meetings
- Communications with shareholders.

Peer evaluation of Board members, including the Chairman, was also conducted in FY2020. For this evaluation, each Board member completes a questionnaire in respect of every other Board member as well as the Chairman. The questionnaire required the evaluator to rate the Director he/she is evaluating based on his/her duties as Director, leadership and communication skills, strategy and risk management capabilities, knowledge and interaction with fellow Directors, Management team, Company Secretary, Auditors and other professionals who render services to the Company.

For each of the performance evaluations of the Board, Board Committees and Directors, a summary of findings is prepared by the Company Secretary based on the completed questionnaires and is reviewed and deliberated by the NC before submitting to the Board. The Chairman of the NC confers with the Chairman of the Board on the findings and appropriate follow-up actions are taken as necessary.

The NC, having reviewed the performance of the Board, Board Committees and individual Directors for FY2020, determined that the Directors have demonstrated commitment to their roles and contributed effectively to the discharge of their duties.

No external facilitator was engaged by the Board for the above evaluations.

CORPORATE GOVERNANCE REPORT

REMUNERATION MATTERS

Principle 6: Procedures for Developing Remuneration Policies

The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

Principle 7: Level and Mix of Remuneration

The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.

The RC is chaired by Ms Tan Siok Chin and its members comprise Mr Loo Cheng Guan and Mr Ong Tiew Siam (*Provision 1.4 of 2018 Code*). All members of the RC are independent (*Provision 6.2 of 2018 Code*).

The RC is governed by written Terms of Reference which include reviewing and recommending to the Board the following (*Provision 6.1 of 2018 Code*) –

- (1) the framework of remuneration for the Board and Key Management Personnel;
- (2) long-term incentives and performance-based incentives, including share option scheme and performance share plan;
- (3) specific remuneration packages for each Director and Key Management Personnel;
- (4) remuneration packages of employees related to Directors or controlling shareholders of the Company; and
- (5) the Company's obligations arising in the event of termination of Executive Directors and Key Management Personnel's contracts of services, to ensure that such contracts are fair and reasonable and termination clauses are not overly generous.

The RC considers all aspects of remuneration, including but not limited to Directors' fees, salaries, allowances, bonuses, share-based incentives and awards and benefits-in-kind and termination terms to ensure they are fair (*Provision 6.3 of 2018 Code*). In its review, the RC ensures that the remuneration of the Directors and Key Management Personnel commensurate with their performance and value-add to the Group, giving due regard to the sustainability of performance, value creation and strategic objectives of the Company and/or the Group (*Provision 7.1 of 2018 Code*).

The RC may, during its review of remuneration of Directors and Key Management Personnel, seek advice from external remuneration consultants, as and when necessary. No external facilitator/consultant had been engaged by the Board to advise on remuneration matters in FY2020 (*Provision 6.4 of 2018 Code*).

Executive Directors' remuneration packages are based on service agreements and the remuneration packages comprise a basic salary component and a variable component. The fixed component is in the form of a base salary and the variable component is based on set performance targets and weightage in respect of Group revenue, profitability, return on equity, total shareholders' return, new products launched, corporate governance and sustainability practices.

The remuneration packages of Key Management Personnel comprise a fixed component and a variable component. The fixed component is in the form of a base salary and the variable component includes performance-based cash incentive bonus and the share-based Valuetronics Employee Share Option Scheme.

CORPORATE GOVERNANCE REPORT

The performance-related remuneration is to align Executive Directors and Key Management Personnel's interests with those of the shareholders and other stakeholders, for the long-term success of the Company, and link rewards to corporate and individual performance (*Provision 7.1 of 2018 Code*).

In determining specific remuneration packages for each Executive Director and Key Management Personnel, the pay and employment conditions within the same industry and in comparable companies as well as the Company's performance and that of the individual are taken into account, so as to ensure the remuneration is appropriate to attract, retain and motivate the Directors to provide good stewardship of the Company and Key Management Personnel to successfully manage the Company for the long term (*Provision 7.3 of 2018 Code*).

The RC reviewed the Company's obligations arising in the event of termination of the Executive Directors' and key management's service agreements, to ensure that such agreement contains fair and reasonable termination clauses which are not overly generous (*Provision 6.3 of 2018 Code*). The Board is of the view that as the Group pays an annual incentive bonus based on the performance of the Group/Company (and not on possible future results) and with clear targets set for Executive Directors and key management, "claw back" provisions in the service contracts may not be relevant or, appropriate.

INEDs receive Directors' fees, which are subject to shareholders' approval at the AGM. INED's fees comprise a basic fee and, an additional fee for serving on any of the Board Committees. The fees take into account their responsibilities, effort and time accorded in discharging their duties and, market practices (*Provision 7.2 of 2018 Code*).

The fee structure for INEDs comprising the following components:

- (1) A basic fee for each INED;
- (2) A percentage of basic fee for each additional role on Board Committees; and
- (3) Attendance fee for participation in additional/ad-hoc Board/Board Committees meetings.

No Director is involved in determining his/her own remuneration.

Principle 8: Disclosure on Remuneration

The company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.

While the 2018 Code recommends that companies fully disclose the amount and breakdown of remuneration for each individual director and the CEO on a named basis, the Board is of the view that such disclosure is not in the interest of the Company considering confidentiality and sensitivity attached to remuneration matters.

The remuneration of Directors and top Key Management Personnel is, however, disclosed in the bands of S\$250,000 with a breakdown showing the level and mix of remuneration in percentage terms. The Board is of the view that the information disclosed is sufficient for shareholders to have adequate understanding of the Company's remuneration policies and practice for Directors and Key Management Personnel (*Provision 8.1 of 2018 Code*).

A breakdown (in percentage terms) of Directors' remuneration and that of the Group's top 5 Key Management Personnel who are not Directors or, the Managing Director, for the financial year ended 31 March 2020, falling within broad bands, are set out below (*Provision 8.1 of 2018 Code*) –

CORPORATE GOVERNANCE REPORT

(A) Directors' remuneration

Name	Salary (%)	Bonus (%)	Fee (%)	Benefits* (%)	Total (%)
Below S\$250,000					
Ong Tiew Siam	–	–	100%	–	100%
Tan Siok Chin	–	–	100%	–	100%
Loo Cheng Guan	–	–	100%	–	100%
Between S\$2,000,001 – S\$2,250,000					
Chow Kok Kit	18%	82%	–	–	100%
Between S\$2,750,001 – S\$3,000,000					
Tse Chong Hing	17%	83%	–	–	100%

(B) Remuneration of top 5 Key Management Personnel (who are not Directors or, the Managing Director)

Name	Salary (%)	Bonus (%)	Benefits* (%)	Total (%)
Between S\$250,001 – S\$500,000				
Cheng Lup Ming	62%	17%	21%	100%
Lui Ka Ho Joseph	66%	15%	19%	100%
Between S\$750,001 – S\$1,000,000				
Hung Kai Wing	36%	64%	–	100%
Wong Hing Kwai	12%	88%	–	100%
Between S\$1,000,001 – S\$1,250,000				
Loic Meston	27%	58%	15%	100%

* Share-based payments are included in the column "Benefits" above.

In FY2020, the annual aggregate remuneration paid to the top 5 Key Management Personnel (who are not Directors or, the Managing Director) was approximately S\$3,675,000.

CORPORATE GOVERNANCE REPORT

(C) Remuneration of employees who are substantial shareholders of the Company, or who are immediate family members of a Director, the Managing Director or a substantial shareholder of the Company, and whose remuneration exceeds S\$100,000 during the year

Mr Tse Chong Hing (Chairman and Managing Director) and Mr Chow Kok Kit (Executive Director) are substantial shareholders of the Company.

Considering confidentiality and sensitivity attached to remuneration matters, the Company has not complied with Provision 8.2 of 2018 Code as to disclosure on remuneration of employees who are substantial shareholders of the Company and whose remuneration exceeds S\$100,000 during the year, in bands no wider than S\$100,000. The remuneration paid to Mr Tse and Mr Chow (who are Directors and substantial shareholders of the Company) for the financial year ended 31 March 2020 are disclosed in the bands of S\$250,000 with a breakdown (in percentage terms) showing the level and mix of remuneration, as set out in the above table.

Save as disclosed above, there were no employees who were substantial shareholders, or who were immediate family members of any Director or, the Managing Director or, a substantial shareholder of the Company, in FY2020 (*Provision 8.2 of 2018 Code*).

There were no termination, retirement or post-employment benefits granted to Directors and the top 5 Key Management Personnel (who are not Directors or, the Managing Director).

The remuneration of the Company's Executive Directors and Key Management Personnel are borne by the Company's operating subsidiaries. Other than as disclosed herein, there were no remuneration and other payments and benefits paid by the Company's subsidiaries to Directors and Key Management Personnel of the Company (*Provision 8.3 of 2018 Code*).

The Company currently has in place two share schemes in the form of the Valuetronics Share Option Scheme 2017 ("ESOS") and the Valuetronics Performance Share Plan 2017 ("PSP") for eligible employees, including Directors of the Company and the Group. Details of ESOS grants and PSP awards are disclosed in the Report of the Directors.

Details of the Company's ESOS and PSP are set out in pages 87 to 90 of the Annual Report (*Provision 8.3 of 2018 Code*).

ACCOUNTABILITY AND AUDIT

Principle 9: Risk Management and Internal Controls

The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders

The Group has established a system of risk management and internal controls to address the financial, operational, compliance and information technology risks of the Group. Management regularly assesses and reviews the Group's business and operational environment to identify areas of significant business, operational and other risks, as well as appropriate measures to control and mitigate these risks.

CORPORATE GOVERNANCE REPORT

The primary task of identifying business risks lies with Management, who recommends to the Board processes for the formulation of policies to mitigate such risks. The Risk Management process, which is approved by the Board, includes a combination of measures/controls to reduce or, mitigate the Group's exposure to risks and/or, possible losses. The Board determines the nature and extent of the significant risks which the Company is willing to take in achieving its strategic objectives and value creation (*Provision 9.1 of 2018 Code*).

A Risk Management Committee ("RMC") was established in FY2013, to review the adequacy and effectiveness of risk management activities within the Group (*Provision 9.1 of 2018 Code*). The Group has in place a risk management framework to enhance its risk management capabilities. The key risks facing the Group have been identified and action plans have been put in place to attempt to mitigate these risks. Risks have been identified at the process levels and controls have been put in place to mitigate these risks. Awareness and ownership of risks and controls by the relevant functions are continuously instilled.

Key management staff from the various business units are tasked to assess and manage the risks within the defined risk management framework.

The Board acknowledges that risk is inherent in business and there are commercial risks to be taken in the course of generating returns on business activities. The Board's policy is that risks should be managed within the Group's overall risk tolerance.

The system of internal controls provides reasonable, but not absolute assurance that the Group will not be adversely affected by any event that could be reasonably foreseen as it strives to achieve its business objectives.

However, the Board recognizes that no system of internal controls can provide absolute assurance against the occurrence of material financial misstatements or losses, poor judgment in decision-making, human errors, fraud or other irregularities.

For FY2020, the Board has received the following assurances (*Provision 9.2 of 2018 Code*) –

- (a) Written confirmation from the Managing Director (equivalent to CEO) and Chief Financial Officer that the Company's financial records have been properly maintained and the financial statements for FY2020 give a true and fair view of the Company's operations and finances; and
- (b) Written confirmation from the Managing Director (equivalent to CEO), Chief Financial Officer and relevant Key Management Personnel that the Company's risk management, compliance and internal controls (including financial, operational, compliance and information technology controls) systems are adequate and effective.

Based on the internal controls established and risk management framework maintained by the Group, work performed by the Internal Auditors and External Auditors, and the reviews performed by Management and the RMC for FY2020, the Board, with the concurrence of the AC, is satisfied that, as at the date of this Report, the Group's internal controls (including financial, operational, compliance and information technology controls) and risk management systems are effective and adequate in its current business environment (*Provision 10.1(b) of 2018 Code*). No material weaknesses of internal controls and risk management systems were identified in respect of FY2020.

CORPORATE GOVERNANCE REPORT

Principle 10: Audit Committee

The Board has an Audit Committee which discharges its duties objectively.

The AC comprises three Directors, all whom are independent (*Provision 10.2 of 2018 Code*). The Chairman of the AC is Mr Ong Tiew Siam and its members are Ms Tan Siok Chin and Mr Loo Cheng Guan (*Provision 1.4 of 2018 Code*).

The Chairman and the members of the AC possess recent and relevant accounting or related financial management expertise or experience to discharge their responsibilities (*Provision 10.2 of 2018 Code*).

No former partner or director of the External Auditors is a member of the AC (*Provision 10.3 of 2018 Code*).

The AC is regulated by a set of written terms of reference, which clearly sets out its authority and duties (*Provision 1.4 of 2018 Code*). The AC has explicit authority to investigate any matters within its terms of reference, full access to and the co-operation by Management, full discretion to invite any Director or Executive Officer to attend its meetings and has been given adequate resources to enable it to discharge its functions.

The key functions of the AC, amongst others, are (*Provision 10.1 of 2018 Code*) –

- (a) To review with the External Auditors, the scope and results of the external audit, evaluation of the accounting controls, audit reports and any matters which the External Auditors wish to discuss;
- (b) To review with the Internal Auditors, their audit plan and reports, the adequacy of the internal audit procedures and their evaluation of the effectiveness of the overall internal control system, including financial, operational and compliance controls and risk management system;
- (c) To review the adequacy, effectiveness, independence, scope and results of the Company's internal audit function;
- (d) To review significant financial reporting issues and judgements so as to ensure the integrity of financial statements of the Company and any announcements relating to the Company's financial performance;
- (e) To review the quarterly and annual financial statements of the Company and the Group, including half-year and full-year results announcements to shareholders and the SGX-ST, prior to submission to the Board for approval;
- (f) To review and to report to the Board at least annually the adequacy and effectiveness of the Group's internal controls, which address the Group's financial, operational, compliance and information technology risks and risk management systems, and any other matters requiring the Board's attention;
- (g) To evaluate the Group's system of internal controls with the Internal Auditors and to assess the effectiveness and adequacy of internal accounting and financial control procedures;
- (h) To review the assurance from the Managing Director (equivalent to CEO) and Chief Financial Officer on the financial records and financial statements;
- (i) To review the Company's Whistle-Blowing Policy and to ensure that arrangements are in place for concerns about possible improprieties in financial reporting or other matters to be safely raised and independently investigated, and for appropriate follow-up action to be taken;
- (j) To review Interested Person Transactions and to report its findings to the Board;

CORPORATE GOVERNANCE REPORT

- (k) To conduct annual reviews of the cost effectiveness of the external audit, the adequacy, effectiveness, independence and objectivity of the External Auditors, including the volume of non-audit services provided by the External Auditors, to satisfy itself that the nature and extent of such services will not prejudice the independence and objectivity of the External Auditors before confirming their re-nomination; and
- (l) To make recommendations to the Board on the appointment, re-appointment and removal of the External Auditors and to approve their remunerations and terms of engagement.

During the financial year, the AC had reviewed –

- the quarterly and full-year financial statements prior to submission to the Board;
- the annual audit plan of the External Auditors and Internal Auditors and the results of the audit performed by them;
- the effectiveness and adequacy of the Group's internal controls and risk management systems;
- audit and non-audit services rendered by the External Auditors, their independence, re-appointment and remuneration; and
- transactions with interested persons and those not falling within the ambit of Chapter 9 of the Listing Manual of the SGX-ST.

The External Auditors provides the AC with regular updates on changes in accounting standards and issues which have a direct impact on financial statements.

The Company's External Auditors and Internal Auditors report their findings and recommendations to the AC independently. In FY2020, the AC met with the External Auditors twice and the Internal Auditors twice, to review the Group's accounting, auditing and financial reporting and internal control matters, so as to ensure that an effective system of control is maintained in the Group. The AC has also met with External Auditors and Internal Auditors without the presence of Management (*Provision 10.5 of 2018 Code*).

Aggregate audit service fees paid to the Company's External Auditors, PricewaterhouseCoopers ("PwC") for FY2020 amounted to HK\$1.44 million for the Group. The Company had also engaged PwC to provide tax advice on the proposed investment in Vietnam amounting to HK\$300,000 in FY2020. The provision of such services does not conflict with PwC's role as auditor as the engagement is not financial related. The AC had reviewed the non-audit services provided by PwC and was of the opinion that these services would not affect the independence of PwC as the Company's External Auditors.

As PwC is the sole auditor of the Company and its subsidiaries, the Company has complied with Rules 712 and Rule 715 of the Listing Manual of the SGX-ST in relation to the appointment of audit firms.

In reviewing the nomination of PwC for re-appointment as External Auditors, the AC had considered the adequacy of resources, experience and competence of PwC and, had taken into account the Audit Quality Indicators relating to PwC at firm level and on audit engagement level.

Consideration was also given to –

- the experience of the engagement partner and key team members;
- industry specialization in the consumer and industrial products segment;
- total engagement, supervision and training hours; and
- independence requirements.

CORPORATE GOVERNANCE REPORT

Based on the above, the AC has recommended to the Board the nomination of PwC for re-appointment as External Auditors at the forthcoming AGM.

The Group's internal audit function is outsourced to an independent audit firm, RSM Consulting (Hong Kong) Limited ("IA"). The IA functions according to the Standards for the Professional Practice of Internal Auditing set by The Institute of Internal Auditors and is adequately resourced to perform the internal audit effectively.

The IA has appropriate standing within the Company and has unrestricted access to all the Company's documents, records, properties, information and receives co-operation from the Board, the AC, Management and staff, as necessary, to effectively discharge its responsibilities (*Provision 10.4 of 2018 Code*). The IA conducts independent reviews, assessment and follow-up audit procedures on the Group's financial, operational, compliance and technology controls, and reports the remediation status to the AC. Reports of the IA are submitted to the AC for review, with copies of these reports extended to the members of the Board and the relevant senior management officers.

The IA had during the course of their audit performed tests over operating effectiveness of certain controls and made some observations on internal controls and proposed recommendations to assist Management in mitigating risks and improving operational efficiency and effectiveness in the areas reviewed. Action plans to address these observations have been put in place.

The AC assesses the adequacy, effectiveness and independence of the internal audit function annually. For FY2020, the AC is satisfied that the IA is independent, effective, has the necessary resources to adequately perform its functions and staffed by qualified and experienced personnel.

With the assistance of the IA, the Group has established a risk management framework to continuously monitor, manage and control risks. Management regularly reviews and updates key risks for the Group, and ensures that such risks remain relevant in the context of current economic and operating environment.

The AC is responsible for the appointment, removal, evaluation and compensation of the Internal Auditors.

WHISTLE-BLOWING POLICY

The Company has in place a Whistle-Blowing Policy whereby the staff of the Group and stakeholders can raise in good faith and in confidence, any concerns about possible improprieties relating to business activities, accounting, financial reporting, internal controls and other matters. Under these procedures, arrangements are in place for independent investigation of such matters raised and for appropriate follow up action.

The objectives of the Whistle-Blowing Policy are:

- To communicate the Company's expectation of employees of the Group in detecting fraudulent activities or malpractices;
- To guide employees on the course of action when addressing their concerns or suspicions of fraudulent activities or malpractices;
- To provide a process for investigations and management reporting; and
- To establish the policies for protecting whistle-blowers against reprisal by any person internal or external of the Group.

CORPORATE GOVERNANCE REPORT

SHAREHOLDER RIGHTS AND ENGAGEMENT

Principle 11: Shareholder Rights and Conduct of General Meetings

The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

As general meetings are the principal forum for dialogue with shareholders, the Board encourages all shareholders to attend the general meetings, to stay informed of the Group's developments. Shareholders are also given the opportunity to air their views and direct questions to the Board and Board Committees. Notices of general meetings are issued with Annual Reports or, relevant circulars and sent to shareholders within the prescribed time frame. Such notices are also advertised in a Singapore newspaper and posted on SGXNet and the Company's website (*Provisions 11.1 and 12.1 of 2018 Code*).

Every shareholder is entitled to vote in person or by appointing up to two proxies to attend and vote on his or her behalf. With poll voting, shareholders and/or, their proxies are entitled to one vote for every share represented at general meetings.

In compliance with Bermuda law, the Company's Bye-laws does not allow corporations which provide nominee or custodial services to appoint more than two proxies to attend and participate in general meetings as proxies.

At general meetings, separate resolutions are proposed for each substantially separate issue to avoid bundling of resolutions unless, the resolutions are inter-dependent and linked to form one significant proposal (*Provision 11.2 of 2018 Code*).

The Directors, including the Chairman of the respective Board Committees and the External Auditors attend general meetings to address issues or queries raised by shareholders. The External Auditors is present at the AGM to address shareholders' queries on the conduct of the audit and the preparation and content of the auditors' report. For the last AGM held in July 2019, all the Directors attended the meeting (*Provision 11.3 of 2018 Code*).

The Company has not implemented voting in absentia due to concerns on information control and security. In this connection, the Company has not amended its Bye-laws to allow shareholders to vote in absentia at general meetings (*Provision 11.4 of 2018 Code*). Voting in absentia may only be possible following careful study/review of feasibility to ensure that integrity of the information and authentication of the identity of shareholders is not compromised.

Resolutions are voted on by poll and independent scrutineers are appointed to count and verify the results of the poll. The poll results, including the number of votes cast for and against each resolution at the meeting, are released via SGXNet and posted on the Company's website.

The Company Secretary prepares minutes of general meetings which are available to shareholders present at the relevant meeting, upon request. From the forthcoming AGM onwards, minutes of AGMs/general meetings of shareholders, incorporating substantial and relevant comments or queries from shareholders relating to the agenda of the general meeting and responses from the Board, Management and/or Auditors, will be published on the Company's website (*Provision 11.5 of 2018 Code*).

CORPORATE GOVERNANCE REPORT

In view of the Covid-19 situation, shareholders should note that the Company have put in place alternative measures and arrangements for its upcoming AGM under relevant laws and rules/regulations and according to directives or guidelines from government agencies or regulatory authorities. As such, the forthcoming AGM will be held via electronic means pursuant to the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020. Shareholders are advised to refer to the Company's announcement on SGXNet and the Company's website regularly for further updates on arrangements for the forthcoming AGM.

DIVIDEND POLICY *(Provision 11.6 of 2018 Code)*

The Company has a formal dividend policy which aims to provide its shareholders with a target annual dividend payout of at least 30% of the net profit attributable to shareholders in any financial year, whether as interim and/or final dividend, the declaration and payment of which will be determined at the sole discretion of the Board.

The ordinary dividend recommended, declared or paid in any financial year shall not exceed 50% of the total net profit attributable to shareholders, unless otherwise approved by the Board.

In proposing any dividend payout and/or determining the form, frequency and/or the amount of such dividend payout, the Board will also take into account, *inter alia* -

- (i) the Group's actual and expected financial performance and financial conditions;
- (ii) retained earnings and distributable reserves;
- (iii) results of operations and cash flow;
- (iv) the level of the Company's debts to equity ratio and return on equity;
- (v) the ability of the Company's subsidiaries to make dividend payments to the Company;
- (vi) restrictions on payment of dividends that may be imposed on the Company by any of its financing arrangements;
- (vii) the Group's expected working capital requirements, the Group's expected capital expenditure, future expansion, other investment plans and other funding requirements;
- (viii) general economic conditions and other internal or external factors that may have an impact on the business or financial performance and position of the Group, including such legal or contractual restrictions as may apply from time to time or which the Board may consider appropriate in the interests of the Company; and
- (ix) such other factors that the Board deems appropriate.

The Board endeavours to maintain a balance between meeting shareholders' expectations and prudent capital management with a sustainable dividend policy. The Board continually reviews the dividend policy and reserves the right in its sole and absolute discretion to update, amend, modify and/or cancel the dividend policy at any time.

CORPORATE GOVERNANCE REPORT

Principle 12: Engagement with Shareholders

The company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views on various matters affecting the company.

The Board recognises the importance and is aware of its obligations in providing regular, effective and fair communication with shareholders. It provides prompt, consistent and relevant information with regard to the Group's corporate developments and financial performance, which complies with disclosure obligations prescribed under the 2018 Code and the SGX-ST Listing Manual.

The Board has taken adequate steps to ensure compliance with legislative and regulatory requirements, including without limitation, the Listing Rules of the SGX-ST. Prompt compliance with statutory reporting requirements is one way to maintain shareholders' confidence and trust in the capability and integrity of the Company.

The Group's Investor Relations ("IR") Policy is that all shareholders should be equally and timely informed of all major developments and events that impact the Group. Price-sensitive information is publicly released on an immediate basis where required under the Listing Manual. Where an immediate announcement is not possible, the announcement is made as soon as possible to ensure that shareholders and the public have fair access to the information.

The Company has put in place a formal IR Policy which is available on the Company's website at www.valuetronics.com.hk. The IR Policy sets out, *inter alia*, (i) the principles, policies and practices that are adopted by the Company in the course of a two way communication between the Company and its shareholders and the investment community, and (ii) mechanism through which shareholders may contact the Company with questions and through which the Company may respond to such questions (*Provisions 12.2 and 12.3 of 2018 Code*).

The Group keeps all shareholders informed of developments that would have a material impact on the Group through announcements on SGXNet and on the Company's website at www.valuetronics.com.hk. Shareholders may at any time send their enquiries and/or feedback about the Company to the Board in writing through its corporate website, under "Contact Us" or "IR Contact" section (*Provision 12.1 of 2018 Code*).

The Company notifies shareholders in advance on the date of release of its financial results through announcement via SGXNet.

In presenting the half-yearly and annual financial results to shareholders, the Board seeks to provide shareholders with a detailed, balanced and understandable assessment of the Group's performance, financial position and prospects, including interim and other price sensitive public reports, and reports to regulators (if required).

Immediately following its announcement of the relevant results, the Company establishes shareholder communication via a series of local and overseas non-deal road shows. Management takes an active role in participating in investor relations activities with the investment community and, meeting regularly with local and foreign institutional shareholders. The various channels of shareholder communication enable the Group to solicit and understand the views of the shareholders. For transparency and non-selective disclosure, materials used in these briefings are publicly disseminated via SGXNet and on the Company's website (*Provision 12.1 of 2018 Code*).

Shareholders and the public may also assess financial and annual reports, announcements and, media releases via the Company's website at www.valuetronics.com.hk.

CORPORATE GOVERNANCE REPORT

Principle 13: Engagement with Stakeholders

The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served.

The Company has in place a Stakeholder Engagement Policy which sets out the principles, policies and practices that are adopted by the Company in the course of its stakeholder engagement activities so as to provide opportunities to further align its business practices with societal needs and expectations, helping to drive long-term sustainability and shareholder value.

The Company has arrangements in place to identify and engage with its material stakeholder groups and to manage its relationships with such groups (*Provision 13.1 of 2018 Code*).

The Company adopts an inclusive approach by considering and balancing the needs and interests of its key stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served. The key stakeholders include, but not limited to, customers, suppliers, employees, investors, and local government. The Company adopts both formal and informal channels of communication to understand the needs of its key stakeholders, and incorporate their feedback into the evolution of corporate strategies so as to achieve mutually beneficial relationships (*Provisions 13.1 and 13.2 of 2018 Code*).

The Company discloses in its Sustainability Report its strategy and key areas of focus in relation to the management of stakeholder relationships during the reporting period. Further details can be found in the Company's Sustainability Report for the financial year ended 31 March 2020 which will be released by August 2020 (*Provision 13.2 of 2018 Code*).

The Company maintains a corporate website at www.valuetronics.com.hk to communicate and engage with its stakeholders (*Provision 13.3 of 2018 Code*).

SECURITIES TRANSACTIONS

The Group has adopted a policy governing dealings in securities of the Company for Directors, its officers and employees. With effect from 7 February 2020, the Company is no longer required to adhere to quarterly reporting rules under SGX RegCo's new risk-based approach to quarterly reporting. The policy has been updated to reflect the change.

The Group's "black-out" period, in compliance with SGX-ST's Listing Rule 1207(19), is that the Directors, officers and other employees of the Group, who have access to price-sensitive and confidential information, should not deal in securities of the Company during the period commencing one month before the announcement of the Group's half-year and full-year results. The black-out period ends on the date of the announcement of the relevant results.

In addition, the Directors and officers of the Group are discouraged from dealing in the Company's securities whilst in possession of price-sensitive information and/or on short-term considerations.

INTERESTED PERSON TRANSACTIONS ("IPTs")

The Group has adopted an internal policy governing procedures for the review and approval of IPTs. The AC has reviewed the rationale and terms of the Group's IPTs and is of the view that the IPTs are on normal commercial terms and are not prejudicial to the interests of the Company and its minority shareholders.

CORPORATE GOVERNANCE REPORT

Save as disclosed in the consolidated financial statements, the aggregate value of all approved IPTs conducted during the financial year ended 31 March 2020 (excluding transactions less than S\$100,000), are set out below:

Name of interested person	Nature of Relationship	Aggregate value of all interested person transactions during the financial year under review (excluding transactions less than S\$100,000 and transactions conducted under shareholders' mandate pursuant to Rule 920)	
		Year ended 31 March 2020 HK\$'000	Year ended 31 March 2019 HK\$'000
Chow Kok Kit ("Mr Chow")	Purchase of goods from Nicecon Limited, which is owned by Mr Chow's brother	2,918	3,360
Tse Chong Hing ("Mr Tse")	Project management consultancy services for the Vietnam factory from Concord Buildings Co. Ltd, which is owned by Mr Tse's brother and wife	882	–

The Company does not have a Shareholders' Mandate for IPTs.

MATERIAL CONTRACTS

Other than as disclosed above, there were no material contracts of the Company or its subsidiaries involving the interests of any Director or controlling shareholder entered into during the financial year that is required to be disclosed under Rule 1207(8).

REPORT OF THE DIRECTORS

The Directors of the Company are pleased to present their report together with the audited financial statements of the Company and of the Group for the financial year ended 31 March 2020.

1. DIRECTORS AT DATE OF REPORT

The Directors of the Company in office at the date of this report are:

Tse Chong Hing	Chairman and Managing Director
Chow Kok Kit	Executive Director
Ong Tiew Siam	Lead Independent Director
Loo Cheng Guan	Independent Director
Tan Siok Chin	Independent Director

2. ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE BENEFITS BY MEANS OF ACQUISITION OF SHARES AND DEBENTURES

Neither at the end of the financial year nor at any time during the financial year did there subsist any arrangement the objective of which is to enable the Directors of the Company to acquire benefits by means of acquisition of shares or debentures in the Company or the Group, other than pursuant to the Valuetronics Employee Share Option Scheme and the Valuetronics Employee Share Option Scheme 2017 and the Valuetronics Performance Share Plan and the Valuetronics Performance Share Plan 2017.

3. DIRECTORS' INTERESTS IN SHARES OR DEBENTURES

Except as disclosed in this report, no Director who held office at the end of the financial year had interests in the shares or debentures of the Company and related corporations, either at the beginning or at the end of the financial year.

Name of Directors	In the name of Directors		Deemed Interest	
	At 1 April 2019	At 31 March 2020	At 1 April 2019	At 31 March 2020
	Ordinary shares of HK\$0.10 each			
Tse Chong Hing	75,990,411	75,990,411	–	–
Chow Kok Kit	32,000,361	32,000,361	–	–
Ong Tiew Siam	–	–	–	–
Loo Cheng Guan	–	–	–	–
Tan Siok Chin	–	–	–	–

There was no change in Directors' interests between the end of the financial year and 21 April 2020.

4. CONTRACTUAL BENEFITS OF DIRECTORS

Since the beginning of the financial year, no Director has received or become entitled to receive a benefit by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member, or with a company in which he has a substantial financial interest except for the directors' fees, salaries, bonuses and other benefits as disclosed in the financial statements.

REPORT OF THE DIRECTORS

5. SHARE OPTIONS AND AWARDS

(i) **The Valuetronics Employee Share Option Scheme (“ESOS 2007”) and the Valuetronics Employee Share Option Scheme 2017 (“ESOS 2017”)**

The ESOS 2007 was approved by Shareholders at a Special General Meeting (“SGM”) on 6 February 2007 and modified at the SGM held on 28 July 2008. ESOS 2007 expired on 6 February 2017 and the new modified ESOS 2017 was approved by Shareholders at SGM on 24 July 2017.

The ESOS 2007 and ESOS 2017 are administered by the Remuneration Committee (“RC”) comprising –

Tan Siok Chin (Chairman)
Ong Tiew Siam
Loo Cheng Guan

Other information regarding the ESOS 2017 is set out below –

Subject to the absolute discretion of the RC, options may be granted to the following groups of participants under the ESOS 2017:

- (a) Group Employees (including Executive Directors but excluding Controlling Shareholders and/or their Associates); and
- (b) Non-Executive Directors (including Independent Directors).

Options may be granted by the RC at its discretion with the Exercise Price set at –

- a price equal to the Market Price; or
- a price which is set at a discount to the Market Price, provided that:
 - i. the maximum discount shall not exceed 20% of the Market Price; and
 - ii. the Shareholders in general meeting have authorised, in a separate resolution, the making of offers and grants under the ESOS 2017 at a discount not exceeding the maximum discount as aforesaid.

Options granted at the Market Price may be exercised at any time after the first anniversary of the date of the grant. Options granted with the Exercise Price set at a discount to the Market Price may be exercised any time after the second anniversary of the date of grant. All options shall be exercised before the tenth anniversary of the relevant offer date, or such earlier date as may be determined by the RC, failing which all unexercised Options shall immediately lapse and become null and void.

Except as disclosed below, no employee received 5% or more of the total number of shares under options available under the ESOS 2007 and ESOS 2017.

REPORT OF THE DIRECTORS

During the financial year, 3,295,000 options to subscribe for shares in the Company were granted to the Company's executives and staff under the ESOS 2017. The Company issued and allotted 1,622,500 new ordinary shares pursuant to the exercise of options during the financial year.

As at 31 March 2020, the Company has the following outstanding share options:

Date of grant (note)	Exercise Price	Outstanding	Granted	Exercised	Outstanding
		at 1 April 2019			at 31 March 2020
24 August 2015	S\$0.268*	27,500	–	–	27,500
18 August 2016	S\$0.379*	1,809,500	–	(1,622,500)	187,000
24 September 2017	S\$0.701	3,095,000	–	–	3,095,000
21 September 2018	S\$0.530	2,890,000	–	–	2,890,000
15 November 2019	S\$0.570	–	3,295,000	–	3,295,000
Total		7,822,000	3,295,000	(1,622,500)	9,494,500

* Following the completion of the 1-for-10 bonus issue on 5 June 2017, the number of outstanding share options held by each holder were adjusted upward by 10% and their respective exercise prices were adjusted downward by 10% as a result.

Note:

These Incentive Options were issued at a discount of not more than 20% to the average of the last dealt prices on the Official List of the SGX-ST for the five consecutive Market Days immediately preceding the date of grant of the respective Options.

The details of options granted to the Directors (and Controlling Shareholders) of the Company:

Name of participant	Options granted during the financial year	Aggregate options granted since commencement of ESOS 2007 to end of financial year	Aggregate options exercised since commencement of ESOS 2007 to end of financial year	Aggregate options outstanding at end of financial year

REPORT OF THE DIRECTORS

(ii) The Valuetronics Performance Share Plan (“PSP 2008”) and the Valuetronics Performance Share Plan 2017 (“PSP 2017”)

The PSP 2008 approved by shareholders of the Company on 28 July 2008 was terminated and replaced by the PSP 2017 which was approved by shareholders of the Company on 24 July 2017. The PSP 2017 is in addition to and complementary to the ESOS 2017. The PSP 2017 is intended to further the Company’s continuing efforts to reward, retain and motivate Directors and employees to achieve better performance. The PSP 2017 is an incentive plan to provide the Company with the flexibility in tailoring reward and incentive packages to suit individual participants.

The focus of the PSP 2017 is principally to target executives in key positions who are able to drive the growth of the Company through innovation, creativity and superior performance. The number of shares to be awarded under the PSP 2017 is determined by performance targets and/or service conditions and/or significant contributions to the Group (“Share Awards”).

The PSP 2017 is administered by the RC.

Except as disclosed below, no employee received 5% or more of the total number of Share Awards available under the PSP 2008 and PSP 2017.

During the financial year, no Share Awards were granted to the Company’s Executive Directors under the PSP 2008 and PSP 2017.

As at 31 March 2020, the Company has no outstanding Share Awards.

The vesting period of the above Share Awards are 1-3 years from the date of grant.

The details of Share Awards granted to the Directors (and Controlling Shareholders) of the Company:

Name of participant	Aggregate awards granted since commencement of PSP 2008 to end of financial year
Tse Chong Hing	3,225,000
Chow Kok Kit	2,800,000
Total	6,025,000

There were no awards granted, released, forfeited or, outstanding, during the financial year.

(iii) Executive Director’s entitlement to ESOS 2017 and PSP 2017

Mr. Chow Kok Kit, an Executive Director, has irrevocably and unconditionally renounced his right and/or entitlement to participate in the ESOS 2017 and PSP 2017.

REPORT OF THE DIRECTORS

6. AUDIT COMMITTEE

The Audit Committee (“AC”) comprises three members, all of whom are Independent Non-Executive Directors. The AC members at the date of this report are as follows –

Ong Tiew Siam (Chairman)
Loo Cheng Guan
Tan Siok Chin

The AC held four meetings since the date of the last Directors’ report.

The functions of the AC are disclosed in the Corporate Governance Report.

The AC has full access to and has the co-operation of Management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any Director and executive officer to attend its meetings. The External Auditors and Internal Auditors have unrestricted access to the AC.

7. AUDITORS

The Directors of the Company, with the concurrence of the AC, propose the re-appointment of PricewaterhouseCoopers as External Auditors of the Company for the financial year ending 31 March 2021 at the forthcoming AGM.

8. DEVELOPMENTS SUBSEQUENT TO ANNOUNCEMENT OF RESULTS

There are no significant developments subsequent to the release of the Group’s and the Company’s preliminary financial statements, as announced on 3 June 2020, which would materially affect the Group’s and the Company’s operating and financial performance as of the date of this report.

ON BEHALF OF THE BOARD OF DIRECTORS

TSE CHONG HING
Chairman

CHOW KOK KIT
Executive Director

7 July 2020

STATEMENT BY DIRECTORS

FOR THE FINANCIAL YEAR ENDED 31 MARCH 2020

In the opinion of the Directors,

- (a) The accompanying consolidated financial statements of the Group and the statement of financial position of the Company together with the notes thereon as set out on pages 46 to 92, are drawn up so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 March 2020 and of the results, changes in equity and cash flows of the Group for the financial year then ended; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

On behalf of the Board of Directors

TSE CHONG HING
Chairman

CHOW KOK KIT
Executive Director

INDEPENDENT AUDITOR'S REPORT

羅兵咸永道

TO THE SHAREHOLDERS OF VALUETRONICS HOLDINGS LIMITED
(INCORPORATED IN BERMUDA WITH LIMITED LIABILITY)

Opinion

What we have audited

The consolidated financial statements of Valuetronics Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 46 to 92, which comprise:

- the consolidated and company statements of financial position as at 31 March 2020;
- the consolidated income statement for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and of the Group as at 31 March 2020, and of the Group's consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Net realisable value of inventories
- Accruals and provisions

PricewaterhouseCoopers, 22/F Prince's Building, Central, Hong Kong
T: +852 2289 8888, F: +852 2810 9888, www.pwchk.com

INDEPENDENT AUDITOR'S REPORT

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Net realisable value of inventories</p> <p>Refer to Note 3.8 “Summary of significant accounting policies – Inventories” and Note 5(a) “Critical accounting estimates and judgements – Write-down of inventories” to the consolidated financial statements.</p> <p>At 31 March 2020, the Group held inventories of HK\$227,927,000. Inventories are stated at the lower of cost and net realisable value, and the latter is the estimated selling price in the ordinary course of business less estimated costs to completion and those necessary to make the sale.</p> <p>We focused on this area because management applies judgements in determining the net realisable value of inventories based on inspections and analyses of degree of obsolescence on various categories and types of inventories, pricing plans for different products, etc.</p>	<p>Our procedures to obtain evidence over the appropriateness of management’s assumptions in determining the net realisable value of inventories included the following. We</p> <ul style="list-style-type: none">– evaluated and tested the Group’s monitoring controls on analysing slow-moving indicators of inventories such as monthly turnover ratios and bi-weekly consumption forecasts as well as comparing production plan with sales orders,– tested the effectiveness of controls operating across the Group including inspection on physical conditions of materials and products as well as notification for inventories not supported by sales orders with follow-up actions,– attended physical observations at production premises and warehouses to identify any potential obsolescence and damages on the Group’s inventories,– assessed the reasonableness and consistency of judgements and assumptions applied by management to write-off inventories which were damaged, obsolete, etc as indicated by inventory records or sales information, and– observed the sales prices from recent sales transactions to support the net realisable value of inventories. <p>Based on the above, we found that the assumptions and judgements applied by management on their assessment of the net realisable value of inventories were supported by the evidence we obtained.</p>

INDEPENDENT AUDITOR'S REPORT

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Accruals and provisions</p> <p>Refer to Note 3.16, 3.18 "Summary of significant accounting policies – Employee benefits, Provision" and Note 5(b) "Critical accounting estimates and judgements – Provisions" to the consolidated financial statements.</p> <p>At 31 March 2020, the Group had other payables and accruals (including provisions) of HK\$394,576,000. Accruals and provisions are liabilities of uncertain timing or amounts. Where the actual outcome in future is different from the original estimate, such differences will impact the carrying value and amount charged/written-back in the period in which such estimate is changed.</p> <p>We focused on this area because management applies judgements in determining the appropriate level of accruals and provisions based on historical data associated with products and services, information provided by customers, etc.</p>	<p>Our procedures to obtain evidence over the appropriateness of management's assumptions in determining the carrying values included the following. We</p> <ul style="list-style-type: none">– read the relevant legislations on employee benefits, customer claims on product quality, etc to support the value of legal or contractual obligations,– compared actual settlements to bank payments,– reconciled any reversals with actual unsettled amounts and justifications like lapse of time bars or claim periods, and– identified any events or indicators subsequent to the year-end leading to adjustments on estimated balances at the year-end date. <p>Based on the above, we found that the accruals and provisions were estimated within a reasonable range of outcomes and consistent with the evidences we obtained.</p>

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT

Responsibilities of Directors and Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Peter Man Kam Tsang.

The address of its principal place of business is Unit 9-11, 7/F., Technology Park, No. 18 On Lai Street, Shatin, New Territories, Hong Kong. The Company’s shares are listed on the Singapore Exchange Securities Trading Limited (the “SGX-ST”).

The Company is an investment holding company. The principal activities of its subsidiaries are set out in Note 18 to the financial statements.

These consolidated financial statements have been presented in thousands of HK dollar (“HK\$’000”), unless otherwise stated, and is approved for issue by the Board of Directors on 7 July 2020.

2 Basis of preparation

2.1 Compliance with IFRS

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

2.2 Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (“FVOCI”) and financial assets at fair value through profit or loss (“FVPL”) which are measured at fair value.

2.3 New standards, amendments to standards and interpretations

(a) Adoption of new standards, amendments to standards and interpretations

The followings are mandatory for the first time for the financial year beginning 1 April 2019:

- IFRS 16 Leases
- Amendments to IAS 19 Plan Amendment, Curtailment or Settlement
- Amendments to IAS 28 Long-term Interests in Associates and Joint Ventures
- Amendments to IFRS 9 Prepayment Features with Negative Compensation
- Interpretation 23 Uncertainty over Income Tax Treatments
- Annual Improvements 2015 – 2017 cycle

The adoption of the above does not have any significant impact to the results and financial position of the Group and the Company, except for certain impacts from IFRS 16 to those of the Group as detailed below.

The Group has adopted IFRS 16 retrospectively from 1 April 2019, but has not restated comparatives for the year ended 31 March 2019, as permitted under the specific transition provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening statement of financial position on 1 April 2019. The new accounting policies are disclosed in Note 3.21.

NOTES TO THE FINANCIAL STATEMENTS

2 Basis of preparation (Continued)

2.3 New standards, amendments to standards and interpretations (Continued)

(a) Adoption of new standards, amendments to standards and interpretations (Continued)

On adoption of IFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as “operating leases” under the principles of IAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 April 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 April 2019 was 4.75%.

(i) Practical expedients applied

In applying IFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- applying a single discount rate to a portfolio of leases with reasonably similar characteristics,
- accounting for operating leases with a remaining lease term of less than 12 months as at 1 April 2019 as short-term leases,
- excluding initial direct costs for the measurement of the right-of-use assets at the date of initial application, and
- using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

(ii) Measurement of lease liabilities

	HK\$'000
Operating lease commitments disclosed as at 31 March 2019	1,704
(Less): short-term leases recognised on straight-line basis as expenses	(20)
Add: contracts reassessed as lease contracts	2,235
	<u>3,919</u>
(Less): Interest discount calculated using the Group’s incremental borrowing rate at the date of initial application	(384)
Lease liabilities recognised as at 1 April 2019	<u>3,535</u>
Of which are:	
Non-current lease liabilities	2,303
Current lease liabilities	1,232
	<u>3,535</u>

NOTES TO THE FINANCIAL STATEMENTS

2 Basis of preparation (Continued)

2.3 New standards, amendments to standards and interpretations (Continued)

(a) Adoption of new standards, amendments to standards and interpretations (Continued)

(iii) Measurement of right-of-use assets

Upon the initial application of IFRS 16 as of 1 April 2019, prepaid lease payments in respect of the land use rights in the People's Republic of China (the "PRC") are reclassified from land use rights to right-of-use assets.

Right-of-use assets were measured at the amount which is equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at 31 March 2019.

(iv) Adjustments recognised in the statement of financial position on 1 April 2019

The change in accounting policy affected the following items in the statement of financial position on 1 April 2019:

- Right-of-use assets – increased by HK\$20,689,000
- Land use rights – decreased by HK\$17,154,000
- Deferred income tax assets – increased by HK\$603,000
- Lease liabilities – increased by HK\$3,535,000
- Deferred income tax liabilities – increased by HK\$603,000

There was no impact on retained earnings on 1 April 2019.

(v) Lessor accounting

The Group did not need to make any adjustments to the accounting for assets held as lessor under operating leases as a result of the adoption of IFRS 16.

(b) New standards, amendments to standards and interpretations not yet effective

Certain new standards, amendments to standards and interpretations have been issued but are not yet effective for the financial year beginning 1 April 2019 and have not been early adopted. They are not expected to have any material impact on the Group and the Company in the current or future reporting periods and on foreseeable future transactions.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Subsidiaries

(a) Consolidation

Subsidiaries are entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(b) Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

3.2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director who makes strategic decisions.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.3 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(c) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting currency translation differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.4 Land use rights

Land use rights represent prepayments for operating leases and are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Cost represents consideration paid for the rights to use the land on which various plants and buildings are situated. Amortisation of land use rights is calculated on a straight-line basis over the period of the land use rights of 50 years. For presentation and treatment upon adoption of IFRS 16 on 1 April 2019, please refer to Note 2.3(a)(iii) and 3.21.

3.5 Property, plant and equipment

Property, plant and equipment (except for construction-in-progress as outlined below) is stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Construction-in-progress is stated at cost less accumulated impairment losses, if any. No provision for depreciation is made on construction-in-progress until such time as the relevant assets are completed and ready for intended use. When the assets concerned are brought to use, the costs are transferred out from construction-in-progress and depreciated in accordance with the policy as stated below.

Subsequent costs are included in the asset's carrying amount or as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Land and buildings	25-50 years; or over the lease term of the relevant land; whichever is shorter
Plant and machinery	2-10 years
Computers	2 years
Furniture and fittings	5 years
Office equipment	5 years
Motor vehicles	3-6 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 3.6).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "Other income and gains, net" in the income statement.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.6 Impairment of non-financial assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

3.7 Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.7 Financial assets (Continued)

(c) Measurement (Continued)

(i) Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in interest income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in "Other income and gains, net" together with foreign exchange gains and losses.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in "Other income and gains, net". Interest income from these financial assets is included in interest income using the effective interest rate method. Foreign exchange gains and losses are presented in "Other income and gains, net" and impairment expenses are presented as separate line item in the income statement.
- **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within "Other income and gains, net" in the period in which it arises.

(ii) Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as "Other income and gains, net" when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in "Other income and gains, net" in the income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.7 Financial assets (Continued)

(d) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see Note 4.1(b)(ii) for further details.

(e) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when the Group currently has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

3.8 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). Net realisable value is the estimated selling price in the ordinary course of business, less applicable selling expenses.

3.9 Trade and other receivables

Trade and other receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade and other receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See Note 4.1(b)(ii) for a description of the Group's impairment policies.

3.10 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original short maturities, and bank overdrafts.

3.11 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.12 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in the income statement on the purchase, sales, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration is recognised in equity.

3.13 Trade and other payables

Trade and other payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

3.14 Contract assets and liabilities

When either party to a contract has performed, the Group presents the contract in statement of financial position as a contract asset or a contract liability, depending on the relationship between the entity's performance and customer's payment.

A contract asset is the Group's right to consideration in exchange for goods or services the Group has transferred to customer. Contract asset is subject to the impairment of expected credit losses model under IFRS 9.

Incremental costs incurred to obtain a contract, if recoverable, are capitalised and presented as contract assets and subsequently amortised when the related revenue is recognised. For those costs with amortisation periods of less than 1 year, they are expensed as incurred.

If a customer pays consideration or the Group has a right to an amount of consideration that is unconditional, before the Group transfers a good or service to the customer, the Group presents the contract as a contract liability when the payment is made or the receivable is recorded (whichever is earlier). A contract liability is the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration that is due) from the customer.

A receivable is recorded when the Group has an unconditional right to consideration. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

3.15 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.15 Current and deferred income tax (Continued)

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

(i) Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

(ii) Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(c) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.16 Employee benefits

(a) Retirement benefit schemes

The Group operates a mandatory provident fund scheme (the "MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for all qualifying employees in Hong Kong. The Group's contributions to the MPF Scheme are calculated at 5% of the salaries and wages subject to a monthly maximum amount of contribution per employee and vest fully with employees when contributed into the MPF Scheme.

The employees of the Group's subsidiaries established in the PRC are members of a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute certain percentage of the employees' basic salaries and wages to the central pension scheme to fund the retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of these subsidiaries. The only obligation of these subsidiaries with respect to the central pension scheme is to meet the required contributions under the scheme.

(b) Housing funds, medical insurances and other social insurances

Employees of the Group in the PRC are entitled to participate in various government-supervised housing funds, medical insurance and other employee social insurance plans. The Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceilings. The Group's liability in respect of these funds is limited to the contributions payable in each period.

(c) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(d) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

3.17 Share-based payments

The Group operates a number of equity-settled, share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments (e.g. options) of the Group. The fair value of the employee services received in exchange for the grant of the equity instruments is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the equity instruments granted, excluding the impact of non-market performance vesting conditions.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.17 Share-based payments (Continued)

At the end of each reporting period, the Group revises its estimates of the number of equity instruments that are expected to vest based on non-market performance and service conditions. It recognises the impact of the revision to original estimates, if any, in the income statement, with a corresponding adjustment to equity.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (and share premium).

3.18 Provision

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation.

3.19 Revenue recognition

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer.

(a) Sales of goods and materials

Revenue from the sales of manufactured goods and trading of raw materials are recognised when control of the goods has transferred, being when the goods are delivered to the customer, the customer has full discretion over the channel and price to sell the goods, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the goods in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group's obligation to repair or replace faulty products under the standard warranty terms is recognised as a provision, see Note 26.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(b) Services

Revenue from providing services is recognised in the accounting period in which the services are rendered.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.20 Interest income

Interest income on financial assets at amortised cost and financial assets at FVOCI calculated using the effective interest method is recognised in the income statement as part of "Other income and gains, net".

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

3.21 Leases

As explained in Note 2.3(a) above, the Group has changed its accounting policy for leases where the Group is the lessee. The new policy is described below and the impact of the change in Note 2.3(a).

Until 31 March 2019, leases in which a significant portion of the risks and rewards of ownership were not transferred to the Group as lessee were classified as operating leases (Note 31(b)). Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

From 1 April 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- * fixed payments (including in-substance fixed payments), less any lease incentives receivable
- * variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- * amounts expected to be payable by the Group under residual value guarantees
- * the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- * payments of penalties for terminating the lease, if the lease term reflects the Group exercising that termination option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.21 Leases (Continued)

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- * where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- * uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- * makes adjustments specific to the lease, e.g. term, country, currency and security.

The Group may be exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- * the amount of the initial measurement of lease liability
- * any lease payments made at or before the commencement date less any lease incentives received
- * any initial direct costs, and
- * restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the statement of financial position based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

NOTES TO THE FINANCIAL STATEMENTS

3 Summary of significant accounting policies (Continued)

3.22 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

4 Financial risk management

4.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Market risk

(i) Foreign exchange risk

The Group has certain exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in HK\$, United States dollars ("US\$") and Renminbi ("RMB").

The Group currently does not have a foreign currency hedging policy in respect of other foreign currency transactions, assets and liabilities.

There is no significant foreign exchange risk for HK\$/US\$ as HK\$ are reasonably stable with US\$ under the linked exchange rate system.

At 31 March 2020, if the RMB had weakened/strengthened 1 per cent against the US\$ with all other variables held constant, consolidated profit after tax for the year would have been approximately HK\$174,000 (2019: HK\$337,000) lower/higher, arising mainly as a result of the net foreign exchange differences on bank deposits, receivables and payables denominated in RMB.

(ii) Price risk

The Group's financial assets at fair value are measured at fair value at the end of each reporting period. The directors manage this exposure by maintaining a portfolio of investments with difference risk profiles.

At 31 March 2020, if the market price of the financial assets at fair value at that date had been increased/decreased by 5 per cent with all other variables held constant, the consolidated other comprehensive income and profit after tax for the year would increase/decrease by approximately HK\$1,932,000 and HK\$818,000 (2019: HK\$1,932,000 and HK\$870,000) arising as a result of gain/loss on financial assets at FVOCI and FVPL respectively.

NOTES TO THE FINANCIAL STATEMENTS

4 Financial risk management (Continued)

4.1 Financial risk factors (Continued)

(a) Market risk (Continued)

(iii) Interest rate risk

As the Group has significant interest-bearing assets, the Group's operating cash flows are dependent of changes in market interest rates. The Group's exposure to interest rate risk relates principally to its bank deposits. Certain of the Group's bank deposits bear interests at fixed interest rates and therefore are subject to fair value interest rate risks. The bank deposits bear interests at fixed interest rates ranging from approximately 0.37% to 2.05% (2019: 2.15% to 3.30%) per annum as at 31 March 2020. Other than these, the bank deposits bear interests at variable rates varied with the then prevailing market condition and thus exposing the Group to cash flow interest rate risk.

At 31 March 2020, if interest rates at that date had been 10 basis points higher/lower with all other variables held constant, consolidated profit after tax for the year would have been approximately HK\$624,000 (2019: HK\$211,000) higher/lower, arising mainly as a result of higher/lower interest income on bank deposits.

(b) Credit risk

Credit risk arises from contractual cash flows of debt instruments carried at amortised cost, at FVOCI and at FVPL, bank deposits, as well as credit exposures to customers, including outstanding receivables.

(i) Risk management

The Group has policies in place to ensure that sales are made to customers with an appropriate credit history. As at 31 March 2020, the five largest trade receivables represent approximately 73% (2019: 67%) of the total trade receivables. The Group performs ongoing credit evaluation of its customers' financial condition and requires no collateral from its customers.

The credit risk on bank deposits is limited because the counterparties are banks with acceptable credit-ratings assigned by international credit-rating agencies.

Majority of the Group's investment in debt instruments are considered to be low risk investments. The credit ratings of the investments are monitored for credit deterioration.

NOTES TO THE FINANCIAL STATEMENTS

4 Financial risk management (Continued)

4.1 Financial risk factors (Continued)

(b) Credit risk (Continued)

(ii) Impairment of financial assets

The Group has three types of financial assets that are subject to the expected credit loss model:

Trade receivables

The Group applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

The Group considers the credit risk characteristics and the days past due to measure the expected credit losses. For the year ended 31 March 2020, the expected credit losses rate for customers of sales of goods is minimal, given there is no history of significant defaults from customers and insignificant impact from forward-looking estimates. The assessed expected credit losses for trade receivables are not material.

Other financial assets at amortised cost

For other financial assets at amortised cost, the Group and the Company recognise loss allowances equal to 12-month expected credit losses unless there has been a significant increase in credit risk of the financial assets since initial recognition, in which case the loss allowances are measured at amounts equal to lifetime expected credit losses. The expected credit losses for other financial assets at amortised cost are not material.

Debentures carried at FVOCI

All of the Group's investments in debentures at FVOCI are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12 months' expected losses.

(iii) Financial assets at FVPL

The Group is also exposed to credit risk in relation to certain other investments that are measured at FVPL. The maximum exposure at the end of the reporting period is the carrying amount of these investments of HK\$21,800,000 as at 31 March 2020 (2019: HK\$23,200,000).

NOTES TO THE FINANCIAL STATEMENTS

4 Financial risk management (Continued)

4.1 Financial risk factors (Continued)

(c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The table below analyses the Group's and the Company's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1 year HK\$'000	Between 1 and 2 years HK\$'000	Between 2 and 5 years HK\$'000	Over 5 years HK\$'000
Group				
At 31 March 2020				
Trade payables	291,234	-	-	-
Other payables and accruals	227,878	-	-	-
Lease liabilities	1,374	1,030	-	-
At 31 March 2019				
Trade payables	391,503	-	-	-
Other payables and accruals	215,011	-	-	-
Company				
At 31 March 2020				
Other payables and accruals	429	-	-	-
At 31 March 2019				
Other payables and accruals	329	-	-	-

4.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares and buy-back shares, raise new debts, or sell assets to reduce debts.

The Group monitors capital on the basis of the debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Net debt is calculated as total debts less cash and bank deposits. Adjusted capital comprises all components of equity (i.e. share capital, share premium, retained earnings and other reserves). At the end of the year, the Group has no debt outstanding (2019: Nil) and the debt-to-adjusted capital ratio has not been disclosed.

NOTES TO THE FINANCIAL STATEMENTS

4 Financial risk management (Continued)

4.2 Capital management (Continued)

The only externally imposed capital requirement is that for the Group to maintain its listing on the SGX-ST it has to have a public float of at least 10% of the shares. The Group receives a report from the share registrars monthly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 10% limit throughout the year. As at 31 March 2020, 74% (2019: 73%) of the shares were in public hands.

4.3 Fair value estimation

The table below analyses the Group's financial instruments carried at fair value as at 31 March 2020 by level of the inputs to valuation techniques used to measure fair value. Such inputs are categorised into three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
At 31 March 2020				
Financial assets at FVOCI	38,630	–	–	38,630
Financial assets at FVPL	–	–	21,800	21,800
	38,630	–	21,800	60,430
At 31 March 2019				
Financial assets at FVOCI	38,630	–	–	38,630
Financial assets at FVPL	–	–	23,200	23,200
	38,630	–	23,200	61,830

There were no transfers between different levels during the year.

The carrying amounts of the Group's current financial assets including cash and bank deposits and trade and other receivables, and the Group's current financial liabilities including trade and other payables, approximate their fair values.

	521,414	606,514	429	329

5 Critical accounting estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

(a) Write-down of inventories

Write-down for inventories is made based on the estimated net realisable value of inventories. The assessment of the write-down amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and amount written-down/written-back in the period in which such estimate is changed.

(b) Provisions

The provisions are based on estimates made from historical data associated with products and services and information provided by the customers as well as the other market information. The assessment of the provision amounts involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such differences will impact the carrying value of provisions and amount charged/written-back in the period in which such estimate is changed.

NOTES TO THE FINANCIAL STATEMENTS

5 Critical accounting estimates and judgements (Continued)

(c) Depreciation of property, plant and equipment

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned.

(d) Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past collection history, existing market conditions as well as forward looking estimates at the end of each reporting period. Where the actual result is different from the original estimate, such difference will impact the carrying value of the financial assets and loss allowances in the year in which such estimate is changed.

(e) Taxation

The Group is mainly subject to income tax in Hong Kong. There may be transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

6 Segment information

The Group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

During the year the Group has two reportable segments as follows:

- Consumer Electronics – consumer electronics products
- Industrial and Commercial Electronics – industrial and commercial electronics products

NOTES TO THE FINANCIAL STATEMENTS

6 Segment information (Continued)

	Consumer Electronics HK\$'000	Industrial and Commercial Electronics HK\$'000	Total HK\$'000
Year ended 31 March 2020			
Revenue (from external customers)	916,084	1,438,358	2,354,442

	2020 HK\$'000	2019 HK\$'000
Independent directors		
– fee	1,309	1,318
Executive directors		
– salaries, wages, bonus and allowances	29,442	36,649
– retirement benefit scheme contributions	36	36
	30,787	38,003

NOTES TO THE FINANCIAL STATEMENTS

12 Income tax expense

	2020 HK\$'000	2019 HK\$'000
Current tax charge		
– Hong Kong profits tax	15,465	17,542
– PRC enterprise income tax	3,229	5,444
Deferred tax (credit)/charge (Note 24)	(1,400)	1,586
	17,294	24,572

Tax charge on profits assessable have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

Hong Kong profits tax is provided at 16.5% (2019: 16.5%) based on the estimated assessable profit for the year.

Pursuant to relevant income tax rules and regulations in the PRC, the subsidiaries in the PRC are required to pay PRC enterprise income tax at a rate of 25% (2019: 25%).

In accordance with the relevant income tax rules and regulations of the PRC, the Group is liable to withholding tax on dividends distributed from the Group's PRC subsidiaries in respect of their profits generated on or after 1 January 2008. As at 31 March 2020, the aggregate amount of the temporary differences relating to the undistributed profits of the Group's PRC subsidiaries amounted to approximately HK\$17,859,000 (2019: HK\$17,217,000). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

The reconciliation between the Group's actual tax charge and the amount which is calculated based on the Hong Kong profits tax rate is as follows:

	2020 HK\$'000	2019 HK\$'000
Profit before income tax	196,236	224,052
Tax calculated at Hong Kong profits tax rate of 16.5%	32,379	36,969
Expenses not deductible for tax purposes	475	459
Income not subject to tax	(3,068)	(2,208)
Tax losses for which no deferred tax asset was recognised	434	26
Tax concession	(14,845)	(13,898)
Effect of different tax rate of subsidiaries operating in other jurisdiction	778	1,830
Others	1,141	1,394
Tax charge	17,294	24,572

NOTES TO THE FINANCIAL STATEMENTS

13 Earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company of HK\$178,942,000 (2019: HK\$199,480,000) by the weighted average number of ordinary shares of 434,375,776 (2019: 431,535,927) in issue during the year.

Diluted earnings per share is calculated by dividing the profit attributable to owners of the Company of HK\$178,942,000 (2019: HK\$199,480,000) by the weighted average number of ordinary shares of 434,608,893 (2019: 432,307,277), being the weighted average number of ordinary shares of 434,375,776 (2019: 431,535,927) in issue during the year used in the basic earnings per share calculation plus the weighted average number of ordinary shares of 233,117 (2019: 771,350) assumed to have been issued at no consideration on the deemed exercise of the share options outstanding during the year.

14 Dividends

	2020 HK\$'000	2019 HK\$'000
Interim dividend, paid of HK\$0.06 (2019: HK\$0.05) per ordinary share	26,100	21,669
Final dividend, proposed of HK\$0.14 (2019: HK\$0.15) per ordinary share	60,900	65,007
Special dividend, proposed of nil (2019: HK\$0.05) per ordinary share	-	21,669
	87,000	108,345

These proposed dividends were proposed by the Company on 2 June 2020 to its shareholders in respect of the financial year ended 31 March 2020, which is not reflected as a dividend payable in these financial statements, but will be reflected as an appropriation of retained earnings for the year ending 31 March 2021 subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

At 1 April 2019	8,918	603	9,521
Credited to consolidated income statement (Note 12)	(1,354)	(256)	(1,610)
At 31 March 2020	7,564	347	7,911

NOTES TO THE FINANCIAL STATEMENTS

24 Deferred income tax (Continued)

The above deferred tax assets and deferred tax liabilities are offset in the consolidated statement of financial position as a consequence to the conditions in Note 3.15(c).

Deferred income tax assets are recognised for tax loss carryforwards to the extent that the realisation of the related tax benefit through future taxable profits is probable. The Group did not recognise deferred income tax assets of HK\$8,747,000 (2019: HK\$9,002,000) in respect of losses amounting to HK\$49,052,000 (2019: HK\$50,720,000) that can be carried forward against future taxable income without expiries except for certain tax losses of HK\$6,804,000 (2019: HK\$7,446,000) which will expire within five years.

25 Trade payables

The carrying amounts of trade payables are denominated in the following currencies:

	Group	
	2020 HK\$'000	2019 HK\$'000
US\$	214,070	304,710
HK\$	56,337	57,366

Issue of shares under ESOS (Note 29(a))	1,622,500	162
At 31 March 2020	435,630,837	43,563

NOTES TO THE FINANCIAL STATEMENTS

28 Share capital (Continued)

During the financial year ended 31 March 2020, 1,622,500 (2019: 1,610,720) ordinary shares of HK\$0.1 each were issued and no (2019: 3,779,280) treasury shares were used in relation to share options exercised by the confirmed employees of the Group under the Valuetronics Employee Share Option Scheme at S\$0.379 (2019: S\$0.268 and S\$0.379) for a total cash consideration of S\$622,272 (2019: S\$1,636,034) which is equivalent to approximately HK\$3,491,000 (2019: HK\$9,424,000). The difference between the subscription consideration received and the nominal values issued as well as the value of treasury shares used, amounted to approximately HK\$3,329,000 (2019: HK\$647,000), was recorded in the share premium account.

Each ordinary share carries one vote.

29 Share-based compensation

The Company has share incentive plans for its employees, namely Employee Share Option Scheme ("ESOS") and Performance Share Plan ("PSP"). ESOS and PSP are collectively known as "Company Incentive Plans".

The particulars of the Company Incentive Plans are as follows:

(a) Equity-settled ESOS

The purpose is to provide incentives and rewards to eligible participants who contribute significantly to the growth and performance of the Group. Eligible participants include confirmed employees of the Group and Non-Executive Directors (including Independent Directors) ("ESOS Participants") selected by the remuneration committee of the Company (the "Committee"). The ESOS became effective on 6 February 2007 and expired on 5 February 2017. The expiry did not affect any options which had been granted thereunder. On 24 July 2017 a similar ESOS was approved by the shareholders of the Company which shall continue in force at the discretion of the Committee, subject to a maximum period of ten years from that date.

The right to subscribe for the ordinary shares of HK\$0.1 each in the capital of the Company ("Shares") granted and to be granted to ESOS Participants pursuant to the ESOS ("Options") offered may only be accepted within 30 days from the date of the offer. The exercise period of the Options granted is determinable by the Committee, and commences after a certain vesting period and ends on a date which is not later than ten years from the date of the grant of the Options.

The exercise price of the Options is determined by the Committee at equal to the average of the last dealt prices for the Shares on the SGX-ST over the five consecutive trading days immediately preceding the date of offer of the Options (the "Market Price") or at a discount to the Market Price provided that the maximum discount shall not exceed twenty percent (20%) of the Market Price and the shareholders of the Company in general meeting shall have authorised, in a separate resolution, the making of offers and grants of the Options under the ESOS at a discount not exceeding the maximum discount as aforesaid.

NOTES TO THE FINANCIAL STATEMENTS

29 Share-based compensation (Continued)

(a) Equity-settled ESOS (Continued)

Details of the specific categories of options are as follows:

	Date of grant	Exercise period	Exercise Price		Number of outstanding share options	
			2020	2019	2020	2019
2016B	24 August 2015	25 August 2018 to 24 August 2025	S\$0.268	S\$0.268	27,500	27,500
2017C	18 August 2016	19 August 2019 to 18 August 2026	S\$0.379	S\$0.379	187,000	1,809,500
2018A	27 September 2017	28 September 2019 to 27 September 2027	S\$0.701	S\$0.701	875,000	875,000
2018B	27 September 2017	28 September 2020 to 27 September 2027	S\$0.701	S\$0.701	2,220,000	2,220,000
2019A	21 September 2018	22 September 2020 to 21 September 2028	S\$0.530	S\$0.530	790,000	790,000
2019B	21 September 2018	22 September 2021 to 21 September 2028	S\$0.530	S\$0.530	2,100,000	2,100,000
2020A	15 November 2019	16 November 2021 to 15 November 2029	S\$0.570	–	755,000	–
2020B	15 November 2019	16 November 2022 to 15 November 2029	S\$0.570	–	2,540,000	–
					9,494,500	7,822,000

If the Options remain unexercised after a period of ten years from the date of grant, the Options expire. Options are forfeited if the ESOS Participant leaves the Group before the Options vest.

Details of the Options outstanding during the year are as follows:

	2020		2019	
	Number of Options	Weighted average exercise price S\$	Number of Options	Weighted average exercise price S\$
Outstanding at beginning of the year	7,822,000	0.562	10,862,500	0.437
Granted	3,295,000	0.570	2,890,000	0.530
Exercised	(1,622,500)	0.379	(5,390,000)	0.304
Lapsed	–	–	(540,500)	0.451
Outstanding at end of the year	9,494,500	0.596	7,822,000	0.562
Exercisable at end of the year	1,089,500	0.635	27,500	0.268

NOTES TO THE FINANCIAL STATEMENTS

29 Share-based compensation (Continued)

(a) Equity-settled ESOS (Continued)

The weighted average share price at the date of exercise for Options exercised during the year was S\$0.630 (2019: S\$0.785). The Options outstanding at the end of the year have a weighted average remaining contractual life of 8.5 years (2019: 8.6 years) and the exercise price ranged from S\$0.268 to S\$0.701 (2019: S\$0.268 to S\$0.701). During the financial year ended 31 March 2020, Options were granted on 15 November 2019 and the estimated fair value of the Options on that date is S\$882,957. During the financial year ended 31 March 2019, Options were granted on 21 September 2018 and the estimated fair value of the Options on that date is S\$784,774.

These fair values were calculated using the Binomial Model. Expected volatility was determined by calculating the historical volatility of the share prices of the Company. The expected life used in the model has been adjusted, based on the Group's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations. The inputs into the model were as follows:

	2020A and 2020B	2019A and 2019B
Weighted average share price	S\$0.713	S\$0.662
Exercise price	S\$0.570	S\$0.530
Expected volatility	38.52%	49.51%
Expected life	10 years	10 years
Risk free rate	1.76%	2.55%
Expected dividend yield	5.39%	6.16%

(b) Equity-settled PSP

The PSP was adopted on 28 July 2008 and replaced by a similar PSP approved by the shareholders of the Company on 24 July 2017. The PSP is targeted at executives in key positions who are able to drive the growth of the Group through innovation, creativity and superior performance. Eligible participants include confirmed employees of the Group and Non-Executive Directors (including Independent Directors) ("PSP Participants") who were selected by the Committee. The PSP shall remain in force at the discretion of the Committee, subject to a maximum period of ten years from the date of adoption. Under the PSP, the Committee may grant a contingent award of Shares of the Company ("Award") to the PSP Participant. Awards represent the right of a PSP Participant to receive fully paid Shares, their equivalent cash value or combinations thereof, free of charge, upon the PSP Participant achieving prescribed performance targets and/or service conditions or otherwise having performed well and/or made a significant contribution to the Group. PSP Participants are not required to pay for the grant of the Awards.

The Committee will issue an Award letter confirming the Award and specifying inter alia, the vesting period, the prescribed performance target(s) and/or service condition(s), the performance period during which the prescribed performance target(s) and/or service condition(s) are to be attained or fulfilled and the schedule setting out the extent to which Shares will be released on satisfaction of the prescribed performance target(s) and/or service condition(s), to each PSP Participant as soon as is reasonably practicable after the making of an Award.

NOTES TO THE FINANCIAL STATEMENTS

29 Share-based compensation (Continued)

(b) Equity-settled PSP (Continued)

The Committee shall have the discretion to determine whether the performance target(s) has been satisfied (whether fully or partially) or exceeded. The Company shall on the date of release of an Award do any one or more of the following as it deems fit in its sole and absolute discretion:

- (i) allot and issue the relevant Shares to the PSP Participant, and apply to the SGX-ST, for permission to deal in and for quotation of such Shares; and/or
- (ii) deliver existing Shares to the PSP Participant, whether such existing Shares are acquired pursuant to a share purchase mandate or (to the extent permitted by law) held as treasury shares; and/or
- (iii) subject to the prior approval of the Committee and at the Committee's absolute discretion, pay the equivalent value in cash (after deduction of any applicable taxes) to the PSP Participant, in lieu of the Shares to be issued or delivered to the PSP Participant.

There are no Awards outstanding at 31 March 2020 and 2019.

30 Reserves (Continued)

Notes:

(i) Share premium

Share premium represents premium arising from the issue of shares at a price in excess of their par value per share and is not distributable but may be applied in paying up unissued shares of the Company to be issued to the shareholders of the Company as fully paid bonus shares or in providing for the premiums payable on repurchase of shares.

(ii) Contributed surplus

Contributed surplus of the Company arose as a result of the restructuring exercise in prior years and represented the difference between the then consolidated net asset value of subsidiaries acquired, over the nominal value of the Company's shares issued in exchange therefor.

Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus of the Company is available for distribution to shareholders, provided that the Company is, after the payment of dividends out of the contributed surplus, able to pay its liabilities as they become due; or the realisable value of the Company's assets would thereby not be less than the aggregate of its liabilities, issued share capital and reserves.

(iii) Share-based compensation reserve

The share-based compensation reserve represents the fair value of the actual or estimated number of unexercised Options and Awards granted to ESOS Participants and PSP Participants recognised in accordance with the accounting policy adopted for equity-settled share-based payments in Note 3.17 to the financial statements.

(iv) Currency translation reserve

The currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policy set out in Note 3.3 to the financial statements.

(v) Statutory reserve

In accordance with the relevant PRC regulations, the subsidiaries of the Group established in the PRC are required to transfer a certain percentage of the profit after tax, if any, to a statutory reserve. Subject to certain restrictions as set out in the relevant PRC regulations, the statutory reserve may be used to offset the accumulated losses, if any, of the subsidiaries.

31 Commitments

(a) Capital commitments

The Group has the following capital commitments at the end of the financial year:

	Group	
	2020 HK\$'000	2019 HK\$'000
Acquisition of property, plant and equipment – contracted but not provided for	<u>7,915</u>	<u>8,636</u>

(b) Lease commitments

From 1 April 2019, the Group has recognised right-of-use assets for leases, except for short-term and low-value leases (Note 3.21, 17(a)). The future minimum lease payables under non-cancellable leases not recognized at the end of each financial year are as follows:

	Group	
	2020 HK\$'000	2019 HK\$'000
Land and buildings		
– within one year	–	634
– in second to fifth years	–	1,070
	<u>–</u>	<u>1,704</u>

The Company did not have any significant commitments as at 31 March 2020 (2019: Nil).

NOTES TO THE FINANCIAL STATEMENTS

32 Related party transactions

In addition to those disclosed elsewhere in these financial statements, the following is a summary of significant related party transactions entered into between the Group and its related parties and the balances arising from related party transactions in the ordinary course of business and negotiated on terms mutually agreed with these related parties.

(a) Transactions with related parties:

– Nicecon Limited (note)	695	1,074
Other payables and accruals		
– Concord Building Co., Ltd (note)	126	–

Note: beneficially owned by the brothers of certain executive directors of the Company.

33 Events after the reporting period

After the outbreak of Coronavirus Disease 2019 (the “COVID-19 outbreak” or “pandemic”) in early 2020, a series of precautionary and control measures have been and continued to be implemented across the countries in which the Group and its business partners situated.

While the Group’s PRC operations started to gradually normalise in mid-March 2020, the pandemic worsened in North America and Europe. Since then some of the Group’s customers have temporarily shut down their operations in response to mandatory social and economic lockdowns instituted by their respective governments. This created an adverse demand-side shock which affected orders across all the Group’s segments since March 2020.

Any potential impacts to the Group will depend on, to a large extent, future developments and further actions taken by government authorities and other parties to contain the COVID-19 outbreak which are beyond the Group’s control. Management will pay close attention to the development of the COVID-19 outbreak and continue to monitor its impacts on the financial position and operating results of the Group.
