(Incorporated in Singapore)
Company Registration No. 201430212R

IFERRET™ AT CHANGI AIRPORT TO BE UPGRADED

The Directors of The Stratch Group (the “Group”) are pleased to announce that the Group has secured a contract for the iFerret™ *intelligent* Airfield/Runway Surveillance and Foreign Object & Debris (FOD) Detection System at Singapore Changi Airport to be upgraded.

Approved by the US Federal Aviation Administration (FAA), iFerret™ is the world's first *intelligent* Vision-based airfield surveillance and FOD detection system, providing real-time, automated FOD detection, location, classification, measurement and recording. It can be deployed in civil airports as well as military air bases, to help prevent potential aircraft damage and fatalities caused by FOD.

None of the directors or controlling shareholders of the Company has any interest, direct or indirect, in the abovementioned matter.

By Order of the Board

Ms. Leong Sook Ching
Company Secretary
