About NikkoAM-StraitsTrading Asia ex Japan REIT ETF

The NikkoAM-StraitsTrading Asia ex Japan REIT ETF (the "Fund") is a collective investment scheme authorised under Section 286 of the Securities and Futures Act and is established under the terms of a trust deed dated 27 February 2017 made between Nikko Asset Management Asia Limited as manager, and HSBC Institutional Trust Services (Singapore) Limited as trustee, of the Fund.

The investment objective of the Fund is to replicate as closely as possible, before expenses, the performance of the FTSE EPRA Nareit Asia ex Japan Net Total Return REIT Index (the "Index"), or upon the Manager giving three (3) months' prior written notice to the Trustee and the Holders, such other index that gives, in the opinion of the Manager, the same or substantially similar exposure as the Index. There is no assurance that the Fund will achieve its investment objective or that it will be able to fully track the performance of the Index.

The Fund will seek to achieve its investment objective by investing all, or substantially all, of its assets in Index Securities in substantially the same weightings as reflected in the Index (i.e. using a full replication strategy).

The Fund is designed for investors who seek an "index-based" approach to investing in a portfolio of Asia ex Japan listed REIT or REIT-type securities in a cost effective and easy to access manner. Units may also be used as an asset allocation tool or as a trading instrument.

Note: Investors are advised to refer to the Fund's prospectus for more details on the Fund.

SOFT DOLLAR COMMISSIONS/ARRANGEMENTS

The primary objective of the Manager in placing orders for the purchase and sale of Index Securities and non-Index Securities, when adjusting the NikkoAM-StraitsTrading Asia ex Japan REIT ETF (the "Fund") portfolio to reflect changes in the Index or in respect of a cash subscription or redemption, is to obtain the most favourable net results taking into account such factors as price, commission or spread and size of the order. Where it is consistent with this objective, it is the Manager's practice to place such orders with brokers/dealers who supply research, market information and quotations and statistical information to the Manager, which may be useful to the Manager in providing its services as manager of the Fund and/or may be useful to the Manager in providing services to other clients (including other funds managed by the Manager), other than as manager of the Fund.

Appointment of soft dollar brokers

The Manager will appoint soft dollar brokers onto its broker panel only after it has ensured that:

- a) full disclosure of the practice of accepting soft dollars is made;
- b) the commission rates charged are comparable with the market rates;
- c) there is no conflict of interest;
- d) the soft dollar credits are used only for clearly defined services;
- e) at all times trades are executed through the respective brokers only on the basis of best execution regardless whether soft dollar benefits will accrue. Best execution shall include competitive prices with smooth execution ability; and
- f) relevant regulations and guidelines are complied with.

The procedures for the appointment of the brokers shall be no different from that of normal full service brokers.

Execution and allocation

If the Trustee objects to the use of the soft dollar brokers, the trades of the Fund shall be segregated from the rest of the trades that are executed through the relevant soft dollar broker(s). The Manager will execute trades for such accounts only with authorised full service brokers.

It is the responsibility of the Manager to ensure that the allocation quotas are adhered to. In addition, the Manager will monitor the execution ability of the soft dollar brokers and assign the business strictly on a "best execution" basis.

Subject to the provisions of the CIS Code*, in its management of the Fund, the Manager may receive soft dollar commissions from, or may enter into soft dollar arrangements with, stockbrokers who execute trades on behalf of the Fund and the soft dollars received would be restricted to the following kinds of services:

- a) specific advice as to the advisability of dealing in, or of the value of any investments;
- b) research and advisory services;
- c) economic and political analysis;
- d) portfolio analysis including valuation and portfolio measurements;
- e) market analysis;
- f) data and quotation services;
- g) computer hardware or software that are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis; and
- h) custodial services in relation to the investments managed for clients.

The following are, however, prohibited:

- a) travel, accommodation and entertainment expenses;
- b) general administrative goods and services including office equipment and premises;
- c) membership fees;
- d) employee salaries;
- e) direct money payments / rebates.

The Manager shall retain the records of the payments made using soft dollar commissions.

The managers of the REITs into which the Fund may invest more than 10% of its asset value from time to time do not receive or intend to enter into soft dollar commissions or arrangements in their management of their REITs.

Please note that with effect from 25 January 2018, the Managers have ceased to receive soft dollar commissions, or enter into soft dollar arrangements, in their management of the Fund.

* The "Code" means the Code on Collective Investment Schemes issued by the Authority pursuant to the Securities and Futures Act, as may be amended, modified, or supplemented from time to time by the Authority.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF NIKKOAM-STRAITSTRADING ASIA EX JAPAN ETF**
(Constituted under a Trust Deed registered in the Republic of Singapore)

Our Opinion

In our opinion, the accompanying financial statements of NikkoAM-StraitsTrading Asia ex Japan REIT ETF (the "Fund") are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants, so as to present fairly, in all material respects, the financial position and portfolio holdings of the Fund as at 30 June 2019, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

What we have audited

The financial statements of the Fund comprise:

- the Statement of Total Return for the financial year ended 30 June 2019;
- the Statement of Financial Position as at 30 June 2019
- the Statement of Movements of Unitholders' Funds for the financial year ended 30 June 2019;
- the Statement of Portfolio as at 30 June 2019; and
- the notes to the financial statements, including a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF NIKKOAM-STRAITSTRADING ASIA EX JAPAN ETF**
(Constituted under a Trust Deed registered in the Republic of Singapore)

Other Information

The Funds' Manager (the "Manager") is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF NIKKOAM-STRAITSTRADING ASIA EX JAPAN ETF**
(Constituted under a Trust Deed registered in the Republic of Singapore)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lim Kheng Wah

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2019

2. Significant accounting policies (continued)

(c) Foreign currency translation

(i) *Functional and presentation currency*

The Fund qualifies as an authorised scheme under the Securities and Futures Act (“SFA”) of Singapore and is offered to retail investors in Singapore. The Fund’s activities are substantially based in Singapore, with subscriptions and redemptions of the units of the Fund being denominated in Singapore dollars.

The performance of the Fund is measured and reported to the investors in Singapore dollars. The Manager considers the Singapore Dollar as the currency which most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are expressed in Singapore dollars, which is the Fund’s functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency monetary assets and liabilities are translated into Singapore dollars at the rates of exchange prevailing at the date of the Statement of Financial Position. The net unrealised gain or loss is taken to the Statement of Total Return. Transactions during the period are recorded in Singapore dollars at the rates of exchange ruling on transaction dates. All realised gains or losses are recognised in the Statement of Total Return.

(d) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account to be paid on the distribution date. The amount shall not be treated as part of the property of the Fund. Distributions are accrued for at the point in time when the necessary approvals have been obtained and a legal or constructive obligation has been created.

(e) Investments

Investments are classified as financial assets at fair value through profit or loss.

(i) *Initial recognition*

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

(e) Investments (continued)

(ii) *Subsequent measurement*

Investments are subsequently carried at fair value. Net change in fair value on investments are included in the Statement of Total Return in the year in which they arise.

(iii) *Derecognition*

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

(f) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price used for investments held by the Fund is the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

(g) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(h) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

3. Income tax

The Manager and Trustee of the Fund have assessed and are satisfied that the Fund has met the requisite conditions under the Designated Unit Trust ("DUT") Scheme for the current financial year. The Manager and Trustee of the Fund will ensure that the Fund fulfills its reporting obligations under the DUT Scheme.

Under the DUT Scheme, certain income of the DUT Fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under section 45 of the Income Tax Act);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards swaps or option contracts and transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (e) discount prepayment fee, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Effect of distribution per unit	0.0113	0.0105
Net assets attributable to unitholders for issuing/redeeming per unit	1.2985	1.0861

[^] The net asset value for the purposes of processing unit subscription and redemption was established in accordance with the methodology indicated in the Fund's Prospectus. This item reflects the movement in net asset value between the last dealing date and the end of the reporting period due to accrual of operating expenses.

8. Financial risk management

The Fund's activities expose it to a variety of risk, including but not limited to market risk (including currency risk, interest rate risk and price risk), liquidity risk and credit risk. The Manager is responsible for the implementation of overall risk management programme, which seeks to minimise potential adverse effects on the Fund's financial performance. Specific guidelines on exposures to individual securities and certain industries and/or countries are in place as part of the overall financial risk management to reduce the Fund's exposures to these risks.

The Fund's primary objective is provide investors with investment returns that correspond closely to the total return of the FTSE EPRA Nareit Asia ex Japan Net Total Return REIT Index (the "Index") before fees and expenses.

The Fund's assets principally consist of investments in index securities in substantially the same weightings as reflected in the Index, and cash. The Manager will rebalance the Fund's investment from time to time to reflect any changes to the composition of, or the weighting of securities in, the Index with a view to minimise tracking error of the Fund's overall returns relative to the performance of the Index. Such rebalancing may be in the form of investments in non-index securities.

The financial instruments are held in accordance with the published investment policies of the Fund and managed accordingly to achieve the investment objectives.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 June 2019

8. Financial risk management (continued)

(a) Market risk - Price risk

Price risk is the risk that arises from uncertainties about the future prices of financial instruments.

The Fund's investment is substantially dependent on the changes of market prices. The Fund's overall market positions are monitored regularly so as to assess changes in fundamentals and valuation. However, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Fund.

As at 30 June 2019, an increase/decrease of the Index by 11% (2018:11%), with all other variables remaining constant, the net asset attributable to unitholders for the period would increase/decrease by approximately 10% (2018:11%) The analysis was based on the assumptions that the index components within the Index increased/decreased by a reasonable possible shift, with all other variables held constant and that the fair value of Fund's investments moved according to the beta. Reasonable possible changes in market index percentage are revised annually depending on management's current view on the market volatility and other relevant factors.

(b) Market Risk - Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates (fair value risk).

Investment funds that invest in securities may be subject to interest rate risk as any interest rate change may affect the risk premium though at varying degrees. To manage this risk, the Manager analyses how interest rate changes may affect different industries and securities and then seeks to adjust the Fund's portfolio investments accordingly.

However, the effects of changes in interest rates on the Fund's portfolio may not be quantified as the relationship between the interest rates and the value of securities is indirect. Hence, no sensitivity analysis has been presented separately.

(c) Market Risk - Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

To minimise currency risk, the Fund mainly holds its excess cash in its functional currency. For hedging purposes, the Fund may also enter into forward foreign exchange contracts.

8. Financial risk management (continued)

(c) Market Risk - Currency risk (continued)

Portfolio of investments, which is a significant item in the Statement of Financial Position, is exposed to currency risk and other price risk. The Manager has considered the impact of currency risk sensitivity on non-monetary assets as part of price risk sensitivity analysis.

The following table shows the Fund's sensitivity to major foreign currencies exposure with all other variables held constant. Changes in foreign currency rate are revised annually depending on management current view of market volatility and other relevant factors.

	Increase/decrease in foreign exchange rate		Increase/decrease in net asset attributable to unitholders	
	%		%	
	30 June 2019	30 June 2018	30 June 2019	30 June 2018
HKD	4	5	1	1
MYR	3	4	-*	-*

* Amount is less than 1%.

(d) Liquidity risk

Liquidity risk is the risk of loss arising from the inability of the Fund to meet its obligations as and when they fall due without incurring unacceptable cost or losses.

The Fund is exposed to daily cash redemptions from unitholders. However, in accordance with the Fund's prospectus, minimum holdings and redemption size are set.

To manage the liquidity risk, a cash buffer is maintained in the Fund and monitored for minimum cash balances to prevent any extensive disposition of assets which may occur at lower prices and overdraft situations to meet trade settlements and obligations.

The Fund's securities are considered readily realisable, as all the securities are listed on a recognised stock exchange.

The Fund's financial liabilities are analysed for maturity groupings using contractual undiscounted cashflows based on the remaining period at the Statement of Financial Position date to the contractual maturity date. As at 30 June 2019, all liabilities are either payable on demand or due in less than 3 months. The impact of discounting is not significant.

Contractual cash outflows (excluding gross settled derivatives)	16,115,165	2,234,176

(e) **Credit risk**

Credit risk is the risk that counterparty will be unable to fulfil its obligation to the Fund in part or in full as and when they fall due.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties as well as the respective credit limits are approved;
- ensuring there are controls in place to identify and assess the creditworthiness of counterparties and review such controls on a semi-annual basis; and
- ensuring that transactions are undertaken with a large number of counterparties.

All trade settlements with approved counterparties are on Delivery versus Payment and/or Receipt versus Payment basis, with the exception of initial public offerings, new issues and placement transactions.

Credit risk also arises from cash and bank balances, and outstanding and committed transactions with brokers. The table below summarises the credit rating of the bank and custodian in which the Fund's assets are held 30 June 2019 and 30 June 2018.

8. Financial risk management (continued)

(e) Credit risk (continued)

The credit ratings are based on the Long-Term Local Issuer Ratings published by the rating agency.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

(f) Capital management

The Fund's capital is represented by the net assets attributable to unitholders. The Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

(g) Fair value estimation

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value at 30 June 2019 and 30 June 2018:

	Level 1 S\$	Level 2 S\$	Level 3 S\$	Total S\$

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Fund does not adjust the quoted price for these instruments.

Except for cash and bank balances which are classified as level 1, the Fund's assets and liabilities not measured at fair value at 30 June 2019 and 2018 have been classified as Level 2. The carrying amounts of these assets and liabilities approximate their fair values as at the Statement of Financial Position date.

¹ The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial period end was based on total operating expenses divided by the average net asset value for the period. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The average net asset value is based on the daily balances.

² The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.
