The Group adopted all the new and revised International Financial Reporting Standards (“IFRSs”) that are relevant to its operations and effective for the accounting period beginning on 1 January 2019. The Group has applied IFRS 16 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under IAS 17 and IFRIC 4.

Under IFRS 15, sales are recognised either when control of the products has transferred, being when the products are delivered to the customers; or when a performance obligation is satisfied over time by reference to the progress towards complete satisfaction.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due. For revenue recognized over time, payment is not due from the customer until the products are delivered and therefore a contract asset is recognised over the period in which the goods and services are performed representing the entity’s right to consideration for the goods and services performed to date.

Before IFRS 16, leases that do not substantially transfer to the leases all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (not of any incentives received from the lessor) are recognized as expenses on a straight-line basis over the lease term.

Under IFRS 16, the Group recognizes and measures a liability at the present value of the future minimum lease payments and recognize a corresponding right-of-use asset for these leases. The interest expense on the lease liability and depreciation on the right-of-use asset recognize in profit or loss. As a result, right-to-use assets increased by HK\$35.1 million (Q3 2019 –HK\$43.5 million included in property, plant and equipment) and lease liabilities increased by HK\$36.3 million (Q3 2019 – HK\$47.1 million included in loans and borrowings), resulting in a net decrease of HK\$1.2 million in retained earnings as at 31 December 2018.
