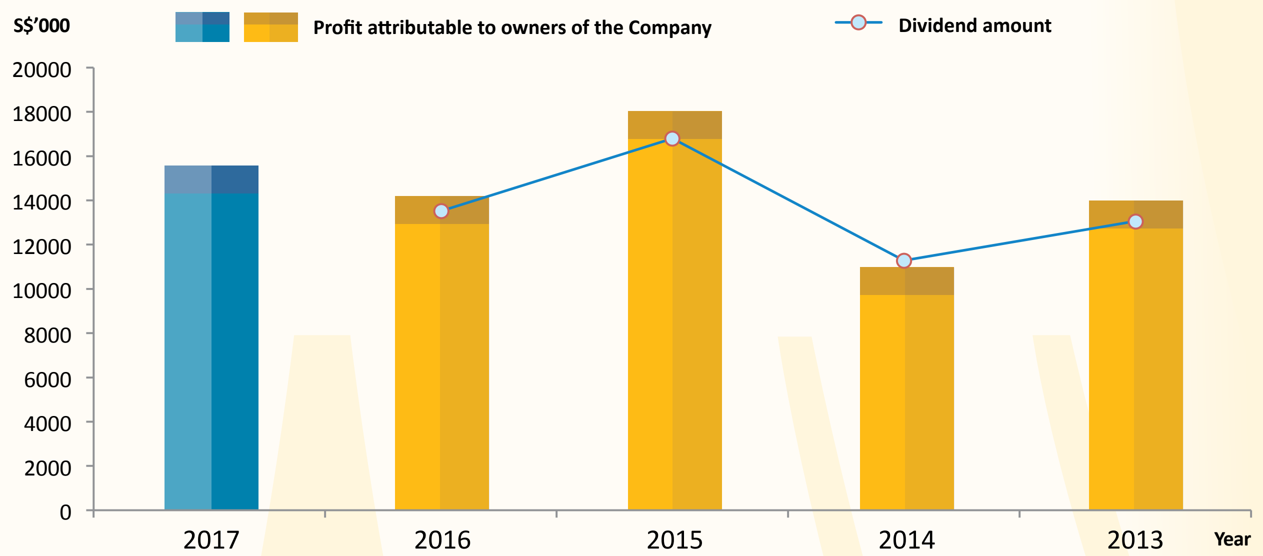
[3] Except for dividend amount and cash dividend per share from 2013 to 2016, all figures are converted by using the closing exchange rate of each year.



CHAIRMAN'S STATEMENT

" 2017 is Hotung Venture Group's 30th Year in operation and HIHL's listing for 20 years at Singapore Stock Exchange. We would like to thank our shareholders for your support over the years."

DEAR SHAREHOLDERS,

2017 is Hotung Venture Group's 30th Year in operation and HIHL's listing for 20 years at Singapore Stock Exchange. We would like to thank our shareholders for your support over the years. To have sustainable growth and profit records in the venture capital industry is a difficult task, but over the years, Hotung has become one of the most experienced and most consistently profitable venture capital institutions in the region. Over the past 30-years, Hotung has invested into more than 620 companies across a myriad of industries such as semiconductor, telecommunications, internet, education, and many others. Of which, more than 200 portfolio companies had exits through Initial Public Offerings or Merger and Acquisitions. We aspire to continue our growth, using our management and investment experience, prudence, foresight, adaptability and industry expertise to continue to deliver steady result to our shareholders.

In the venture capital business, 2017 might have marked the end of the fund flow into the pure internet e-commerce and social media businesses. Notorious IPOs such as Snapchat and Blue Apron, with trouble and controversy in private unicorns such as Uber and Pinterest shook investor confidence in the internet business. Yet, we have also opened up new frontiers with artificial intelligence and blockchain technology. Also brought to the forefront of the global technology scene is the evolution of smart vehicles and smart home devices. With the smartphone segment saturated, smart vehicles has become the new battleground in the smart hardware revolution.

CHAIRMAN'S STATEMENT

Hotung strives to be a leader in this fast changing supply chain landscape. Taiwan and China still has the most comprehensive supply chain in the hardware technology including proprietary knowhow in semiconductor and component development and production; Hotung will continue to invest into leading technology supply chain players and service providers in Taiwan and China, who we expect to yield ample profitable opportunities in the opening chapter in the artificial intelligence, blockchain, smart vehicles, and smart home devices revolution.

2017 FINANCIAL OVERVIEW

Hotung's full year net profit after tax attributable to owners of the Company was NT$345.4 million (S$15.5 million) and earnings per share was NT$3.56 (S$0.16). The Net Asset Value per share was NT$63.48 (S$2.852) at the end of 2017 after paid out cash dividends of NT$3.1 per share for 2016. In line with the Group's objective to distribute the majority of annual net profit after tax, the Board has proposed a dividend of NT$3.42 per share for the year ended 31 December 2017.

BUSINESS OVERVIEW

In 2017, Hotung made investments in industries such as specialty material, cloud tools, smart vehicle components, medical services, pharmaceutical research, as well as consumer packaged goods and consumer technology. We believe these companies and respective industries will grow along side of aforementioned technology revolution drivers.

Moreover, the Taiwanese government has proposed seven key industry in focus which the government will emphasize its support on, including Internet of Things, Biotech and Pharmaceutical research, Industry 4.0 (Fourth Industrial Revolution), Green Energy and Technology, Aerospace and Defense, Agriculture, and Sustainable and Recycling Technology. Hotung will work in collaboration with leading technology institutions to create values in these respective industries.

FUTURE PROSPECTS

Heading into 2018, global equity indexes are at or close to historical high points, and the U.S. government had passed a significant corporate tax reduction and a reduction in taxable overseas repatriated cash. Coupling that with a state issued control in China real estate investment and a mandate to reduce block trade liquidity in the Chinese secondary market, many pundits feel that there is a surplus of un-deployed capital in the market, creating an oversupply of capital over quality investment opportunities, which makes pursuit of good value investments more challenging. That said, we are comfortable with our investment experience and industry knowhow to uncover valuable technologies and companies under any market circumstances. We believe we have established a strong and growing presence in key technology and innovation hubs as well as growing consumer markets. Hotung has had a remarkable 30-years in the venture capital business, and we are confident that we will continue to delivery results going forward.

On behalf of the Board and Investment Managers, I would like to express our sincere appreciation to our shareholders for their continual support.

Sincerely,

Tsui-Hui Huang
Chairman
Taipei, Taiwan
19 March 2018

HONORARY CHAIRMAN

CHENG-WANG HUANG

Mr. Cheng-Wang Huang is the founder of the Group. Mr. Huang retired from the position of Chairman since April 2006. Besides the Group, Mr. Huang has established various businesses ranging from motorcycles, car tires manufacturing, beverage and food to financial fields. His extensive knowledge in various industries has enhanced the group's investment quality. Mr. Huang is the Director and Honorary Chairman of Tai Lung Capital Inc., Tai Ling Motor Co., and Taiwan Tailung Trading Co., Ltd. He is actively involved with industrial association which plays a prominent role in the business community. Presently he is the Honorary Chairman of the Importers and Exporters Association of Taipei and Yakult Company Taiwan. Mr. Huang majored in Economics at National Taiwan University and holds a Master of Arts degree in Economics from University of Washington in Seattle, U. S. A.

BOARD OF DIRECTORS

TSUI-HUI HUANG

Chairman, Managing Director and Executive Director
Member of Nominating Committee
Date of first appointment as a director: 26 July 1997
Date of last re-election as a director: 28 April 2006

Ms. Tsui-Hui Huang is the Chairman and Managing Director of the Company and Chairman/President of Hotung International Company Ltd. ("HIC"). In 1998, she established Hotung Securities ("HSIC"), a subsidiary of Hotung Group. HSIC later merged into Taishin Financial Holding Co. under her guidance. In June 2005, Ms. Huang was elected as President of HIC, which is the management company of Hotung Group. Ms. Huang became Managing Director of the Company in August 2006 and was elected as Chairman of HIC in April 2009. She was elected as Chairman of HIHL in June 2010. Under her leadership, the Group has extended its investment base rapidly in China, and established portfolios which mainly focused in domestic demand of China. Ms. Huang started her career in mergers and acquisitions with Bankers Trust Company in 1988. Between 1998 and 2005, she was actively involved in the international securities industry while she was Chairman of the International Business Committee of Taiwan Securities Association. She was also appointed as the Board Director of Gretai Securities Market (also known as Over the Counter Market) during that period. Presently, Ms. Huang is serving the second term of the Chairman of Taiwan Venture Capital Association. She was appointed as the Member of Cornell University President Council. Ms. Huang obtained a B.A. degree in Business from National Taiwan University and an M.B.A. degree at Cornell University, U.S.A.

ANDY C.W. CHEN

INVESTMENT ADVISORS

DR. RICK TSAI

Investment Advisor and
Investment Committee Member

Dr. Lih Shyng(Rick) Tsai joins MediaTek as Co-Chief Executive Officer on 1 June 2017 and became the CEO of MTK on 1 February 2018. He served as Chairman and Chief Executive Officer of Chunghwa Telecom Co., Ltd., Taiwan's Largest integrated telecom service provider from January 2014 to December 2016. Under his leadership, Chunghwa telecom launched its 4G mobile broadband services in May 2015, the first in Taiwan, effectively propelling Taiwan's 4G penetration at the fastest rate worldwide. Dr. Tsai also took a lead role in promoting high-speed fiber broadband services and developing new businesses such as ICT, IoT and multimedia convergence as company's future growth drivers. He was elected by FinanceAsia as one of the three best CEOs in Taiwan in 2016.

From August 2011 to January 2014, Dr. Tsai concurrently served as Chairman and Chief Executive Officer of TSMC Solar Ltd., a provider of high-performance solar modules, and TSMC Solid State Lighting Ltd., a company providing integrated LED Lighting solutions, both of which were wholly-owned subsidiaries of Taiwan Semiconductor Manufacturing Company Limited (TSMC).

In December 1989, Dr. Tsai joined TSMC as an engineering manager and rose through the ranks over the following years. He held key executive positions such as Fab Director, EVP of Operations, EVP of Worldwide Sales and Marketing, President and COO. From July 2005 to June 2009 he served as President and CEO of TSMC. Then he became President of New Businesses till July 2011. During this period, Dr. Tsai also assumed the position of President of Vanguard International Semiconductor, a TSMC affiliate, from late 1998 to early 2000. Dr. Tsai received his B.S. in Physics from National Taiwan University and Ph.D. degree in Material Science and Engineering from Cornell University, USA.

OPERATING AND FINANCIAL REVIEW

2017 is Hotung Venture Group's 30th Year in operation and the 20th Year the Group is listed on the Main Board of SGX-ST. The Group aspires to continue its growth, leveraging resources such as investment experience, prudence, foresight, adaptability, and industry expertise to continue to deliver steady profits.

Hotung continues to invest in leading technology supply chain players and service providers in Taiwan and China, focusing on industries such as specialty materials, cloud tools, smart vehicle components, medical services, pharmaceutical research, as well as consumer packaged goods and consumer technology. Through the management's thorough assessment and careful selection process, total new long term investments in 2017 amounted to NT$1,143.4 million, an increase of 108.1% from the new investments in 2016.

The Group stayed focused on leveraging resources on sound risk management for investments and divestment, resulting in a total investment portfolio amounting to NT$4,906.7 million as at the end of 2017 and achieved earnings per share of NT$3.56, with net profit attributable to shareholders of NT$345.4 million in 2017 (2016: NT$317.9 million). As a result of its risk assessment and management, the Group recorded impairment losses of NT$97.7 million (2016: NT$132.4 million) in 2017, a 26.2% decrease of impairment losses from 2016. Total operating expenses decreased by 13.5% from NT$167.3 million to NT$144.7 million in 2017.

The Group's other comprehensive losses of NT$1,066.3 million were mainly attributable to the following changes: loss due to exchange differences on translation of foreign operations of NT$243.6 million due to the depreciation of US dollar against NT dollar, reclassification of previously accumulated fair value gains of NT$416.3 million in fair value reserve to profit or loss from investments disposed during the year and unfavorable change in fair value of available-for-sale investments of NT$439.3 million.

Net asset value per share decreased from NT$73.75 as at the end of 2016 to NT$63.48 as at the end of 2017. The decrease was mainly attributable to the decrease in fair value reserve, as explained in the preceding paragraph. Contribution to the Group's NAV from profits during the year was offset by the annual dividend payout of NT$3.1 per share for 2016.

The Group has put in place portfolio risk management policies and procedures to ensure sound risk assessment practices and asset quality. Valuation assessment procedures have also been implemented to ensure that valuation of the investment portfolio is in accordance with International Financial Reporting Standards ("IFRS"). As of 31 December 2017, the total investment portfolio was carried at NT$4,906.7 million (2016: NT$5,405.5 million), of which 17.1% of the investments were quoted financial assets. For unquoted financial assets, the Group has reviewed and applied appropriate valuation methods to value these investments. Where the investment cannot be reliably measured at fair value, the Group has carried the investment at cost.

As at 31 December 2017, the investment portfolio comprised the following:

Quoted financial assets including:

- Held-for-trading investments at fair value of NT$148.1 million;
- Available-for-sale investments at fair value of NT$345.7 million; and
- Other financial assets at fair value through profit or loss ("FVTPL") at fair value of NT$346.3 million.

Unquoted financial assets including:

- Available-for-sale investments at fair value of NT$2,446.3 million;
- Available-for-sale investments at cost of NT$38.6 million;
- Other financial assets at FVTPL at fair value of NT$1,543.2 million; and
- Other financial assets at FVTPL at cost of NT$38.5 million.

Mortech Corporation

Founded in 2004, Mortech corporation is a growing company in R&D, manufacturing and commercialization of industrial grade polyimide film (PI film) in Taiwan. Main applications include flexible circuit board, heat dispersing material, OLED and graphene for heat dispersing and high-end shielding material. PI film is known for its thermal stability, good chemical resistance, and excellent mechanical properties making it the perfect material for industrial use. There are only a few industrial grade PI film suppliers in the market, including chemical conglomerates such as DuPont, Kaneka, Ube, SKC, Taimide. The entry barrier is incredibly high for new players to compete.

Mortech is the only company able to produce film with thicknesses between 0.5 to 9 mm. The company continuously develops new solutions to meet different needs, such as OLED, graphene, flexible Photovoltaics (PV) and other applications. Mortech became profitable in 2015 and expects further growth to continue due to growing product demands in the market.

Kinestral Technologies, Inc.

Founded in 2010, Headquartered in the San Francisco Bay Area, Kinestral Technologies, Inc. develops technologies that transform glass into responsive, intelligent, and beautiful architectural elements.

The company has a growing global patent portfolio in manufacturing, device processing, and smart window control systems. Kinestral currently leverages manufacturing excellence in G-Tech Optoelectronics Corp (GTOC) Taiwan a Foxconn subsidiary and quality glass supply from AGC Asahi Glass.

With global increasing demand for green buildings and reduced energy consumption, complimented with the need for glass exterior & interior designs, Halio™ the company's flagship smart-tinting glass is the solution to all the above. Halio™ can vary its brightness according to current weather conditions, on-demand via mobile or even via more traditional methods simultaneously allowing natural light to shine in as well as effectively reducing building energy consumption. Internal home or office spaces can also be retrofitted to provide for privacy or other multiuse purposes. Kinestral now operates worldwide with J.V. partners in AGC & GTOC through Halio North America, Halio International, and Halio China.

Lepur

As one of the fastest growing food companies in China, Lepur manufactures and sells healthy food products including yogurt, granola and healthy snacks. LePur leverages a user-driven and data-driven model to improve five core operational efficiency of a traditional FMCG company, including R&D, supply chain, brand building and marketing, sales as well as continuous improvement of user experience. LePur was founded by Denny Liu in 2015. It reached over RMB 100 million in sales in 2017. Denny grew up in Shanghai and graduated summa cum laude from the Wharton School at the University of Pennsylvania.

Prince Pharmaceutical Co., Ltd.

Founded in 1962, Prince Pharmaceutical Co., Ltd. is a pharmaceutical company focused in synthetic pharmaceutical bulk material including Thiamine Disulfide, Potassium Guaiacolsulfonate, Potassium Cresolsulfonate, Thiamine Propyl Disulfide, Thiamine Disulfide, Thiamine Tetrahydrofurfuryl Disulfide, and Thiamine Tetrahy drofurfuryl Disulfide HCl and had executed PICs/ GMP to comply with regulatory requirements. The Company started a new GMP food products plant at Hsin-Pu, Hsin-Chu County in 2000 to expand its product range and devoted massive R&D resources in food supplement sector. Foreseeing the strong growth of pharma markets in Japan and other Asia markets, Prince Pharma is currently in midst of building its third API production facility which will ensure more customized services can be provided for international pharmaceutical customers in near future.

Nanjing Kuailun Technology Intelligent Co., Ltd.

Established in August 2014, Nanjing Kuailun Technology Intelligent Co., Ltd. is a technology-driven enterprise focused on short-distance travel solutions in Nanjing.

With its breakthrough technology, fashionable designs, Kuailun has launched a series of successful products, including electric scooters, single-wheel and duo-wheel self-balancing transporters as well as electric skateboards. F0, their star product, is an innovative duo-wheel electric scooter which is one of JD.com's (京东商城) crowdfunding platform all time most popular products. on Kuailun has obtained nearly 50 patents, including 10 patents of invention, as well as the authentication of new high-tech enterprise of Jiangsu Province. They are continuously developing innovative technology platforms and refining their products through data gathered from users for their next generation state-of-the-art product, such as "smart scooters for the aged" and "walking mechanical skeleton".

The founder and CEO, Liu Feng, is an entrepreneur of 90s, who had acquired 18 patents. In April 2017, Liu Feng was awarded" 30 under 30 of Forbes Asia list in 2017". Forbes commented on him: "Genius inventor who is aiming to help people escape traffic congestion.

iKALA Global Online Corp.

iKALA Global Online Corp., founded in 2011, specializes in high-scalability streaming technologies and video content production and has built a professional live production team "LIVEhouse" and launched a video PaaS platform "StraaS".

As one of the earliest live production team in Asia, LIVEhouse has produced more than 1200 live programs since 2013 and turned brand events into compelling and engaging content with high impression and audience retention. LIVEhouse features syndicated broadcasting to multiple live-streaming destinations, including Facebook, YouTube, Periscope, Tencent, Youku, and several China-based video streaming platforms. StraaS, a PaaS video platform for enabling video applications, features computer vision technology, video intelligence, chatbot, VR, paywall, chatroom, and China access, which fulfills various streaming service needs for customers from Taiwan, Japan and China. StraaS was soon recognized by Google after launch, and iKala was thus further included into Google's ecosystem by being selected as "Google Cloud Premier Partner" with early access to Google's latest AI and cloud technologies, and also the resell rights for GCP products worldwide.

iKala has shown great potential in generating revenue, with tremendous growth for the past 3 years. We have strong belief that iKala, with its solid team both in marketing and engineering backgrounds, will soon grow their exposure in the global video streaming market.

oToBrite Electronics, Inc.

oToBrite Electronics, Inc. was established in February 2013, the team members have over 15 years of experience in the development & deployment of imaging products and solutions for vehicles. The company is committed to automotive imaging solution product development, and is setting their eye on the "factory-installed market".

By tapping talents from Taiwan, the company is working with Taiwan's leading car brands and supply chain manufacturers to develop innovative technologies and high-quality products. In order to strengthen their sales channels in mainland China and expand their marketing and customer services, oToBrite Electronics set up its subsidiary in Kunshan, China. The company’s strategy has resulted in successful entrance into the China automotive market since March 2016 with the official launch of its "Smart Camera" product to customers. At the same time, the company developed Advanced Drive Assist System (ADAS) which has been approved by the vehicle companies, and developed new models and will be available for new vehicles in 2017.

Rui Guang Healthcare Group

Rui Guang Healthcare Group, established 2002 in Taipei, is one of the leading healthcare companies in the Greater China region. In view of the upcoming “aged society”, the group has three major entities: Rui Guang Healthcare, Real-estate development & construction corporation and a healthcare information technology company. Healthcare facilities include: sub-acute hospitals, nursing homes, long-term care facilities, visiting nurse services. By the end of 2017, the group has a total of 230 beds for sub-acute hospitals as well as 915 beds for nursing homes & long-term care facilities under management. The Group has been very aggressive in developing long term care markets in China as well, with a current total of 520 beds for assistant living and nursing home facilities in Zhenjiang, Jiangsu Province, has been in full operation since mid-2017., Given the rapid growth of healthcare sector for general and senior care within the Greater China region, Rui Guang Healthcare Group expects 15% to 20% CAGR throughout the next 10 years.

CORPORATE GOVERNANCE REPORT
DIRECTORS' STATEMENT
FINANCIAL REPORT

Note: A full standalone Sustainability Report for the financial year ended 31 December 2017 will be issued in due course before 31 December 2018.

CORPORATE GOVERNANCE REPORT

Hotung Investment Holdings Limited ("Company") and its subsidiaries (together, "Group") believe that good corporate governance practices are the foundation for a well-managed and efficient organization. The Board of Directors ("Board") remains committed to the principles of good corporate governance and to achieving a high standard of business integrity in compliance with the Code of Corporate Governance of 2 May 2012 ("Code") in managing the business and affairs of the Company, to protect shareholders' interests and to improve shareholders' value as well as corporate transparency. The Board will continue its efforts and invest further resources as would be appropriate to enhance its corporate governance. This report sets out the practices and activities with specific references made to the Code.

1. BOARD MATTERS

The Board's Conduct of Affairs

Principle 1:

Principal Duties of the Board

The primary role of the Board is to set the overall strategy and direction to the Group, and to enhance the long-term shareholder value.

The Board's principal functions are as follow:

(a) Guiding the Group's business strategies;

(b) Approving annual budgets and targets;

(c) Monitoring the performance and proper conduct of the Group's business;

(d) Establishing a framework of prudent and effective controls which enables risks to be assessed and managed;

(e) Identifying the key stakeholder groups and their perceptions to the Company are valued;

(f) Setting the Group's values and standards (including ethical standards);

(g) Overseeing the processes for evaluating the adequacy of internal control, risk management, financial reporting and compliance;

(h) Considering sustainability issues; and

(i) Appointing directors ("Directors") to Nominating, Audit and Remuneration Committees and senior management and receiving reports of these Committees.

All Directors are expected to objectively discharge their duties and responsibilities at all times as fiduciaries in the interests of the Group.

Delegation of Duties by the Board

In order to assist in the execution of the Board's responsibilities, the Board has established 3 Board Committees, namely, Audit Committee ("AC"), Nominating Committee ("NC") and Remuneration Committee ("RC"). These 3 Board Committees function within clearly defined terms of reference which are reviewed on a regular basis. The matrix of the Directors' appointments on the Board and their participation in various Board Committees is as follows:

Board Members	Board Committee Membership		
	AC	NC	RC
Tsui-Hui Huang		M	
Andy C.W. Chen	M		
Chun-Chen Tsou			M
Ng-Chee Tan	C	M	
Chang-Pang Chang		C	M
Boon-Wan Tan	M		C
Yi-Sing Chan			
Kazuyoshi Mizukoshi			
Kung-Wha Ding			
Yu-Mei Hsiao			

Note(s) :

"C" : Chairman of the relevant Board Committee
"M" : Member of the relevant Board Committee

Attendance at Board and Board Committee Meetings

The Board meets at least four times a year. In accordance with the Bye-laws of the Company, Directors may participate in any meeting of the Board by means of such telephone, electronic or other communications facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. Details of Directors' attendance at the Board and Board Committee meetings held in year 2017 are summarized as follows:

Directors	Board		Audit Committee		Nominating Committee		Remuneration Committee	
	No. Held	No. Attended	No. Held	No. Attended	No. Held	No. Attended	No. Held	No. Attended
Tsui-Hui Huang	4	4	–	–	2	2	–	–
Andy C.W. Chen	4	4	4	4	–	–	–	–
Chun-Chen Tsou	4	4	–	–	–	–	2	2
Ng-Chee Tan	4	4	4	4	2	2	–	–
Chang-Pang Chang	4	3	–	–	2	2	2	2
Boon-Wan Tan	4	4	4	4	–	–	2	2

Yang-Fu Kuo[4]	4	1	–	–	–	–	–	–
Yen Chen[5]	4	1	–	–	–	–	–	–

Note(s):

1. Mr. Kung-Wha Ding is newly-appointed Director effective from the annual general meeting of the Company ("AGM") of 13 April 2017.
2. Ms. Yu-Mei Hsiao is newly-appointed Director effective from 11 August 2017.
3. Mr. Cheng-Wang Huang was Director effective from 6 March 1997.
   He indicated his willingness not to seek re-election, and accordingly retired at the conclusion of the AGM of 13 April 2017.
4. Mr. Yang-Fu Kuo was Director effective from 26 July 1997.
   He indicated his willingness not to seek re-election and accordingly retired at the conclusion of the AGM of 13 April 2017.
5. Ms. Yen Chen was Director effective from 10 May 2016.
   She tendered her resignation as Director with effect from 10 August 2017 due to Ms. Yen Chen's retirement from Mega International Commercial Bank Co., Ltd., the substantial shareholder of the Company.

Matters Requiring Board Approval

Matters requiring the Board's decision and approval include the following:

(a) The annual and quarterly financial reports;

(b) Matters in relation to the share buy-backs undertaken by the Company;

(c) Matters in relation to the declaration of dividends;

(d) Matters in relation to the holding of the Company's AGM, including its related agenda;

(e) Matters in relation to major corporate actions (e.g. share consolidation);

(f) The annual budgets and targets of the Group;

(g) The appointment and re-appointment of Directors, including remuneration packages;

(h) Matters in relation to the Directors' and Officers' Insurance;

(i) Matters in relation to the appointment of Company Secretary;

(j) The appointment and re-appointment of external auditors and its remuneration;

(k) Matters in relation to the Board's opinion on the adequacy and effectiveness of the Group's risk management and internal controls; and

(l) The approval and ratification of the announcements released to the Singapore Exchange Securities Trading Limited ("SGX-ST").

Board Orientation and Training

A formal letter is sent to newly-appointed Directors upon their appointment comprising director's roles and responsibilities. The new Directors are provided with comprehensive and tailored induction when joining the Board. In addition, the new Directors are encouraged to attend the orientation program run by Singapore Institute of Directors at the Company's expense to ensure that they are familiar with the duties and roles as being a Director.

When there are significant and important changes to laws, regulations, policies and accounting standards in areas concerning director's duties and responsibilities, Directors are provided with briefings and updates from outside professionals. In the event of any major developments in areas of accounting and governance standards, relevant sessions are conducted by external auditors of the Company to assist Directors in performing their duties and responsibilities. In addition, Directors are encouraged to attend other appropriate courses, conferences and seminars, such as programs run by the Singapore Institute of Directors.

Board Composition and Guidance

Principle 2:

Board Size and Board Composition

The Board comprises 10 Directors, of whom 9 are non-executive. Of these non-executive Directors, 7 are considered by the NC to be independent of the Company's management and principal shareholders, which fulfills the Code's requirements that the independent Directors should make up at least half of the Board where the Chairman and the chief executive officer (or equivalent) is the same person.

All Board Committees are chaired by independent Directors.

Board Independence

The NC determines, on an annual basis, whether or not a Director is independent by taking into account the definition of "independent Director" under the Code and the self-declarations made by the Directors in the Independence Declaration Form every year. The Directors, who are determined to be independent by the NC, do not have such relationships or circumstances as set forth in Code 2.3 which may affect the independence of a Director. All of the independent Directors have not served on the Board beyond nine years from the date of his/her first appointment. Please refer to the "Board of Directors" section in the Annual Report for the independence of each Director.

Chairman and Managing Director

Principle 3:

Chairman and Managing Director

The Chairman and Managing Director of the Company is the same person, Ms. Tsui-Hui Huang. The principal roles and responsibilities of Ms. Tsui-Hui Huang include but not limited to the following:

(a) Leading the Board to ensure its effectiveness on all aspects of its role;

(b) Setting the agenda and ensuring that adequate time is available for discussion of all agenda items, in particular strategic issues;

(c) Ensuring that the Directors receive complete, adequate and timely information;

(d) Encouraging constructive relationships within the Board and between the Board and the management of the Company ("Management"); and

(e) Promoting high standards of corporate governance.

Lead Independent Director

Having regard to the nature of business and the structure of the Board and the Management, Dr. Ng-Chee Tan was appointed the lead independent Director on 11 November 2010. The shareholders are welcomed to contact the lead independent Director where they have concerns and for which contact through the normal channels of the Management have failed to resolve or is inappropriate.

The lead independent Director may, as and when he deems necessary and appropriate, call and lead meetings of the independent Directors without the presence of other Directors, and the lead independent Director would provide feedback to the Chairman after such meetings.

Board Membership

Principle 4:

Nominating Committee

The NC was established in 2002. The majority of the NC members, including the Chairman, are independent Directors. The members of NC are as follows:

Mr. Chang-Pang Chang (Chairman)
Ms. Tsui-Hui Huang
Dr. Ng-Chee Tan

The NC meets at least once a year. The NC's roles and responsibilities are set out in its written terms of reference. The NC reviews and makes recommendations to the Board on the appointment and re-appointment of Directors as well as members of Board Committees, develops the process for evaluation of the performance of the Board, Board Committees and Directors, and reviews the Board composition and efficiency of the Board and Board Committee meetings. In addition, the NC constantly bears in mind whether the diversity of the Board members is sufficient, and would, at the appropriate juncture, propose new members to the Board to enhance the competence of the Group.

The NC is of the view that the current size of the Board is appropriate, given the current nature and scope of the Company's operations. The diverse entrepreneurial, professional, financial and technical background and profile of the Directors as a group ensures a balance of representative skills, experience, gender and views in the Board, as well as the necessary core competencies in areas relevant to the Group's business, such as management, finance, technology and international experience.

Rotation of Directors

Other than Ms. Tsui-Hui Huang, who is Managing Director and who is exempt from the one-third rotation rule, all Directors are subject to retirement and re-election by shareholders at the AGM in accordance with the one-third rotation rule as part of Board renewal. For the avoidance of doubt, each Director (other than a Director holding office as Managing Director) retires at least once every three years. New Directors appointed by the Board shall hold office only until the next AGM and shall then be eligible for re-election. The NC makes recommendations to the Board as to whether the Board should support the re-appointment/re-election of a Director who is retiring. In making recommendations, the NC undertakes a process of review of the retiring non-executive Directors' performance during the period in which the non-executive Director has been a member of the Board. Shareholders are provided with relevant information on the candidates for election or re-election.

Continuous Review of Directors' Independence

The NC reviews annually the independence of each Director. Please refer to Principle 2 in this report on the basis of the NC's determination as to whether a Director should or should not be deemed independent.

Multiple Directorships

Each Director is required to complete the questionnaire half an year for the Director's board representations in other public companies. After the NC assesses each Director's contribution and devotion of time and attention to the affairs of the Company, the NC determines that each Director is able to and has been accurately carrying out his/her duties as a Director. The Board is of the opinion that to fix the maximum number of listed company board representations which Director may hold is not necessary considering the existing Directors' time commitment and contributions to the Company.

Alternate Directors

The Board does not appoint alternate directors, as recommended by Code 4.5.

Process for Selection and Nomination of New Directors

With respect to the process for appointment of new Directors, the NC reviews and evaluates the profession, knowledge and experience of the candidates, and meets with the candidates to assess suitability and to ensure that the candidates are aware of the expectations and the level of commitment required. If the NC is satisfied with the candidate's capability of being a Director, the NC will make recommendations accordingly to the Board for approval.

Key Information on Directors

Key information regarding Directors, such as academic and professional qualifications, Board Committees served on (as a member or chairman), date of first appointment and last appointment as a Director, directorships or chairmanships both present and those held over the preceding three years in other listed companies, and other principal commitments, are disclosed in the "Board of Directors" section in the Annual Report. The shareholding in the Company held by the Directors at the beginning and the end of the financial year ended 31 December 2017 are set out in the "Directors' Statement" section in the Annual Report. The names of Directors proposed for appointment or re-appointment are set out in the notice of AGM and any information or details of such Directors are made available to shareholders during the AGM to enable shareholders to make informed decisions.

Board Performance

Principle 5:

Board Evaluation Process

The Board, through the delegation of its authority to the NC, has used its best efforts to ensure that the Board comprises persons who represent the principal strategic shareholders of the Company as well as independent Directors who enhance governance in the interests of all shareholders and the Company. The NC has established a formal evaluation process to assess the effectiveness of the Board and Board Committees as a whole. The process includes having Directors complete a questionnaire for their views on various aspects of Board and Board Committees performance at the end of each financial year. The Company Secretary compiles the Directors' responses to the questionnaire into a consolidated report, which is reviewed and discussed during the NC meeting.

The performance criteria for the Board evaluation, which are not changed from year to year, are in respect of Board composition, Board meeting process, Board performance in relation to discharging its principal functions, including the review of the Company's budget and strategic plans and the monitor of the progresses throughout the year.

Individual Director Evaluation

In addition, the NC reviews and evaluates the performance of individual Directors in groups annually, especially who are subject to retirement at the forth-coming AGM and further decides whether to recommend such Directors to be re-elected at the AGM. Performance criteria include factors such as Director's participation and contribution at the Board and Board Committee meetings, industry and business knowledge, functional expertise, and dedication.

Access to Information

Principle 6:

Complete, Adequate and Timely Information

To ensure that the Board would fulfill its responsibilities, the Directors are provided with complete, adequate and timely information quarterly including financial position and performance of the Company and the Group prior to the Board meetings and as and when the need arises. Board papers are circulated to the Board as early as practicable so that members of the Board may better understand and discussions could be focused on the questions set out in the agenda. Any additional material or information requested by the Directors is promptly furnished. Information provided to the Board includes Board papers and related materials, background or explanatory information relating to matters to be brought before the Board, and copies of disclosure documents, budgets, forecasts and quarterly financial statements. In respect of budgets, any material variances between the projections and actual results are disclosed and explained. The yearly and quarterly financial statements of the Company are reviewed and discussed at the AC and thereafter recommended to the Board for its approval.

In addition, the Management is required to attend meetings of the Board to provide insight in relation to the matters being discussed and to respond to any questions that the Directors may have.

Independent Professional Advice

In furtherance of the discharge of their duties, the Directors may take independent professional advice, where necessary, at the Company's expense.

Company Secretary

Each Director has separate and independent access to the Company Secretary. The Company Secretary is responsible for ensuring that Board procedures are observed and the applicable rules and regulations are complied with. The Company Secretary assists the Chairman in ensuring good information flows within the Board and Board Committees and between the Management. The Company Secretary attends all Board and Board Committees meetings. The appointment and the removal of the Company Secretary are subject to the Board's approval.

2. REMUNERATION MATTERS

Procedures for Developing Remuneration Policies

Principle 7:

Remuneration Committee

The RC was established in 2002. Current members are entirely non-executive Directors with the majority of members including the Chairman being independent Directors. The members of RC are as follows:

Dr. Boon-Wan Tan (Chairman)
Mr. Chun-Chen Tsou
Mr. Chang-Pang Chang

The RC's roles and responsibilities are set out in its written terms of reference. The objective of RC is to establish a formal, transparent and objective procedure for fixing the remuneration packages of individual Directors. To achieve this objective, the key function of RC is to review and recommend to the Board a framework of remuneration for the Directors considering their contributions to the Board and taking into account comparability of standards within the industry and with other companies. The RC assists the Board to ensure that remuneration policies are able to attract, retain and motivate Directors without being excessive, and thereby maximize the shareholders' value. The RC also reviews the specific remuneration packages for each Director, including but not limited to Director's fees, basic salaries, allowances, bonuses, share options and benefits in kind, and submits for endorsement by the entire Board.

In discharging their duties, the RC members may seek advice from external consultants, where necessary. Market practices and standards are taken into account to ensure that the remuneration packages remain competitive.

Level and Mix of Remuneration

Principle 8:

Executive Director's remuneration is earned through base/fixed salary and variable or performance related income/bonuses. Directors fees proposed to be paid to Directors are subject to approval of shareholders at the AGM. Non-executive Directors are not over-compensated to the extent that their independence may be compromised. The Company does not currently have any contractual provisions to allow the reclaiming of incentive components of remuneration from executive Directors and key management personnel. Nonetheless, the RC, together with the Board, will monitor and re-assess at the appropriate juncture whether such contractual provisions should be implemented.

Disclosure on Remuneration

Principle 9:

Disclosure on Directors' Remuneration

Under the terms of the service agreement, the executive Director, Ms. Tsui-Hui Huang is entitled in aggregate, to an incentive bonus equivalent to 1% of the Group's audited profit after taxation and minority interest but before extraordinary item ("1% incentive bonus"). The 1% incentive bonus was first established during the Company's Initial Public Offering in 1997 and no change has been made since then.

The remuneration of Directors in bands of S$250,000 with breakdown of salaries/fees and bonuses in percentage of each Director for the financial year ended 31 December 2017 is set out as below. The Board believes that it is not in the best interest of the Company to fully disclose each Director's remuneration given the highly competitive industry conditions in venture capital business.

Remuneration Bands and Name of Directors	Salaries/Fees %	Bonuses %	Total %
S$500,000 to S$749,999			
Tsui-Hui Huang	57	43	100
Below S$250,000			
Andy C.W. Chen	100		100
Chun-Chen Tsou	100		100
Ng-Chee Tan	100		100
Chang-Pang Chang	100		100
Boon-Wan Tan	100		100
Yi-Sing Chan	100		100
Kazuyoshi Mizukoshi	100		100
Kung-Wha Ding	100		100
Yu-Mei Hsiao	100		100

There are no termination, retirement and post-employment benefits that may be granted to Directors, Managing Director and key management personnel currently.

Disclosure on Key Management Personnel's Remuneration

The breakdown of salaries and bonuses in percentage of the total remuneration paid to the Company's key management personnel (who are not Directors or the Managing Director of the Company) in aggregate for the financial year ended 31 December 2017 is set out as below. The Board believes that such disclosure provides sufficient overview of the remuneration of the Company's key management personnel considering the confidentiality of remuneration matters. Such disclosure is made in the best interests of the Company given the highly competitive conditions in the venture capital business.

<table>
<tr><th>Name of Key Management Personnel</th><th>Aggregate Salaries
%</th><th>Aggregate Bonuses
%</th><th>Total
%</th></tr>
<tr><td>Steven Huang</td><td rowspan="4">65</td><td rowspan="4">35</td><td rowspan="4">100</td></tr>
<tr><td>David Tso</td></tr>
<tr><td>Vincent Jang</td></tr>
<tr><td>Felicia Hsu</td></tr>
</table>

Disclosure on Remuneration of Directors' Immediate Family Member

No employees of the Company or any of its principal subsidiaries are the Directors' immediate family member; thus, no disclosure is required for employee whose remuneration exceeds S$50,000 per annum for the financial year ended 31 December 2017.

Employee Share Schemes

At present, the Company does not have any employee share option scheme.

3. ACCOUNTABILITY AND AUDIT

Accountability

Principle 10:

Immediately after discussed and resolved at the Board and AC meetings, the Board announces its quarterly and full-year financial reports through SGXNet, which represents a balanced and informed assessment of the Group's performance, position and prospects.

The Board takes adequate steps by establishing appropriate internal policies within the Group to ensure compliance with legislative and regulatory requirements, including the requirements under the listing rules of the SGX-ST.

The Management provides all members of the Board with management accounts and such explanation and information on a regular basis and as the Board may require from time to time to enable the Board to make a balanced and informed assessment of the Company's performance, position and prospects.

Risk Management and Internal Controls

Principle 11:

The Company believes that it is crucial to put in place a system of internal control of the Group's procedures and processes to safeguard shareholders' interests and the Group's assets, and to manage risks in the areas of financial, operational, legal/compliance and etc.

The Group has established an integrated risk identification and management framework. In the Group, risks are proactively identified and addressed. The ownership of these risks lies with the respective business and corporate heads with stewardship residing with the Board. The Board ensures that Management maintains a sound system of internal controls, and is assisted by the AC which conducts reviews of the adequacy and effectiveness of the Group's material internal controls and risk assessment annually.

During the year, the Group, with the participation of the business and corporate heads, carried out an exercise to consolidate and review the Group's risk register which identifies the key risks facing the Group and the internal controls in place to manage or mitigate those risks. The internal auditor was also involved in testing the effectiveness of certain material internal control systems. Material deficiencies (if any) and the consequent remedial action were reviewed by the AC and reported to the Board.

Based on the Company's above described risk identification and management framework, regular reviews performed by Management, and assurances from the Managing Director and the Chief Financial Officer ("CFO") that its risk management and internal control systems are effective, the Board, with the concurrence of the AC, is of the opinion that the Group's systems of risk management and internal controls are adequate and effective in addressing the financial, operational, compliance and information technology risks of the Group.

The Board notes that the systems of risk management and internal controls provide reasonable, but not absolute, assurance that the Group will not be adversely affected by events that might be reasonably foreseen as it works to achieve its business objectives. In this regard, the Board also notes that no system of internal controls and risk management can provide absolute assurance against the occurrence of material errors, poor judgment in decision making, human error, losses, fraud or other irregularities.

Financial Risk Management

The Group has documented a financial risk management policy, which is founded on the Group's overall business strategies and its risks management philosophy. The Group is exposed to a variety of financial risks, primarily changes in equity market prices and/or foreign currencies exchange rates in relation to its investment portfolios.

Market Risks

The changes in equity market prices and/or foreign currencies exchange rates have significant impact on the Group's investment portfolios. In general, the Group assumes lesser interest rates risk on the deposits placed with banks and financial institutions. The Group manages market risks by close monitoring of the investment portfolios and regular reviews of the performance of each of the investments. The control procedures are in place to manage and control market risks exposures within acceptable parameters, while optimizing returns on investments.

Liquidity Risks

The Group monitors and maintains a level of cash and cash equivalents deemed adequate by the Management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

Credit Risks

The Group places surplus funds in banks with reputable financial standing. The credit risk on liquid funds is limited because the counterparties are reputable banks with high credit-ratings assigned by international credit-rating agencies.

Please refer to "Financial Risk Management" of Notes to Financial Statements in the Annual Report for more details.

Operational Risk Management

Each department management team reviews its control procedure periodically and conducts risk self-assessment exercise on a regular basis. The internal auditor and external auditors are also involved in the review of such self-assessment exercise. Any material deficiency together with remedial action are reviewed by the AC and reported to the Board.

The internal control system comprises all the procedures, which combine to give the Board reasonable assurance of:

(a) The maintenance of proper accounting records and reliability of financial information used within or published by the Group;

(b) The safeguarding and proper documentation of the Group's assets; and

(c) The compliance with applicable legislation, regulation and best practices.

The Board has received assurance from the Managing Director and the CFO as well as the internal auditor: (a) that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances; and (b) regarding the effectiveness of the Company's risk management and internal control systems.

Considering the business scale of the Company, the Board's responsibility of overseeing the Group's internal control is delegated to the AC. The AC's oversight and supervision of the Group's internal controls are complemented by the work of the internal auditor and legal counsel, whose roles are to oversee various aspects of financial and legal control and risk management of the Group. The Company's external auditors, KPMG LLP carry out in the course of their statutory audit, a review of the effectiveness of the Company's key internal controls annually to the extent of their scope as laid out in their audit plan. Material internal control weaknesses noted during the audit, and the auditors' recommendations to address such weaknesses, are reported to the AC.

Audit Committee

Principle 12:

Audit Committee

The AC was established in 1997. Current members are entirely non-executive Directors, with the majority including the Chairman of AC being independent Directors:

Dr. Ng-Chee Tan (Chairman)
Dr. Boon-Wan Tan
Mr. Andy C.W. Chen

The NC is of the view that the members of the AC have sufficient financial, legal and management expertise and experience to discharge the AC's functions. To enable the AC to discharge its functions properly, the AC has the authority to invite Managing Director, CFO and the Management to attend its meetings to respond to any questions that the AC may have.

The AC performs the following functions:

(a) reviewing with the external auditors their audit plan and evaluates and advising on accounting controls, audit reports and any matters which the external auditors raise to the AC;

(b) reviewing with the internal auditor, the scope and the results of internal audit procedures and his evaluation of the overall internal control system;

(c) commissioning an independent audit on internal control for its assurance, or where it is not satisfied with the system of internal control;

(d) reviewing the quarterly and annual financial statements, including announcements to shareholders and the SGX-ST prior to submission to the Board;

(e) reviewing any significant findings of internal investigations;

(f) making recommendations to the Board on the appointment of external auditors, the audit fee and any questions of their resignation or dismissal;

(g) reviewing and approving the appointment, replacement, reassignment or dismissal of the internal auditor;

(h) reviewing the assistance given by the Company's officers to the external and internal auditors; and

(i) reviewing interested person transactions to ensure that internal control procedures are adhered to.

The AC currently meets the external and internal auditors quarterly in order to ensure that the external auditors and internal auditor have full and free opportunities to raise concerns with the AC and to have complete access to information that auditors may require. In addition, the AC has its own discretion to meet with the external and internal auditors, whenever the AC deems necessary, without the presence of Management.

External Auditors

The AC has undertaken a review of non-audit services provided by the external auditors annually and they would not, in the opinion of the AC, affect their independence. Details of the aggregate amount of fees paid to the external auditors for financial year ended 31 December 2017, and a breakdown of the fees paid in total for audit and non-audit services, respectively can be found on Page 86. The Company has complied with Rules 712 and 715 of the Listing Manual of the SGX-ST in relation to the appointment of its external auditors.

Whistle-blowing Policy

The Group has in place a whistle-blowing policy to encourage employees of the Group to report or raise concerns about possible improprieties. Anonymous disclosures will be accepted. Employees who have acted in good faith and confidence will be protected from reprisal. The whistle-blowing policy was announced and made available to all the employees of the Group since its adoption.

Summary of AC's Activities During the Financial Year Ended 31 December 2017

The AC reviewed the quarterly and full-year financial reports before submitting to the Board for its approval, reviewed the annual auditing plan of the external and internal auditors and assessed the results of audits performed by them, recommended the re-appointment of external auditors to be approved by the shareholders at the AGM, and confirmed the adequacy and effectiveness of the Group's risk management and internal controls in addressing financial, operational, compliance and information technology risks of the Group.

The AC has taken measures to keep abreast of the changes to accounting standards and issues which have a direct impact on financial statements.

None of the AC members is a former partner of the Group's existing auditing firm.

CORPORATE GOVERNANCE REPORT

Internal Audit

Principle 13:

The internal auditor reports directly to the Chairman of the AC on audit matters. The AC reviews the internal auditor's report and its activities on a quarterly basis. The AC also reviews and approves the annual internal audit plans and resources to ensure that the internal auditor has the resources to adequately and effectively perform its functions. The internal auditor has full access to all the Group's documents, records, properties and personnel, including access to the AC.

The internal audit is an in-house function within the Company staffed with person with relevant qualifications and experience. The internal auditor carries out its duties according to the International Standards for the Professional Practice of Internal Auditing set by The Institute of Internal Auditors and the Auditor's Handbook approved by the AC, which sets out the scope of auditing of internal controls designed and implemented to assure the integrity of the operations and management of the Company.

4. SHAREHOLDER RIGHTS AND RESPONSIBILITIES

Shareholder Rights

Principle 14:

To facilitate shareholders' ownership rights, the Company releases all material information, to its best knowledge, through the SGXNet to keep all shareholders sufficiently informed.

All shareholders of the Company receive a notice of AGM and a CDRom containing the Annual Report (printed copies are available upon request). The simplified version of the AGM notice is also advertised in newspapers. At the AGM, shareholders are given the opportunity to air their views and raise their concerns with the Directors or question the Management on matters regarding the Company and its operations. Shareholders are also informed of the rules, including the voting procedures that govern general meetings of shareholders, during the AGM. The Bye-laws of the Company allow shareholders to appoint proxies to attend and vote at all general meetings on their behalf. The Company regularly makes its best efforts to respond to substantial questions raised by shareholders.

Communication with Shareholders

Principle 15:

The Company endeavors to keep all its shareholders informed of the performance and changes in the Group by making timely and adequate announcement through SGXNet. The Company has adopted quarterly reporting of its financial results from 2003. Quarterly results are published through the SGXNet. All information on the Company's new initiatives will be first disseminated via SGXNet.

The Company does not practice selective disclosure. Price sensitive information is first publicly released before the management meets with any group of investors or analysts or simultaneously with such meetings. Results and annual reports are announced or issued within the mandatory period.

The Company has been declaring dividends to its shareholders over 90% of the Profit attributable to Owners of the Company in the past 5 years. Annual dividend proposed for the financial year ended 31 December 2017 is shown on page 84, which is subject to the approval of the shareholders at the AGM to be held on 17 April 2018.

Conduct of Shareholder Meetings

Principle 16:

The Company supports the principle of encouraging shareholder participation and voting at the AGM. At the AGM, shareholders are encouraged to communicate their views and discuss with the Board and Management matters affecting the Company. The Chairman of the Board, the respective Chairman of the AC, NC and RC, Company Secretary, external auditors and the Company's Singapore legal counsel are present at the AGM to address any queries that the shareholders may have.

To safeguard shareholder interests and rights, a separate resolution is proposed for each substantially separate issue at the AGM. All the resolutions are put to vote by poll and a timely announcement showing total number of shares represented by votes for and against each resolution and the respective percentage are released through SGXNet after the AGM. Minutes of the AGM include substantial and relevant comments or queries from shareholders in relation to the agenda of the AGM and responses from the Board and Management, which are available to shareholders for their inspection upon their request.

ADDITIONAL INFORMATION

Securities Transactions

The Company has issued a policy on dealings in the securities of the Company and its subsidiaries to its Directors and senior executives setting out the implications of insider trading and guidance on such dealings, including the prohibition on dealings with the Company's securities on short-term considerations. It has followed the best practices on dealings in securities. In line with Listing Manual of the SGX-ST, the Company Secretary issues circulars to its Directors and officers informing that the Company and its officers must not deal in listed securities of the Company two weeks before the release of the first three quarters results, and one month before the release of full-year results. Directors and executives are required to report to the Company Secretary whenever they deal in the Company's shares.

Financial Risk and Capital Risk Management

The Board oversees the Group's financial risk and capital risk management policies. Where there are significant risks in respect of the Group's operations, appropriate risk management practices will be put in place to address these risks.

Interested Person Transactions Policy

The Company has adopted an internal policy in respect of any transactions with interested persons that set out the procedures for review and approval of the Company's interested person transactions.

The Group's interested person transactions for the financial year ended 31 December 2017 are disclosed in table below:

Name of interested person	Aggregate value of all interested person transactions during the financial year under review (excluding transactions less than S$100,000 and transactions conducted under shareholders' mandate pursuant to Rule 920)	Aggregate value of all interested person transactions conducted under shareholders' mandate pursuant to Rule 920 (excluding transactions less than S$100,000)
Tai Lung Capital Inc. (controlling shareholder of the Company)*	NT$4,020,660	–

Note(s):

Rental income received by Tai Lung Capital Inc. from Hotung International Company Limited. The value of NT$4,020,660 refers to the total contract sum for the financial year under review.

DIRECTORS' STATEMENT

The Directors are pleased to present their statement together with the audited consolidated financial statements of the Group and the statement of financial position of the Company for the financial year ended 31 December 2017.

In the opinion of the Directors, the consolidated financial statements of the Group and the statement of financial position of the Company as set out on pages 48 to 92 are drawn up so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2017, and the financial performance, changes in equity and cash flows of the Group for the financial year then ended, and at the date of this statement there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorized these financial statements for issue.

Directors

The Directors of the Company ("Directors") in office at the date of this statement are:

Tsui-Hui Huang	(Executive)
Andy C.W. Chen	
Chun-Chen Tsou	
Ng-Chee Tan	
Chang-Pang Chang	(Re-appointed on 13 April 2017)
Boon-Wan Tan	
Yi-Sing Chan	
Kazuyoshi Mizukoshi	
Kung-Wha Ding	(Appointed on 13 April 2017)
Yu-Mei Hsiao	(Appointed on 11 August 2017)

Pursuant to Bye-law 94 of the Company's Bye-laws, except for the Directors holding office as Managing Director, at each annual general meeting, one-third of the Directors shall retire from office by rotation. Given the fact that Ms. Yu-Mei Hsiao who is to retire at the annual general meeting to be held on 17 April 2018 ("2018 AGM") pursuant to Bye-law 100 of the Company's Bye-laws shall not be taken into account in determining the number of Directors who are to retire by rotation, the following Directors, being the longest in service, will be retiring at the 2018 AGM pursuant to Bye-law 95 of the Company's Bye-laws:

Mr. Chun-Chen Tsou;
Mr. Kazuyoshi Mizukoshi; and
Dr. Boon-Wan Tan.

Dr. Boon-Wan Tan has indicated his intention not to seek re-election, and will accordingly retire at the conclusion of the 2018 AGM. Mr. Chun-Chen Tsou and Mr. Kazuyoshi Mizukoshi have offered themselves for re-election at the 2018 AGM.

Pursuant to Bye-law 100 of the Company's Bye-laws, Ms. Yu-Mei Hsiao, who was appointed as a Director by the Board of Directors of the Company to hold office with effect from 11 August 2017 in accordance with Bye-law 93 of the Company's Bye-laws, will retire at the 2018 AGM. Ms. Yu-Mei Hsiao has offered herself for re-election at the 2018 AGM.

Arrangements to enable Directors to acquire benefits by means of the acquisition of shares and debentures

Neither at the end of the financial year nor at any time during the financial year was there subsisting any arrangement whose object was to enable the Directors to acquire benefits by means of the acquisition of shares or debentures in the Company or any other body corporate.

Directors' interests in shares and debentures

The Directors holding office at the end of the financial year had no interests in the share capital and debentures of the Company and its related corporations as recorded in the register of directors' shareholdings kept by the Company except as follows:

	Interest held		Directors' deemed interest	
	At beginning of the financial year	At end of the financial year	At beginning of the financial year	At end of the financial year
In the Company				
Ordinary shares of NT$50 each				
Tsui-Hui Huang	–	–	21,342,912	21,342,912 [(1)]
Chun-Chen Tsou	–	–	2,171,869	2,171,869 [(2)]

(1) Tsui-Hui Huang has deemed interests in the following: (i) 17,415,100 shares held by Tai Lung Capital Inc.; (ii) 1,894,477 shares held by Chung Lung Investment Co., Ltd.; (iii) 1,339,785 shares held by Alps International Co., Ltd., which are registered in the name of DB Nominees (S) Pte Ltd.; and (iv) 693,550 shares held by Daiwa Capital Markets Singapore Limited.

(2) These shares are registered in the name of Daiwa Capital Markets Singapore Limited.

The Directors' interests as at 21 January 2018 were the same as those at the end of the financial year.

Apart from the above, the Directors also have a minor interest in the share capital of the Company's related corporations but these amounts are not material in nature and thus have not been included above.

Directors' receipt and entitlement to contractual benefits

Service agreement

Tsui-Hui Huang, Chairman and Managing Director of the Company, entered into a service agreement with the Company with effect from 20 June 2005. The agreement was last renewed on 20 June 2017 for a period of 3 years.

Under the terms of the service agreement, Tsui-Hui Huang is entitled to an incentive bonus equivalent to 1% of the Group's audited profit after tax and minority interests attributable to owners of the Company as set out in the audited accounts of the Group for the relevant financial year ("Incentive Bonus"). The Incentive Bonus payable to Tsui-Hui Huang amounted to NT$3.5 million for the current financial year ended 31 December 2017.

Directors' fees

In addition to the above-mentioned service agreement, each Director receives such Directors' fees as may be approved by shareholders of the Company.

Other contracts

In the normal course of business, certain of the Company's subsidiaries entered into an office rental agreement with a corporate shareholder of the Company, Tai Lung Capital Inc. ("Tai Lung"), which Cheng-Wang Huang (being an immediate family member of Tsui-Hui Huang) is member of and may be entitled to receive a benefit pursuant to such office rental agreement.

Save for the above, no other Director has, since the end of the previous financial year, received or become entitled to receive a benefit (other than a benefit which has been included in the aggregate amount of Directors' emoluments or fees paid to a firm which a Director is a member or any emoluments received from related corporations as shown in the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member or with a company in which he has a substantial financial interest.

DIRECTORS' STATEMENT

Option to take up unissued shares

During the financial year, no option to take up unissued shares of the Company or any corporation in the Group was granted.

Option exercised

During the financial year, there were no shares of the Company or any corporation in the Group issued by virtue of the exercise of an option to take up unissued shares.

Unissued shares under option

At the end of the financial year, there were no unissued shares of the Company or any corporation in the Group under option.

Other information required by the Singapore Exchange Securities Trading Limited

(i) Material contracts

Other than as disclosed elsewhere in this annual report, no material contracts to which the Company or any subsidiary is a party and which involve Directors' interest subsisted at the end of the financial year, or have been entered into since the end of the previous financial year.

(ii) Appointment of auditors

The Company has complied with Rules 712 and 715 of the Listing Manual of the SGX-ST in relation to its auditors.

(iii) Review of the provision of non-audit services by the auditor

The Audit Committee has undertaken a review of non-audit services provided by the auditors and they would not, in the opinion of the Audit Committee, affect their independence.

(iv) Internal controls

The Group has established an integrated risk identification and management framework. In the Group, risks are proactively identified and addressed. The ownership of these risks lies with the respective business and corporate heads with stewardship residing with the Board. The Board ensures that Management maintains a sound system of internal controls, and is assisted by the Audit Committee which conducts reviews of the adequacy and effectiveness of the Group's material internal controls and risk assessment annually.

During the year, the Group, with the participation of the business and corporate heads, carried out an exercise to consolidate and review the Group's risk register which identifies the key risks facing the Group and the internal controls in place to manage or mitigate those risks. The internal auditor was also involved in testing the effectiveness of certain material internal control systems. Material deficiencies (if any) and the consequent remedial action were reviewed by the Audit Committee and reported to the Board.

Based on the Company's above described risk identification and management framework, regular reviews performed by Management, and assurances from the Managing Director and the CFO that its risk management and internal control systems are effective, the Board, with the concurrence of the Audit Committee, is of the opinion that the Group's systems of risk management and internal controls are adequate and effective in addressing the financial, operational, compliance and information technology risks of the Group.

DIRECTORS' STATEMENT

The Board notes that the systems of risk management and internal controls provide reasonable, but not absolute, assurance that the Group will not be adversely affected by events that might be reasonably foreseen as it works to achieve its business objectives. In this regard, the Board also notes that no system of internal controls and risk management can provide absolute assurance against the occurrence of material errors, poor judgment in decision making, human error, losses, fraud or other irregularities.

On behalf of the Directors

Tsui-Hui Huang
Director

INDEPENDENT AUDITORS' REPORT

Members of the Company Hotung Investment Holdings Limited

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Hotung Investment Holdings Limited ('the Company') and its subsidiaries ('the Group'), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2017, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 48 to 92.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2017, and of the consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters – Valuation of unquoted investments (NT$4,067 million)

(Refer to Notes 8 and 9 to the financial statements)

Valuation of unquoted investments

The Group's portfolio of investments comprised quoted investments of NT$840 million and unquoted investments of NT$ 4,067 million. Of the portfolio of unquoted investments, NT$1,408 million were classified as Level 2 financial instruments which were valued using market observable prices or inputs which reduced the need for management judgement and estimation and thus, reduced the uncertainty associated with the determination of fair values.

The remaining portfolio of NT$2,659 million comprised Level 3 financial instruments valued at NT$2,582 million and investments measured at cost less impairment of NT$77 million. The Level 3 financial instruments comprised mainly unquoted equity securities and fund investments which were valued based on methodologies that applied unobservable inputs, resulting in a significant degree of estimation uncertainty and management judgement in the valuation. The investments which were measured at cost resulted from the Group's assessment that the fair values of such investments could not be reliably measured due to the wide range of fair value measurements.

How the matter was addressed in our audit

For the portfolio of Level 3 financial instruments, we assessed and tested the design and operating effectiveness of the controls over the preparation, review and approval of the valuations.

We also performed additional procedures over a selection of investments for each type of valuation methodology adopted by the Group. Valuation of the Group's investment in fund investments was based on the net asset values reported by the external fund managers. In assessing the reliability of using unaudited financial information provided by the fund managers, we performed a retrospective review of prior year's valuations by assessing the difference between the unaudited and audited 31 December 2016 net assets and partners' capital, where we noted the difference to be immaterial. This trend was consistent for previous financial years as well, an indication of the reliability of the fund managers' valuations.

For the portfolio of investments measured using transaction prices, our procedures to evaluate the reasonableness of the valuations included industry trend and investee analysis as well as application of market multiples approach as a cross-check of the Group's valuations. Our valuation specialists were involved in the market multiples approach to assess if comparable companies and multiples selected were appropriate. Similarly, the valuation specialists were also involved in the review of investment portfolio that was valued using the market multiples approach.

The Group's portfolio of investments measured at cost represented an insignificant proportion of the Group's total portfolio and were individually insignificant.

Key audit matters – Valuation of unquoted investments (NT$4,067 million)

(Refer to Notes 8 and 9 to the financial statements)

Valuation of unquoted investments	*How the matter was addressed in our audit*
	Overall, the valuation estimates for the Group's portfolio of investments were balanced within a reasonable range of outcomes. We also noted that the Group's disclosures were appropriate.

Key audit matters – Impairment of available-for-sale investments (NT$98 million)

(Refer to Note 21 to the financial statements)

Impairment of available-for-sale investments	*How the matter was addressed in our audit*
The Group's assessment of impairment for available-for-sale quoted investments is based on significant or prolonged decline in fair value. The Group's assessment of impairment for available-for-sale unquoted investments is based on assessment of objective evidence of impairment. Based on the Group's impairment policy, an impairment amount of NT$98 million was recorded as at 31 December 2017.	We independently tested the population of quoted available-for-sale investments to determine that the Group has impaired those investments with significant or prolonged decline in fair value. We noted no additional impairment to be made. We reviewed the population of unquoted available-for-sale investments for objective evidence of impairment and held discussions with management. We further checked that the Group had correctly recorded the fair value decline of such investments in profit or loss. We noted that impairments made were in accordance with the Group's policy and noted no additional impairment to be made.

Other information

Management is responsible for the other information. The other information comprises the Financial highlights, Chairman's statement, Board of directors, Key management, Investment advisors, Operating and financial review, Investment manager report, Corporate governance report, Directors' statement and Shareholding statistics included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITORS' REPORT

Members of the Company Hotung Investment Holdings Limited

Responsibilities of management and directors for the financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Ian Hong Cho Hor.

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors on 19 March 2018.

1 Domicile and activities

Hotung Investment Holdings Limited (the "Company") is incorporated in Bermuda with its registered office at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. The Company is listed on the main board of the Singapore Exchange Securities Trading Limited.

The principal activity of the Company is investment holding and its investment management operations are performed by its subsidiary, Hotung International Co., Ltd., which has its principal place of business at 10F, 261, Sung-Chiang Road, Taipei, Taiwan, Republic of China. The principal activities of the subsidiaries are disclosed in note 7 to the financial statements.

The consolidated financial statements relate to the Company and its subsidiaries (referred to as the "Group").

2 Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs"), as issued by the International Accounting Standards Board ("IASB").

2.2 Basis of measurement

The financial statements have been prepared under the historical cost basis, except for certain financial instruments, which are measured at their fair values based on the fair valuation methods as disclosed in the accounting policies below.

2.3 Functional and presentation currency

These financial statements are presented in New Taiwan dollars ("NT$"), which is the Company's functional currency. All financial information presented in New Taiwan dollars have been rounded to the nearest thousand, unless otherwise stated.

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with IFRSs requires management to exercise its judgement in the process of applying the Group's accounting policies. It also requires the use of accounting estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Critical accounting estimates and assumptions used that are significant to the financial statements, and areas involving a higher degree of judgement or complexity, are disclosed in note 4.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by Group entities.

3.1 Basis of consolidation

(i) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration payable is recognised at fair value at the acquisition date and included in the consideration transferred. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Changes in the Group’s interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(iii) Non-controlling interests

Non-controlling interests are measured initially at either their proportionate share of the acquiree’s identifiable net assets at the date of acquisition or at fair value. The measurement basis taken is elected on a transaction-by-transaction basis.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(v) Subsidiaries in the separate financial statements

Investments in subsidiaries are stated in the Company’s statement of financial position at cost less accumulated impairment losses.

3 Significant accounting policies (cont'd)

3.2 Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on translation are generally recognised in profit or loss, except for the translation of available-for-sale equity instruments which are recognised in other comprehensive income (except on impairment in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss).

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to New Taiwan dollars at exchange rates at the end of the reporting period. The income and expenses of foreign operations are translated to New Taiwan dollars at exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income, and presented in the currency translation reserve in equity. However, if the foreign operation is a non-wholly owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed off such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, foreign exchange gains and losses arising from such a monetary item that are considered to form part of a net investment in a foreign operation are recognised in other comprehensive income, and are presented in the currency translation reserve in equity.

3 Significant accounting policies (cont'd)

3.3 Financial instruments

The Group classifies non-derivative financial assets into the following categories: financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets.

The Group classifies non-derivative financial liabilities as other financial liabilities.

(i) Recognition and initial measurement

The Group initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

Financial assets at fair value through profit or loss are recognised initially at fair value, with transaction costs recognised in profit or loss. Financial assets not at fair value through profit or loss are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition or issue.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(ii) Classification and subsequent measurement

Financial assets at fair value through profit or loss

Investments are classified as fair value through profit or loss (FVTPL) where they are either held-for-trading or where they are designated as such upon initial recognition.

A financial asset is classified as held-for-trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking.

A financial asset other than a financial asset held-for-trading may be designated as at fair value through profit or loss upon initial recognition if the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis.

Financial assets at fair value through profit or loss are measured at fair value, with any resultant gain or loss recognised in profit or loss.

3 Significant accounting policies (cont'd)

3.3 Financial instruments (cont'd)

(ii) Classification and subsequent measurement (cont'd)

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, and trade and other receivables.

Cash and cash equivalents comprise cash balances and short-term deposits that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or are not classified in any of the above categories of financial assets. Available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, except as indicated below, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for-sale debt instruments, are recognised in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities.

Derivative financial instruments

Derivative financial instruments create rights and obligations that have the effect of transferring between the parties to the instrument one or more of the financial risks inherent in an underlying primary financial instrument. Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period except for derivatives that are linked to and must be settled by delivery of equity instruments that do not have a quoted market price in an active market, which are measured at cost. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

An embedded derivative is separated from the host contract and accounted for as a derivative if all of the following conditions are met:

- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract;
- a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- the hybrid (combined) instrument is not measured at fair value with changes in fair value recognised in profit or loss.

3 Significant accounting policies (cont'd)

3.3 Financial instruments (cont'd)

(ii) Classification and subsequent measurement (cont'd)

Derivative financial instruments (cont'd)

If the above conditions are met but the embedded derivative is not capable of being measured separately from the host contract either at inception or at subsequent periods, the entire combined contract is designated as a fair value through profit or loss financial instrument.

Non-derivative financial liabilities

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs and subsequently measured at their amortised cost using the effective interest method.

Other financial liabilities comprise advance receipts and trade and other payables.

(iii) Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

When available, the Group measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If the market for a financial instrument is not active, then the Group establishes fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if available), comparable multiples and reference to the current fair value of other instruments that are substantially the same. The chosen valuation techniques makes maximum use of market inputs, relies as little as possible on estimates specific to the Group, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments. Fund investments are measured at reported net asset values. Inputs to valuation techniques reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument. For investments where the variability in the range of reasonable fair value estimates is significant and the probabilities of the various estimates within the range of reasonable inputs are not sufficiently reliable to determine a fair value, the Group will measure such investments at cost less impairment.

(iv) Impairment

Non-derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting period to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event(s) has occurred after the initial recognition of the asset, and that the loss event(s) has an impact on the estimated future cash flows of that asset that can be estimated reliably.

3 Significant accounting policies (cont'd)

3.3 Financial instruments (cont'd)

(iv) Impairment (cont'd)

Non-derivative financial assets (cont'd)

Objective evidence that financial assets (including equity securities) are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults or disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

Loans and receivables

The Group considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

In assessing collective impairment, the Group uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

Impairment losses on assets carried at amortised cost are measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Impairment losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on impaired assets continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment losses to decrease, the decrease in impairment losses is reversed through profit or loss.

Available-for-sale financial assets – equity security

Impairment losses on available-for-sale investment securities are recognised by reclassifying the loss accumulated in the fair value reserve in equity to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortisation, and the current fair value, less any impairment losses previously recognised in profit or loss. Any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised in other comprehensive income.

(v) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Group is recognised as a separate asset or liability in the statement of financial position.

3 Significant accounting policies (cont'd)

3.3 Financial instruments (cont'd)

(v) Derecognition (cont'd)

On derecognition of a financial asset, the difference between the carrying amount of the assets and consideration received is recognised in profit or loss. In respect of available-for-sale investments, the gains or losses recognised include the cumulative gain or loss previously recognised in the fair value reserve within equity.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

3.4 Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that future economic benefits embodied within the component will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment, unless it is included in the carrying amount of another asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

Depreciation is recognised from the date that the property, plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

3 Significant accounting policies (cont'd)

3.4 Property, plant and equipment (cont'd)

(iii) Depreciation (cont'd)

The estimated useful lives are as follows:

Office equipment	3-5 years
Motor vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.5 Share capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Repurchase of share capital (treasury shares)

When shares recognised as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the treasury share reserve. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is presented in contributed surplus reserve.

3.6 Revenue recognition

Revenue for the Group comprises investment income arising from dividend income, distribution income, interest income, gains/losses from sale of investments, net changes in fair value of investments and consultancy fee income.

Dividend/distribution income

Dividend/distribution income is recognised in profit or loss on the date that the right to receive payment is established. For dividend income from quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date when the shareholders have approved the payment of a dividend.

Interest income

Interest income is recognised as it accrues in profit or loss using the effective interest method.

Consultancy fee income

Consultancy fee income are recognised in the accounting period in which the services are rendered.

3 Significant accounting policies (cont'd)

3.7 Employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

3.8 Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

3.9 Income tax expense

Income tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for temporary differences related to investments in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary difference and it is probable that they will not reverse in the foreseeable future.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

3 Significant accounting policies (cont'd)

3.10 Earnings per share

The Group presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

3.11 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components whose operating results are reviewed regularly by the Group's chief operating decision maker to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Group's chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

3.12 New standards and interpretations not adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2017, and have not been applied in preparing these consolidated financial statements. Those which may be relevant to the Group are set out below. The Group does not plan to adopt these standards early.

IFRS 9 *Financial Instruments*

IFRS 9 *Financial Instruments* sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement*.

Classification – Financial assets and financial liabilities

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. The three principal classification categories are: measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification.

Impairment – Financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis.

The new impairment model will apply to financial assets measured at amortised cost or FVOCI, except for investments in equity instruments, and to contract assets.

3 Significant accounting policies (cont'd)

3.12 New standards and interpretations not adopted (cont'd)

Impairment – Financial assets (cont'd)

Under IFRS 9, loss allowances will be measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since initial recognition and 12-month ECL measurement applies if it has not. An entity may determine that a financial asset's credit risk has not increased significantly if the asset has low credit risk at the reporting date. However, lifetime ECL measurement always applies for trade receivables and contract assets without a significant financing component.

Hedge accounting

When initially applying IFRS 9, the Group may choose as its accounting policy to continue to apply the hedge accounting requirements of IAS 39 instead of the requirements in IFRS 9.

IFRS 9 requires the Group to ensure that hedge accounting relationships are aligned with the Group's risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. IFRS 9 also introduces new requirements on rebalancing hedge relationships and prohibiting voluntary discontinuation of hedge accounting. Under the new model, it is possible that more risk management strategies, particularly those involving hedging a risk component (other than foreign currency risk) of a non-financial item, will be likely to qualify for hedge accounting.

Assessment

Based on the Group's assessment at 31 December 2017, the impact from application of IFRS 9 will arise mainly from the classification of financial assets. The Group will apply the exemption allowing it not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 will generally be recognised in retained earnings and reserves as at 1 January 2018.

The Group has reviewed its policy of classification of the financial assets and determined that financial assets which may be sold from time to time to realise capital appreciation or for liquidity management will be classified as FVTPL. As at 31 December 2017, the Group holds financial assets classified as FVTPL, available-for-sale and loans and receivables measured at amortised cost. Based on its assessment, the Group does not believe that the new classification requirements will have a material impact on its accounting for financial assets currently classified as FVTPL or measured at amortised cost – these assets will retain their classification on application of IFRS 9. The impact on classification will be in relation to the portfolio of available-for-sale financial assets which the Group has designated as FVTPL on application of IFRS 9. In this regard, the associated balance of fair value reserve will be reclassified to retained earnings on the initial date of application, being 1 January 2018.

The Group does not expect the classification of financial liabilities to change.

The other key changes arising from IFRS 9 in respect of impairment and hedge accounting are not expected to have a significant impact on the Group as the Group does not have significant receivables and does not engage in hedge accounting.

3 Significant accounting policies (cont'd)

3.12 New standards and interpretations not adopted (cont'd)

Assessment (cont'd)

The assessment made by the Group is preliminary as not all transition work requirements have been finalised and therefore may be subject to adjustment.

The estimated impact of the adoption of IFRS 9 on the Group's equity as at 1 January 2018 is based on assessments undertaken as at 31 December 2017 and is summarised below. The actual impact of adopting the standard at 1 January 2018 may change because the Group is currently finalising the transition assessment.

NT$'000	As reported at 31 December 2017	Estimated adjustments due to adoption of IFRS 9	Estimated adjusted opening balance at 1 January 2018
Fair value reserve	**(63,181)**	**63,181**	**–**
Accumulated losses	**(959,777)**	**(63,181)**	**(1,022,958)**

IFRS 15 *Revenue from Contracts with Customers*

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and IFRIC 13 *Customer Loyalty Programmes*.

IFRS 15 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted.

Assessment

Based on the Group's assessment at 31 December 2017, the impact from application of IFRS 15 is not expected to have a significant impact as the Group's main sources of revenue were derived from sale of investments, dividend income and changes in fair value of other financial assets at fair value through profit or loss and held-for-trading investments.

IFRS 16 – Leases

IFRS 16 introduces a single accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases.

IFRS 16 replaces existing leases guidance including IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease.*

The standard is effective for annual periods beginning on or after 1 January 2019. Early adoption is permitted for entities that apply IFRS 15 *Revenue from Contracts with Customers* at or before the date of initial application of IFRS 16.

Assessment

As at 31 December 2017, the Group is assessing the potential impact on its financial statements resulting from the application of IFRS 16.

4 Use of estimates and judgements

(i) Critical accounting judgements in applying the Group's accounting policies

Financial asset and liability classification

The Group's accounting policies provide scope for assets and liabilities to be designated at inception into different accounting categories in certain circumstances. Details of the Group's classification of financial assets and liabilities are given in note 3.3(ii).

(ii) Key sources of estimation uncertainty

Determining fair value

The Group's accounting policy on fair value measurements is discussed in note 3.3(iii).

When measuring the fair value of an asset or liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted price (unadjusted) in an active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value hierarchy

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

	Note	Level 1	Level 2	Level 3	Total
		NT$'000	NT$'000	NT$'000	NT$'000
2017					
Held-for-trading investments	11				
Quoted equities, at fair value		148,075	–	–	148,075
Other financial assets at FVTPL	9				
Quoted equities, at fair value		346,296	–	–	346,296
Unquoted equities, at fair value		–	1,094,146	449,115	1,543,261
Available-for-sale investments	8				
Quoted equities, at fair value		345,714	–	–	345,714
Unquoted equities, at fair value		–	313,746	2,132,542	2,446,288
		840,085	1,407,892	2,581,657	4,829,634

4 Use of estimates and judgements (cont'd)

(ii) Key sources of estimation uncertainty (cont'd)

Fair value hierarchy (cont'd)

	Note	Level 1	Level 2	Level 3	Total
		NT$'000	NT$'000	NT$'000	NT$'000
2016					
Held-for-trading investments	11				
Quoted equities, at fair value		46,578	–	–	46,578
Other financial assets at FVTPL	9				
Quoted equities, at fair value		33,256	–	–	33,256
Unquoted equities, at fair value		–	825,984	243,211	1,069,195
Available-for-sale investments	8				
Quoted equities, at fair value		857,859	–	–	857,859
Unquoted equities, at fair value		–	540,389	2,743,878	3,284,267
		937,693	1,366,373	2,987,089	5,291,155

In 2017, there were no transfers from Level 2 to Level 1 for available-for-sale investments (2016: NT$131 million). There were no transfers from Level 1 to Level 2 in 2017 and 2016.

There were no transfers between Level 1 and Level 2 in 2017 and 2016 for other financial assets at FVTPL.

The fair value hierarchy table excludes financial assets and financial liabilities such as cash and cash equivalents, trade and other receivables, advance receipts and trade and other payables because their carrying amounts approximate their fair values due to their short-term nature. The fair value table also excludes investments in equity instruments which are carried at cost of NT$77 million (2016: NT$114 million) because the fair value cannot be reliably measured.

4 Use of estimates and judgements (cont'd)

(ii) Key sources of estimation uncertainty (cont'd)

Fair value hierarchy (cont'd)

The following table shows the reconciliation from the opening balance to the closing balance for fair value measurement in Level 3 of the fair value hierarchy:

	Available-for-sale investments	Other financial assets at FVTPL
	NT$'000	NT$'000
2017		
At beginning of year	2,743,878	243,211
Losses recognised in profit or loss		
- net change in fair value	–	(47,694)
- impairment losses on available-for-sale investments	(89,009)	–
Losses recognised in other comprehensive income		
- net change in fair value	(686,053)	–
Disposals	(182,063)	–
Purchases	134,293	–
Transfers to Level 3		
- from Level 2 (a)	482,609	253,598
- from cost less impairment (a)	7,556	–
Transfers out of Level 3		
- to Level 1 (b)	(31,500)	–
- to Level 2 (c)	(247,169)	–
At end of year	2,132,542	449,115
Total unrealised losses for the year included in profit or loss for assets held as at 31 December	–	(47,694)
2016		
At beginning of year	2,910,786	333,005
Losses recognised in profit or loss		
- net change in fair value	–	(6,253)
- impairment losses on available-for-sale investments	(58,905)	–
Losses recognised in other comprehensive income		
- net change in fair value	(54,988)	–
Disposals	(187,828)	(109,963)
Capital reduction	(6,633)	–
Purchases	81,848	–
Transfers to Level 3		
- from Level 2 (a)	317,555	92,072
Transfers out of Level 3		
- to Level 1 (b)	(34,560)	–
- to Level 2 (c)	(223,397)	(65,650)
At end of year	2,743,878	243,211
Total unrealised losses for the year included in profit or loss for assets held as at 31 December	–	(6,253)

(a) Certain investments were transferred from cost less impairment and Level 2 to Level 3 because measurement of fair value was based on valuation techniques using significant unobservable inputs.

(b) Certain investments were transferred from Level 3 to Level 1 when they were listed on stock exchanges during the year.

(c) Certain investments were transferred from Level 3 to Level 2 because measurement of fair value was based on recent transaction prices.

4 Use of estimates and judgements (cont'd)

(ii) Key sources of estimation uncertainty (cont'd)

Fair value hierarchy (cont'd)

Although the Group believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value.

The following table shows the valuation techniques and the significant unobservable inputs used in the determination of fair value of the Level 2 and Level 3 financial instruments.

Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Market approach using comparable traded multiples	• Adjusted price-earnings ratio multiple* 5.7x to 18.2x (2016: 9.1x to 18.1x) • Adjusted price-book ratio multiple* 0.6x to 2.9x (2016: 0.7x to 5.5x) • Adjusted price-to-sale ratio multiple* 0.6x to 4.2x (2016: 1.0x to 32.9x) * The multiples were adjusted for discount for lack of marketability 20% to 50% (2016: 20% to 70%)	• The estimated fair value would increase if the multiples were higher or the discount for lack of marketability was lower.
Transacted prices	• Not applicable	• Not applicable
Net asset values	• Not applicable	• Not applicable

For fair value measurements in Level 3 financial instruments, changing one or more of the assumptions used to reasonably possible alternative assumptions would have the following effects on fair value reserve:

	2017 Effect on fair value reserve		2016 Effect on fair value reserve	
	Favourable	(Unfavourable)	Favourable	(Unfavourable)
	NT$'000	NT$'000	NT$'000	NT$'000
Level 3 available-for-sale equity investments	46,511	(46,511)	79,289	(79,289)

The favourable and unfavourable effects of using reasonably possible alternative assumptions have been calculated by recalibrating the discount for lack of marketability. The discount for lack of marketability was decreased by 5% for the favourable scenario and increased by 5% for the unfavourable scenario with all other variables held constant.

5 Financial risk management

Overview

The Group has exposure to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The Group has documented financial risk management policies. These policies set out the Group's overall business strategies and its risk management philosophy. The Group's overall financial risk management programme seeks to minimise potential adverse effects of financial performance of the Group. The Board of Directors has provided the written principles for overall financial risk management and the written policies covering specific areas, such as market risk (including price risk, foreign exchange risk, interest rate risk), credit risk and liquidity risk. Such written policies are reviewed regularly and periodic reviews are undertaken to ensure that the Group's policy guidelines are complied with.

The Group does not hold or issue derivative financial instruments for speculative purposes.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Management takes a cautious approach towards analysing new investment opportunities and invitations to step-up capital injections into existing investments. Factors that are of pertinence include macro country and industry risks, progress and status of product development, where relevant, availability of market demands for the investee entities' products and services.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Group manages the market risk by the close monitoring of the investment portfolio and regular review of the performance of each of the investment.

Currency risk

The foreign exchange risk of the Group mainly arises from its investing activities. Certain of the Group's investments originated outside the primary economic environment of the respective entities, and are denominated in currencies that are foreign to those entities. As a result, there are foreign exchange exposures arising from the periodic fair valuation process, as well as upon settlement of purchases and sales of those investments. The Group holds investments in various foreign currencies including United States dollars, Japanese yen and Hong Kong dollars.

The Group does not hedge its foreign currency exposure using derivative financial instruments. It manages foreign exchange risk by close monitoring of the timing of inception and settlement of the transactions.

NOTES TO THE FINANCIAL STATEMENTS

5 Financial risk management (cont'd)

Exposure to currency risk

The Group's subsidiaries are subject to foreign currency risk arising from various currencies. The currencies to which the subsidiaries are exposed to significant foreign currency risks are as follows:

	USD	JPY	HKD
	NT$'000	NT$'000	NT$'000
Group			
2017			
Available-for-sale investments	145,694	58,109	12,578
Other financial assets at fair value through profit or loss	193,775	–	–
Trade and other receivables	1,236	180	–
Cash and cash equivalents	296,478	5	89,039
Trade and other payables	(7,359)	–	–
Net exposure	629,824	58,294	101,617
2016			
Available-for-sale investments	225,080	34,607	13,738
Other financial assets at fair value through profit or loss	134,308	–	33,256
Trade and other receivables	165	–	–
Cash and cash equivalents	394,256	5	57,261
Trade and other payables	(6,372)	–	–
Net exposure	747,437	34,612	104,255
Company			
2017			
Trade and other receivables	684	–	–
Cash and cash equivalents	33,486	–	–
Trade and other payables	(7,299)	–	–
Net exposure	26,871	–	–
2016			
Cash and cash equivalents	81,668	–	–
Trade and other payables	(6,372)	–	–
Net exposure	75,296	–	–

Sensitivity analysis

The following table details the sensitivity to a 5% increase and decrease in the relevant foreign currency against the functional currency of each Group entity. 5% represents management's assessment of the possible change in foreign currency exchange rates. The sensitivity analysis includes all outstanding foreign currencies denominated monetary items and equity instruments. Their translation has been adjusted at the year end for a 5% change in foreign currency exchange rates.

5 Financial risk management (cont'd)

Sensitivity analysis (cont'd)

If the relevant significant foreign currency weakens by 5% against the functional currency of each Group entity, profit or loss and other comprehensive income will fluctuate as follows:

	Group		Company
	Profit or loss	Other comprehensive income (Fair value reserve)	Profit or loss
	NT$'000	NT$'000	NT$'000
2017			
USD	(24,207)	(7,285)	(1,344)
JPY	(9)	(2,905)	–
HKD	(4,452)	(629)	–
2016			
USD	(26,118)	(11,254)	(3,765)
JPY	*	(1,730)	–
HKD	(4,526)	(687)	–

* Less than NT$1,000

A 5% strengthening of the relevant foreign currency against the functional currency of each Group entity would have resulted in an equal but opposite effect on the profit or loss and other comprehensive income, on the basis that all other variables remain constant.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year. This is attributable to volatility of foreign currency markets and fluctuations in Group and Company balances held and payable.

Interest rate risk

The Group's income, expenses and operating cash flows are substantially independent of changes in market interest rate as the Group does not hold interest-bearing liabilities and the interest-bearing assets are limited to the time deposits as disclosed in note 13.

Market price risk

Market price risk, is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk, which are discussed above), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

The Group is exposed to market price risk arising from its investments in securities. The management of the Group's market risk is monitored on a regular basis in accordance with the Group's investment objective and policies.

5 Financial risk management (cont'd)

Exposure to market price risk

As at 31 December 2017, if market prices had been 5% higher with all other variables held constant, the increase in fair value of available-for-sale quoted investments and the corresponding increase in fair value reserve would be NT$17 million (2016: NT$43 million), whereas the increase in the fair value of held-for-trading and other financial assets at fair value through profit or loss quoted investments and the corresponding increase in profit before tax, would be NT$25 million (2016: NT$4 million). If market prices had been 5% lower with all other variables held constant, the fair values would have decreased by equal amounts.

Credit risk

Credit risk, or the risk of counterparties defaulting, is controlled by the application of regular monitoring procedures. The extent of the Group's credit exposure is represented by the aggregate balance of financial assets recorded in the financial statements, grossed up for any allowances for losses and reduced by the effects of any netting arrangements with counterparties. The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The Group defines counterparties as having similar characteristics if they are related entities.

Exposure to credit risk

The carrying amounts of trade and other receivables and cash and cash equivalents represent the Group and the Company's respective maximum exposure to credit risk. The Group and the Company does not hold any collateral in respect of its financial assets.

The Group places surplus funds in banks with reputable financial institutions. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

As at the financial reporting date, the trade and other receivables are not past due (2016: not past due) and no impairment loss allowance was made.

Liquidity risk

The Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. There are no external borrowings, and the current liabilities of the Group are not significant in relation to the current assets. The Group maintains a current ratio of 7.74 as at 31 December 2017 (2016: 12.96). The Group's financial liabilities are repayable upon demand or repayable within the next financial year.

5 Financial risk management (cont'd)

Liquidity risk (cont'd)

The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements:

		Cash flows	
	Carrying amount	Contractual cash flows	Within 1 year
Group	**NT$'000**	**NT$'000**	**NT$'000**
2017			
Non-derivative financial liabilities			
Advance receipts	73,748	73,748	73,748
Trade and other payables	81,437	81,437	81,437
	155,185	155,185	155,185
2016			
Non-derivative financial liabilities			
Trade and other payables	103,237	103,237	103,237
Company			
2017			
Non-derivative financial liabilities			
Trade and other payables	23,981	23,981	23,981
2016			
Non-derivative financial liabilities			
Trade and other payables	29,804	29,804	29,804

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, retained earnings and non-controlling interests of the Group. There are no external borrowings within the Group entities.

The objective of the Group is to provide shareholders with above average returns over the long-term mainly through capital growth of the Group's venture capital investments. Management also invests, within stringent limits, in a portfolio of equities listed on the Taiwanese and other stock exchanges, as well as other limited risks financial instruments, with a view to maximise returns in the short to medium term. The Group does not face any externally imposed capital requirements, except that the Taiwanese subsidiaries are required by law to set aside certain percentage of their annual net profit after tax as legal reserve as further described in note 15. Such legal requirements have been fully complied with by the Group. There were no changes in the Group's approach to capital management during the year.

6 Classification of financial assets and liabilities

The classification of financial assets and liabilities, together with the carrying amounts shown in the statements of financial position, are as follows:

Group	Note	Held-for-trading NT$'000	Loans and receivables NT$'000	Designated at fair value NT$'000	Available-for-sale NT$'000	Other financial liabilities within scope of IAS 39 NT$'000	Total carrying amount NT$'000

7 Investments in subsidiaries

	Company	
	2017	2016
	NT$'000	NT$'000
Unquoted equity investments, at cost	4,960,021	5,255,069

Details of significant subsidiaries are as follows:

Name	Principal activities	Principal place of business/Country of incorporation	Ownership interest 2017	2016
			%	%
Daitung Development and Investment Corp. (a)(b)	Invest in listed/over the counter and unlisted companies	Taiwan, Republic of China	99.99	99.99
Hotung Venture Capital Corp. (a)(b)(e)	Invest in listed/over the counter and unlisted companies	Taiwan, Republic of China	99.99	99.99
Huitung Investments (BVI) Ltd. (a)(b)(f)	Invest in listed/over the counter and unlisted companies	British Virgin Islands	100.00	100.00
Hotung Management International Ltd. (c)	Provision of consultancy services	People's Republic of China/ Cayman Islands	100.00	100.00

7 Investments in subsidiaries (cont'd)

Name	Principal activities	Principal place of business/Country of incorporation	Ownership interest 2017	2016
			%	%
Hotung International Co., Ltd. (a)(d)(g)	Provision of consultancy services	Taiwan, Republic of China	41.35	41.35
Held by subsidiaries				
Horizon Consultants Co., Ltd. (a)(b)	Investment holding	Cayman Islands	100.00	100.00
Infinitude Investment Co., Ltd. (a)(b)	Invest in listed/over the counter and unlisted companies	British Virgin Islands	100.00	100.00

(a) Audited by other member firm of KPMG International.

(b) These are investment companies and the investment management operations are performed by Hotung International Co., Ltd ("HIC").

(c) Unaudited management accounts were used for consolidation purpose as the subsidiary is not significant to the Group.

(d) Although the Group owns less than half of the ownership interest of HIC, management has determined that the Group has control over HIC as the Group is exposed to variable returns from its involvement with HIC and has the ability to affect those returns through its power over HIC.

(e) During the year, Hotung Venture Capital Corp. ("Venture") embarked on capital reduction exercises, reducing its contributed capital by NT$300 million by way of return of cash to its shareholders. The Group's shareholding in Venture remains unchanged subsequent to the capital reduction exercise.

In 2016, Hotung Venture Capital Corp. ("Venture") declared cash dividend of NT$233 million to its shareholders.

(f) In 2016, Huitung Investments (BVI) Ltd. ("Huitung") declared cash dividend of NT$325 million to the Company.

(g) During the year, Hotung International Co., Ltd. ("HIC") declared cash dividend of NT$70 million (2016: NT$45 million) to its shareholders.

8 Available-for-sale investments

	Group 2017	Group 2016
	NT$'000	NT$'000
Quoted equity shares, at fair value	345,714	857,859
Unquoted equity shares, at fair value	2,446,288	3,284,267
	2,792,002	4,142,126
Unquoted equity shares, at cost [(1)]	240,282	274,303
Allowance for impairment losses	(201,671)	(201,671)
	38,611	72,632
	2,830,613	4,214,758

(1) The investments represent equity shares in privately-held companies that do not have a quoted market price in an active market. The fair value of the investments is highly dependent on the value of the investees at the time of disposal.

Although the ultimate method of disposal and the precise market for the instrument are not clear, the disposal could be effected, for example, by way of private transaction to strategic buyers or other financial parties, or via public offering of ordinary shares initiated by the investees. The Group does not have definitive plans to dispose of its interests and the investees do not have any definitive plans to initiate a public offering of their ordinary shares.

The investments are carried at cost because the fair value cannot be reliably determined. The variability in the range of reasonable fair value estimates is significant and the probabilities of the various estimates within the range of reasonable inputs are not sufficiently reliable to determine a fair value.

The Group's exposure to currency and market risks, and fair value information related to available-for-sale investments are disclosed in notes 5 and 4 respectively.

9 Other financial assets at fair value through profit or loss

	Group	
	2017	**2016**
	NT$'000	**NT$'000**
Quoted equity shares, at fair value	346,296	33,256
Unquoted equity shares, at fair value	1,543,261	1,069,195
	1,889,557	1,102,451
Unquoted equity shares, at cost[1]	127,281	130,500
Allowance for impairment losses	(88,792)	(88,792)
	38,489	41,708
	1,928,046	1,144,159

[1] The investments comprise embedded derivatives held by the Group that are linked to and must be settled by delivery of equity instruments that do not have a quoted market price in an active market.

The fair value of the derivative is highly dependent on the value of investees' ordinary shares at the time of conversion and the timing of conversion. Although the ultimate method of disposal and the precise market for the instrument are not clear, the disposal could be effected, for example, by way of a private transaction to strategic buyers or other financial parties, or via public offering of ordinary shares initiated by the investees. The Group does not have definitive plans to dispose of its interests and the investees do not have any definitive plans to initiate a public offering of their ordinary shares.

The fair value of the unquoted equity components that will be used to settle these combined instruments are significant enough to preclude the Group from obtaining a reliable estimate of fair value due to the variability in the range of reasonable fair value estimates and the probabilities of the various estimates within the range of reasonable inputs which are not sufficiently reliable. Accordingly, the investments were measured at cost.

The Group's exposure to currency and market risks, and fair value information related to other financial assets at fair value through profit or loss are disclosed in notes 5 and 4 respectively.

Prepayments	699	693	684	41
	13,758	12,686	684	42

The Group and Company's exposure to credit and currency risks are disclosed in note 5.

13 Cash and cash equivalents

	Group		Company	
	2017	2016	2017	2016
	NT$'000	NT$'000	NT$'000	NT$'000
Time deposits	660,855	1,184,785	8,798	8,792
Cash and bank balances	861,812	894,760	49,302	105,501
Cash and cash equivalents in the statement of financial position	1,522,667	2,079,545	58,100	114,293
Cash held by trustee	(708)	(767)	–	–
Cash and cash equivalents in the statement of cash flows	1,521,959	2,078,778	58,100	114,293

The time deposits bear effective interest at rates ranging from 0.07% to 1.6% (2016: 0.07% to 1.20%) per annum at the end of the reporting period. The time deposits mature on varying dates within 7 months (2016: 7 months) from the financial year end.

Cash held by trustee represents bank balances held under escrow account arrangements arising from sale of investments.

The Group and Company's exposure to currency and interest rate risks related to cash and cash equivalents are disclosed in note 5.

14 Share capital

	Group and Company			
	2017	2016	2017	2016
	Number of ordinary shares, including treasury shares			
	'000	'000	NT$'000	NT$'000
Authorised	200,000	200,000	10,000,000	10,000,000
Issued and fully paid:				
At the beginning and end of the year	104,661	104,661	5,233,033	5,233,033

Ordinary shares

The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company.

15 Reserves

The reserves of the Group and the Company comprise the following balances:

	Group		Company	
	2017	2016	2017	2016
	NT$'000	NT$'000	NT$'000	NT$'000
Contributed surplus reserve	406,116	406,116	406,116	406,116
Currency translation and other reserve	(181,203)	62,408	–	–
Legal reserve	486,947	477,508	–	–
Special reserve	19,801	19,801	–	–
Capital surplus – net assets from merger	126,667	126,667	–	–
Fair value reserve	(63,181)	759,471	–	–
Treasury share reserve	(291,100)	(254,062)	(291,100)	(254,062)
	504,047	1,597,909	115,016	152,054

Contributed surplus reserve

Contributed surplus reserve represents the difference between the purchase price and par value of shares bought back before 2012. Under existing Bermuda law, distributions can be made out of this reserve as long as certain solvency and capital requirements are fulfilled.

Currency translation and other reserve

The currency translation and other reserve mainly comprise of foreign currency differences arising from the translation of the financial statements of foreign operations.

Legal and special reserve

Subsidiaries incorporated in Taiwan, Republic of China, are required by Companies Act in Taiwan to set aside a certain percentage of their annual net profit after tax less prior years' losses, if any, as legal reserve until the accumulated reserve have reached an amount equal to the subsidiary's paid up capital. In addition, the Articles of those subsidiaries provide that separate amounts shall be set aside as special reserve. These reserves can be used to offset accumulated losses. The legal reserve may be transferred to capital or distributed in cash when they have reached a level equivalent to a certain percentage of the subsidiary's paid-up capital. The special reserve may be used in any manner subject to proposal by the respective Board and approval by the shareholders in a general meeting.

Capital surplus – net assets from merger

In 2008, a merger was effected within the Group for three of the Company's subsidiaries, being Litung Venture Capital Corp., Hotung Venture Capital Corp. and Futung Venture Capital Corp. The legal reserve that pertained to the two entities that were wound up pursuant to the merger were transferred to the "Capital surplus - net assets from merger" account. This balance can be converted into capital of the merged subsidiary upon approval by its shareholders, provided the subsidiary is in an accumulated profit position. Unlike legal reserve, there is no limit to the amount of capital surplus that can be converted into share capital.

Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the assets are derecognised or impaired.

15 Reserves (cont'd)

Treasury share reserve

Pursuant to the general mandate obtained in General Meetings held on 21 April 2016 and 13 April 2017, the Company continued with its share buy-back exercise. During the year, the number of shares purchased by way of market acquisition was 934,900 (2016: 1,962,500), for an aggregated consideration of NT$37,038,000 (2016: NT$65,285,000). Pursuant to the Bye-laws of the Company, the shares purchased are treated as treasury shares.

As at 31 December 2017, the total number of shares that remain in issuance excluding treasury shares amounted to 96,485,482 (2016: 97,420,382).

16 Non-controlling interests

The following summarises the financial information of the Group's significant subsidiary with material non-controlling interests, based on their respective (consolidated) financial statements prepared in accordance with IFRS, modified for fair value adjustments on acquisition and differences in the Group's accounting policies, and excluding inter-company eliminations with other companies in the Group. As at the reporting date, the Group only had one subsidiary with significant non-controlling interest, HIC, which is incorporated in and operates in Taiwan.

Although the Group owns less than half of the ownership interest of HIC, management has determined that the Group has control over HIC as the Group is exposed to variable returns from its involvement with HIC and has the ability to affect those returns through its power over HIC.

	HIC	
	2017	**2016**
	NT$'000	**NT$'000**
Percentage shareholdings by non-controlling interests	58.65%	58.65%

Foreign investors' withholding tax	4,200	50,920
	45,720	71,274

23 Tax expense (cont'd)

The Company and certain subsidiaries of the Group are domiciled in jurisdictions where no statutory tax is imposed. Other subsidiaries of the Group are domiciled in Taiwan and subject to Taiwan tax regulations, where the statutory tax rate is 17%.

Subsidiaries: investment losses

The Taiwan subsidiaries' taxable income are subject to deductible losses from investee, which are losses recognised arising from capital reduction at investee companies and previously non-deductible impairment losses of investments realised through disposal.

Subsidiaries: capital gains tax

The Taiwan subsidiaries are also subject to capital gains tax, computed as the higher of 17% on adjusted capital gains arising from the sales of non-Taiwanese securities, or 12% on adjusted capital gains arising from the sales of Taiwanese and non-Taiwanese securities, whichever is higher. The Group also assesses for potential capital gains tax arising from the fair valuation of the available-for-sale investment portfolio. The resulting tax is recorded as deferred tax liability with a corresponding adjustment to fair value reserve. The movement in deferred tax liability each year arises from the realisation of fair value adjustments through sales of investments and changes in fair value of the investment portfolio.

Subsidiaries: withholding tax

Dividends paid by Taiwanese companies are subjected to foreign investors' withholding tax. At the end of the reporting period, the aggregate amount of undistributed earnings of the Taiwanese subsidiaries (without making a distinction between pre-acquisition and post-acquisition earnings) are NT$2,674 million (2016: NT$2,475 million). Included therein is legal reserve which cannot be distributed under the Taiwanese law unless the balance of legal reserve is greater than 25% of the issued capital following the revision of the Company Act which took effect from 4 January 2012. The withholding tax that would be incurred should the above earnings be distributed are estimated to be NT$282 million (2016: NT$262 million), including the withholding tax impact computed on the legal reserve alone amounting to NT$68 million (2016: NT$67 million).

According to the amendments to the Income Tax Act enacted by the office of the President of the Republic of China (Taiwan) on 7 February 2018, the withholding tax rate was increased from 20% to 21% with effect from 1 January 2018. This increase does not affect the amounts of the current or deferred income taxes recognized for the year ended 31 December 2017. However, it will increase the Group's withholding tax impact accordingly in the future.

As the fair valuation of the investment portfolio may result in higher earnings, the Taiwan subsidiaries are further subject to potential withholding tax should the earnings be distributed. For the year ended 31 December 2017, the additional withholding tax that would be incurred on the distributed earnings is estimated to be NT$6 million (2016: NT$68 million).

No deferred tax liability has been recorded in respect of the above withholding tax exposures given that the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future. Specifically, management does not intend to require distribution of the earnings from the Taiwanese subsidiaries and accordingly, did not recognise the liabilities associated with the potential withholding tax obligation. This stance is consistent with that taken by management in prior years.

23 Tax expense (cont'd)

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

	Group	
	2017	**2016**
	NT$'000	**NT$'000**
Tax losses	496,520	422,589

The tax losses carried forward available for offsetting against future taxable income will expire as follows:

	Group	
	2017	**2016**
	NT$'000	**NT$'000**
2019	2,327	2,327
2020	–	5,338
2021	94,061	94,061
2024	137,146	141,425
2026	199,814	179,438
2027	63,172	–
	496,520	422,589

The Group did not recognise the deferred tax assets in respect of the above tax losses carried forward as it is not probable that there will be taxable profit against which the tax losses can be utilised.

24 Earnings per share

For the financial year ended 31 December 2017, basic earnings per share is calculated by dividing the consolidated profit attributable to owners of the Company of NT$345,393,000 (2016: NT$317,878,000) by the weighted average number of ordinary shares outstanding of 96,890,135 (2016: 98,960,953).

Weighted average number of shares in issue is calculated as follows:

	Group	
	2017	**2016**
	'000	**'000**
Issued ordinary shares at beginning of the year	97,420	99,383
Effect of repurchase of shares	(530)	(422)
Weighted average number of shares at end of the year	96,890	98,961

Diluted earnings per share is the same as basic earnings per share as there were no dilutive financial instruments issued during the year or outstanding as at the end of financial year.

25 Related parties

In addition to the related parties information shown elsewhere in the financial statements, the following significant transactions took place between the Group and related parties during the financial year:

Key management personnel compensation

Key management personnel compensation is analysed as follows:

	Group	
	2017	2016
	NT$'000	NT$'000
Directors' fees	8,417	8,810
Incentive bonus to director	3,489	3,211
Remuneration and other short term employee benefits	36,052	38,695
	47,958	50,716

The directors' fees and incentive bonus paid or payable to the directors represent the total compensation (all short-term) paid to the directors. There is no other compensation paid or payable to the directors.

One executive director of the Company entered into a service agreement with the Company whereby she is entitled, in aggregate, to an incentive bonus equivalent to 1% of the Group's audited profit after tax and non-controlling interests. This amounted to NT$3.5 million (2016: NT$3.2 million) for the year.

Other related parties transactions

	Group	
	2017	2016
	NT$'000	NT$'000
Rental expenses to a corporate shareholder in which directors have interests	7,361	7,366

26 Operating segments

The Group identified the operating segments based on internal reporting that the Group's chief decision makers regularly review. The Investments segment includes all investment subsidiaries of the Group and the Fund Management segment relates to the activities of the fund management subsidiary.

1. Investments - the Group's core business segment conducted mainly through its three subsidiaries: Hotung Venture Capital Corp. (Taiwan), Daitung Development and Investment Corp. (Taiwan) and Huitung Investments (BVI) Ltd., with the objective of achieving significant long-term capital appreciation by investing in a balanced and well-diversified portfolio, and assisting and adding value to the portfolio of companies.

2. Fund management - relates to the Group's fund management activities conducted by its subsidiary, Hotung International Co., Ltd., with the main objective of providing investment consultancy and advisory services to entities within the Group.

There were no inter-segment transactions during the year except for the management and incentive fees paid from entities within the Investments segment to the fund management subsidiary company in the Fund Management segment which was eliminated on consolidation.

Geographical information

The Group's activities are conducted predominantly in Greater China. Income from sales of investments and securities trading is segregated based on the geographies in which the shares of the respective investee entities are quoted or traded. Investments are segregated on the same basis, and for those not quoted or traded, based on the investee entities' principal places of business.

	Revenue	
	2017	2016
	NT$'000	NT$'000
Greater China	555,747	671,102
United States of America	104,340	60,866
Other countries	2,291	935
	662,378	732,903

As at end of the reporting period, the investments are segregated into the various geographies as follows:

	Held-for-trading investments		Available-for-sale investments		Other financial assets at fair value through profit or loss	
	2017	2016	2017	2016	2017	2016
	NT$'000	NT$'000	NT$'000	NT$'000	NT$'000	NT$'000
Greater China	148,075	46,578	2,646,329	3,994,832	1,898,286	1,144,159
United States of America	–	–	60,227	179,918	29,760	–
Other countries	–	–	124,057	40,008	–	–
	148,075	46,578	2,830,613	4,214,758	1,928,046	1,144,159

As the Group is engaged principally in investment activities in Greater China, no further geographical information relating to the location of other non-current assets is presented.

27 Commitments

(a) Capital commitments

The Group has uncalled capital commitments of NT$334 million (2016: NT$156 million) for the capital contribution in certain investments as at the financial reporting date or end of the reporting period.

(b) Operating lease commitments

At the end of the reporting period, the commitments in respect of operating leases for office facilities were as follows:

	Group	
	2017	2016
	NT$'000	NT$'000
Within one year	7,195	7,768
Within the second and fifth year inclusive	3,536	266
	10,731	8,034
