Revolving Credit Facility

On December 21, 2022, the Company entered into a new \$250 million senior secured revolving credit facility (the "Facility") with a syndicate of lenders led by the Bank of Montreal and including Scotiabank, Bank of America, TD Bank and CIBC. The Facility bears interest at variable rates plus variable margin, is secured by a first perfected security interest in all real and personal property of the Company and certain of its subsidiaries. The Facility matures on December 20, 2027. Taiga's ability to borrow under the Facility is based upon a defined percentage of accounts receivable and inventories. The terms, conditions, and covenants of the Facility have been met as at June 30, 2024.

Taiga expects to meet its future cash requirements through a combination of cash generated from operations and its credit facilities. However, any severe weakening of the Canadian housing market driving reduced product demand or a significant increase in bad debts in accounts receivable could adversely impact the Company's liquidity in the short term.

Working Capital

Working capital as at June 30, 2024 increased to \$365.8 million from \$335.0 million as at December 31, 2023 due to an increase in accounts receivable and inventory. Taiga believes that current levels are adequate to meet its working capital requirements.
