

Press Release – For Immediate Release

**Everbright Water Wuzhong Chengnan WWT Project Obtains Special Subsidy
from Provincial Government**

Singapore, 28 December 2015 - China Everbright Water Limited (“Everbright Water” or the “Company”, SGX: U9E) (中国光大水务有限公司), an environmental protection company focusing on integrated environmental water services, is pleased to announce that its Suzhou Wuzhong Chengnan Waste Water Treatment Project (“Wuzhong Chengnan WWT Project” or the “Project”) has obtained a subsidy of RMB 6.355 million from the 2015 Jiangsu Provincial Special Funding for Water Pollution Control in Lake Taihu.

The designed daily waste water treatment capacity of the Wuzhong Chengnan WWT Project is 150,000 m³, where the designed daily waste water treatment capacity for Phase I and Phase II are 75,000 m³ each. Project Phase I commenced commercial operation in 2009. The construction of Project Phase II and the upgrading work began in early 2015. Project Phase II completed construction and commenced operation in mid-2015 while the upgrading work is expected to be completed and to commence operation in the first half of 2016. Upon completion, the water discharge of the Project will comply with the National Grade 1A standard.

Mr. Wang Tianyi, Executive Director & Chairman of Everbright Water, said: “The receipt of the special funding reflects that the Company’s high standard and quality in project construction and operation have been increasingly recognized by local governments at all levels. The Company will continue leveraging its first-class technology and construction capability to build demonstration projects of the highest quality and will remain committed to safe operation as well as strict compliance to emission standards, playing to its strength as a leader in the field of environmental management.”
