(i) INCOME STATEMENT

First Quarter

For the three months ended 30 September 2018 ("Q12019"), the Group's turnover increased by 6.7% from RM 117.1 million to RM 124.9 million, when compared with the previous corresponding period ("Q12018"). Turnover from the Group's healthcare business increased RM 8.6 million mainly due to higher patient load and average bill sizes in its two hospitals i.e. Mahkota Medical Centre ("MMC") and Regency Specialist Hospital ("RSH"). The Group's education business registered a RM 0.7 million decrease in revenue due to lower student headcount.

Gross profit margin for Q12019 was higher when compared to Q12018 at 35.3%. Other losses of RM 1.9 million was recorded in Q12019 compared to RM 1.1 million in the corresponding period in the prior year mainly due to higher foreign exchange losses of RM 3.5 million recorded in the Q12019 compared to RM 2.1 million in Q12018 as a result of a weaker Malaysian ringgit.

Distribution and marketing expenses increased by RM 0.8 million as compared to the previous financial period due to increased marketing and branding efforts. Administrative expenses increased by RM 2.7 million as compared to the previous financial period mainly due to administrative expenses incurred by the Group's new specialist centre business in Singapore, StarMed Specialist Centre ("SSC") which started contributing in Q12019, and RM 0.5 million higher share-based payment expenses.

(i) INCOME STATEMENT (Continued)

Finance costs increased by RM 3.6 million due to amortization of RM 2.5 million of capitalized expenses relating to the term loan facility drawn down for the acquisition of non-controlling interests in MMC and RSH as the loan was fully repaid in Q12019, and RM 1.1 million mortgage financing costs incurred by the Group's specialist centre business.

As a result of the above, the Group registered a 21.1% decrease in profit before tax to RM 15.4 million in Q12019, as compared to RM 19.5 million in Q12018. Tax expense was higher in Q12019 due to higher profitability from the hospitals. The profit attributable to shareholders was RM 10.6 million and RM 13.8 million in Q12019 and Q12018 respectively, whereas loss attributable to non-controlling interests increased by RM 1.9 million in Q12019.

(ii) BALANCE SHEET

The cash and cash equivalents of the Group remained strong at RM 92.1 million as at 30 September 2018.

Trade and other receivables increased by RM 1.2 million, mainly due to higher revenue in the quarter. Other current assets increased by RM 1.3 million due to higher deposits and prepayments made.

The RM 3.3 million increase in property, plant and equipment was due to acquisition of new medical equipment by the hospitals, offset by the depreciation expenses.

Trade and other payables decreased by RM 23.4 million mainly due to refinancing of certain trade payables as at 30 June 2018 with hire purchase financing in Q12019. The increase in hire purchase liabilities contributed mainly to the RM 45.1 million increase in total borrowings during the period. Current income tax liabilities increased by RM 6.7 million when compared to 30 June 2018 due to higher profitability of the Group's hospitals and timing differences in tax payments to authorities.

(iii) CASH FLOW STATEMENT

First Quarter

Net cash from operating activities for the quarter was RM 23.2 million, RM 7.8 million lower than the previous period. This was mainly due to a RM5.0 million decrease in profit after tax in Q12019, compared to the corresponding period in the previous year.

Net cash used in investing activities for the current period was RM 9.3 million, compared to RM 10.4 million used in the corresponding period in the previous year. The decrease was mainly due to purchases of medical equipment by the hospitals, which was RM 1.0 million lower than the preceding quarter.

Net cash provided by financing activities was RM 20.7 million in the current quarter mainly as a result of the drawdown of RM 94.9 million borrowings offset by repayment of RM 75.6 million of borrowings.

The Group's hospitals in Malaysia continue to do well and register year-on-year ("yoy") increases in revenue and patient volume. To cope with the growing number of patients at the Group's hospitals, both MMC and RSH continue to progress on their respective upgrading and expansion plans.

At MMC, the hospital continues to focus on developing its Centres of Excellence and expanding and upgrading its facilities to cater to increasing patient loads. The 218-bed capacity RSH will be constructing a new hospital extension block adjacent to its existing hospital building to cater to the growing number of patients. Construction is pending necessary approvals and is expected to commence by the end of 2018. With the new extension block, RSH will become a 380-bed tertiary hospital with capacity to expand to an eventual 500-bed hospital. The hospital extension block is targeted to be commissioned in 2021.

In Malaysia, an increasing domestic insurance take-up rate, an aging population and increasing regional connectivity are expected to further contribute to the growth of private healthcare services with BMI Research forecasting health expenditure to grow 7.9% p.a. from 2016 to 2020. The recent budget has allocated RM30 million to boost Malaysia's healthcare travel industry. This is in line with its national economic blueprint where healthcare travel has been identified as one of the National Key Economic Areas set to drive the country towards a high-income nation by 2020. Malaysia plans to promote medical tourism with expanded medical tourism packages, special incentives and tax allowance for healthcare facilities promoting medical tourism.

However, the healthcare landscape in Malaysia remains competitive. In Malacca and Johor where our hospitals operate, the expansion of existing hospitals and the upcoming opening of new hospitals have led to increased competition for patients, doctors and other skilled manpower. This has resulted in higher operating costs, in particular for skilled manpower. In Johor, new hospitals such as KPJ Bandar Dato Onn Hospital and Columbia Asia Southkey Hospital are expected to open in 2019. In addition, economic uncertainties and depreciating regional currencies (in particular the Indonesian Rupiah) has impacted private healthcare expenditure, especially for self-funded patients.

In Singapore, the Group acquired a majority stake in a new private one-stop ambulatory centre, SSC, in May 2018. The centre has completed renovations and received its licenses to operate from the Singapore Ministry of Health. SSC has commenced operations in FY2019, and the Group expects to incur gestation start-up costs from its operations for potentially 2-3 years.
