iFAST Receives Trust Business Licence in Singapore, Set to Launch Global Trust Platform for Legacy and Wealth Planning

SINGAPORE (2 May 2025) – iFAST Corporation Ltd. (“iFAST Corp” and together with its subsidiaries, the “Group”), a global digital banking and wealth management platform, is pleased to announce that iFAST Global Trust Pte. Ltd. (“iFAST Global Trust”), a Singapore-incorporated entity within the Group, has been granted a Trust Business Licence by the Monetary Authority of Singapore.

This development marks an expansion of iFAST Group’s wealth management capabilities, further enhancing its platform to support clients across the entire wealth lifecycle, from accumulation and growth to preservation and legacy planning.

Trust solutions have traditionally been limited to High Net Worth (HNW) Individuals, largely due to high costs, complex structures, and stringent entry requirements. iFAST Global Trust seeks to redefine this landscape by broadening access to trust services and making them more inclusive.

Trust structures play a critical role in:

- Preserving family wealth across generations
- Providing financial security for dependents, including minors and the elderly
- Facilitating business continuity and succession planning
- Protecting assets against potential risks or mismanagement

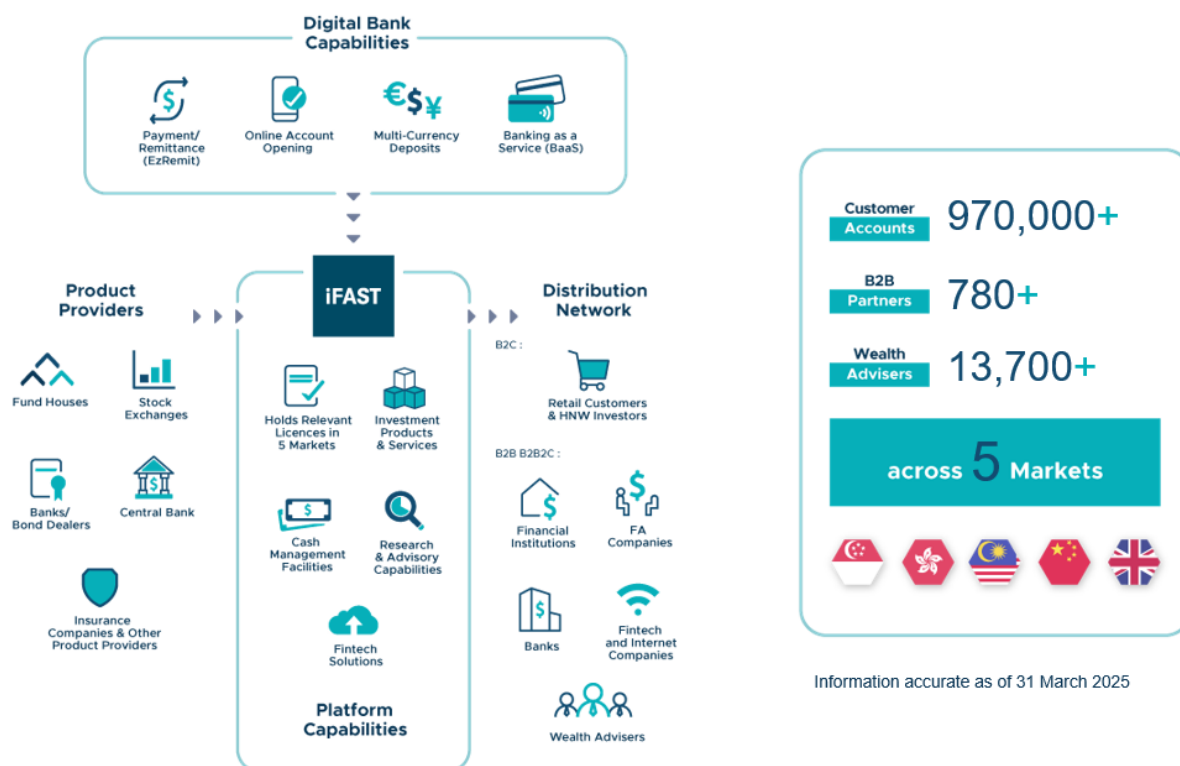

With the establishment of iFAST Global Trust, iFAST Group aims to lower conventional barriers and extend trust solutions to more investors. The new offerings will cater not only to the HNW segment through bespoke structures, but also to the broader market by removing typical constraints such as high minimum asset thresholds and cumbersome onboarding processes. These trust solutions are powered by iFAST’s proprietary IT infrastructure and will be accessible via iFAST Singapore’s Business-to-Business platform for FAs and other financial institutions, Business-to-Consumers FSMOne platform, and the adviser-assisted iFAST Global Markets platform.

“iFAST Global Trust recognises that today’s clients value affordability, transparency, and convenience alongside service excellence. The digital platform underpinning the trust solutions allows for efficient management, seamless integration with legacy planning goals, and direct access to a broad suite of financial products through iFAST Group’s established investment platform,” said Mr Tan Check How, General Manager, iFAST Global Trust.

Beyond accessibility, iFAST Global Trust places a strong emphasis on sustainable and responsible wealth management. As investor interest grows in ethical and impact-driven financial planning, the firm offers trust structures that align with long-term family values, philanthropic initiatives, and legacy preservation.

“The firm provides access to both in-house wealth advisers and a robust network of external professionals, ensuring clients receive comprehensive guidance tailored to their specific needs. As iFAST Global Trust enters this next phase of growth, the focus remains on enabling individuals and families to protect, preserve, and pass on their wealth in a meaningful and sustainable way,” added Mr Tan.
