CIVMEC AND ALLIANCE PARTNERS TO DELIVER SWAN RIVER BRIDGE PROJECT

SINGAPORE – 7 August 2017 – Australia-based **Civmec Limited** (“**Civmec**” or the “**Group**”) is pleased to advise that they have entered into an Alliance that has been awarded the fabrication of the Swan River Pedestrian Bridge, linking the new Perth Stadium with East Perth.

The Swan River Bridge Alliance includes Civmec Construction & Engineering Pty Ltd, Main Roads WA, York Civil Pty Ltd and Rizzani de Eccher Australia Pty Ltd (the latter two companies known as YRJV).

Using Civmec’s expertise, the Alliance will manage and deliver the steel fabrication, painting and transportation of the arches and decks as part of the iconic Swan River Pedestrian Bridge Project, with the four organisations working together to enable the bridge to be completed to the timetable approved by the Government of Western Australia, which will see the bridge being completed in the first half of 2018.

The Alliance will maximize Australian steel supply to 100% of available capacity and utilise a number of local fabricators and various other associated subcontractors, who will work various shifts and at its peak the construction will give employment to approximately 300 workers.

Mr. Patrick Tallon, Chief Executive Officer said: “We are pleased to be able play such an important role on this iconic project. Having already completed the fabrication and construction of the New Perth stadium on time with the highest quality and other complex structures such as the fabrication of the arches for Perth’s Elizabeth Quay pedestrian bridge, this new project further reaffirms Civmec’s global competitiveness for complex steel structures.”

Including revenue from the Alliance, the Group’s order book stands at approximately S\$610M.

About Civmec Limited

Civmec is an integrated, multi-disciplinary construction and engineering services provider to the oil and gas, metals and minerals, infrastructure and defence sectors. Headquartered in Henderson, Western Australia, Civmec has regional offices in Broome (Western Australia), Darwin (Northern Territory, Australia), Newcastle and Sydney (New South Wales, Australia), and Gladstone (Queensland, Australia).
