

Gold Demand Trends

Full Year 2016

A four-year high in investment drove price gains and demand growth

2016 in review

Full year gold demand

Gold demand gained 2% and reached a 3-year high of 4,309t

Second best year for ETFs

Annual inflows into ETFs were the second highest on record

Gold price finished the year up 8%

Hefty investment inflows fuelled the price rise

Annual bar and coin demand

Bar and coin demand was broadly stable helped by a Q4 surge

Jewellery demand fell to 7-year low

China's softening economy and India's changing policy framework both contributed

The 7th consecutive year of net purchases by central banks

However, demand from central banks was the lowest since 2010

Q4 2016

Gold lost some gains in Q4

Gold rose by 25% to Q3 but fell with Trump's acceptance speech and the FOMC's interest rate rise.

Indian Demonetisation

This policy sparked an immediate rush for gold, swiftly halted by the ensuing cash crunch.

Strong investment from China

The price fall in Q4 was the ideal buying opportunity for retail investors.

SPDR® GOLD TRUST has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents the issuer has filed with the SEC for more complete information about the Trust and this offering.
