

FOR IMMEDIATE RELEASE

Thomson Medical Group Secures S\$225 Million Islamic Revolving
Credit Facility (“RCF-i”) from Maybank with Option to Convert into a
Sustainability-Linked RCF-i

***First Islamic revolving credit facility for the Group to support growth, strengthen balance
sheet, and enhance sustainability ambitions***

Singapore, 21st August 2025 – SGX Mainboard-listed Thomson Medical Group Limited (“TMG” or “the Group”) today announced that it has secured a S\$225 million Islamic revolving credit facility (“RCF-i”) from Maybank in Singapore, with the option to convert the facility into a sustainability-linked RCF-i. This marks the first Islamic revolving credit facility in the Group’s history and underscores its commitment to exploring diverse financing solutions in support of its growth and sustainability goals.

Under the terms of the Murabahah Agreement signed on 21st August 2025, TMG may, within 12 months, request that the facility be classified as a sustainability-linked facility (“SLF”), subject to meeting certain agreed conditions including, amongst others, agreement between TMG and Maybank on certain Sustainability Performance Targets (“SPTs”) that will underpin the facility’s margin adjustment mechanism. Maybank Investment Bank Berhad acts as the sustainability structuring adviser for this facility.

Strengthening financial flexibility for growth

Proceeds from the facility will be used to fund the principal, interest and other amounts owing (including outstanding loan amounts) under TMG’s existing revolving credit facility and related costs due in October 2025, as well as to fund TMG’s working capital requirements, capital expenditure, business acquisitions, other investments, and general corporate purposes.

“This facility gives Thomson Medical Group greater flexibility in managing our capital structure while positioning us to pursue growth opportunities in line with our strategic priorities,” said Dr Heng Jun Li Melvin, Executive Director and Group Chief Executive Officer, TMG. “We are particularly excited about the “sustainability-linked-ready” feature which offers a forward-looking pathway to integrate sustainability-linked terms into our financing as our

sustainability strategy evolves. This reflects our commitment to building a resilient and responsible healthcare business.”

“As sole lender and sustainability structuring adviser, Maybank is proud to partner with our valued regional client, Thomson Medical Group, to co-create this facility under Maybank Group’s Sustainable Product Framework, which includes guidelines on sustainability-linked products. This partnership will advance their sustainability journey and diversify their funding base,” said Alvin Lee, Country CEO of Maybank Singapore. “From 2021 to the end of Q1 2025, Maybank Group mobilised RM125 billion (S\$38 billion) in sustainable finance across ASEAN, surpassing our RM80 billion (S\$24 billion) target by 2025, a testament to efforts in supporting our clients as they chart a more sustainable future.”
