The Group has applied the same accounting policies and methods of computation in the preparation of the financial statements for the current financial period as compared to the audited financial statements as at 31 March 2019 except for the adoption of new or revised International Financial Reporting Standards ("IFRS") and Interpretations of IFRS ("INT IFRS") that are mandatory for financial year beginning on or after 1 April 2019. The adoption of these IFRS and INT IFRS has no significant impact on the Group's consolidated financial statements, except as disclosed in item 5 below.

**5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

The Group has adopted International Financial Reporting Standards 16 Leases, effective for the financial period beginning 1 April 2019 as follows:

IFRS 16 Leases

IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use ("ROU") asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

The Group applied the modified retrospective approach, with no restatement of comparative information. The Group also applied the practical expedient to grandfather the definition of lease on transition.

As lessee

The Group choose, on a lease-by-lease basis, to measure an ROU asset at an amount equal to the lease liability arising from the capitalisation of the present value of future lease payments.

In addition, the Group applied the following practical expedients:

- apply a single discount rate to a portfolio of leases with reasonably similar characteristics;
- account for leases for which the lease term ends within 12 months from 1 April 2019 as short-term leases;
- exclude initial direct costs for the measurement of ROU assets as of 1 April 2019; and
- use hindsight in determining the lease term if the contract contains options to extend or terminate the lease.

As lessor

IFRS 16 substantially carries forward the current lessor accounting requirements. Accordingly, the Group continues to classify its leases as operating leases or finance leases, and to account for these two types of leases using the existing operating lease and finance lease accounting models respectively.

No significant impact for other leases in which the Group is a lessor.

Key impact on Consolidated Income Statement

The expenses related to operating leases previously shown in the Consolidated Income Statement under "Company accommodation" is replaced by depreciation expense for ROU assets and finance charges on lease liabilities.

### **GROUP EARNINGS**

For the first quarter of FY2019-20, SIAEC Group posted a revenue of \$258.1 million, comparable year-on-year. Revenue from the airframe and line maintenance segment was \$2.3 million higher. This was partially offset by a \$1.9 million decrease in revenue from the engine and component segment. Expenditure at \$240.4 million was lower by \$7.1 million or 2.9%, mainly due to a reduction in material costs. As a result, operating profit increased \$7.5 million or 73.5% to \$17.7 million.

Share of profits of associated and joint venture companies was \$26.0 million, \$6.4 million or 19.8% lower year-on-year, with the engine and component segment turning in a profit of \$26.7 million and the airframe and line maintenance segment incurring a loss of \$0.7 million. Contributions from the engine and component segment decreased \$6.1 million, mainly due to higher expenses incurred by an engine centre as it gears up for new engine capabilities, while contributions from the airframe and line maintenance segment decreased by \$0.3 million.

Profit attributable to owners of the parent was \$41.6 million for the quarter ended 30 June 2019, an increase of \$1.1 million or 2.7%.

Basic earnings per share was 3.72 cents for the current quarter.

### **GROUP FINANCIAL POSITION**

As at 30 June 2019, equity attributable to owners of the parent was \$1,569.2 million, \$40.6 million or 2.7% higher than 31 March 2019, mainly due to profits earned for the quarter. Total assets stood at \$1,989.4 million as of 30 June 2019, an increase of \$144.2 million or 7.8%, primarily due to the recognition of right-of-use assets. The recognition of right-of-use assets arose from the capitalisation of the present value of future lease payments for all leases under the new accounting standard, IFRS 16 Leases, which was adopted from 1 April 2019. The Group's cash balance at \$593.5 million was \$71.9 million or 13.8% higher than at 31 March 2019.

Net asset value per share as at 30 June 2019 was 140.2 cents.
