E. Notes to the condensed interim consolidated financial statements

1. Corporate information

Captii Limited (the company) is incorporated in Singapore with limited liability. It is listed on Singapore Exchange Securities Trading Limited ("SGX-ST"). These condensed consolidated financial statements as at and for the financial period ended 30 September 2026 comprise the company and its subsidiaries (collectively, the group). The primary activities of the company are those of investment holding and the provision of management services.

The principal activities of the group are:

a) Distribution of information technology and telecommunications products, research and development, software engineering, system integration, project management, and maintenance and support services for the telecommunications industry.
b) Providing money lending services, credit profiling, pay-later solutions, and/or other incidental/relevant businesses to any telecommunications operators, service providers, enterprises, or entities of any descriptions.
c) Provision of global roaming quality of services management solutions.
d) Undertake investment in technology companies.
e) Investment holding and the provision of management services.

2. Basis of Preparation

The condensed financial statements for the financial period ended 30 September 2026 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the group's financial position and performance of the group since the last annual financial statements for the year ended 31 December 2025.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed financial statements are presented in Singapore dollar which is the company's functional currency.

2.1. New and amended standards adopted by the group

A number of amendments to Standards have become applicable for the current reporting period. The group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2. Use of judgements and estimates

In preparing the condensed financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2025.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

* Note 4 – revenue recognised over time
* Note 9 – fair value of unquoted investments
* Note 10 – impairment test of intangible assets and goodwill: key assumptions underlying recoverable amounts
* Note 12 – determination of fair value of investment property using significant unobservable inputs
* Note 15 – expected credit loss allowance on receivables

3. Seasonal operations

The group's businesses were not affected significantly by seasonal or cyclical factors during the financial period.

4. Segment and revenue information

The group is organised into the following main business segments:

* Unifiedcomms – Segment for content-driven mobile VAS, messaging and signaling systems, solutions and managed services.
* GlobeOSS – Segment for mobile network operation support systems, solutions and managed services.
* Captii Ventures – Segment for strategic investment in early and late-stage technology ventures.
* Others – Segment for investment holding and operational headquarters of the group.

These operating segments are reported in a manner consistent with internal reporting provided to those who are responsible for allocating resources and assessing performance of the operating segments.

4.2. Disaggregation of revenue

The group's revenue can be divided into revenue generated from two types of contracts, as described below:

(a) System sale – this refers to contracts that involve the outright purchase by customers of systems comprising the group's products and technologies, and where these systems are in turn delivered as turnkey solutions. The scope of work for a system sale contract includes system design, implementation, testing and commissioning services.

(b) Managed service – this refers to contracts that involve the provision of both systems comprising the group's products and technologies as well as the group's professional services, on a recurring, revenue sharing, software as-a-service, pay-per-use or monthly or quarterly fixed and variable fee basis. Also treated as managed service contracts are system maintenance and technical support contracts with existing customers of the group.

9.1. Fair value measurement

The group classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
b) Inputs other than quoted prices included within Level 1 which are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
c) Inputs for the assets or liability which are not based on observable market data (unobservable inputs) (Level 3)

For fair value measurements (Level 3) recognised in the statement of financial position, the group adopted the following valuation methodologies in estimating the fair values of the investments:

a) Cost approach;
b) Option Pricing Model; and
c) Implied Enterprise Value

The group has the policy to regularly assess and evaluate the appropriate valuation methodologies in ascertaining the fair value of the investments.

The following table presented the assets measured at fair value:

10.1 Deferred development costs

Deferred development costs mainly comprise staff costs, operating expenses and depreciation expenses for the development of the group's proprietary software and these have an average remaining amortisation period of 2 years (2025: 2 years).

10.2 Intellectual property

Intellectual property comprises rights and titles relating to mobile software.

10.3 Goodwill

Goodwill acquired through business combination had been allocated to its subsidiaries, Unified Communications Pte Ltd, Postpay Asia Sdn Bhd, Postpay Sdn Bhd, Postpay Technology Sdn Bhd, Adzentrum Sdn Bhd, Unified Communications (Private) Limited and Ahead Mobile Sdn Bhd for the purpose of impairment testing. The carrying amount is disclosed above.

An assessment is made annually whether goodwill has suffered any impairment loss based on the recoverable amount of the cash generating unit ("CGU"). The assessment process is complex and highly judgmental and is based on assumptions that are affected by expected future market or economic conditions. Judgement is required in identifying the CGU and the use of estimates as disclosed above. Actual outcomes could vary from these estimates. As at 31 December 2024, the goodwill was fully impaired.

12.1 Valuation

The fair value of the investment property was measured at the end of every year based on the highest and best use method to reflect the actual market state and circumstances as of the end of the reporting year. The fair value was based on a valuation made by an external, independent and qualified professional valuer. There has been no change to the valuation technique during the period/year.

For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation techniques and the significant other observable inputs used in the fair value measurement are as follows

Valuation technique for recurring fair value measurements	Comparison with market evidence of recent transaction prices for similar properties.
Significant observable inputs	Price per square foot. S$253

Details of any collateral

The company has issued financial guarantees to the financial institutions for the following facilities granted to the group's subsidiary:-

1) A facility with outstanding amount of Nil (2025: Nil), that is secured by fixed deposits of the subsidiary amounting to approximately S$2,291,000 (2025: S$2,310,000) and covered by a personal guarantee of a director of the subsidiary, and corporate guarantee of the company of S$1,943,000 (2025: S$1,963,000).

As at the end of the financial period/year, the outstanding facilities covered by the guarantee were Nil (2025: Nil).

The fair value of these guarantees at 30 September 2026 was insignificant.

The company's subsidiaries do not hold any shares in the company as at 30 September 2026 and 31 December 2025.

15. Expected credit loss allowance on receivables

There has been no change to the expected credit losses approach and assumptions as compared to previous financial year. As at 30 September 2026, no significant loss allowance was provided for the reporting period.

16. Subsequent events

There are no known subsequent events which have led to adjustments to this set of financial statements.

OTHER INFORMATION

1. Review

The condensed consolidated statement of financial position of Captii Limited and its subsidiaries as at 30 September 2026 and the related condensed consolidated profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the financial period ended and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the group

2.1 Review of performance of the group for the third quarter ended 30 September 2026 as compared to corresponding quarter ended 30 September 2025

Group revenue

The group achieved consolidated revenue of S$6.088 million for the quarter ended 30 September 2026 ("Q3 2026"), representing a 64.6% increase compared with the corresponding quarter ended 30 September 2025 ("Q3 2025"). This increase was driven by the improved revenue performance from Unifiedcomms.

Unifiedcomms posted revenue of S$5.058 million in Q3 2026, an increase of 108.4% from S$2.427 million in Q3 2025. This growth in revenue was driven by higher system sale contract revenues.

In contrast, GlobeOSS recorded revenue of S$1.016 million in Q3 2026, a decrease of 19.2% from S$1.258 million in Q3 2025, primarily due to lower managed service and system sale contract revenues.

The group's sales mix in Q3 2026 showed a decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 37.2% of the group's total revenue in Q3 2026, compared to 66.1% in Q3 2025. This shift was mainly due to a 204.8% improvement in system sale contract revenues of Unifiedcomms, from S$1.254 million in Q3 2025 to S$3.823 million in Q3 2026.

Group gross profit and gross profit margins

The group posted gross profit of S$3.127 million in Q3 2026, an increase of 35.9% from the S$2.3 million recorded in Q3 2025. The increase in group gross profit for Q3 2026 is due to the flow-down effect of higher group revenue. Gross profit margin was however lower at 51.4% as compared to 62.2% in Q3 2025, caused by lower gross profit margin on system sale contract revenues.

The gross margin on system sale contract revenues decreased to 32.3% in Q3 2026, compared with 80.1% in Q3 2025. This was mainly attributable to a lower gross profit margin recorded by Unifiedcomms on its system sale contract revenues, arising from higher third-party component costs.

This impact on system sale contracts' gross profit margin was partly mitigated by higher gross profit margin recorded on the group's managed service contract revenues, which increased to 83.5% in Q3 2026 from 53% in Q3 2025. This was primarily due to a lower revenue contribution from certain lower-margin managed service contracts, as well as reduced third-party component costs in Q3 2026.

Interest income

The group recorded interest income of S$0.014 million in Q3 2026, slightly lower than the S$0.022 million recorded in Q3 2025.

Other gains and other item of expense

The group recorded net total expenses of S$2.369 million in Q3 2026, representing an increase of 1.4% from S$2.337 million incurred in Q3 2025. This increase is mainly attributable to higher net foreign exchange loss as a result of an unfavourable exchange rate movement of USD against SGD, the group's reporting currency.

Net profit/(loss) and EBITDA/(LBITDA)

The group recorded a net profit of S$0.668 million and EBITDA of S$0.955 million in Q3 2026, compared with a net loss of S$0.14 million and EBITDA of S$0.148 million in Q3 2026. The net profit and higher EBITDA results recorded in Q3 2026 are mainly attributable to the flow-down effects of higher revenue, though partly offset by lower gross profit margin and higher net total expenses recorded in Q3 2026.

2. Review of performance of the group

2.2 Review of performance of the group for the nine months ended 30 September 2026 as compared to corresponding financial period ended 30 September 2025

Group revenue

The group achieved consolidated revenue of S$15.027 million for the nine months ended 30 September 2026 (" 9M 2026"), representing a 29.6% increase compared with the corresponding period ended 30 September 2025 ("9M 2025"). This increase was driven by the improved revenue performance from Unifiedcomms.

Unifiedcomms posted revenue of S$11.915 million in 9M 2026, an increase of 64.2% from S$7.257 million in 9M 2025. This growth in revenue was driven by higher system sale contract revenues.

In contrast, GlobeOSS recorded revenue of S$3.069 million in 9M 2026, a decrease of 28.8% from S$4.312 million in 9M 2025, primarily due to lower managed service and system sale contract revenues.

The group's sales mix in 9M 2026 showed a decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 46.3% of the group's total revenue in 9M 2026, compared to 66.3% in 9M 2025. This shift was mainly due to a 106.7% improvement in system sale contract revenues of Unifiedcomms, from S$3.905 million in 9M 2025 to S$8.070 million in 9M 2026.

Gross profit and gross profit margins

The group posted gross profit of S$8.276 million in 9M 2026, an increase of 15.3% from the S$7.18 million recorded in 9M 2025. The increase in group gross profit for 9M 2026 is due to the flow-down effect of higher group revenue. Gross profit margin was however lower at 55.1% as compared to 61.9% in 9M 2025, caused by lower gross profit margin on system sale contract revenues.

The gross margin on system sale contract revenues decreased to 43.7% in 9M 2026, compared with 77.6% in 9M 2025. This was mainly attributable to a lower gross profit margin recorded by Unifiedcomms on its system sale contract revenues, arising from higher third-party component costs.

This impact on system sale contracts' gross profit margin was partly mitigated by higher gross profit margin recorded on the group's managed service contract revenues, which increased to 68.3% in 9M 2026 from 53.9% in 9M 2025. This was primarily due to a lower revenue contribution from certain lower-margin managed service contracts, as well as reduced third-party component costs in 9M 2026.

Interest income

The group recorded interest income of S$0.056 million in 9M 2026, slightly higher than the S$0.061 million recorded in 9M 2025.

Other gains and other item of expense

The group recorded net total expenses of S$7.394 million in 9M 2026, representing an increase of 1.5% from S$7.283 million incurred in 9M 2025. This increase is mainly attributable to higher overall operating expenses as a result of higher payroll related cost.

The above impact was partly mitigated by lower net foreign exchange loss resulting from favourable exchange rate movements of USD and PKR against SGD, the group's reporting currency.

Net profit/(loss) and EBITDA

The group recorded a net profit of S$0.657 million and EBITDA of S$1.462 million in 9M 2026, compared with a net loss of S$0.327 million and EBITDA of S$0.482 million in 9M 2025. The net profit and improvement in EBITDA in 9M 2026 is mainly attributable to the effects of higher revenue, partly offset by lower gross profit margin and higher net total expenses.

2. Review of performance of the group (continued)

2.3 Review of the group's financial position as at 30 September 2026 as compared to the group's financial position as at 31 December 2025

Non-cash current assets of the group increased from S$9.884 million as at 31 December 2025 to S$10.457 million as at 30 September 2026, representing an increase of 5.8%. This was mainly attributable to a increase in other non-financial assets comprising contract assets related to ongoing revenue projects. The increase of such assets primarily driven by improvement in revenue.

Total non-current assets of the group decreased from S$11.772 million as at 31 December 2025 to S$11.761 million as at 30 September 2026, representing a marginal decrease of 0.1%.

Total liabilities of the group increased from S$4.006 million as at 31 December 2025 to S$6.112 million as at 30 September 2026, resprenting an increase of 52.6%. This increase was primarily due higher other non-financial liabilities, which comprised costs related to ongoing revenue projects, corresponding to the higher cost of sales incurred during the period.

2.4 Review of the group's cash flow for the quarter and nine months ended 30 September 2026 as compared to the corresponding quarter ended 30 September 2025

The group recorded net cash flow from operations of S$2.163 million in Q3 2026, compared with S$1.354 million in Q3 2025. an increase of 59.7%. This increase was primarily due to a profit before income tax of S$0.772 million, in contrast with a loss before income tax of S$0.015 million for Q3 2025.

The group recorded net cash flow from operations of S$3.216 million in 9M 2026, compared with S$4.144 million in 9M 2025. The decrease was primarily attributable to a less favourable change in working capital, which contributed S$1.754 million in 9M 2026, compared with S$3.674 million in 9M 2025.

The group's net cash flow used in investing activities for Q3 2026 and 9M 2026 amounted to S$0.294 million and S$0.543 million respectively, as compared to S$0.121 million and S$0.379 million for Q3 2025 and 9M 2025 respectively. The higher net cash used in investing activities was mainly due the higher investment in intangible assets in Q3 2026 and 9M 2026, compared with the corresponding periods in 2025.

The group's net cash flow used in financing activities for Q3 2026 amounted to S$0.806 million as compared to S$0.105 million for Q3 2025. The higher net cash used in financing activities was mainly due to:-

* Higher restricted deposits placed as performance bond in connection with new system sale contracts awarded; and
* Higher dividend payout by a subsidiary to non-controlling interest in Q3 2026.

The group's net cash flow used in financing activities for 9M 2026 amounted to S$1.010 million as compared to S$1.23 million for 9M 2025. The lower net cash used in financing activities was mainly due the absence of borrowings repayment in 9M 2026, compared with the corresponding periods in 2025. This impact was partly offset by:-

* Higher restricted deposits placed as performance bond in connection with new system sale contracts awarded; and
* Higher dividend payout by a subsidiary to non-controlling interest in 9M 2026.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

No profit forecast has been issued for the financial period under review.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The outlook for Unifiedcomms and GlobeOSS is showing early signs of stabilisation in the first nine months of 2026. While margin compression and execution risks associated with certain newly awarded system sale and managed service contracts persist, the group is beginning to see traction from recently secured orders and a strengthening sales pipeline.

The business continues to make steady progress on existing contracts, alongside ongoing initiatives to improve service delivery, enhance operational efficiency, and maintain cost discipline. At the same time, Unifiedcomms and GlobeOSS remain focused on advancing product innovation and expanding market reach to support more sustainable growth.

At Captii Ventures, the group's venture investment arm, the investment environment remains muted, though there are tentative signs of improving sentiment in certain segments.

Supported by operational and financial strengthening initiatives implemented since 2024, the group remains cautiously optimistic about its performance trajectory for 2026.
