Disclaimer

This presentation may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from other developments or companies, shifts in expected levels of property rental income and occupancy rate, changes in operating expenses (including employee wages, benefits and training, property expenses), governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business. Investors are cautioned not to place undue reliance on these forward-looking statements.

All measurements of floor area are defined herein as “Super Built-up Area” or “SBA”, which is the sum of the floor area enclosed within the walls, the area occupied by the walls, and the common areas such as the lobbies, lift shafts, toilets and staircases of that property, and in respect of which rent is payable.

The Indian Rupee and Singapore Dollar are defined herein as “INR/₹” and “SGD/S\$” respectively.

Any discrepancy between individual amounts and total shown in this presentation is due to rounding.

Logistics: Key demand drivers

1

Rise of manufacturing sector

- Rapid progress under 'Make in India' campaign to raise sector's share from 13-17% to 25% of GDP (e.g FDI increase in defence and railways; new plants announced by MNCs like Apple, Hitachi, Foxconn)

2

Retail & E-Commerce boom

- Warehousing requirements of the "E-tail" segment set to double from 14 million in 2016 to 29 million in 2020

3

GST implementation

- GST has been introduced since July 1, 2017 and is expected to lead to the simplification of the tax regime, leading to a more efficient supply chain

4

Trend towards quality

- Trend towards modern logistics and manufacturing facilities for speed and efficiency
- Sectors such as manufacturing, retail and e-commerce demand for modern warehouses

Logistics pipeline
