Review of Financial Performance

For the quarter ended 30/06/2015, the Group's revenue decreased by RMB 7.3 million to RMB 88.1 million, representing a decrease of 7.7% over the corresponding period last year. The decrease is due to worsening economic conditions which suppress demand for our products.

The Group's gross profit decreased by RMB 4.9 million to RMB 19.9 million in 2nd quarter FY2015 compared to FY2014. This represents a decrease of 19.7% as compared to last year. Gross profit margin decreased to 22.6% compared to 26.0% in FY 2014. This was mainly due to higher labour costs.

The Group's year-to-date finance costs reduced to RMB 4.9 million in the current quarter due to lower forex related expenses.

Balance Sheet

Net Current Liability at 30/06/15 amounted to RMB139.4 million because of funding of long term investments and fixed assets were made using mainly short term borrowings.

Cash Flow

Net cash generated from operating activities amounted to RMB 6.4 million in 2nd quarter FY2015 mainly due to RMB 5.5 million of depreciation charges and higher trade and other payables of RMB 6.2 million.

Net cash used in investing activities amounted to RMB 0.6 million in 2nd quarter FY2015 was mainly due to new additions to our fixed assets.

Net cash generated from financing activities amounted to RMB 7.1 in FY2015 was mainly due to net proceeds of bank loans.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The economic conditions continue to remain challenging, as the Group struggled to contain costs increases that we are not able to pass down to our customers.

However, the current low oil prices had decreased our raw material prices and the recent devaluation of the Chinese RMB will somehow help to allay and soften the impact of rising costs in China

The Group will utilise the savings to invest in training of our staff and research and develop new and better quality products to win more customers and orders.

To increase the Group's competitive advantage, the Group may consider investing up stream in selected companies to secure our supplies and take advantage of costs and technology synergies.

The Group will also explore new investment opportunities including industries with better profit margins but may be unrelated to manufacturing of spray pumps in order to bring long term value to our shareholders.
