Revenue	38,789	46,638	-17%
Profit/(Loss) / Before Tax	10	(1,758)	NM
Profit/(Loss) / After Tax	135	(1,678)	NM

[Singapore, September 25 2014](#): - Singapore based Sunright Limited (SGX: Sunright) today announced unaudited full year financial results for the year ended 31 July 2014.

For Release After 5:06 p.m., September 25, 2014

Mr. Sam Lim, Executive Chairman & Chief Executive Officer said:

“The manufacturing capacities of some of our customers have moved to China and Malaysia. This has affected demand for our burn-in, testing and electronic manufacturing services.

Our associate company has continued to contribute positively to our results. However, the ‘Distribution’ segment remains weak due to continuing softness in the capital equipment market.

On the whole, the Sunright Group recorded a modest profit after tax of S\$0.1 million in FY 2014, compared to a loss of S\$1.7 million in the previous financial year.”

The worldwide semiconductor industry is projected to grow at 6.7 percent, from US\$315 billion in 2013 to US\$336 billion in 2104.

Mr. Lim added, “We have made progress towards launching our new products. We will intensify our international marketing and sales efforts, to work with customers requiring high tech products used in smartphones, media tablets and automobiles.”

He concluded, “The industry is expecting the capital equipment market to gain momentum in 2015. Sunright is preparing to take advantage of this momentum.”

About Sunright

Sunright Limited, a main board listed company on the Singapore Exchange Securities Trading Limited, is the world’s largest independent provider of burn-in and test services, and a leading manufacturer of parallel test and burn-in systems. Sunright also distributes high technology semiconductor equipment and materials and engages in electronic manufacturing services. Sunright’s customers are multi-national corporations who are leading semiconductor manufacturers. More information on Sunright is available on Sunright’s website: www.sunright.com.
