MISSION STATEMENT

PCI aims to be a **leading global high technology electronics manufacturing services company.**

PCI delivers **high quality, high value and timely supply chain solutions at competitive cost.**

PCI's strategy is to **extend its core competency through alliances with a network of technology partners and suppliers to create optimal solutions for customers.**

▶ TRUSTED TO DELIVER

After over 40 years in electronics manufacturing, PCI has built a reputation founded on quality solutions, high value and timely delivery. With in-house manufacturing facilities and design and development centres, we have total control over each project we are entrusted with, from design to delivery. Our strong track record has secured the trust of industry leaders across the globe with whom we maintain long-term partnerships.

CORPORATE PROFILE

Headquartered in Singapore,
PCI Limited (“PCI”) is a specialist in
electronics manufacturing services.

We deliver quality end-to-end manufacturing supply chain solutions that create competitive advantages for leading technology companies worldwide. With over 40 years’ experience, we ensure our global clientele receive the quickest time to market (“TTM”) possible at the right price and performance points, and with the highest standards.

Our suite of services extends to all points in the manufacturing outsourcing cycle, comprising design, manufacturing engineering, material sourcing and procurement, assembly, testing and logistics. From the launch of new products to improving the competitiveness of existing projects, we remain dedicated to enhancing value at every step of the supply chain.

Our specialities lie in a wide range of innovations that include networking to wireless communications, home appliances to display modules for mobile communications, and

diverse medical, industrial and automotive products. To date, we have been entrusted to deliver printed circuit board assembly, user interface panels and complete box build.

As an innovative product design partner to our blue-chip customers, we maintain an uncompromising stance on quality. Aimed at driving product reliability, we emphasise testing and reliable analysis during the design and development phases. We also operate an in-house laboratory where we conduct design verification testing (“DVT”) and partner TUV-SUD Singapore for comprehensive environmental qualification tests (“EQTs”) and electromagnetic compatibility (“EMC”) tests.

Our commitment to high quality, strong value and timely solutions have earned us a reputation as a dependable partner. Over the years, we have established long-term partnerships with several industry leaders – a testament to our ability to deliver.

In May 1992, PCI was listed on the then Sesdaq of the Singapore Exchange Securities Trading Limited (“SGX-ST”). We were later transferred to the Mainboard of the SGX-ST in May 1995.

We strive to offer our customers best-in-class service. To this end, we constantly improve our competencies and capabilities, thereby ensuring we stay relevant and remain at the forefront of our industry.

THE PCI ADVANTAGE

CUSTOMER CENTRIC ORGANISATION

Our commitment to better serve our customers has seen us continually evaluating and enhancing our organisational systems over the years. Alongside boosting the effectiveness of our organisational structure, we are dedicated to improving the efficiency of our internal processes. At PCI, we value long-term partnerships with our customers.

VAST EXPERIENCE

PCI has been providing manufacturing solutions for over 40 years. Our vast experience arms us with a clear understanding of our customers' technology and supply chain needs – thereby allowing us to anticipate issues and create solutions that meet their precise project requirements. Leveraging our employees' in-depth knowledge of all aspects of electronics manufacturing, and PCI's network of technology and supply chain partners, we are well-positioned to deliver quality services and solutions that adhere to top industry standards.

HIGH FLEXIBILITY AND CAPACITY

With manufacturing facilities in Batam, Indonesia and Kunshan, China, PCI has both the flexibility and capacity to tackle the demands of low-to-high volume projects, including high value and high product mix needs.

IN-HOUSE DESIGN EXPERTISE

PCI owns engineering design and development centres in Singapore, Manila, the Philippines and Bandung, Indonesia; thus assuring customers of complete control over the development process. Our centres are capable of producing global positioning systems, radio frequency, liquid crystal modules, control panels, printed circuit boards and mechanical design.

The PCI design teams create product manufacturability and test solutions for any stage of the development process – from initial design concepts to the final touches. Our design engineers work closely with our customers' engineers to establish all technical aspects, while offering design suggestions and exchanging critical project information.

DIVERSE MANUFACTURING CAPABILITIES

PCI boasts a broad spectrum of manufacturing capabilities. We are supported by a range of medium-to-high volume surface mount technology ("SMT") assembly lines, test and X-ray inspection machines and wire bonding machines complete with advanced demonstrated competencies.

Adhering to the Principles of Lean, we possess ample backend assembly capacity capable of handling a wide range of products across various volumes and complexity.

SPEED WITH QUALITY

In ensuring the quality standards of diverse products, PCI provides rapid development of test protocols and automated test stations for various functional test applications such as telecommunications, networking and RF technologies. We specialise in the design and assembly of jigs and fixtures for product test requirements.

SUPPLY CHAIN MANAGEMENT

WHAT PCI DOES

Our supply chain team manages each customer's total material requirements, from global procurement to purchasing and material management.

Our procurement team regularly visits suppliers, evaluating their quality, technology and efficiency, while developing strategic supply partners based on long-term relationships.

Our materials management team oversees our customers' planning and purchasing needs throughout the whole product life cycle.

We continually keep abreast of global supply trends that may disrupt our supply chain. At the same time, we proactively monitor material life cycle and variation in material lead-times.

HOW CUSTOMERS BENEFIT

Our purchasing leverage and end-to-end managed supply chain services allow our customers peace of mind throughout the entire process.

Through strong partnerships with suppliers, we support customers in procuring quality electronic components and mechanical parts at highly competitive rates, resulting in cost savings.

Customers are assured of timely product launches, on schedule deliveries and well-managed product end-of-life cycle.

Supply problems are tackled proactively with alternative solutions, such as product redesign to replace end-of-life, costly or rare components, thus providing our customers added assurance.

A CERTIFIED COMPANY

At PCI, we strive to continuously improve our quality standards and management system. Today, we have achieved various ISO certifications, in addition to other accolades.

As a responsible company, we recognise the importance of sustainability. We have policies and processes in place to tackle environmental impact, occupational health and safety risks as well as labour and ethical issues.

**DRIVEN
TO EXCEL**

In our quest to be a leading global high technology electronics manufacturing services company, we continually seek to improve our business, service and operations. Led by an experienced Board, our drive for excellence has won PCI awards and certifications for our quality management system and our commitment to protecting and improving the environment, among others. At the same time, we constantly refine our competencies and capabilities to ensure our global clientele consistently receive best-in-class service.

CHAIRMAN'S STATEMENT

The Group entered FY17 against a backdrop of global economic uncertainty. **In the course of the financial year, economic sentiment improved and the Group emerged with a commendable performance for the financial year.**

I am pleased to announce that the Group recorded an 85% increase in net profit and a 10% rise in revenue year-on-year. For the year ended 30 June 2017, net profit attributable to equity holders was USD 10.6 million while revenue reached USD 198.9 million. We recorded net cash generation of USD 12.1 million as well as total assets and total liabilities of USD 147.4 million and USD 60.0 million respectively as at 30 June 2017. Earnings per share was 5.34 US cents.

The Directors are pleased to recommend a final tax exempt one-tier dividend of 3 SG cents per ordinary share and a final special tax exempt one-tier dividend of 0.5 SG cent per

ordinary share for the year. Including the 2.5 SG cents special interim dividend paid out on 10 March 2017, this brings the total dividend for the financial year to 6 SG cents.

During the first half of the financial year, global economic conditions remained uncertain but saw modest improvement as we entered the second half of the year. While some of our customers continued to face market weakness, several customers experienced better than expected sales through increased end-market demand and growth in new market segments. As a result, the Group benefited from the overall improvement in market conditions and prospects.

On the operations front, our manufacturing operations in China and Indonesia stabilised after their relocations in FY16, with both recording healthy contributions. With the increase in business activities, Management remained vigilant in cost and operations control. This resulted in strong cash generations from operations during the year. In FY17, the Group invested USD 1.6 million in additional manufacturing and test equipment to enhance its manufacturing capabilities and capacities as part of our on-going renewal and upgrading initiatives.

The Group's effort in offering differentiated value in its manufacturing services by enhancing its engineering design capabilities has been encouraging as a number of leading global original equipment manufacturers (OEMs) see the increased value in partnering PCI to augment the speed of their new product launches and product performances. The design solutions we offer include radio frequency (RF), wireless and tablet technologies in addition to our core expertise in display and human machine interface know-how. Moving forward, the Group will continue to invest in and strengthen its advanced engineering capabilities.

OUTLOOK

The global economic outlook is turning more optimistic with the US economy showing signs of modest growth and China's economic slowdown bottoming out. However, the on-going anti-globalisation and protectionist threats as well as geographical tensions can affect the business climate unfavourably. Despite these challenges, the Group will continue to focus on increasing its core competencies and proactively develop new customers and market segments.

APPRECIATION

I am pleased to welcome Mr Peter Tan as Non-Executive, Independent Director to the Board. With his vast experience and expertise in corporate accounting and management, I am confident he will be a strong asset to us.

On behalf of the Board of Directors, I would like to express our gratitude to our customers, business partners and shareholders for their support in FY17. In addition, I would like to commend our Management and staff for their dedication and commitment.

CORPORATE GOVERNANCE REPORT

PCI is committed to maintaining high standards of corporate governance to ensure greater transparency and maximise long-term shareholder value.

This report describes PCI's key corporate governance practices for the financial year ended 30 June 2017 with reference to the principles set out in the Singapore Code of Corporate Governance 2012 (the "Code"). Unless otherwise stated in the Report below, the Company has complied with the principles and guidelines of the Code.

BOARD MATTERS

The Board's Conduct of Affairs

(Principle 1)

The Board oversees the business and affairs of the Group. It provides leadership and guidance to Management, sets strategic objectives and ensures that the necessary financial and human resources are in place for the Company to meet its objectives and reviews Management performance. The Board establishes a framework of prudent and effective controls which enables risks to be assessed and managed. The Board also sets the Company's values and standards, ensures that obligations to its shareholders and other key stakeholders are understood and met and considers sustainability issues, such as environmental and social factors, as part of its strategic formulation.

The Board is responsible for the Group's overall performance objectives, key operational initiatives, financial plans and annual budgets, major investments, divestments and major funding proposals, financial performance reviews, risk management and corporate governance practices. Each Director exercises his independent judgement to act in good faith and the best interest of the Company to enhance the long-term value of the Group to its shareholders.

The Board is supported by the Board Committees established to assist the Board in discharging its responsibilities of overseeing the Group's affairs and enhancing corporate governance. These Committees are the Audit Committee, the Remuneration Committee and the Nominating Committee.

The Board meets on a regular basis. Where necessary, additional Board meetings are held to deliberate on any ad hoc significant matters. Attendance by telephone and video conference at Board meetings is allowed under PCI's Constitution. An aggregate of 4 Board meetings were held for the financial year ended 30 June 2017 ("FY 2017"). The Directors' attendance at Board meetings and meetings of the various Board Committees during the FY 2017 are as follows:

Note:

⁽¹⁾ Mr Peter Tan was appointed as a Non-Executive, Independent Director and a member of the Audit, Remuneration and Nominating Committees on 24 February 2017.

CORPORATE GOVERNANCE REPORT

The Company has in place a set of internal controls and guidelines that sets out finance authorisation and approval limits for borrowings, investments, acquisitions, disposals, capital and operating expenditures and expenses. The Board approves significant investments and transactions exceeding certain threshold limits, while delegating authority for transactions below those limits to Management to facilitate operational efficiency. Matters that are specifically reserved for the Board's decision include, in particular, interested person transactions, material acquisitions and disposals of assets, corporate restructuring, share issuances and dividend payments.

Upon appointment, each Director receives a formal letter setting out the Directors' duties and responsibilities. All newly-appointed Directors undergo an orientation programme, which includes site visits and Management presentations on the Group's businesses, strategic plans and objectives. Training is provided for first-time Directors in areas such as accounting, legal and industry-specific knowledge as appropriate. As part of training for the Board, Directors are briefed from time to time on changes to regulations, guidelines and accounting standards, as well as industry trends and development during Board meetings or at specially convened sessions. Directors are also encouraged to attend, at the Company's expense, relevant and useful seminars for their continuing education and skills improvement courses that are conducted by external organisations. The Company Secretary will bring to Directors' attention information on seminars that may be of relevance or use to them. Articles and reports relevant to the Group's business are also circulated to the Directors for information.

Board Composition and Guidance

(Principle 2)

There is a strong and independent element on the Board, with independent Directors making up half of the Board.

The Board currently comprises 6 Directors, 3 of whom are Non-Executive, Independent Directors, 1 of whom is a Non-Executive Director and 2 of whom are Executive Directors. The Non-Executive, Independent Directors are Mr Lo Pang Foo Steven, Mr Ho Soo Ching and Mr Peter Tan, who was appointed to the Board on 24 February 2017. The Non-Executive Director is Mr Loh Kee Kong. The Executive Directors are Mr Peh Kwee Chim and Mr Peh Siong Woon Terence.

The Nominating Committee determines, on an annual basis, whether or not a Director is independent bearing in mind the Code's definition of an "independent director" and guidance as to relationships the existence of which would deem a Director not to be independent.

Mr Lo Pang Foo Steven is a Non-Executive, Independent Director and Chairman of Chuan Hup Holdings Limited ("Chuan Hup"), the holding company of the Company. During FY 2017, Chuan Hup provided consultancy services to the Company. The value of the transaction was not significant compared to the revenues of Chuan Hup and the Company. Mr Lo was not involved in the decision making of the transaction between Chuan Hup and the Company. The Board having taken into account the views of the Nominating Committee considers Mr Lo Pang Foo Steven to be an Independent Director of the Company as he has shown that he is able to exercise strong independent judgement in his deliberations and act in the best interests of the Company.

The Board having taken into account the views of the Nominating Committee, considers Mr Ho Soo Ching and Mr Peter Tan to be independent under the guidelines provided by the Code.

Mr Lo Pang Foo Steven, Mr Ho Soo Ching and Mr Peter Tan had each abstained from the discussions and taking a decision in respect of his own independence.

No independent Director has served on the Board beyond nine years from the date of his first appointment.

The Board is of the view that taking into account the nature and scope of the Company's operations, the present Board size is appropriate and facilitates effective decision making.

The Board is satisfied that the Board and its Board Committees comprise Directors who as a group provide an appropriate balance and diversity of skills, experience and knowledge of the Company as well as core competencies such as accounting or finance, law, business or management experience, industry knowledge, strategic planning experience and customer-based experience or knowledge, required for the Board and Board Committees to be effective.

CORPORATE GOVERNANCE REPORT

For FY 2017, the Non-Executive Directors have constructively challenged and helped to develop proposals on strategy and reviewed the performance of Management. They have unrestricted access to Management and have sufficient time and resources to discharge their oversight function effectively.

Non-Executive Directors meet without the presence of Management periodically.

Chairman and Chief Executive Officer

(Principle 3)

Different individuals assume the Chairman and the Chief Executive Officer functions in PCI. There is a clear separation of the roles and responsibilities between the Chairman and the Chief Executive Officer. The Chairman is responsible for the leadership of the Board and ensures its effectiveness on all aspects of the Board's role. He approves the agenda for the Board meetings and ensures sufficient time is allocated for discussion of all agenda items. He promotes an open environment for debate and ensures that the Non-Executive Directors are able to speak freely and contribute effectively. He ensures effective communication with shareholders, encourages constructive relations between the Board and Management and between the Directors and oversees corporate governance matters. The Chief Executive Officer leads the Management team and implements the Board's decisions. He is responsible for the day-to-day operations and business and the overall performance of the Group. The Chairman and the Chief Executive Officer are not related.

Lead Independent Director

(Principle 3)

As the Chairman is an Executive Director, the Board has on 7 September 2017 appointed Mr Ho Soo Ching as the Lead Independent Director. Prior to 7 September 2017, Mr Lo Pang Foo Steven was the Lead Independent Director. The Lead Independent Director is available to shareholders if they have concerns relating to matters that contact through the normal channels of the Chairman, the Chief Executive Officer or the Chief Financial Officer has failed to resolve or is inappropriate.

Led by the Lead Independent Director, the Independent Directors meet periodically without the presence of the other Directors, and the Lead Independent Director provides feedback to the Chairman after such meetings.

Board Membership

(Principle 4)

The Nominating Committee comprises Mr Lo Pang Foo Steven (Committee Chairman), Mr Peh Kwee Chim, Mr Ho Soo Ching and Mr Peter Tan (who was appointed to the Nominating Committee on 24 February 2017), the majority of whom, including the Chairman, are Non-Executive, Independent Directors.

The Nominating Committee's functions include reviewing Board succession plans for Directors, evaluating the performance of the Board, Board Committees and Directors, considering and making recommendations to the Board concerning the appointment and re-election of and determining the independence of the Directors and progressive renewal of the Board. The role and functions of the Nominating Committee are set out in its Terms of Reference.

The Nominating Committee oversees the process for the appointment of new Directors. This process includes an evaluation of the candidate's capabilities by taking into consideration diversity of skills, experience, background, age and other relevant factors and how the candidate fits into the overall desired competency matrix of the Board. The Nominating Committee may recourse to both internal as well as external sources to draw up a list of potential candidates. Short-listed candidates would be required to furnish their curriculum vitae stating in detail their qualifications, working experience, employment history, in addition to completing certain prescribed forms to enable the Nominating Committee to assess the candidate's independence status.

In evaluating a Director's competencies, commitment, contribution and performance for the purpose of re-election, the Nominating Committee takes into consideration a variety of factors such as attendance, preparedness, participation and candour.

CORPORATE GOVERNANCE REPORT

At each Annual General Meeting (“AGM”) of the Company, not less than one third of the Directors for the time being (being those who have been longest in office since their last re-election) are required to retire from office by rotation. A retiring Director is eligible for re-election by the shareholders of the Company at the AGM. Also, all newly appointed Directors during the year will hold office only until the next AGM and will be eligible for re-election.

Key information on the Directors is set out on pages 12 and 13 of this Annual Report.

The Nominating Committee has reviewed each Director’s outside directorships, their principal commitments and attendance and contribution to the Board. The Nominating Committee is satisfied that all Directors have carried out their duties adequately, contributing to the effectiveness of the Board and Board Committees. The Directors had demonstrated their commitment to the Company and availability to attend to the affairs of the Company, both at formal meetings and informally. The Nominating Committee therefore does not recommend setting a limit on the number of listed company board representations that a Director may hold.

The Board does not encourage the appointment of Alternate Directors. No Alternate Director is currently being appointed to the Board.

Board Performance

(Principle 5)

The Board has implemented a process in consultation with the Nominating Committee, for assessing the effectiveness of the Board, its Board Committees and Directors’ contribution to the effectiveness of the Board on an annual basis. To provide feedback to aid in this assessment, each Director is required to complete a questionnaire. The evaluation considers factors such as the size and composition of the Board, Board processes and accountability, Board and Board Committees’ development and effectiveness, information management, decision-making processes, risk and crisis management, communication with Senior Management and shareholders. The evaluation and feedback are then consolidated and presented to the Board for discussion on areas of strengths and weaknesses to improve the effectiveness of the Board and its Committees. The Chairman would act on the results of the performance evaluation, and in consultation with the Nominating Committee, propose where appropriate, new members to be appointed to the Board or seek the resignation of Directors in order to enhance the effectiveness of the Board and its Committees. No external facilitator has been used for the purpose of Board assessment in FY 2017. The Nominating Committee periodically reviews and improves the Board Evaluation Questionnaire as necessary. The Nominating Committee has decided for the time being that in view of the background, experience and expertise of each Director, it would not be necessary to assess the individual performance of each Director.

For the long-term success and value creation of the Company, the Board believes that its performance and that of individual Board members is reflected in, and evidenced by proper guidance, diligent oversight and able leadership of the Company, and the support that it lends to Management in steering the Company to achieve strategic goals. Having regard to its composition and mix, the Board has endeavoured through each Director’s contributions and diversity of experience, to ensure that balanced and well-considered decisions are made in the best interests of the Company.

Access to Information

(Principle 6)

The Directors are provided with Board papers and related materials, background or explanatory information in advance of each Board Meeting to enable them to be properly informed of matters to be discussed and/or approved, as well as ongoing reports relating to operational and financial performance of the Group. The Board has separate and independent access to Senior Management and the Company Secretary at all times. The Company Secretary also assists the Chairman by ensuring good information flows within the Board and its Committees, and between Senior Management and the Non-Executive Directors. The Company Secretary attends and prepares minutes for all Board and Board Committee Meetings, and ensures that Board procedures are followed and that applicable rules and regulations are complied with. Under the Constitution of the Company, the decision to appoint or remove the Company Secretary can only be taken by the Board as a whole.

CORPORATE GOVERNANCE REPORT

Directors, either individually or as a group, in the furtherance of their duties can take independent professional advice, if necessary, at the Company's expense.

REMUNERATION MATTERS

(Principles 7, 8 and 9)

At the date of this Report, the Remuneration Committee comprises Mr Lo Pang Foo Steven (Committee Chairman), Mr Loh Kee Kong, Mr Ho Soo Ching and Mr Peter Tan (who was appointed to the Remuneration Committee on 24 February 2017), all of whom are Non-Executive Directors and the majority of whom, including the Chairman, are Independent Directors.

The duties of the Remuneration Committee include the following:

- (a) Reviewing and recommending to the Board for endorsement, a general framework of remuneration for the Board and key management personnel. The framework covers all aspect of remuneration, including but not limited to director's fees, salaries, allowances, bonuses and benefits in kind;
- (b) Reviewing and recommending to the Board for endorsement, the specific remuneration packages for each Director, as well as for the key management personnel; and
- (c) Reviewing the level and mix of remuneration and benefits, policies and practices of the Company.

The role and functions of the Remuneration Committee are set out in its Terms of Reference, which set out its authorities and duties.

If required, the Remuneration Committee will seek expert advice inside or outside the Company on remuneration of all Directors and key management personnel.

The Remuneration Committee reviews the terms of the contracts of the Executive Directors and key management personnel to ensure that the terms are fair and reasonable and termination clauses are not overly generous.

The objective of the Group's remuneration policy is to ensure that the level and structure of the remuneration are aligned with the long-term interest and risk policies of the Company, and that the remuneration is able to attract, retain and motivate the Board to provide good stewardship of the Company and key management personnel to successfully manage the Company and Group as a whole.

The remuneration packages of the key management personnel of the Group generally comprise two components. One component is fixed in the form of a base salary. The other component is variable consisting of performance bonus. The variable portion is largely dependent on the financial performance of the Group and individual performance. The Remuneration Committee strongly supports and endorses the flexible wage system because it gives the Company more flexibility to ride through economic downturns. The Remuneration Committee has adopted set profitability levels to be achieved before performance bonuses are payable. The Remuneration Committee believes that profitability levels best reflect the financial health and performance of the Group's business and is also a key performance measure used by other companies in similar industry.

Presently, the Company does not have any share option or other share incentive schemes for its employees. The Remuneration Committee will review and recommend the implementation of a scheme if it deems necessary.

For FY 2017, there were no termination, retirement and post-employment benefits granted to Directors, the Chief Executive Officer and the top five key management personnel (who are not Directors or the Chief Executive Officer).

Non-Executive Directors are paid a fixed fee, taking into account the effort, time spent and responsibilities of each Non-Executive Director. Non-Executive Directors are not overly compensated to the extent that their independence may be compromised. The fees of Non-Executive Directors are subject to shareholders' approval at the AGM. The Company does not have a retirement remuneration plan for Non-Executive Directors. Executive Directors do not receive any Directors' fees. No individual Director fixes his own remuneration.

CORPORATE GOVERNANCE REPORT

Having reviewed and considered the variable components of remuneration of the Executive Directors and key management personnel, which are moderate, the Remuneration Committee is of the view that there is no requirement to institute contractual provisions in the terms of employment to reclaim incentive components of their remuneration in exceptional circumstances of misstatement of financial results or of misconduct resulting in financial loss to the Company.

A breakdown (in percentage terms) of the Directors' and the Chief Executive Officer's remuneration and the remuneration mix is disclosed in bands of USD180,000. In FY 2017, the top five key management personnel in the Group (who are not Directors or the Chief Executive Officer of the Company) are Mr Thomas Muljadi Handojo, Mr Chan Jin Hou, Dominic, Mr Eldon Wan, Mr Tan Quee Lim and Ms Liew Mei Hong. The percentage breakdown of the base and variable components for each individual is as set out on page 27 of this Annual Report. In disclosing the remuneration of the top five key management personnel in bands, the Company provides a macro perspective without compromising the Group's business interests and minimises the highly competitive pressures which would arise from more detailed disclosures. The Board is also of the view that it is in the best interests of the Company not to fully disclose the remuneration of each Director, the Chief Executive Officer and the aggregate total remuneration paid to the top five key management personnel (who are not Directors or the Chief Executive Officer), given the sensitive nature of employee remuneration matters and possible pressures from both within and outside the Group upon disclosing such information.

Excluding the two Executive Directors, there was no employees of the Company and its subsidiaries who was an immediate family member of a Director or the Chief Executive Officer and whose remuneration exceeded USD36,000 during FY 2017.

ACCOUNTABILITY AND AUDIT

Accountability

(Principle 10)

The Board through its timely release of the Company's quarterly and full year results, aims to provide shareholders with a balanced and understandable assessment of the Company's and the Group's performance, position and prospects. The Board also ensures timely and full disclosure of material corporate developments to shareholders.

The Board has taken adequate steps to ensure compliance with legislative and regulatory requirements including the listing rules of the SGX-ST.

PCI recognises the importance of providing the Board with a continual flow of relevant information on an accurate and timely basis in order that it may effectively discharge its duties. Management provides the Board with management accounts on a regular basis and as the Board may require from time to time to enable the Board to make a balanced and informed assessment of the Company's performance, position and prospects.

Risk Management and Internal Controls

(Principle 11)

The Board has overall responsibility for the governance of the Group's risk management and internal controls. The Board and Management of the Company are fully committed to maintaining sound risk management and internal control systems to safeguard shareholders' interests and the Group's assets.

The Board determines the Company's levels of risk tolerance and risk policies, and oversees Management in the design, implementation and monitoring of the risk management and internal control systems.

The Company has implemented a Risk Management Framework for the identification, assessment, monitoring and reporting of financial, operational, information technology and compliance risks. A system of risk management and internal controls are in place to address, manage or mitigate these risks.

CORPORATE GOVERNANCE REPORT

On an annual basis, the Group internal audit function prepares an audit plan taking into consideration risks identified and assessed from the risk management system. This risk-based audit plan is approved by the Audit Committee and audits are conducted to assess the adequacy and effectiveness of the Group's system of internal controls in addressing financial, operational, compliance and information technology risks. In addition, material control weaknesses over financial reporting, if any, are highlighted by the external auditor in the course of the statutory audit.

All audit findings and recommendations made by the internal and external auditors are reported to the Audit Committee and significant findings are discussed at the Audit Committee meetings. Management follows up on all recommendations to ensure timely remediation of audit issues and reports the status to the Audit Committee.

The Board has received assurance from the Chief Executive Officer and the Chief Financial Officer that:

- (a) The financial records of the Group have been properly maintained and the financial statements for the year ended 30 June 2017 give a true and fair view of the Group's operations and finances; and
- (b) The system of risk management and internal controls in place within the Group is adequate and effective in addressing the material risks in the Group in its current business environment including material financial, operational, compliance and information technology risks.

Based on the risk management and internal controls established and maintained by the Group, work performed by the internal and external auditors, and reviews performed by Management and the Board Committees as well as the assurance received from the Chief Executive Officer and the Chief Financial Officer, the Board, with the concurrence of the Audit Committee, is of the opinion that the Group's risk management systems and internal controls were adequate and effective as at 30 June 2017 to address financial, operational, compliance and information technology risks, which the Group considers relevant and material to its operations.

The Board notes that the system of risk management and internal controls established by the Group provides reasonable, but not absolute, assurance that the Group will not be adversely affected by any event that can be reasonably foreseen as it strives to achieve its business objectives. In this regard, the Board also notes that no system of risk management and internal controls can provide absolute assurance against the occurrence of material errors, poor judgement in decision-making, human error, losses, fraud or other irregularities.

Audit Committee

(Principle 12)

The Audit Committee comprises Mr Ho Soo Ching (Committee Chairman), Mr Loh Kee Kong, Mr Lo Pang Foo Steven and Mr Peter Tan (who was appointed to the Audit Committee on 24 February 2017), all of whom are Non-Executive, and the majority of whom, including the Chairman, are Independent Directors. Mr Ho Soo Ching, Mr Loh Kee Kong and Mr Peter Tan have accounting or related financial management expertise and experience. The Board considers Mr Lo Pang Foo Steven as having sufficient financial knowledge and experience to discharge his responsibility as a member of the Committee.

The role of the Audit Committee is documented in its Terms of Reference, which define the purpose, authority and responsibilities of the Audit Committee.

The Audit Committee has full access to and co-operation of Management. The Audit Committee also has full discretion to invite any Director or executive officer to attend its meetings, and has been given adequate resources to discharge its functions. The Audit Committee meets with the internal and external auditors without the presence of Management annually.

CORPORATE GOVERNANCE REPORT

The Audit Committee held four meetings during FY 2017. During FY 2017, the Audit Committee performed its functions and responsibilities, which include the following:

- (a) reviewing the significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any announcements relating to the Company's financial performance;
- (b) reviewing and reporting to the Board at least annually the adequacy and effectiveness of the Company's internal controls (including material financial, operational, compliance and information technology controls) and risk management system;
- (c) reviewing the effectiveness of the Company's internal audit function;
- (d) reviewing the scope and results of the external audit, independence and objectivity of the external auditor;
- (e) making recommendations to the Board on the proposals to the shareholders relating to the appointment, re-appointment and removal of the external auditor, and approving the remuneration and terms of engagement of the external auditor;
- (f) reviewing and approving processes to regulate interested person transactions and to ensure compliance with the applicable regulations; and
- (g) reviewing arrangements by which staff of the Company and any other persons may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters, with a view to ensuring that arrangements are in place for the independent investigation of such matters and for appropriate follow-up action.

The Audit Committee has discussed the key audit matters for FY 2017 with Management and the external auditor. The Audit Committee concurs with the basis and conclusions included in the auditor's report with respect to the key audit matters.

For more information on the key audit matters, please refer to pages 37 and 38 of this Annual Report.

There were no non-audit services provided by the external auditor to the Group in FY 2017. Accordingly, no non-audit fees were paid to the external auditor in FY 2017. This is set out in the notes to the financial statements, together with the amount of fees paid to the external auditor in FY 2017 in respect of audit services. As such, the Audit Committee was satisfied with the independence and objectivity of the external auditor.

Some of the Company's subsidiaries are audited by different audit firms. The names of these audit firms are listed on page 83 of the Annual Report. The Board and the Audit Committee are satisfied that the appointment of these auditors would not compromise the standard and effectiveness of the audit of the Group. Accordingly, the Board confirms that Rule 712 and Rule 715 read with Rule 716 of the SGX-ST Listing Manual have been complied with.

The Audit Committee has nominated Ernst & Young LLP for re-appointment as auditor of the Company at the forthcoming Annual General Meeting.

Changes to accounting standards and accounting issues which have a direct impact on the financial statements were reported to the Audit Committee, and highlighted by the external auditor in their meetings with the Audit Committee.

None of the Audit Committee members was a former partner of the Company's existing external auditor, Ernst and Young LLP, within the previous 12 months or has any financial interest in the firm.

CORPORATE GOVERNANCE REPORT

Notes:

- ⁽¹⁾ Mr Peh Kwee Chim is the Executive Chairman and a substantial shareholder of the Company. He has a deemed interest of 51.52% and a direct interest of 2.09% in the issued shares in Chuan Hup Holdings Limited. Mr Peh Siong Woon Terence is the Executive Vice Chairman and a substantial shareholder of the Company. He has a deemed interest of 51.52% in the issued shares in Chuan Hup Holdings Limited.
- ⁽²⁾ ET Designers Pte Ltd is controlled by Mr Peh Lawrence Teck-Woon, who is the son of Mr Peh Kwee Chim and the brother of Mr Peh Siong Woon Terence.

Whistleblowing Policy

The Company has implemented a whistleblowing policy, which serves to encourage and provide a channel to staff of the Company and any other persons to report in good faith and in confidence, without fear of reprisals, concerns about possible wrongdoing or breach of applicable laws, regulations, policies or other matters. The objectives for such arrangement is to ensure independent investigation of such matters and for appropriate follow-up action. Reports can be made by mail to PCI Limited at 35 Pioneer Road North, Singapore 628475 and addressed to the Chairman of the Audit Committee.

Internal Audit

(Principle 13)

The internal audit function of the Company is performed by the internal audit staff of its holding company (the “Internal Auditor”).

The Internal Auditor’s primary line of reporting is to the Chairman of the Audit Committee. The Audit Committee meets the Internal Auditor at least once annually without the presence of Management. The Internal Auditor has unfettered access to the Audit Committee, the Board and Management as well as the Group’s documents, records, properties and personnel.

CORPORATE GOVERNANCE REPORT

The Internal Auditor has relevant qualifications and experience. The Internal Auditor carries out its function according to the standards set by nationally recognised professional bodies.

During the financial year, the Internal Auditor conducted its audit review based on the internal audit plan approved by the Audit Committee. The Internal Auditor submitted its internal audit report to the Audit Committee on audit findings and actions taken by Management on the findings.

For the FY 2017, the Audit Committee was satisfied that the internal audit function was adequately resourced and had appropriate standing within the Group and cooperation of the Management to carry out its duties effectively.

SHAREHOLDERS RIGHTS AND RESPONSIBILITIES

Shareholder Rights, Communication with Shareholders and Conduct of Shareholder Meetings

(Principles 14, 15 and 16)

The Company is committed to treating all shareholders fairly and equitably. The Company recognises, protects and facilitates the exercise of shareholders' rights and continually review and updates such governance arrangements. The Company is committed to providing shareholders with timely, adequate and relevant information pertaining to changes in the Company or its business which would be likely to materially affect the price or value of the Company's shares to enable shareholders to make informed decisions in respect of their investments in the Company. It does not practise selective disclosure of price-sensitive information.

The Company strongly encourages and supports shareholder participation at general meetings. Shareholders are informed of general meetings through published notices in the annual reports or circulars sent to all shareholders. The notice of general meeting, which sets out all items of business to be transacted at the general meeting, is also released via SGXNET and published in The Business Times. Shareholders are informed of the rules, including voting procedures, that govern general meetings of shareholders.

A shareholder who is entitled to attend and vote may either vote in person or in absentia through the appointment of one or more proxies (who can either be named individuals nominated by the shareholder to attend the meeting or the Chairman of the meeting as the shareholder may select). The Company's Constitution allows a shareholder of the Company to appoint up to two proxies to attend and vote in place of the shareholder. Pursuant to the introduction of the multiple proxies regime under the Singapore Companies (Amendment) Act 2014, indirect investors who hold PCI shares through a nominee company or custodian bank or through a CPF agent bank may attend and vote at the general meetings.

In line with the continuous disclosure obligations of the Group, the Board's policy is that shareholders be informed promptly of all major developments that impact the Company and its subsidiaries. The Company communicates information to shareholders and the investing community through timely release of announcements to the SGX-ST via SGXNET. Such announcements include the quarterly and full year results, material transactions, and other developments relating to the Group requiring disclosure under the corporate disclosure policy of the SGX-ST. The Company also maintains a website at www.pcltd.com.sg where the public can access information on the Group including the announcements made to SGX-ST. Enquiries from investors, shareholders and analysts are handled by specifically designated members of Senior Management in lieu of a dedicated investor relations team. Should an inadvertent disclosure be made to a select group, the Company will make the same disclosure publicly as promptly as possible.

The Company's main forum for dialogue and interaction with shareholders takes place at its Annual General Meeting, where the members of the Board, the Chairman of each Board Committee, Senior Management and the external auditor are in attendance. At the Annual General Meeting, shareholders are given the opportunity to air their views and ask questions regarding the Company.

CORPORATE GOVERNANCE REPORT

The Company's policy on the payment of dividends (excluding special dividends) is to endeavour – barring unforeseen circumstances – to pay up to fifty percent (50%) of net profit after tax. In considering the level of dividend payments, the Board takes into account various factors including the level of available cash, the return on equity and retained earnings and projected level of capital expenditure and other investment plans.

The Board ensures that there are separate resolutions at general meetings on each substantially separate issue to safeguard shareholder interests and rights. The Company does not “bundle” resolutions, unless the resolutions are interdependent and linked so as to form one significant proposal. The external auditor is also present to address shareholders' queries on the conduct of audit and the preparation and content of the auditor's report.

The Company prepares minutes of general meetings, that include substantial and relevant comments or queries from shareholders relating to the agendas of the meeting and responses from the Board and Management. These minutes are available to shareholders upon their request.

To ensure transparency in the voting process and better reflect shareholders' interests, the Company puts all resolutions at general meetings to vote by electronic poll voting. An independent scrutineer is also appointed to count and validate the votes cast at the meetings. Detailed results showing the number of votes cast for and against each resolution and the respective percentage will be displayed live-on-screen to shareholders/proxies immediately after each poll conducted. The polling results are also announced on the SGX-ST and the Company's website. However, as the authentication of shareholders identity and other related security and integrity of the information still remain a concern, PCI has decided for the time being, not to implement voting in absentia by e-mail or fax.

Dealings in Securities

The Group has clear internal guidelines for dealings in securities by Directors and employees. PCI's Directors and employees are prohibited from dealing in PCI's shares for the period of two weeks prior to the announcement of quarterly results and a period of one month prior to the announcement of year-end results. In addition, Directors and employees are prohibited from dealing in PCI's shares on short-term considerations and/or while in possession of unpublished material price-sensitive information relating to PCI shares.

The directors' interests as at 21 July 2017 were the same as those at the end of the financial year.

Except as disclosed in this report, no director who held office at the end of the financial year had interests in shares of the Company, or of related corporations, either at the beginning of the financial year, or date of appointment if later, or at the end of the financial year.

Directors' contractual benefits

Except as disclosed in the financial statements, since the end of the previous financial year, no director of the Company has received or become entitled to receive a benefit, by reason of a contract made by the Company or a related corporation with the director, or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest. Certain directors received remuneration from related corporations in their capacities as executives of those related corporations.

DIRECTORS' STATEMENT

Share options

During the financial year, there was:

- (a) no option granted by the Company or any corporation in the Group to any person to take up unissued shares of the Company or any corporation in the Group; and
- (b) no share issued by virtue of the exercise of options to take up unissued shares of the Company or any corporation in the Group.

At the end of the financial year, there was no unissued share of the Company or any corporation in the Group under option.

Audit committee

The Audit Committee comprises the following Non-Executive Directors at the date of this statement:

Ho Soo Ching (Chairman)
Loh Kee Kong
Lo Pang Foo Steven
Peter Tan

All the Audit Committee members, except Mr Loh Kee Kong, are independent.

The Audit Committee carried out its functions in accordance with Section 201B(5) of the Companies Act, Chapter 50 of Singapore and the Singapore Exchange Securities Trading Limited Listing Manual. The functions carried out are detailed in the Corporate Governance Report, which is included in the Company's Annual Report for the financial year ended 30 June 2017 and include a review of the financial statements of the Company and of the Group for the financial year and the independent auditors' report thereon.

There were no non-audit services provided by the firm acting as the auditor to the Group for the financial year ended 30 June 2017. As such, the Audit Committee was satisfied with the independence of the auditor.

The Audit Committee has recommended to the Board that the auditor, Ernst & Young LLP, be nominated for re-appointment at the forthcoming Annual General Meeting of the Company.

Auditor

Ernst & Young LLP have expressed their willingness to accept re-appointment as auditor.

INDEPENDENT AUDITOR'S REPORT

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PCI LIMITED

Report on the audit of the financial statements

Opinion

We have audited the financial statements of PCI Limited (the "Company") and its subsidiaries (collectively, the "Group"), which comprise the balance sheets of the Group and the Company as at 30 June 2017, the statements of changes in equity of the Group and the Company and the consolidated income statement, consolidated statement of comprehensive income and consolidated cash flow statement of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group, the balance sheet and the statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 June 2017 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each of the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled our responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Recoverability of trade receivables

As at 30 June 2017, the Group has trade receivables amounting to US\$38,992,000.

Management exercise judgement in their assessment as to whether trade receivables are recoverable.

These judgements include the evaluation of collection risk and expected future receipts from trade debtors based on historical collection trends, ageing profile of trade receivables as well as management's knowledge of the trade debtor's business and financial condition. As such, we identified this as a key audit matter.

INDEPENDENT AUDITOR'S REPORT

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PCI LIMITED

How our audit addressed the key audit matter

We obtained an understanding of the Group's processes and key controls over the monitoring of outstanding trade receivables.

We considered the ageing profile of trade receivables to identify collection risks. We discussed with management and evaluated their assessment of the recoverability of outstanding trade receivables and the adequacy of allowance for doubtful receivables required based on the ageing profile, receipts from trade debtors subsequent to the financial year end, historical collection trends, and knowledge of the business and financial condition. In particular, we focused on long outstanding trade receivables and trade receivables which are past due but not impaired.

The Group's credit risk management is disclosed in Note 4 to the financial statements and information related to trade receivables is provided in Note 7 to the financial statements.

Allowance for inventories

As at 30 June 2017, the Group has inventories of US\$36,809,000, net of allowance for inventories of US\$1,901,000.

The valuation of inventories and their expected usage are affected by market demand. Management exercise judgement in their assessment as to whether an allowance is required to be set aside for excess, obsolete or slow moving inventories so that they are carried at the lower of cost and net realisable value.

These judgements include the estimation of the future expected usage of raw materials for production taking into account changes in technology and customer demand. As such, we identified this as a key audit matter.

How our audit addressed the key audit matter

We obtained an understanding of the Group's processes and key controls over the valuation of inventories.

We evaluated management's valuation of inventories at the lower of cost and net realisable value by comparing actual selling price to the book value for selected items of raw materials and finished goods.

We considered whether there were obsolete or slow-moving items of inventories identified during our observation of physical inventory counts at the selected key locations.

We considered the ageing profile of inventories. We discussed with management and evaluated their assessment of the valuation of inventories and the adequacy of allowance of inventories based on the ageing profile, usage, sales of inventories subsequent to the financial year end, and knowledge of changes in technology and customer demand.

The key areas of judgement and estimation involved in allowance for inventories are disclosed in Note 3 to the financial statements and information related to inventories is provided in Note 10 to the financial statements.

INDEPENDENT AUDITOR'S REPORT

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PCI LIMITED

Other information

Management is responsible for other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

INDEPENDENT AUDITOR'S REPORT

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PCI LIMITED

Auditor's responsibilities for the audit of the financial statements (cont'd)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Terry Wee Hiang Bing.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.3 Standards issued but not yet effective

The Group has not adopted the following standards and interpretations that have been issued but not yet effective:

Description	<i>Effective for annual periods beginning on or after</i>
Amendments to FRS 7: <i>Disclosure Initiative</i>	1 January 2017
Amendments to FRS 12: <i>Recognition of Deferred Tax Assets for Unrealised Losses</i>	1 January 2017
Improvements to FRSs (December 2016)	
- Amendments to FRS 112: <i>Classifications of the Scope of the Standard</i>	1 January 2017
- Amendments to FRS 28: <i>Measuring an Associate or Joint Venture at fair value</i>	1 January 2018
Amendments to FRS 40: <i>Transfers of Investment Property</i>	1 January 2018
FRS 115: <i>Revenue from Contracts with Customers</i>	1 January 2018
FRS 109: <i>Financial Instruments</i>	1 January 2018
Amendments to FRS 102: <i>Classification and Measurement of Share-based Payment Transactions</i>	1 January 2018
Amendments to FRS 104: <i>Applying FRS 109 Financial Instruments with FRS 104 Insurance Contracts</i>	1 January 2018
INT FRS 122 <i>Foreign Currency Transactions and Advance Consideration</i>	1 January 2018
FRS 116: <i>Leases</i>	1 January 2019
Amendments to FRS 110 & FRS 28 <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Date to be determined

Except for FRS 109 and FRS 115, the directors expect that the adoption of the other standards and interpretations above will have no material impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of FRS 109 and FRS 115 are described below:

FRS 115 Revenue from Contracts with Customers

FRS 115 establishes a five-step model that will apply to revenue arising from contracts with customers. Under FRS 115, revenue is recognised at an amount that reflects the consideration which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in FRS 115 provide a more structured approach to measuring and recognising revenue when the promised goods and services are transferred to the customer i.e. when performance obligations are satisfied.

Key issues for the Company include identifying performance obligations, accounting for contract modifications, applying the constraint to variable consideration, evaluating significant financing components, measuring progress toward satisfaction of a performance obligation, recognising contract cost assets and addressing disclosure requirements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.3 Standards issued but not yet effective (cont'd)

Management is currently reviewing the accounting implications of FRS 115. The new standard will supercede all existing revenue guidance affecting the Group under FRSs and may result changes in revenue and cost recognition model on contracts across the Group. Management is currently assessing the full impact of the application of FRS 115 on the Group's financial statements and it is therefore not practicable to provide a reasonable financial estimate of the effect until the detailed review is completed. Management does not intend to early adopt the standard.

FRS 109 Financial Instruments

FRS 109 introduces new requirements for classification and measurement of financial assets, impairment of financial assets and hedge accounting. Financial assets are classified according to their contractual cash flow characteristics and the business model under which they are held. The impairment requirements in FRS 109 are based on an expected credit loss model and replace the FRS 39 incurred loss model.

Under FRS 109, the Group will be required to measure the investment at fair value. Any difference between the previous carrying amount and the fair value would be recognised in the opening retained earnings when the Group apply FRS 109.

Transition

The Group plans to adopt the new standard on the required effective date without restating prior periods' information and recognises any difference between the previous carrying amount and the carrying amount at the beginning of the annual reporting period at the date of initial application in the opening retained earnings.

2.4 Basis of consolidation and business combinations

(a) *Basis of consolidation*

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting period as the Company. Consistent accounting policies are applied to transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains or losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interests even if that results in a deficit balance.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.4 Basis of consolidation and business combinations (cont'd)

(a) Basis of consolidation (cont'd)

A change in the ownership interest of a subsidiary, without a loss of control is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when controls are lost;
- derecognises the carrying amount of any non-controlling interests;
- derecognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss;
- re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

(b) Business combinations

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in profit or loss.

The Group elects for each individual business combination, whether non-controlling interest in the acquiree (if any), that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation, is recognised on the acquisition date at fair value, or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another FRS.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

2. Summary of significant accounting policies (cont'd)

2.5 *Transactions with non-controlling interests*

Non-controlling interests represents the equity in subsidiaries not attributable, directly or indirectly to owners of the Company.

Changes in the Company owners' ownership interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amount of the controlling and non-controlling interests is adjusted to reflect the changes in their relative interests in its subsidiary. Any differences between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

2.6 *Foreign currencies*

The financial statements are presented in USD, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

(a) *Transactions and balances*

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investments in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation.

(b) *Consolidated financial statements*

For consolidation purpose, the assets and liabilities of foreign operations are translated into USD at the rate of exchange ruling at the end of the reporting period and their profit or loss are translated at the average rate of the reporting period. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

2. Summary of significant accounting policies (cont'd)

2.7 *Property, plant and equipment*

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Leasehold improvements	-	Over the remaining lease term
Plant and equipment	-	3 to 10 years
Motor vehicles	-	5 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

The residual value, estimated useful life and depreciation method are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefit is expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the financial year the asset is derecognised.

2.8 *Prepaid lease payments*

The prepaid lease payment is initially measured at cost. Following initial recognition, prepaid lease payment is measured at cost less accumulated amortisation. The prepaid lease payment is amortised on a straight-line basis over the remaining lease term.

2.9 *Club memberships*

Club membership was acquired separately and is not amortised as its useful life is infinite. The club membership is tested for impairment annually or more frequently if the events and circumstances indicate that the carrying value may be impaired. The useful life of club membership is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from infinite to finite is made on a prospective basis.

2.10 *Subsidiaries*

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.11 *Inventories*

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour costs and those production overheads, where applicable, that have been incurred in bringing the inventories to that present location and condition. Direct material cost is calculated using the moving weighted average method.

Where necessary, allowance is provided for excess, obsolete and slow moving items to adjust the carrying value of inventories to the lower cost and net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.12 *Impairment of non-financial assets*

The Group assesses at the end of each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset in cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written-down to its recoverable amount.

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognised in profit or loss in those expense categories consistent with the function of the impaired asset.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.13 Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial assets depends on their classifications as follows:

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held-for-trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held-for-trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by FRS 39. Derivatives, including separated embedded derivatives are also classified as held-for-trading unless they are designated as effective hedging instruments.

The Group may only designate an instrument at fair value through profit or loss upon initial recognition when the following criteria are met and the designation is determined on an instrument by instrument basis:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis;
- The assets and liabilities are part of a group of financial assets, financial liabilities or both which are managed and their performances evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The financial instrument contains one or more embedded derivatives which significantly modify the cash flows that otherwise would be required by the contract.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial assets are recognised in profit or loss. Net gains or net losses on financial assets at fair value through profit or loss includes exchange differences, interests and dividend income.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.13 Financial assets (cont'd)

Subsequent measurement (cont'd)

(a) Financial assets at fair value through profit or loss (cont'd)

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held-for-trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

(b) Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains or losses are recognised in profit or loss when the loans and receivables are derecognised or impaired and through the amortisation process. The Group and the Company's loans and receivables comprise cash and bank balances, trade receivables, other receivables and amounts due from subsidiaries.

De-recognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gains or losses that have been recognised in other comprehensive income are recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheets, when and only when, there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.14 Impairment of financial assets

The Group assesses at the end of each reporting period whether there are any objective evidence that a financial asset is impaired:

(a) *Financial assets carried at amortised cost*

For financial assets carried at amortised cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amounts of the loss is measured as the differences between the asset's carrying amount and the present values of estimated future cash flows discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The impairment loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial assets is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written-off against the carrying values of the financial assets.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

(b) *Financial assets carried at cost*

If there is objective evidence (such as significant adverse changes in the business environment where the issuer operates, probability of insolvency or significant financial difficulties of the issuer) that an impairment loss on financial assets carried at cost has been incurred, the amount of the loss is measured as the differences between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed in subsequent periods.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.15 *Cash and cash equivalents*

Cash and cash equivalents comprise cash at bank and on hand and deposits with financial institutions which are subject to an insignificant risk of changes in value.

2.16 *Provisions*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognised as a finance cost.

2.17 *Financial liabilities*

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classifications as follows:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition at fair value through profit or loss. Financial liabilities are classified as held-for-trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Separated embedded derivatives are also classified as held-for-trading unless they are designated as effective hedging instruments.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial liabilities are recognised in profit or loss.

The Group has not designated any financial liabilities upon initial recognition at fair value through profit or loss.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.17 *Financial liabilities (cont'd)*

Subsequent measurement (cont'd)

(b) Financial liabilities that are not carried at fair value through profit or loss

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method. Gains or losses are recognised in profit or loss when the liabilities are derecognised and through the amortisation process. The Group and the Company's financial liabilities measured at amortised cost comprise trade and other payables and amounts due to related companies.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability and the differences in the respective carrying amount is recognised in profit or loss.

2.18 *Employee benefits*

(a) *Defined contribution plan*

The Group participates in the national pension schemes as defined by the laws of the countries which it has operations. In particular, the Singapore companies in the Group make contributions to the Central Provident Fund ("CPF") scheme in Singapore, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the financial period in which the related service is performed.

(b) *Employee leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

2. Summary of significant accounting policies (cont'd)

2.19 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, excluding discounts, rebates and sales taxes or duties. The Group has assessed its revenue arrangements to determine if it is acting as principal or agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements. The following specific revenue recognition criteria must also be met before revenue is recognised:

(a) *Sale of goods*

Revenue from sale of goods is recognised upon the transfer of significant risk and rewards of ownership of the goods to the customers usually on delivery of goods. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

(b) *Rendering of services*

Revenue from rendering of services is recognised when service is rendered. Revenue from the design or development of new product is recognised by reference to certain stage of completion at the end of the reporting period.

(c) *Rental income*

Rental income arising from operating leases on leasehold property is accounted for on a straight-line basis over the lease term. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

(d) *Dividend income*

Dividend income from investments is recognised when the Group's right to receive payment is established.

(e) *Interest income*

Interest income from fixed deposits is recognised using the effective interest method.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.20 Taxes

(a) *Current income tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted by the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) *Deferred tax*

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, an associate and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.20 Taxes (cont'd)

(b) *Deferred tax (cont'd)*

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the financial year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(c) *Sales tax*

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred in a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

The net amount of goods and services tax ("GST") and value added tax ("VAT") recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheets.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

2. Summary of significant accounting policies (cont'd)

2.21 *Share capital and share issuance expenses*

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.22 *Leases*

(a) *As lessee*

Finance leases, which transfer to the Group substantially all the risks and rewards incidental to ownership of the leased item are capitalised at the inception of the lease at the fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Any initial direct costs are also added to the amount capitalised. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interests on the remaining balance of the liability. Finance charges are charged to profit or loss. Contingent rents, if any, are charged as expenses in the financial periods in which they are incurred.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

(b) *As lessor*

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The accounting policy for rental income is set out in Note 2.19 to the financial statements. Contingent rents are recognised as revenue in the financial period in which they are earned.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

3. Significant accounting estimates and judgements

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures of contingent liabilities at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Judgements made in applying accounting policies

Management is of the opinion that there are no critical judgements involved that have a significant effect on the amounts recognised in the financial statements (apart from those involving estimations, which are dealt with below).

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) *Recoverability of trade receivables*

In making the estimation, management considered the procedures that have been in place to monitor this risk as a significant proportion of the Group's working capital is devoted to trade receivables. In determining whether allowance for bad and doubtful debts is required, the Group takes into consideration whether there is observable data indicating that there have been significant changes in the debtor's payment ability or whether there have been significant changes with adverse effect in the environment in which the debtor operates in. Specific allowance is only made for receivables that are unlikely to be collected.

3. Significant accounting estimates and judgements (cont'd)

Key sources of estimation uncertainty (cont'd)

(b) *Allowance for inventories*

The Group and the Company review its inventory levels in order to identify excess, obsolete and slow moving inventories. Where the Group and the Company identify items of inventory that had net realisable value that is lower than its carrying amount, the Group and the Company estimate the amounts of inventory loss as allowance of inventory. Management is satisfied that adequate allowance for excess, obsolete and slow moving inventory has been made in the financial statements. The carrying amounts of inventories as at financial year end are disclosed in Note 10 to the financial statements.

(c) *Income taxes*

Significant judgement is involved in determining the Group and the Company's provision for taxation. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognises liabilities for expected tax issues based on the estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax provisions in the financial period in which such determination is made.

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profit will be available against which the losses and capital allowances can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The amount of tax losses carried forward is disclosed in Note 21.

The carrying amount of the Group's income tax payable, deferred tax assets and deferred tax liabilities as at 30 June 2017 was US\$2,819,000, US\$96,000 and US\$765,000 (2016: US\$2,183,000, US\$79,000 and US\$686,000), respectively. The carrying amount of the Company's income tax payable and deferred tax liabilities as at 30 June 2017 was US\$2,468,000 and US\$765,000 (2016: US\$1,735,000 and US\$686,000), respectively.

(b) *Financial risk management policies and objectives*

Risk management is integral to the whole business of the Group and the Company. The management continually monitors the Group's and the Company's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Group's and the Company's activities.

There has been no change to the Group's and the Company's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures were measured using sensitivity analysis indicated below:

(i) *Credit risk*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group and the Company. The Group's and the Company's exposure to credit risk arises primarily from trade receivables and other receivables. The Group and the Company have adopted a policy of only dealing with recognised and creditworthy counterparties. Trade receivables consist of a large number of customers, spread across Asia Pacific, Europe and North America.

The Group and the Company perform ongoing credit evaluations of its customers' financial conditions and generally does not require collateral. This evaluation includes assessing and valuation of customers' credit reliability and periodic review of their financial status to determine credit limits to be granted.

The Group and the Company do not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

The carrying amount of financial assets recorded in the financial statements, represents the Group's and the Company's maximum exposure to credit risk without taking account the value of any collateral obtained.

Further details of credit risks on trade receivables and other receivables are disclosed in Notes 7 and 8, respectively to the financial statements.

Cash at banks and fixed deposits are held with creditworthy financial institutions.

4. Financial instruments, financial risk and capital management (cont'd)

(b) *Financial risk management policies and objectives (cont'd)*

(ii) *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates. Summary quantitative data of the Group's and the Company's interest bearing financial instruments can be found in Section b(iv) of this note.

There is no sensitivity analysis prepared as the Group and the Company do not expect any material effect on the Group's and the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

(iii) *Foreign currency risk*

Foreign currency risk arises from commercial transactions, recognised assets and liabilities and net investments in foreign operations where the commercial transaction or recognised assets and liabilities are denominated in a currency other than the respective functional currencies of Group entities and the Company. The Group and the Company have transactional currency exposures arising from sales or purchases that are denominated in a currency other than the respective functional currencies of Group entities, primarily USD, Singapore dollars (SGD), Renminbi (RMB) and Indonesian Rupiah (IDR). The foreign currencies in which these transactions are denominated mainly in are USD, SGD, IDR and Euro.

At the end of the reporting period, the material carrying amount of monetary assets and monetary liabilities, including intercompany balances denominated in currencies other than the respective group entities' functional currencies are as follows:

	Group				Company			
	Assets		Liabilities		Assets		Liabilities	
	2017	2016	2017	2016	2017	2016	2017	2016

(b) **Financial risk management policies and objectives (cont'd)**

(iii) *Foreign currency risk (cont'd)*

The Company has a number of investments in foreign subsidiaries, whose net assets are exposed to currency translation risk. The Group does not currently designate its foreign currency denominated debt as a hedging instrument for the purpose of hedging the translation of its foreign operations.

The following table details the sensitivity to a 5% increase/(decrease) in the relevant functional currencies against the foreign currency of each group entity. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items (excluding derivative financial instruments) and adjusts their translations at the period end for a 5% change in foreign currency rates. The sensitivity analysis includes loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower.

If the relevant functional currency of each group entity weakens by 5% against the foreign currencies, profit before tax for the financial year will increase/(decrease) by:

	Singapore dollars impact		United States dollars impact	
	2017	2016	2017	2016
	US\$'000	US\$'000	US\$'000	US\$'000
Group				
Profit before tax for the year	(237)	(142)	330	181

A 5% strengthening of the relevant foreign currency against the functional currency of each group entity would have resulted in an equal but opposite effect on the financial statements of the Group and the Company, on the basis that all other variables remain constant.

(b) *Financial risk management policies and objectives (cont'd)*

(iv) *Liquidity risk*

Liquidity risk refers to the risk in which the Group and the Company are unable to meet its short-term obligations and this arises from the possibility that customers may not be able to settle their obligations within the normal terms of trade. Liquidity risk is managed by matching the payment and receipt cycle. Management is of the opinion that liquidity risk is minimal as the Group and the Company have sufficient funds generated through operations to meet funding requirements and adequate lines of credit are also maintained to ensure the necessary liquidity.

Liquidity risk analysis

Non-derivative financial liabilities

All financial liabilities of the Group and the Company are repayable on demand or due within one year.

Non-derivative financial assets

The following table details the expected maturity for non-derivative financial assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's and the Company's liquidity risk management as the Group's and the Company's liquidity risk is managed on a net asset and liability basis. The tables below have been drawn up based on the undiscounted contractual maturities of the financial assets including interests that will be earned on those assets:

Group	Weighted average effective interest rate	On demand or within 1 year

(v) *Fair value of financial assets and financial liabilities*

The carrying amount of cash and bank balances, trade and other receivables and payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1	-	Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
Level 2	-	Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly; and
Level 3	-	Unobservable inputs for the asset or liability.

There have been no transfers of fair value instruments between levels during the financial years ended 30 June 2017 and 2016.

4. Financial instruments, financial risk and capital management (cont'd)

(c) *Capital management*

The primary objective of the Group's capital management is to maintain an optimal capital structure to maximise shareholders' value and to support business growth, taking into consideration underlying business risks.

The Group manages its capital through regular reviews to ensure business returns commensurate with the level of risks and adjustments to capital allocations are made in light of changes in economic conditions. No changes were made in the Group's objectives and policies during the financial years ended 30 June 2017 and 2016.

5. Related party transactions

Related companies in these financial statements refer to members of the holding company's group of companies. Some of the Company's transactions and arrangements were between members of the Group and the effect of these, on the basis determined between the parties, is reflected in these financial statements.

Fixed deposits	26,348	20,726	26,348	20,419
	39,929	27,916	34,905	23,928

Cash and bank balances comprise cash held by the Group and the Company and short-term fixed deposits with an original maturity of six months or less. The carrying amount of these assets approximates their fair value.

Fixed deposits held during the financial year earned interest at rates ranging from 0.17% to 5.60% (2016: 0.07% to 10.65%) per annum.

The Group and the Company's cash and bank balances that were not denominated in the functional currencies of the respective entities are as follows:

	Group		Company

Trade receivables	38,992	39,026	37,042	36,718

The average credit period on sale of goods was 67 days (2016: 72 days). They were recognised at their original invoice amounts which represent their fair values at initial recognition.

Before accepting any new customers, the Group will assess the potential customers' credit quality. Credit limits are monitored periodically by management.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

7. Trade receivables (cont'd)

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated.

The table below is an analysis of trade receivables as at 30 June:

	Group		Company	
	2017 US\$'000	2016 US\$'000	2017 US\$'000	2016 US\$'000
Not past due and not impaired	35,367	35,110	33,446	33,233
Past due but not impaired:				
- Less than 3 months	3,625	3,678	3,596	3,324

	<u>38,992</u>	<u>39,026</u>	<u>37,042</u>	<u>36,718</u>

No provision was made to the above receivables that were past due but not impaired as there has not been a significant change in credit quality and the amounts were still considered recoverable.

The Group and the Company's trade receivables that were not denominated in the functional currencies of the respective entities are as follows:

- | | | |
|----|--|-----------------------|
| 8. | To consider, and if thought fit, to pass the following resolution as an Ordinary Resolution: | Ordinary Resolution 8 |
|----|--|-----------------------|

That pursuant to Section 161 of the Companies Act, Chapter 50 of Singapore, authority be and is hereby given to the Directors of the Company to:

- | | | |
|-----|------|--|
| (a) | (i) | issue shares in the capital of the Company (“shares”) whether by way of rights, bonus or otherwise; and/or |
| | (ii) | make or grant offers, agreements or options (collectively, “Instruments”) that might or would require shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into shares, |

at any time and upon such terms and conditions and for such purposes and to such persons as the Directors may in their absolute discretion deem fit; and

- (b) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue shares in pursuance of any Instrument made or granted by the Directors while this Resolution was in force,

provided that:

- (1) the aggregate number of shares to be issued pursuant to this Resolution (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 50 per cent. of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below), of which the aggregate number of shares to be issued other than on a pro rata basis to shareholders of the Company (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 20 per cent. of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below);

- (2) (subject to such manner of calculation as may be prescribed by the Singapore Exchange Securities Trading Limited (the "SGX-ST")) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (1) above, the percentage of issued shares shall be based on total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company at the time this Resolution is passed, after adjusting for:

- (i) new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which are outstanding or subsisting at the time this Resolution is passed; and
- (ii) any subsequent bonus issue or consolidation or subdivision of shares,

and, in sub-paragraph (1) above and this sub-paragraph (2), "subsidiary holdings" has the meaning given to it in the Listing Manual of the SGX-ST;

- (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Constitution for the time being of the Company; and
- (4) (unless revoked or varied by the Company in General Meeting) the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier.

- 9. To transact such other business which can be transacted at the Annual General Meeting of the Company.

Ordinary Resolution 9

NOTICE OF ANNUAL GENERAL MEETING AND CLOSURE OF BOOKS

NOTICE IS ALSO HEREBY GIVEN that, subject to the approval of shareholders to the final and final special dividends being obtained at the Twenty-Eighth Annual General Meeting to be held on 19 October 2017, the Transfer Books and the Register of Members of the Company will be closed on 3 November 2017 for the preparation of dividend warrants.

Notes:

1. Please insert the total number of Shares held by you. If you only have Shares entered against your name in the Depository Register (as defined in Part IIIAA of the Securities and Futures Act, Chapter 289 of Singapore), you should insert that number of Shares. If you only have Shares registered in your name in the Register of Members, you should insert that number of Shares. If you have Shares entered against your name in the Depository Register as well as Shares registered in your name in the Register of Members, you should insert the aggregate number of Shares entered against your name in the Depository Register and registered in your name in the Register of Members. If no number is inserted, the proxy form shall be deemed to relate to all the Shares held by you (in both the Register of Members and the Depository Register).
2. (a) A member of the Company entitled to attend and vote at a meeting of the Company, and who is not a Relevant Intermediary, is entitled to appoint one or two proxies to attend and vote instead of him. A proxy need not be a member of the Company. Where a member of the Company appoints two proxies, the proportion of the shareholding concerned to be represented by each proxy shall be specified in the proxy form. If no percentage is specified, the first named proxy shall be deemed to represent 100 per cent. of the shareholding and the second named proxy shall be deemed to be an alternate to the first named proxy.
(b) A member of the Company who is a Relevant Intermediary is entitled to appoint more than two proxies to attend and vote at a meeting of the Company, but each proxy must be appointed to exercise the rights attached to a different Share or Shares held by such member. Where more than one proxy is appointed, the number and class of Shares in relation to which each proxy has been appointed shall be specified in the proxy form. In relation to a Relevant Intermediary who wishes to appoint more than two proxies, it should annex to the proxy form the list of proxies, setting out, in respect of each proxy, the name, address, NRIC/Passport Number and proportion of shareholding (number of Shares, class of Shares and percentage) in relation to which the proxy has been appointed. For the avoidance of doubt, an Agent Bank/SRS Operator who intends to appoint CPF/SRS investors as its proxies shall comply with this Note.
(c) "Relevant Intermediary" has the meaning ascribed to it in Section 181 of the Companies Act, Chapter 50 of Singapore.
3. Completion and return of the proxy form shall not preclude a member from attending and voting at the meeting. Any appointment of a proxy or proxies will be revoked if a member attends the meeting in person, and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the proxy form, to the meeting.
4. The proxy form must be deposited at the registered office of the Company at 35 Pioneer Road North, Singapore 628475 not less than 72 hours before the time appointed for the Annual General Meeting.
5. The proxy form appointing a proxy or proxies must be under the hand of the appointor or of his attorney duly authorised in writing. Where the proxy form is executed by a corporation, it must be executed either under its seal or under the hand of an officer or attorney duly authorised. Where a proxy form is signed on behalf of the appointor by an attorney, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the proxy form, failing which the proxy form may be treated as invalid.
6. A corporation which is a member of the Company may authorise, by resolution of its directors or other governing body, such person as it thinks fit to act as its representative at the Annual General Meeting, in accordance with Section 179 of the Companies Act, Chapter 50 of Singapore.
7. The Company shall be entitled to reject the proxy form appointing a proxy or proxies if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the proxy form. In addition, in the case of members of the Company whose Shares are entered against their names in the Depository Register, the Company may reject any proxy form lodged if such members are not shown to have Shares entered against their names in the Depository Register as at 72 hours before the time appointed for holding the Annual General Meeting as certified by The Central Depository (Pte) Limited to the Company.
