Collaboration with Alpha Investment Partners on US\$500 million data centre fund

Keppel Telecommunications & Transportation Limited (Keppel T&T) is pleased to announce a collaboration between Keppel Data Centres Holding Pte Ltd (KDCH), a 70-30 joint venture between Keppel T&T and Keppel Land Limited, and Alpha Investment Partners Limited on a US\$500 million data centre fund – Alpha Data Centre Fund, which was launched by Alpha Investment Partners Limited to capture investment opportunities riding on the growth in demand for data centres in Asia-Pacific and Europe, driven by increasing data storage needs, compliance and regulatory requirements, cloud adoption and data centre outsourcing.

Leveraging KDCH's strong tenancy network and development and operating expertise, the Alpha Data Centre Fund aims to secure a quality portfolio of greenfield and brownfield assets across key data centre hubs in Asia-Pacific and Europe. KDCH also has plans to inject a seed asset for the Fund. Through this collaboration, KDCH aims to seize more opportunities to grow its pipeline of quality data centres without depending solely on its own balance sheet.

Please refer to the announcement made on 20 July 2016 by Keppel Corporation Limited for more details on Alpha Data Centre Fund.
